Subject: RE: Flint Water Help Today

I now have a little more info on what is needed for the web redesign of the site. They are looking for more of a freshening up of the homepage in general and have asked that I work with you all on it. As you're aware, this site was quickly put together in DEQ and things have been tacked on through the past few weeks. I would like to take a fresh look at the site and re-design based on the content that we now know will be included.

Is there a time this afternoon that I can have a phone conversation with the e-Michigan team? I want to make sure that we put as many resources as necessary to make design this for the long term.

Thanks,
Caleb

Subject: RE: Flint Water Help Today

The Flint Water site is on its own now. The group has been created and admins added are: Christie Christman MSP, Darlene Harris DEQ, Josh Paciorek GOV, Eric Shaw DEQ...
Send me any additional names that need access to the site.
The DEQ Flint Water page remains at http://www.michigan.gov/deq/0,4561,7-135-3313_3675_73946---,00.html but is asks people to visit the new standalone site.
The URL /flintwater goes to the new site.

Anything else, just let us know.

Subject: RE: Flint Water Help Today

All,
We are ready to move all of this to a separate site fro easier updating. Please mention this to the group. It would be seamless and can be done in a matter of minutes. You can see the site at w3.michigan.gov/flintdrinkingwater
The current redirect will be directed to that site and the site name will be changed to /flintwater.
I think this will be a better option than having it inside of DEQ for the time being.
Having it there poses issues with permissions as we are not able to provide limited perms to this content without opening up all of DEQ and having DEQ having perms to all of the Flint Water stuff.
Let me know if you would like this separate site launched.

Anne

All,
I am working at the Joint Information Center in Flint today and I have been tasked with making some improvements to the /flintwater website, with your help, of course. I don't have many details yet, but I do know that they are hoping that we can create a multimedia section where all the photos and video that has been and will be gathered can be posted.

I'm likely to get more information in the next couple hours, but I wanted to get you thinking about our options. Some of the media that we have includes, video and audio PSAs, photos and video from various press events and video tutorials.

I will be in touch soon, but feel free to contact me if you have any questions in the meantime.

Thanks,

Caleb Buhs

I have reviewed the link to the site provided below. I really like the way it looks and I would lean toward working with Michelle for a couple reasons. The first is that I am new in my role and I cannot update or change much on my own yet. Second, I am going to be in Flint covering the event on Friday and not able to make on the fly changes to the page that may pop up. So I would prefer that the DEQ doesn't host the page, as long as we can request/make changes as needed going forward. I can work with Karen to get you all the materials you will need for the initial page setup too. Does that make sense to everyone as a plan for this?

Hi everyone,

Regarding the Flint water website, it seems there might be two separate projects happening at once.

I just spoke with Karen (PIO at DEQ), and she said that Bob Andorfer and Eric Shaw are working on a flint water site.

Our team in the Gov's office asked John Estill and Michelle Stiffler to start on a site, too .

I'm not sure if you four have been working together, but we wanted to make sure moving forward that we are all on the same page.

Josh,

Below is the in-progress shell, with a couple of stock images just for fill and the categories that were initially requested. I have created a 'Flint Water Admin' group and added you to it, so you should be all set with adding content when you're ready.

Just let us know what cosmetic changes you need, and if you would like any special components such as toggle and/or accordion for the FAQ, etc.

Great, John! Thanks.

It should be a relatively small site and it should be kept very basic like the www.mi.gov/Detroitcantwait or www.michigan.gov/highlandparkschools sites.

I can assist with the creation & publishing of the content. Just let me know what you'll need from me, and I'll be in touch later today as I learn more about exactly what they want included on this site.

Thanks again

Josh

HI Josh,

Please work with John Estill and Michelle Stiffler to help get the site created. They are also involved in the launching of the new MDDHS this week so as long as this is going to be a relative small site with not a lot of back and forth changes they should be able to get it done by Friday. Is there someone that can assist with the creation and the publishing of the content so that John and Michelle can focus on getting the graphics and structure of the site built out?

Thanks,

Michelle:

Just checked to make sure that the /flintwater shortcut points to the page that I created for DEQ (and it does) which will go live at 1:30 today, but wondered if we could also have the /FlintWater to point to it as well?

It was my understanding that the capitalization did not matter with the shortcuts, but a quick check shows that is not the case this time. (I probably misunderstood.) The caps version is used in all the printed material from the Gov's Office.

Bob

Bob, Eric;

Back to square one ☺ Let me know what you want to do. We can just kill the new site and give you the marketing URL of /flintwater if you'd like, and point it to an area on DEQ.

Let me know if you'd like copies of the images, as they have already been purchased from istockphoto.com

Subject: RE: New web page

Hi all,

Bob and Eric can both have the authority to edit/post content.

Regarding the location of the page, the Governor's office discussed it and we're comfortable having it on the DEQ page where they originally planned on having it and letting them post/edit content moving forward. The marketing url should still be www.mi.gov/flintwater.

Please let me know if you have any questions.

Thanks Michelle. I have asked the JIC to please coordinate their requests and work through one individual. Is there someone on the eMichigan team that you would like them to contact for changes.

We can talk this through on Friday, if you'd like.

Caleb Buhs

Caleb,

The statement is already there, however I was just looking at it on my phone and the text that was added previously now pushes the 211 section to the right. I will fix ASAP.

Anne or Michelle,
Please add the following statement under the 211 info on the Flint water website.

Flint residents who need crisis counseling can call the Disaster Distress Helpline at 1-800-985-5990

Thanks for your continued help. Let me know if you have any questions.

Caleb,

After a team discussion, we have decided the best course of action is to make available the on-call phone number as the primary contact number 24 hours per day instead of after-hours, along with the emichigan@michigan.gov mailbox.

After the high level of publicity for Flint Water has decreased (as determined by you and/or the JIC), we will resume the standard procedure for monitoring the on-call phone number during after-hours only.

Please provide a primary contact person or persons, including email addresses, from whom we are to receive direction. If anyone other than you will be included, we will 'CC' you on any reply we send regarding Flint Water website requests.

Thanks,

Subject: RE: Flint Water Site Change

Given the high profile of this site, I do want to make sure that we are able to keep it clean and professional looking, and I trust you all most. I know it's not ideal, but would it be possible to have someone from your team serve as the point for change requests, at least for the next few weeks?

I would like to be able to give the JIC a name, or names, to include on all email requests.

Thoughts?

Caleb

Anna,
John and the eMichigan team are working on moving this into the general Michigan.gov portal, which will remove the DEQ header. They will also create a redirect for anyone who may have bookmarked the actual URL and not the marketing URL /flintwater.

Can we talk about the need the to include an icon on every department's homepage? We try to limit the amount of icons that are pushed statewide because it impacts each site's design differently and can, over time, clutter up a site. Would it be acceptable to have strategic departments add this link on their homepage, rather than a blanket push to all sites?

Caleb & John, We want to take the mi.gov/flintwater page from DEQ theme/header to a general Mi.gov theme, but keep it housed in the same place, add some sort of icon on the michigan.gov homepage, and move it to the top. We also need to add an icon/link to all state websites to direct people to the flint water page at mi.gov/flintwater.

Can your team start working on this? Let me know what you need. I can't call as I am at SEOC.

Jordan, can you draft a quick email to PIOs just stating that the page is a resource, it answers a lot of common questions, and it will be added to their webpages? Don't send it yet, just have it ready.

> At SEOC now, and we just discussed it and needs to be on all sites for now, sorry. It is temporary and we feel that even the sites that seem unrelated, such as SOS, are one of the sites people visit the most and thus it is best to include on all of them for now. There is a strong feeling that the info. that most needs to get out re; filters, testing, etc. has not gotten out and has to change ASAP.

Subject: RE: Action item for state websites ASAP

The category ID for Flint Water News is 73999. Josh can add this category association to the governor's press release content to avoid recreating it.
I associated this one so this is for future reference. The same will go for anyone at DEQ who needs a release for Flint to appear on the page.

One more thing- please add PR from yesterday (Gov declaring emergency) to top of the list of releases on that Flint water page. Josh can provide if needed

Subject: Flint Water Help Today

All,
I am working at the Joint Information Center in Flint today and I have been tasked with making some improvements to the /flintwater website, with your help, of course. I don't have many details yet, but I do know that they are hoping that we can create a multimedia section where all the photos and video that has been and will be gathered can be posted.

I'm likely to get more information in the next couple hours, but I wanted to get you thinking about our options. Some of the media that we have includes, video and audio PSAs, photos and video from various press events and video tutorials.

I will be in touch soon, but feel free to contact me if you have any questions in the meantime.

Thanks,

Subject: RE: Flint Water Help Today

All,
We are ready to move all of this to a separate site fro easier updating. Please mention this to the group. It would be seamless and can be done in a matter of minutes. You can see the site at w3.michigan.gov/flintdrinkingwater
The current redirect will be directed to that site and the site name will be changed to /flintwater.
I think this will be a better option than having it inside of DEQ for the time being.
Having it there poses issues with permissions as we are not able to provide limited perms to this content without opening up all of DEQ and having DEQ having perms to all of the Flint Water stuff.
Let me know if you would like this separate site launched.

Anne

Subject: RE: Flint Water Help Today

I now have a little more info on what is needed for the web redesign of the site. They are looking for more of a freshening up of the homepage in general and have asked that I work with you all on it. As you're aware, this site was quickly put together in DEQ and things have been tacked on through the past few weeks. I would like to take a fresh look at the site and re-design based on the content that we now know will be included.

Is there a time this afternoon that I can have a phone conversation with the e-Michigan team? I want to make sure that we put as many resources as necessary to make design this for the long term.

Thanks,
Caleb

Subject: RE: Flint Water Help Today

I now have a little more info on what is needed for the web redesign of the site. They are looking for more of a freshening up of the homepage in general and have asked that I work with you all on it. As you're aware, this site was quickly put together in DEQ and things have been tacked on through the past few weeks. I would like to take a fresh look at the site and re-design based on the content that we now know will be included.

Is there a time this afternoon that I can have a phone conversation with the e-Michigan team? I want to make sure that we put as many resources as necessary to make design this for the long term.

Thanks,

Caleb

Subject: RE: Flint Water Help Today

The Flint Water site is on its own now. The group has been created and admins added are: Christie Christman MSP, Darlene Harris DEQ, Josh Paciorek GOV, Eric Shaw DEQ...

Send me any additional names that need access to the site.

The DEQ Flint Water page remains at http://www.michigan.gov/deq/0,4561,7-135-3313_3675_73946---,00.html but is asks people to visit the new standalone site.

The URL /flintwater goes to the new site.

Anything else, just let us know.

All,

We are ready to move all of this to a separate site fro easier updating. Please mention this to the group. It would be seamless and can be done in a matter of minutes. You can see the site at w3.michigan.gov/flintdrinkingwater

The current redirect will be directed to that site and the site name will be changed to /flintwater.

I think this will be a better option than having it inside of DEQ for the time being.

Having it there poses issues with permissions as we are not able to provide limited perms to this content without opening up all of DEQ and having DEQ having perms to all of the Flint Water stuff.

Let me know if you would like this separate site launched.

All,

I am working at the Joint Information Center in Flint today and I have been tasked with making some improvements to the /flintwater website, with your help, of course. I don't have many details yet, but I do know that they are hoping that we can create a multimedia section where all the photos and video that has been and will be gathered can be posted.

I'm likely to get more information in the next couple hours, but I wanted to get you thinking about our options. Some of the media that we have includes, video and audio PSAs, photos and video from various press events and video tutorials.

I will be in touch soon, but feel free to contact me if you have any questions in the meantime.

Thanks,

Caleb Buhs

Thanks Michelle. I have asked the JIC to please coordinate their requests and work through one individual. Is there someone on the eMichigan team that you would like them to contact for changes.

We can talk this through on Friday, if you'd like.

What time will you be at the SEOC on Saturday? I can't get there any earlier than 10 a.m. It's on Collins Road just north of Dunckel (the exit road off US 127). You'll see a building behind a massive chain link fence. You'll need to go to the north driveway, and push a button to have the guard open the gate, if it's not open already.

Call me to come get you, because the door will be locked: 517-420-2714

Scott,

If you'd rather do it during the weekend (obviously with your supervisor's permission), we'll be working out of the Lansing state emergency operations center Saturday and Sunday.

If tomorrow in Flint works better, we're located at 125 E. Union in Flint -- GPS works well (take 69, go past Hammerberg exit and the next exit is Saginaw Street to downtown Flint. Stay left on the service road and turn left on Saginaw Street. Turn right on Third Street. Turn left on Harrison. The State of Michigan building is on the corner of Harrison and Union. Free parking structure across the street.)

Show the guard your state ID, go to the fifth floor and your state ID should get you through the door right next to the elevators. If not, knock.

Thanks Scott!

<image001.gif>
Ron,
Are you the one who signs-off on website and content? I'm seeing things about this site that I would really like our office to help with. As I mentioned before I would propose an interactive local map that has location markers for the sections, **Get Clean Drinking Water** (currently ***Water Resource Sites***) and **Get a Water Filter** (currently ***Filter Sites***) I would focus on making the site more smart phone friendly with plain language as that is most likely the target device platform.

Our time resources are tight here but we would like to lend a hand - I would like to suggest optimizing the site structure on the fly, however. Is that something that

you would be open to? If I need to come out I'm willing to do so to some extent, but I'm wondering if we can assist from Lansing as well. We have two in our office who could help with the site.

Thanks for your time,

Ron, I know you are a busy guy up there - I'll try to be brief.
I'm looking at the website and seeing things we could optimize such as the Water Resource Sites http://www.michigan.gov/flintwater/0,6092,7-345--366279--,00.html
We could build a Google interactive local map based on the text based address info we have posted now. That enables smartphone users to quickly click on the Fire Station of their choice to find exact directions to that site. Just one thought.

Also see below, please.

> > Are you the one who signs-off on website and content? I'm seeing things about this site that I would really like our office to help with. As I mentioned before I would propose an interactive local map that has location markers for the sections, **Get Clean Drinking Water** (currently ***Water Resource Sites***) and **Get a Water Filter** (currently ***Filter Sites***) I would focus on making the site

more smart phone friendly with plain language as that is most likely the target device platform.

Our time resources are tight here but we would like to lend a hand - I would like to suggest optimizing the site structure on the fly, however. Is that something that you would be open to? If I need to come out I'm willing to do so to some extent, but I'm wondering if we can assist from Lansing as well. We have two in our office who could help with the site.

Thanks for your time,

Hi Scott,

We have a Web/social media spot open next week from Jan. 25-28. Should we put your down for one of those days?

Thanks,

Ron

Ron, I know you are a busy guy up there - I'll try to be brief.
I'm looking at the website and seeing things we could optimize such as the Water Resource Sites http://www.michigan.gov/flintwater/0,6092,7-345--366279--,00.html
We could build a Google interactive local map based on the text based address info we have posted now. That enables smartphone users to quickly click on the Fire Station of their choice to find exact directions to that site. Just one thought.

Also see below, please.

Hey all -

I just talked to Caleb at DTMB (copied on this email) about the fact that we have too many admins for this site. I need to work on streamlining a bit. We've agreed to add Scott as an admin, but for now we'll hold off adding any more.

The upshot: I'll come up with a plan for content approval and site administration by end of day.

Anne and John, if you want to weigh in on best practices that I should follow, please do. Apologies for any confusion!

Scott,

If you'd rather do it during the weekend (obviously with your supervisor's permission), we'll be working out of the Lansing state emergency operations center Saturday and Sunday.

If tomorrow in Flint works better, we're located at 125 E. Union in Flint – GPS works well (take 69, go past Hammerberg exit and the next exit is Saginaw Street to downtown Flint. Stay left on the service road and turn left on Saginaw Street. Turn right on Third Street. Turn left on Harrison. The State of Michigan building is on the corner of Harrison and Union. Free parking structure across the street.)

Show the guard your state ID, go to the fifth floor and your state ID should get you through the door right next to the elevators. If not, knock.

Thanks Scott!

Good morning Anne,
So we're preparing to do a bit of work on the Flint Water site, nothing ground-breaking or anything like that. I think the only real big change we're looking at is the placement of a feature scroller at the top.
But I'm wondering about the desktop resolution for the site. It seems to be much wider than other SOM sites and I was just curious if you had any information or could give me a bit of the history behind it?
It works well for mobile.

Thanks,
Scott

Subject: Flint JIC Staffing – Jan. 18-31

Ron,
I've seen the list and was wondering what the requirements were for Web Content Development (what duties are entailed) or similar. Are all slots requested to be onsite? I want to see if I can commit.
Thanks,

Flag Status: Completed

Hi Anne,
I'm sorry we are going to miss today's CMA meeting as we are really heavy on the workload. When you have a spare moment, I wanted to ask you about changing the page width of the Flint Water Site to the more standard ratio at 960 wide. The current site as it is now should maintain its shape well. With the changes that we want to propose incorporating, it would look best at the 960px standard; similar in format with the billboard component as in http://www.michigan.gov/snyder .

<image001.gif>

Ron,

Are you the one who signs-off on website and content? I'm seeing things about this site that I would really like our office to help with. As I mentioned before I would propose an interactive local map that has location markers for the sections, **Get Clean Drinking Water** (currently ***Water Resource Sites***) and **Get a Water Filter** (currently ***Filter Sites***) I would focus on making the site more smart phone friendly with plain language as that is most likely the target device platform.

Our time resources are tight here but we would like to lend a hand - I would like to suggest optimizing the site structure on the fly, however. Is that something that you would be open to? If I need to come out I'm willing to do so to some extent, but I'm wondering if we can assist from Lansing as well. We have two in our office who could help with the site.

Thanks for your time,

Ron, I know you are a busy guy up there - I'll try to be brief.
I'm looking at the website and seeing things we could optimize such as the Water Resource Sites http://www.michigan.gov/flintwater/0,6092,7-345--366279--,00.html
We could build a Google interactive local map based on the text based address info we have posted now. That enables smartphone users to quickly click on the Fire Station of their choice to find exact directions to that site. Just one thought.

Also see below, please.

In process: http://w3.michigan.gov/flintwater/0,6092,7-345-75251---,00.html#RESOURCES

I think we'll just add text, as others have done, to the photos. One thing I think we need to do is size up the Taking Action graphic to use as a header and move into the header position.

Also, thinking about lightening up the accordion color value -- Could you look it over and give your thoughts?

We're still working on other elements but would be interested in any comments or concerns you may have.
Thanks!

Probably one of the nuggets of info we missed by not being at the CMA meeting. ;)
So I assume there are no issues working under the triple wide model? 1 double wide with 1 single wide fits as it used to (in terms of components and their settings). We are looking at using the BX Billboard; looks like it needs wider images now and the descriptive text isn't showing. We've tried several different tweaks but it doesn't seem to work. Do you know off hand what the PX width of a double wide/single wide are now?

Thanks.

Scott,

If you'd rather do it during the weekend (obviously with your supervisor's permission), we'll be working out of the Lansing state emergency operations center Saturday and Sunday.

If tomorrow in Flint works better, we're located at 125 E. Union in Flint -- GPS works well (take 69, go past Hammerberg exit and the next exit is Saginaw Street to downtown Flint. Stay left on the service road and turn left on Saginaw Street. Turn right on Third Street. Turn left on Harrison. The State of Michigan building is on the corner of Harrison and Union. Free parking structure across the street.)

Show the guard your state ID, go to the fifth floor and your state ID should get you through the door right next to the elevators. If not, knock.

Thanks Scott!

Hi Scott,

We have a Web/social media spot open next week from Jan. 25-28. Should we put your down for one of those days?

Thanks,

Ron

Ron, I know you are a busy guy up there - I'll try to be brief.
I'm looking at the website and seeing things we could optimize such as the Water Resource Sites http://www.michigan.gov/flintwater/0,6092,7-345--366279--,00.html
We could build a Google interactive local map based on the text based address info we have posted now. That enables smartphone users to quickly click on the Fire Station of their choice to find exact directions to that site. Just one thought.

Also see below, please.

Subject: Flint JIC Staffing – Jan. 18-31

Ron,
I've seen the list and was wondering what the requirements were for Web Content Development (what duties are entailed) or similar. Are all slots requested to be onsite? I want to see if I can commit.
Thanks,

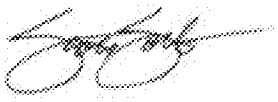
Subject: Flint Water website

Hi Anne,
I'm making a list of things that need to be accounted for in preparation for going live with the modified site. Could you please look over what I've identified and let me know what else we need to be paying attention to? Thanks.

- Cat # 75251, FLINTWATER/RESPONSE is our primary category for the Home Page. We are doing cat associations to make sure content is funneling into its intended locations.
- BrandBar – Is this a built in global component? Do we have to move that or does it remain – I assume it stays put. We would need to make some adjustments to what links are within the bar, but no biggie.
- Header Graphic – Could we get the `/images/flintwater/FlintWater_header_511955_7.png` graphic established as the header graphic?

Hopefully, we'll be targeting tomorrow for a switchover. They keep coming up with new twists but I think we'll manage.

Thanks,



Scott Sarka

Importance: High

Anne,
We have the go ahead to flip the switch. I have two questions for you first though.

- Can you configure it so that when the site is in responsive mode on a mobile device that the right half of the banner drops off completely?
- I have a Google Translate Snippet that I am considering to post to the site. I know that it's not a perfect solution but given the gravity of the situation I want to at least make an attempt to make the info as available as possible. Do you think that I am overthinking this?

Subject: Need List of Flintwater Admins

Can someone send me a list of those that have admin rights to the Flint Water page? There is a report that needs to be posted around 7 pm each night and they are trying to determine the best way to get that done.

Would this be something that the on-call eMichigan resource could do? I didn't offer that up yet because that doesn't seem like the best approach for the long-term. Let me know if you have any other ideas for posting this after hours.

Gov.'s office is happy ☺ Thanks.
We're trying to map out the categories for a number of reasons but mainly to educate other authors on where to post specific content. It looks like everything points to FLINTWATER-HOME_PAGE? And this is in progress...is this where we make all of our content adds/changes? We noticed one piece of content that is broken, the carousel, the second piece about GIS. That's an example of one item that doesn't seem to reconcile.

Thanks.

The page has to be created so we know what the URL will be, where it will live so to speak. Will it be under Water? Under the introduction? Lakes and Streams? That will determine the URL. Then we can request Anne to create the redirect. I have already spoken with Anne and she is aware of the urgency of the redirect. She will not be in the office Friday and I will not be in the office Thursday afternoon. So we need to focus on the page and redirect Thursday morning. I thought if Bob created the page this would move things along quicker. Bob? Please and thank you.

I think this is an appropriate redirect:

www.michigan.gov/flintwater

Subject: RE: Vanity Url Request for Flint

How about this:

Marketing URL Request Process

A "Publishable URL" is a kind of redirect that can make it easier for users to get to a certain site or part of a site. These redirects are designed for inclusion on promotional materials, to be used when directing users over the phone and for special programs.

Most of the current redirects are in place to help citizens find Web sites pertaining to special programs like: MDOT's LaneClosure Web site, or the Metro Detroit Traffic Report. Others are redirects to processes and programs like: Treasury's Unclaimed Property and e-file systems.

We all recognize a Vignette URL and find it sometimes difficult to relay a certain URL to customers over the phone, or getting one to fit on a printed article.

Redirects to program or process oriented sections of agency sites can be created for you by CMA Experts. You should be able to meet the criteria listed below in order to make the best use of this function.

- The destination URL must be short.
- The destination URL should be recognizable by your customers.
- You should be able to tell us where this URL will be published and why you find a need for a non-Vignette URL.

Site Admins can view a complete list of redirects here.

Sounds like a busy but interesting page.

Here is a list of our current redirects. Unless you or Karen want to create the page, I will return to the office Thursday morning.

Thanks, Deb

Hi Eric,

This is the page containing Marketing URLs criteria. The redirect must go to a category page and not a content page. Currently we have a pdf asset on the home page. Are we going to create a category for Flint Water? Depending on the importance of the issue we will request the redirect go to a content page.

The usual procedure: I submit the request to e-Michigan and depending on their work load the redirect will be created that day or the next. I can request it be escalated if necessary.

We create short urls to certain places so the press or printed matted does not have to sue the full URLs generated by our system.
Have you attended training for content entry or site admin?
If I was you, I would also change the homepage to have Flint Water on the carousel with a better image and more text. The link would go to your new page when it is ready.

I will create the short URL and call me if you need further assistance getting this page done.
You can test it http://w3.michigan.gov/flintwater

Bob, Eric;

Back to square one ☺ Let me know what you want to do. We can just kill the new site and give you the marketing URL of /flintwater if you'd like, and point it to an area on DEQ.

Let me know if you'd like copies of the images, as they have already been purchased from istockphoto.com

Hi all,

Bob and Eric can both have the authority to edit/post content.

Regarding the location of the page, the Governor's office discussed it and we're comfortable having it on the DEQ page where they originally planned on having it and letting them post/edit content moving forward. The marketing url should still be www.mi.gov/flintwater.

Please let me know if you have any questions.

Thanks

I have reviewed the link to the site provided below. I really like the way it looks and I would lean toward working with Michelle for a couple reasons. The first is that I am new in my role and I cannot update or change much on my own yet. Second, I am going to be in Flint covering the event on Friday and not able to make on the fly changes to the page that may pop up. So I would prefer that the DEQ doesn't host the page, as long as we can request/make changes as needed going forward. I can work with Karen to get you all the materials you will need for the initial page setup too. Does that make sense to everyone as a plan for this?

I agree. I would love to come over and talk as soon as I can. I also want to get signed up for all trainings.

I am working with Madhu to get this going for the homepage. I am not fully turned loose to push on this but I am getting closer to getting that go ahead. We are meeting with all our key people for me to meet them and keep it moving. I think it is coming soon. I will go back to Madhu and help push this.

Can you recommend any and all trainings I would benefit from?

Thanks
Eric Shaw

Have you attended training for content entry or site admin?
If I was you, I would also change the homepage to have Flint Water on the carousel with a better image and more text.
The link would go to your new page when it is ready.

I will create the short URL and call me if you need further assistance getting this page done.
You can test it http://w3.michigan.gov/flintwater

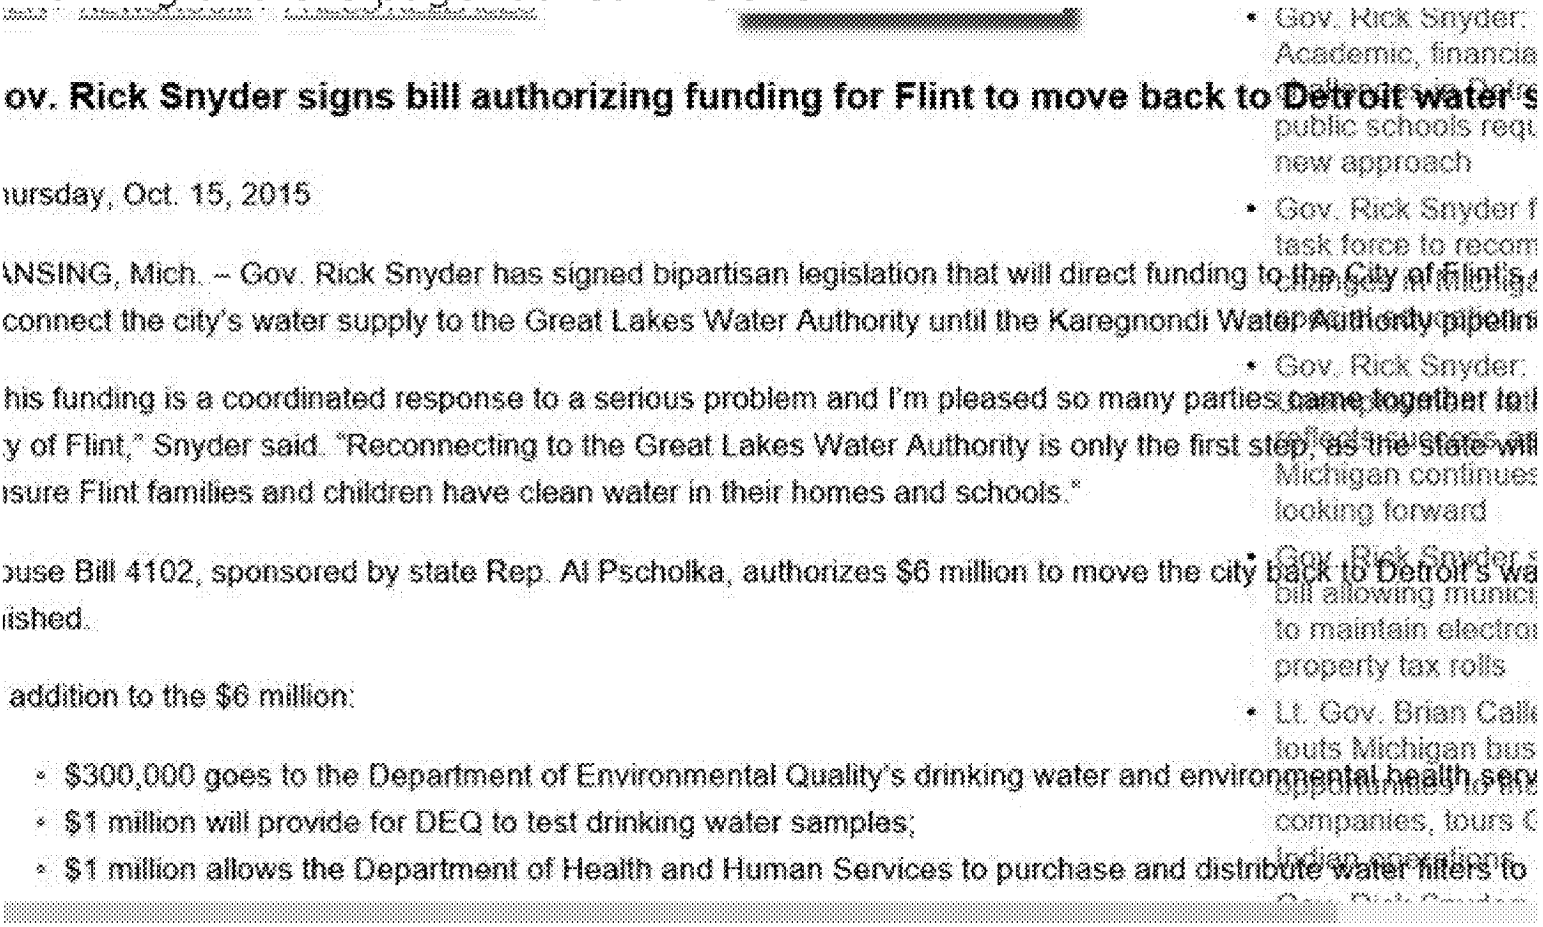
Thank you. This will go into my Anne folder. I entered the link this morning and the page looked like this:



ov. Rick Snyder signs bill authorizing funding for Flint to move back to Detroit water s

ıursday, Oct. 15, 2015

ANSING, Mich. – Gov. Rick Snyder has signed bipartisan legislation that will direct funding to the City of Flint's connect the city's water supply to the Great Lakes Water Authority until the Karegnondi Water Authority pipelin

his funding is a coordinated response to a serious problem and I'm pleased so many parties came together to h y of Flint," Snyder said. "Reconnecting to the Great Lakes Water Authority is only the first step, as the state will ısure Flint families and children have clean water in their homes and schools."

ɔuse Bill 4102, sponsored by state Rep. Al Pscholka, authorizes $6 million to move the city back to Detroit's wa ıished.

addition to the $6 million:

- $300,000 goes to the Department of Environmental Quality's drinking water and environmental health serv
- $1 million will provide for DEQ to test drinking water samples;
- $1 million allows the Department of Health and Human Services to purchase and distribute water filters to

- Gov. Rick Snyder: Academic, financia public schools requ new approach
- Gov. Rick Snyder f task force to recom
- Gov. Rick Snyder: Michigan continues looking forward
- Gov. Rick Snyder s bill allowing munici to maintain electron property tax rolls
- Lt. Gov. Brian Calle touts Michigan bus companies, tours C

It is apparent that associating is the better way to go.

I will try to leave you in peace today. ☺

Thanks for everything from yesterday! If Eric sent you anything about the home page I wasn't cc'd on it so I don't know what is going on there.

Have a good day, Deb

Subject: New Web Design Feedback

Just an FYI, but the water background image behind the new DEQ web design is raising eyebrows in light of the Flint water crisis and pending lawsuits. Many people in AQD feel that it is not appropriate to use that image at this time.

On a minor note, they also think it's not representative of air, land, waste, water, and sustainability. It just represents water.

Please feel free to pass this feedback to the decision maker(s). Thanks.

Attachments: New Web Design Feedback

Greg – the email you sent this morning regarding the background image on the redesigned webpage was forwarded to me. I appreciate your opinion. To give you some background, the "water" theme is one that has been of emphasis for the department overall and this image was chosen many months earlier to reflect that theme. While the recent events in Flint relate to drinking water, the Department has many programs that address water, such the Great Lakes, Rivers, Streams, Wetlands, Wastewater, Green Infrastructure, etc. We are also working on a long-term Water Strategy for the state. It is important that we do not lose sight of those programs and all the good work that our Department's employees do to maintain water quality in Michigan.

We are working on other photographs that will reflect the other media – and as a technologically savvy person yourself – you will appreciate that sometimes the technology does not accommodate everything that we would like. At this point, we have one background photo. However, as we change how we manage our website content and have a more dynamic site, you will see other themes and pictures. We cannot be all things to all, all the time. I hope that you will appreciate that we are aware of this issue and will give this new design and content management a chance to work through these challenges and support those working hard on making a better website.

Thanks,

Hello Anne,

I am emailing to potentially ask for your help today. We have updates that may need to be posted to our Flint Water page today. Deb is out sick and I am out of the office. If they do indeed need to be posted, could I send them over to you for and you post them? Sorry if this is not how I should do this.

Thank you!
Eric Shaw

Subject: Flint Water Page Revision
Attachments: NEw Flint Water Page.pdf

Hi Anne,

Attached is a draft mockup for the Flint Water web page revision.

Listed below is the requested criteria:

- Current page must remain LIVE until this revision goes LIVE
- Link to "See the Governor's Action Plan" will be provided
- Latest Updates on "What the State is Doing Now" will be a PDF asset (text change from mockup)
- Free Water Filters box will be on every page in the same location (small text edit will be done)
- Color borders are to remain on boxes
- The video will be removed
- Current content will be distributed among new pages (some of the content might change to another page)
  - In Your Schools – School Testing Results
  - News & Info – News Updates
  - In Your Body – Flint Drinking Water Resources
- Graphics in Information on Lead: cannot read words or see faces of children – In Your Body graphic – faucet (please call me about this one)
- In the Information on Lead boxes – change the white behind READ MORE to different background
- On new page - Under Information on Lead:
  - In order from left to right
  - First row - In Your Body, In Your Home, In Your Schools
  - Second row – News & Info, Free Help

I would like to discuss two things with you on Tuesday. I will be telecommuting then. Number 517-651-5808.

Thanks, Deb

Thanks Deb and Anne for working on this with us. I am sure it is getting confusing for you, because I know it is for me. The email chain is needed and I understand that, but being a communications guy, it is easier for me to talk it over and explain what we want and then put what we agree upon in writing.

The hope here is to meet the Governor's After Action Committee requests to clean up our Flint Water Page. I was told to make these changes as soon as possible.

The Mock Up draft I made should help. It makes the Michigan.gov/FlintWater page easier to use and less cluttered with PDF links. The hope is to give short clear descriptions, with a picture or graphic included, in the boxes that will visually grab the attention of the viewer. Example: A concerned parent wants to know what the state found in their child's school. Our "In the School" box will link them to a separate page which will list all school results. The parent can quickly look at the list and find the one they want. This singles out the school results on its own page and makes it easier to find, instead of leaving it on a busier page with all the other links like we have now.

If a person is on the Flint Water page, our proposal should only require them to make two clicks to find any specific information they want. First to click on the box for their chosen topic and then on a specific link within that topic. If they only want to see the "What is the State doing now" link on the main page, it will only require one click.

I have attached the Mock Up of the main Flint Water Page and the "In our Schools" page so you can see how we propose to lay it out.

Sorry for any confusion and I hope this helps, I am here if I can help.

Thank you for your help on this,
ERIC

To: Nolan, Anne (DTMB)
Cc: Shaw, Eric (DEQ)
Subject: RE: Flint Water Page Revision

Hi Anne,

I will try to clean up the information. Eric, if you would like to add information, please do so.

Main Page

Current page must remain LIVE until this revision goes LIVE
Link to "See the Governor's Action Plan" will be provided
Latest Updates on "What the State is Doing Now" will be a PDF asset (text change from mockup)
The video will be removed
Color borders are to remain on boxes
Order of boxes will be: In Your Body, In Your Home, In Your Schools, News & Info, Free Help

Small boxes

The boxes are linking to new pages: In Your Body(Content currently under Flint Drinking Water Resources), In Your Home, In Your Schools(Content currently under School Testing Results, News & Info(Content currently under News Updates), and Free Help.
The new pages will contain the information that is on the current page and additional information will be added.
Each of these pages will contain the Free Water Filters box on them in the same location
For the small boxes – behind the READ MORE the white background needs to be removed.
Graphics: The schools name or children cannot be recognizable.

Thank you, Deb

Subject: RE: Flint Water Page Revision

I have not responded because the layout is really not very clean or user friendly. I was under the impression that DEQ was looking for a clean and concise look to the pages for the future. The boxes add a cluttered and random feeling to the page.
Maybe this is just a draft but without knowing how the content will be structured below this page. I cannot begin to manage it. Where and what are those boxes linking to? I need the complete picture detailed out in writing before I can assist.

Subject: RE: Let me know,

I discussed this with Eric and thought he was following up with you. I intend to be off the next two weeks but will try to be monitoring email.

We really don't want to change the name of the Onsite wastewater page or the content, just the structure of the navigation. The top nav should be go from Water, to Wastewater which ideally would be the Wastewater tab below, then to subtopics such as Onsite wastewater. There could be a lot of subtopics to Wastewater.

FYI, unrelated: I identified about 500 potential WRD PDF documents with broken links. Although you won't see it in Siteimprove yet, my spreadsheet is now at 295. Some are fixed, some are deleted, some weren't WRD's, but we are gaining.

Subject: RE: Let me know,

I have received a response from Anne concerning the request to have a top theme Wastewater and Onsite Wastewater, Surface Water and Wastewater Construction under that theme.

Response:
It is easy enough to change the name of that navigation item but what is going to be done with the content on that page?
For navigation changes, you need to khow impacting the problem is or will your changes cause the same for a different group of people?
Does the customer find it? How often do they not find it? How many reports of this issue can you document?

Subject: RE: Let me know,

I have no reports of missing content, but I have two other usability issues.

- Deb is working a quick fix for the Water, Onsite Wastewater issue. The more I look at it the more I think we need a thorough revisit of that navigation. Details attached. I'm not sure if this included in the "content that did not transition over properly" in your email below but I'd like to see it addressed. If you go to the Water theme page and look at the Wastewater tab (below), there is a lot more content referenced there than in the top navigation.

DEQ / WATER

Oil Spill News and Updates

- Talmadge Creek and Kalamazoo River Oil Spill

The DEQ is responsible for ensuring the complete investigation of residual effects of the July 2010 oil spill near Marshall, Michigan, along with long-term remediation and restoration of affected areas to meet state law requirements. Since the release of heavy crude oil from Line 6B of Enbridge Energy's Lakehead pipeline system, DEQ has partnered with the US-EPA in overseeing early response efforts, including the containment and removal of oil from Michigan's environment. The DEQ and its sister agency, the Department of Natural Resources, are also Natural Resource Trustees (along with the Michigan Department of Attorney General) designated by Governor Snyder to participate in a Trustee Council which includes federal and tribal representatives with an interest in ensuring that Enbridge Energy returns the Talmadge Creek and Kalamazoo River ecosystems to pre-spill conditions.

This page can be accessed as www.mi.gov/oilspill.

Subject: Flint Water Page Revision

Hi Anne,

Attached is a draft mockup for the Flint Water web page revision.

Listed below is the requested criteria:

- Current page must remain LIVE until this revision goes LIVE
- Link to "See the Governor's Action Plan" will be provided
- Latest Updates on "What the State is Doing Now" will be a PDF asset (text change from mockup)
- Free Water Filters box will be on every page in the same location (small text edit will be done)

- Color borders are to remain on boxes
- The video will be removed
- Current content will be distributed among new pages (some of the content might change to another page)
  - In Your Schools – School Testing Results
  - News & Info – News Updates
  - In Your Body – Flint Drinking Water Resources
- Graphics in Information on Lead: cannot read words or see faces of children – In Your Body graphic – faucet (please call me about this one)
- In the Information on Lead boxes – change the white behind READ MORE to different background
- On new page - Under Information on Lead:
  - In order from left to right
  - First row - In Your Body, In Your Home, In Your Schools
  - Second row – News & Info, Free Help

I would like to discuss two things with you on Tuesday. I will be telecommuting then. Number 517-651-5808.

Thanks, Deb

Subject: RE: Flint Water Page Revision

Follow Up Flag: Follow up
Flag Status: Completed

Hi Anne,

I will try to clean up the information. Eric, if you would like to add information, please do so.

Main Page
Current page must remain LIVE until this revision goes LIVE
Link to "See the Governor's Action Plan" will be provided
Latest Updates on "What the State is Doing Now" will be a PDF asset (text change from mockup)
The video will be removed
Color borders are to remain on boxes
Order of boxes will be: In Your Body, In Your Home, In Your Schools, News & Info, Free Help

Small boxes
The boxes are linking to new pages: In Your Body(Content currently under Flint Drinking Water Resources), In Your Home, In Your Schools(Content currently under School Testing Results, News & Info(Content currently under News Updates), and Free Help.
The new pages will contain the information that is on the current page and additional information will be added.
Each of these pages will contain the Free Water Filters box on them in the same location

For the small boxes – behind the READ MORE the white background needs to be removed.
Graphics: The schools name or children cannot be recognizable.

Thank you, Deb

I have not responded because the layout is really not very clean or user friendly. I was under the impression that DEQ was looking for a clean and concise look to the pages for the future. The boxes add a cluttered and random feeling to the page.
Maybe this is just a draft but without knowing how the content will be structured below this page. I cannot begin to manage it. Where and what are those boxes linking to? I need the complete picture detailed out in writing before I can assist.

Cc: Sarka, Scott (MDOT);Hawks, Trevor (MSP);Cranson, Jeff (MDOT);Buhs, Caleb (DTMB);Nolan, Anne (DTMB);Estill, John (DTMB)
Subject: We have a redesigned website!

The revamped website is up and running at Michigan.gov/flintwater. Thanks to the work that MDOT's Scott Sarka and Courtney Bates put into this (and e-Michigan for its patience as we make this transition).

Check out the redesign, and let me know if you see anything missing or quirky. We're still cleaning up a typo here and there, and we've had some issues with information not migrating over.

Also , please note the carousel at the top – we'll work to keep refreshing that on a weekly basis. Please contribute ideas.

Once the JIC eventually winds down (timetable not yet set), the Governor's office will take ownership of the site. I'm lining up a team with admin rights and we'll discuss with the SEOC on how best to post water tests, blood level and other results in a timely fashion.

Thanks, everyone, for your continued hard work on the Flint water emergency!

FOR IMMEDIATE RELEASE
Thursday, February 18, 2016

Gov. Rick Snyder: Legislative approval of $30 million to assist Flint residents with water bills essential step in ongoing recovery efforts

Gov. Rick Snyder made the following statement today with regards to the state House's approval of $30 million to provide relief for a portion of Flint residents' water and sewer bills going back to April 2014:

"Flint residents should not have to pay for water they cannot drink. I have continually said that the crisis will be solved by everyone coming together with solutions, and I would like to thank the Legislature for being a strong partner on getting immediate funding for recovery to the city," Snyder said. "Politicizing this issue has not yet delivered any solutions for Flint's families, but with passage of today's $30 million, Michigan lawmakers have helped to aid Flint residents with nearly $70 million in state funding in the past four months. The Legislature's continuing support demonstrates the positive results that come from putting people above politics."

Editor's note: The Senate will need to concur on the House's version of SB 136.

Thank you. This will go into my Anne folder. I entered the link this morning and the page looked like this:

ov. Rick Snyder signs bill authorizing funding for Flint to move back to Detroit w

ıursday, Oct. 15, 2015

ANSING, Mich. – Gov. Rick Snyder has signed bipartisan legislation that will direct funding to the City of connect the city's water supply to the Great Lakes Water Authority until the Karegnondi Water Authority

his funding is a coordinated response to a serious problem and I'm pleased so many parties came togeth y of Flint," Snyder said. "Reconnecting to the Great Lakes Water Authority is only the first step, as the st ısure Flint families and children have clean water in their homes and schools."

ɔuse Bill 4102, sponsored by state Rep. Al Pscholka, authorizes $6 million to move the city back to Detr ıished.

addition to the $6 million:

- $300,000 goes to the Department of Environmental Quality's drinking water and environmental hea
- $1 million will provide for DEQ to test drinking water samples;
- $1 million allows the Department of Health and Human Services to purchase and distribute water fi

- Gov. Rick S Academic, f public scho new approa
- Gov. Rick S task force to
- Gov. Rick S Michigan co looking forw
- Gov. Rick S bill allowing to maintain property tax
- Lt. Gov. Bric louts Michig companies,

It is apparent that associating is the better way to go.

I will try to leave you in peace today. ☺

Thanks for everything from yesterday! If Eric sent you anything about the home page I wasn't cc'd on it so I don't know what is going on there.

Have a good day, Deb

Thanks. Let's take off the water background, and in the header where it says "to get your water tested for free.." let's change to a quote from the Gov: "I want the Flint community to know how very sorry I am that this has happened. And I want all Michigan citizens to know that we will learn from this experience, because Flint is not the only city that has an aging infrastructure."

Please review this concept for the Flint page. The page remains under DEQ but a new template has applied a "promo" type look to the page.

The category ID for Flint Water News is 73999. Josh can add this category association to the governor's press release content to avoid recreating it.
I associated this one so this is for future reference. The same will go for anyone at DEQ who needs a release for Flint to appear on the page.

We just walked Jordan through setting up a new list. She has the code information that Josh will need to add the signup link to the Flint site. You can decide how prominent you want to make the link on the site. You can also reference the ability to sign up for updates in future press releases and other communications.

If you need any further help, don't hesitate to reach out to one of us.

Subject: RE: Action item for state websites ASAP

I think the first option, a listserv. We are looking for exactly what Anne said in earlier email: A GovDelivery mailing list for people to subscribe to updates and news on Flint water. So they could subscribe and then we would push out info. as there are updates to share. We don't really have an existing list to work from except maybe constit inquiries.

I'm just seeing this email on GovDelivery. I can help with setting that up, but I need to know more about what your goals are.

A listserv in GovDelivery will allow you to communicate with interested parties, sending messages directly to them. A regular email address would be used if you wanted to create a channel for the public to reach out to you.

Not being involved in the conversations at the SEOC, I'm not sure what your goals are. Given that you already have a mechanism for residents to get in touch with constits through phone and email, I would think that you would like to have the listserv.

Let me know what you are thinking and if you want to discuss further. For either option, we would need to determine who the administrator(s) will be.

See if Caleb can add the group to the DTMB list of mailing lists for GovDelivery if he is the one posting to is. I am not an expert with GovDelivery but he should be able to do this.

Subject: RE: Action item for state websites ASAP

I'm just seeing this email on GovDelivery. I can help with setting that up, but I need to know more about what your goals are.

A listserv in GovDelivery will allow you to communicate with interested parties, sending messages directly to them. A regular email address would be used if you wanted to create a channel for the public to reach out to you.

Not being involved in the conversations at the SEOC, I'm not sure what your goals are. Given that you already have a mechanism for residents to get in touch with constits through phone and email, I would think that you would like to have the listserv.

Let me know what you are thinking and if you want to discuss further. For either option, we would need to determine who the administrator(s) will be.

See if Caleb can add the group to the DTMB list of mailing lists for GovDelivery if he is the one posting to is. I am not an expert with GovDelivery but he should be able to do this.

That is a great idea, thank you so much. We just discussed here and would like to house it under the general DTMB/state of Michigan account if possible. Maybe FlintWater@michigan.gov?

> At SEOC now, and we just discussed it and needs to be on all sites for now, sorry. It is temporary and we feel that even the sites that seem unrelated, such as SOS, are one of the sites people visit the most and thus it is best to include on all of them for now. There is a strong feeling that the info. that most needs to get out re; filters, testing, etc. has not gotten out and has to change ASAP.

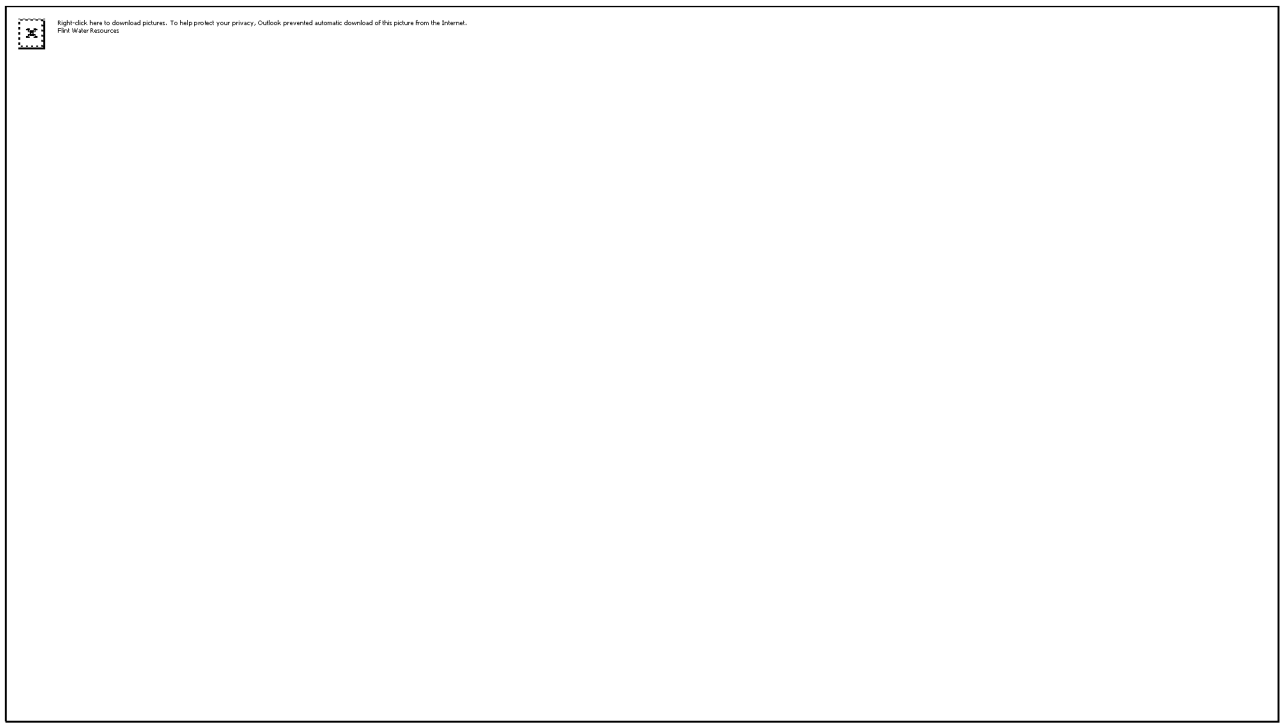
Public service announcement released today provides information on water resources

LANSING, MI - A Public Service Announcement was released today by Gov. Rick Snyder's office in a priority effort to continue providing free water resources to all Flint residents.

The PSA, featuring Capt. Chris Kelenske from the Michigan State Police, provides information about the resources currently available for free to all Flint residents, including water filters, replacement filters, bottled water, water testing kits, and blood testing.

Click here or below to view the PSA:



Visit www.michigan.gov/flintwater or call 211 for more information. Residents who need transportation or any other assistance can call 211.

For more information, contact the Governor's office at 517-335-6397.

Subject: RE: Flint Water Help Today

All,
We are ready to move all of this to a separate site fro easier updating. Please mention this to the group. It would be seamless and can be done in a matter of minutes. You can see the site at w3.michigan.gov/flintdrinkingwater
The current redirect will be directed to that site and the site name will be changed to /flintwater.
I think this will be a better option than having it inside of DEQ for the time being.
Having it there poses issues with permissions as we are not able to provide limited perms to this content without opening up all of DEQ and having DEQ having perms to all of the Flint Water stuff.
Let me know if you would like this separate site launched.

Anne

Subject: Flint Water Help Today

All,
I am working at the Joint Information Center in Flint today and I have been tasked with making some improvements to the /flintwater website, with your help, of course. I don't have many details yet, but I do know that they are hoping that we can create a multimedia section where all the photos and video that has been and will be gathered can be posted.

I'm likely to get more information in the next couple hours, but I wanted to get you thinking about our options. Some of the media that we have includes, video and audio PSAs, photos and video from various press events and video tutorials.

I will be in touch soon, but feel free to contact me if you have any questions in the meantime.

Thanks,

Sent: Thursday, January 14, 2016 5:29 PM
To: Nolan, Anne (DTMB)
Subject: Volunteer Opportunity in Flint

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, https://www.surveymonkey.com/r/28NVJBL

To volunteer on Sunday, January 17, https://www.surveymonkey.com/r/26NMJKK

To volunteer on Monday, January 18, https://www.surveymonkey.com/r/26P7P5G

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit www.michigan.gov/flintwater.

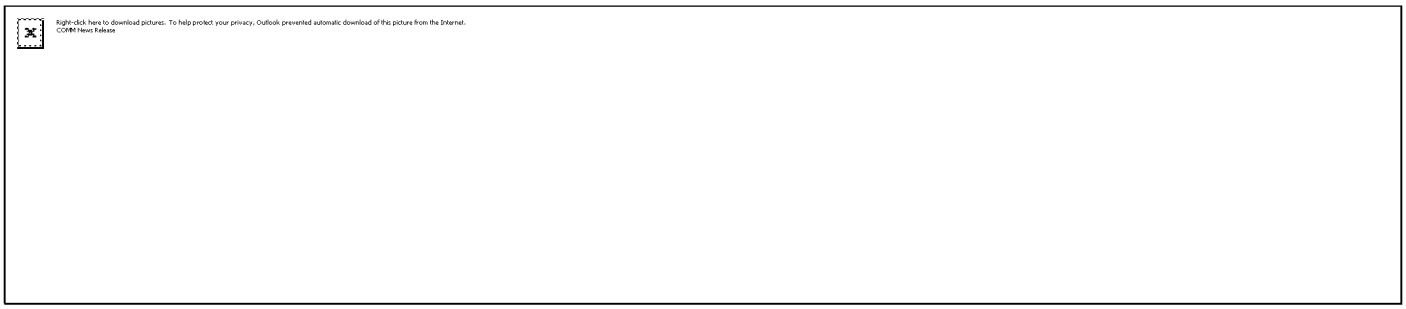
Subject: NEWS RELEASE: Gov. Rick Snyder seeks presidential emergency and major disaster declaration to help Flint residents



Contacts: Dave Murray, Laura Biehl, or Anna Heaton

517-335-6397

FOR IMMEDIATE RELEASE
Thursday, January 14, 2016

Gov. Rick Snyder seeks presidential emergency and major disaster declaration to help Flint residents

LANSING, Mich. – Gov. Rick Snyder today requested President Obama to declare both an emergency and an expedited major disaster for Genesee County as a result of ongoing emergency water response efforts in the city of Flint.

Snyder requested supplementary federal aid in the form of Individual Assistance and Public Assistance to help eligible residents and state and local government entities to protect the health, safety and welfare of Flint residents.

If federal aid is granted, assistance can include grants for temporary housing and home repairs, low-cost loans to cover uninsured property losses and other programs to help people and businesses recover. Public assistance helps cover some of the costs incurred by state and local governments due to damage to public facilities and infrastructures, such as city schools and the water system.

“We are utilizing all state resources to ensure Flint residents have access to clean and safe drinking water and today I am asking President Obama to provide additional resources as our recovery efforts continue,” Snyder said.

Snyder’s request will be reviewed by the Federal Emergency Management Agency, which will advise President Obama whether an emergency and major disaster declaration should be granted. Ultimately, the president will determine whether to provide federal assistance.

Snyder declared a state of emergency on Jan. 5 for Genesee County, following the county's local emergency declaration on Jan. 4. The declaration makes available all state resources in cooperation with local response and recovery efforts in Genesee County as outlined in the Michigan Emergency Management Plan.

In addition, Snyder requested support from FEMA on Tuesday to help coordinate an interagency recovery plan with other federal agencies to provide resources to Flint. Snyder also activated the Michigan National Guard to assist with distributing supplies at five water resource sites established in Flint.

For more information on emergency efforts in Flint, visit www.michigan.gov/flintwater.

President Obama grants Gov. Rick Snyder's request for emergency declaration in Flint

Request for major disaster declaration was denied

LANSING, Mich. - President Barack Obama today declared a federal emergency in Flint, based on Gov. Rick Snyder's request made on Thursday, January 14, providing resources to help provide residents access to safe, clean water.

Obama denied an additional request for a major disaster declaration.

"I appreciate the President approving my federal emergency request and supporting Flint during this critical situation," Snyder said. "I have pledged to use all state resources possible to help heal Flint, and these additional resources will greatly assist in efforts underway to ensure every resident has access to clean water resources."

Snyder received notice from FEMA this afternoon that emergency relief has been approved in the form of water, water filters, filter replacements and water test kits. The period of assistance is up to 90 days. Under the Stafford Act, resources totaling $5 million can be used for federal emergencies, and the state is required to match 25 percent. If the $5 million is exhausted, Congress has the option to approve additional funding.

The governor had also requested a major disaster declaration, which was denied based on the legal requirement that under the Stafford Act disaster relief is available only for natural events, fires, floods, or explosions. The state is now actively reviewing the process for appealing the disaster declaration denial.

State of the State 2016: Immediate action for the challenges of today, opportunities for tomorrow

Snyder to Flint: 'I will fix it'

LANSING, Mich. – Gov. Rick Snyder devoted his sixth State of the State address to the immediate challenges facing Michigan today and actions being taken to solve them – foremost among them, the crisis in Flint, the condition of Detroit Public Schools, and Michigan's economic future.

"To the people of Flint, I will fix this. You did not create this crisis and you do not deserve this," Snyder said. "I want to tell you that you are not alone. The State of Michigan stands with you. I will spare no resource to effectively and permanently solve this crisis and ensure you have the quality of life you deserve."

The governor explained the immediate actions being taken to help Flint residents, including daily door-to-door distribution of bottled water, water filters, filter replacements and water testing kits. More than 21,000 homes have been visited this month by volunteers and emergency responders. In addition, he detailed budget recommendations to keep Flint on Detroit's water system through the end of 2016, to replace water supply pipes and fixtures in Flint schools, and to fund specialized staff locally in Flint for follow-up care for affected residents.

An official request to the Legislature to address immediate, short-term funding to ensure everyone in Flint has clean water will cover costs such as:

- Replacement of fixtures in schools, daycares and hospitals;
- Treatment of children with high lead levels, including diagnostic testing, nurse visits and environmental assessments;
- Child and adolescent health centers and additional support for children's health care access;
- An infrastructure integrity study for pipes and connections, using outside experts;
- Providing aid to the city for utilities.

Long-term health monitoring for children exposed to the water and potential replacement of water infrastructure and service lines will be addressed through the governor's traditional budget recommendation, which will be shared on Feb. 10.

The governor also talked openly about fixing the problems in state government that led to this crisis.

"Apologies are not enough. My immediate concern is with healing Flint and ensuring all residents there have clean water. But I will also work to address the breakdown in state government that led to this crisis so that it never happens again. You have my word that we will fix this, and everyone who works for state government must know - any situation like this must come to my attention immediately. No delays, no excuses. We are accountable."

The Flint water crisis is an extreme example of how infrastructure replacement is desperately needed. But Flint is not the only municipality that will need to have water transmission pipes and other components of underground systems upgraded.

"Our state faces very real challenges at this point. We have deteriorating infrastructure – infrastructure we don't see every day like we do with roads. Many cities have aging water systems and pipes that need to be upgraded. Flint has been the catalyst for this, but it isn't just Flint and it isn't just Michigan. This is a national problem, and we are going to have Michigan solutions."

Gov. Snyder is calling for local and state officials as well as independent experts to work together on long-term solutions to infrastructure challenges. Top priorities include: water infrastructure, energy and electrical grids, broadband support, and upgrading the Soo Locks. A task force will be appointed to examine these issues and make recommendations for action.

The crisis in Flint is a tragic reminder that Michigan cannot truly be strong when Michiganders are suffering. This is a statewide challenge, and it isn't the only one. In 2016 the most pressing education issue is restructuring the Detroit Public School system.

Detroit schools are failing at the most basic fundamentals of education: teaching children. Gov. Snyder will continue working with the Legislature to reform the entire structure of DPS, so that not only can current students achieve more and have a better chance for future success, but measures will be put in place to ensure a complete failure to educate schoolchildren never again happens in a Michigan district. The district's debt must be restructured so that the $1,100 per-student spent on debt service can be spent on classroom resources.

STATE OF MICHIGAN
EXECUTIVE OFFICE
LANSING

BRIAN CALLEY
LT. GOVERNOR

PREPARED REMARKS ON THE FLINT WATER CRISIS

Gov. Rick Snyder
Jan. 19, 2016 – 7 p.m.

Tonight will be a different State of the State. There is so much we could discuss about how we can make our great state even greater, better, and stronger over the next year. But tonight I will address the crisis in Flint, first and in-depth.

To begin, I'd like to address the people of Flint. Your families face a crisis – a crisis you did not create and could not have prevented.

I want to speak directly, honestly, and sincerely to let you know we are praying for you, we are working hard for you, and we are absolutely committed to taking the right steps to effectively solve this crisis.

To you, the people of Flint, I want to say tonight—as I have before—I am sorry and I will fix it.

No citizen of this great state should endure this kind of catastrophe.

Government failed you – federal, state, and local leaders – by breaking the trust you placed in us.

I'm sorry most of all that I let you down.

You deserve better. You deserve accountability. You deserve to know that the buck stops here, with me. Most of all, you deserve to know the truth and I have a responsibility to tell you the truth. The truth about what we've done and what we'll do to overcome this challenge.

Tomorrow I will release my 2014 and 2015 emails regarding Flint to you, the citizens, so that you have answers to your questions about what we've done and what we're doing to make this right for the families of Flint. Anyone will be able to read this information for themselves at Michigan.gov/Snyder. Because the most important thing we can do right now is to work hard and work together for the people of Flint.

I know apologies won't make up for the mistakes that were made—nothing will. But, I take full responsibility to fix the problem so that it never happens again. Let me tell you what we've done so far, and what we will be doing in the coming days, weeks, months, and years to keep our commitment to you. To make Flint an even cleaner, safer, stronger city than it was before. Because that's what you and your families deserve.

We are working to do whatever we must until this crisis is resolved. The people of Flint have chosen a new mayor. And I personally commit to work hand in hand with Mayor Weaver so we can rebuild the trust that's been broken.

I have already taken steps to bring new leadership to the DEQ – these are individuals who understand the severity of the problem and who will effectively communicate to the people of our state.

For those whose mistakes contributed to this disaster, we are fully cooperating with investigations and will hold those individuals accountable. And let me be perfectly clear to all of state government. In the future, a situation like this must come to my desk immediately. No delays. No excuses. Period.

We will provide resources to help anyone and everyone that is affected. Just as we've provided since we first knew of this crisis.

In addition to emails, tonight I'm releasing a comprehensive timeline of the steps we've taken and the actions underway to solve this crisis.

Here are the facts.

1. First, this crisis began in spring 2013, when the Flint City Council voted 7-1 to buy water from Karegnondi Water Authority (KWA). Former Flint Mayor Walling supported the move, and the Emergency Manager approved the plan. DWSD provided notice of termination to be effective one-year later and, on April 25, 2014, Flint began using water from the Flint River as its interim source.

2. Second, soon after the switch from Detroit water to Flint River water, residents complained about the water – the color, the smell, rashes, and concerns with bacteria. Ultimately, localized boil water advisories were issued by the City of Flint in August and September of 2014, each lasting several days.

3. Third, the Department of Environmental Quality (DEQ) and the federal Environmental Protection Agency began communicating about lead concerns in February 2015. Sadly, both were ineffective in fully addressing and solving the problem. DEQ misinterpreted the water safety regulations and the EPA did not act with sufficient urgency to address the concerns of one of its experts about DEQ's approach and the risk of lead contamination. In May 2015, lead service lines to one residence were removed and replaced due to high lead levels. But still, they both failed to systemically identify and solve the problem.

4. Fourth, in July 2015, my office proactively asked about the quality of Flint water, test results and blood testing. The DEQ told us that Flint was in compliance with the lead and copper rule. They told us there was one concern with one house that was later corrected and that there was nothing widespread to address. The DHHS also told us that the elevated blood lead levels were to be expected because they followed a normal seasonal trend. This conclusion was later shown to be incorrect when DHHS conducted a deeper analysis of the relevant data.

5. Fifth, In August, Prof. Marc Edwards from Virginia Tech and Dr. Mona Hanna Attisha sounded an alarm about lead in Flint's water. But tragically, based on what DEQ and DHHS had seen on the ground, they initially failed to reach the same conclusion. I want to thank the Professor, the

Doctor and the Concerned Pastors of Flint for bringing light to this issue. We are actively investigating why these agencies got this so wrong.

6. Sixth, on September 28, 2015, I was first briefed on the potential scope and magnitude of the crisis on a phone call with DEQ and DHHS. On October 1, 2015, DHHS epidemiologists validated Dr. Hanna-Attisha's findings, confirming the lead problem in Flint's water supply. At this point, I immediately ordered them to develop and implement a 10-point plan that included the immediate distribution of water filters, immediate water testing in schools, and expanded water and blood testing for anyone who might be exposed. About 12,000 filters were distributed, 700 water tests and 2,000 blood tests were conducted within the first three months.

7. Seventh, on October 8, I announced that the Flint system would be reconnected to the Detroit water system to end any further damage, and later that month I announced the independent Flint Water Task Force to review the actions taken so far and to make further recommendations to address this crisis.

8. Eighth, the Task Force issued its initial actionable recommendations and identified critical problems in mid-December. Specifically, they pointed to a primary failure of leadership at the DEQ and a culture there that led to this crisis. The task force was right, and I immediately took action, appointing new leadership at the department.

9. Ninth, I declared an emergency in Flint on January 5 so that we could access additional resources and mobilize additional support, including the Michigan State Police and the National Guard. These critical resources were needed to help families get clean water and end any risk or exposure for every resident in Flint. I also requested a presidential declaration of federal emergency, which was granted. And to the members of our Congressional delegation who are here tonight, this is a challenge we must work together to solve, and we look forward to working with you to bring additional support from the federal government for the people of Flint.

10. Tenth, to date, more than 37,300 cases of water, more than 53,700 water filters, and more than 7,300 water testing kits have been distributed. More than 21,300 homes have been visited. I am increasing the support from the National Guard starting tomorrow to ensure that every house we need to visit in Flint gets visited as soon as possible. And I am appealing the president's decision not to grant a major disaster declaration. We'll continue to deliver water and filters. We will not stop working for the people of Flint until every single person has clean water every single day. No matter what.

That's why today, I made an official request to the Legislature to fund a series of immediate actions to provide everyone in Flint clean water, and care for Flint's children. In addition to the $9 million supplemental appropriation for Flint made in October 2015, the request today is for $28 million, with $22.6 million from the general fund. It includes:

1. Additional bottled water, filters, and replacement filters for anyone who needs these resources.

2. Assistance for the City of Flint to help with its utility related issues.

3. Testing and replacing fixtures in schools, day care facilities, and other higher risk locations.

4. Treatment of children with high lead levels, including diagnostic testing, nurse visits, nutrition counseling and environmental assessments.

5. Services will be available for the treatment of potential behavioral health issues such as ADHD for those who have or could have had an elevated blood lead level.

6. We will also work with local primary care providers and hospitals to educate the community about toxic stress and how to identify early developmental delays.

7. Support for child and adolescent health centers and additional support for children's health care access

8. An infrastructure integrity study for pipes and connections, using outside, independent experts

An important note: this will not be the last budget request for Flint. Additional resources will be needed for water related needs, health care needs, educational needs, economic development needs, and more.

If you would also like to aid Flint, please to to HelpforFlint.com to volunteer or donate. If you are a Flint resident who needs help getting the water you need – go to HelpforFlint.com

Those are the facts of what we've done and what we're doing. But just as important to solving short-term needs are providing real long-term solutions so that nothing like this ever happens again in ANY Michigan city.

We began that process by creating the independent Flint Water Task Force and asking them to report on exactly what happened, what accountability measures must be in place, and what investments need to be implemented.

This month, I issued an Executive Order to ensure state and local leaders have everything they need to clean up the mess, and ensure anyone with lingering health concerns is quickly, compassionately, and effectively treated. I know that there will be long-term consequences – but I want you to know that we will be there with long-term solutions for as long as it takes to make this right.

There can be no excuse. When Michiganders turn on the tap, they expect and they deserve clean, safe water. It is that simple. It is that straight-forward. So that is what we will deliver.

To the families in Flint. It is my responsibility, my commitment to deliver. I give you my commitment that Michigan will not let you down again.

Gov. Rick Snyder appeals denial of federal major disaster declaration for Flint

Asking for special consideration due to the imminent and long-term threat

LANSING, Mich. – Gov. Rick Snyder today submitted an appeal to President Barack Obama following the denial of a major disaster declaration, a move that could potentially bring additional and much-needed resources to help the people of Flint.

"The situation in Flint is a disaster and in need of a federal declaration," Snyder said. "This situation poses an imminent and long-term threat to the people of Flint. We appreciate the support of the White House through the earlier emergency declaration. But additional federal resources are needed for the work that must be done."

In the appeal to President Obama, Snyder said the severity of the disaster warrants special consideration for all categories under the Individual and Public Assistance Programs, as well as the Hazardous Mitigation program in order to facilitate recovery.

Snyder said this disaster is similar in scope to a flood, given that qualities within the water over a long period of time damaged the city's infrastructure in ways that are not immediately detectable. The problems will contribute to years -- and potentially decades -- of health problems and economic loss as well as require repairs to the infrastructure that neither the city, county nor state

has the capacity to carry out.

President Obama denied the disaster declaration for Flint while approving an emergency declaration on Saturday, Jan. 16.

Caleb,

The statement is already there, however I was just looking at it on my phone and the text that was added previously now pushes the 211 section to the right. I will fix ASAP.

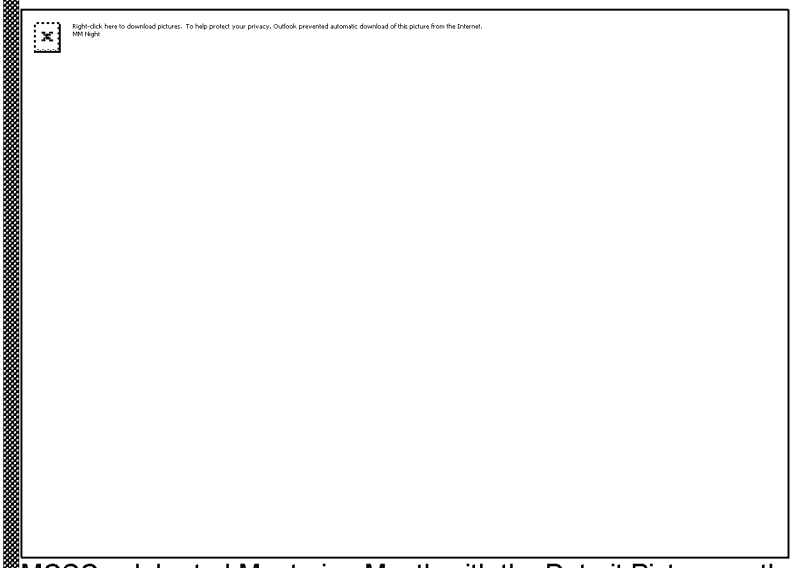
MCSC celebrates Mentoring Month with the Detroit Pistons



MCSC celebrated Mentoring Month with the Detroit Pistons as the two organizations teamed up to host Mentor Michigan Night at the Palace of Auburn Hills. More than 100 people involved with mentoring programs attended the event.

Mentor Michigan redevelops Quality Based Mentoring Standards

In September 2015, MENTOR: the National Mentoring Partnership released the 4th edition of the Elements of Effective Practice for Mentoring. In response, Mentor Michigan has redeveloped Quality Based Mentoring Standards in order to reflect the most up-to-date research in the mentoring field. This new and improved system will enable us to increase our level of engagement with mentoring programs, ensuring that all youth in Michigan receive the level of support they need. Quality Rated Programs will receive special offers and opportunities for national exposure.

Governor's Service Awards nominations now open

MCSC is now accepting nominations for the 2016 Governor's Service Awards. The form can now be filled out online. Nominate a volunteer, organization or national service program today!

Michigan's AmeriCorps

National service agency deploys AmeriCorps team to assist with Flint water emergency

The Corporation for National and Community Service (CNCS) announced it is deploying an AmeriCorps team to Flint, to support state and local efforts to protect the public health of residents facing challenges from increased lead levels in the Flint water supply.

“National service is all about getting things done to solve local problems, and we are committed to supporting Flint at this time of need,” said Wendy Spencer, CEO of CNCS.

Funding Alerts

Scotts Miracle-Gro GRO1000 Grassroots Grants

The Scotts Miracle-Gro Company’s GRO1000 Grassroots Grants help foster the development of gardens and green spaces in the United States. Grants of up to $1,500 are awarded to local communities throughout the country to help bring edible gardens, flower gardens and public green spaces to more neighborhoods.

Teacher Vision Grants

American Electric Power will combine your teaching talents and creativity with our resources and desire to help you make a difference in your students' lives. Available for teachers of pre-k through grade 12 with projects that have an academic focus and a goal to improve student achievement. Grants range from $100 to $500.

Kars4Kids Grants

Kars4Kids is constantly on the lookout for like-minded charities which share our values and are working hard to make a difference in the areas of education and youth development. Grants typically range from $500-$2,000, depending on mission alignment and

Willow Farm Therapeutic Riding

Feeding America West Michigan

availability of funds.

Walmart Foundation State Giving Program
Applications will be accepted for programs within the scope of one of the following focused giving areas: career opportunity, hunger and healthy eating or disaster preparedness. Grants range from $25,000 to $250,000.

National Arts and Humanities Youth Program Awards
The National Arts and Humanities Youth Program Awards, sponsored by the President's Committee on the Arts and the Humanities, recognizes excellence in after-school and out-of-school arts and humanities programs for underserved children and youth. Twelve winners will receive a $10,000 award and an invitation to accept their award at a White House ceremony.

Volunteer opportunities

Junior Achievement of Mid-Michigan
Junior Achievement offers programs to teach young people career and life skills. JA programs are five to seven sessions usually taught over the course of several weeks to students in K-12th grade.

Willow Farm Therapeutic Riding
Willow Farm Therapeutic Riding serves as a center for continual development, implementation and evaluation of a therapeutic riding program for children and young adults between the ages of 4 and 26, all of whom have a physician-diagnosed disability. Volunteer opportunities include sidewalkers and horse leaders.

Feeding America West Michigan
Feeding America West Michigan Food Bank provides food to 492,100 people in need each year. In one hour, volunteers can help distribute 150 meals.

About the MCSC

The Michigan Community Service Commission utilizes service as a strategy to address the state's most pressing issues and empowers volunteers to strengthen communities. In 2015-2016, the MCSC is granting more than $7 million in federal funds to local communities for volunteer programs and activities. The MCSC is funding 29 AmeriCorps programs and four My Brothers Keeper grantees. The Governor's Service Awards and Mentor Michigan are also premier programs of the MCSC. www.michigan.gov/volunteer

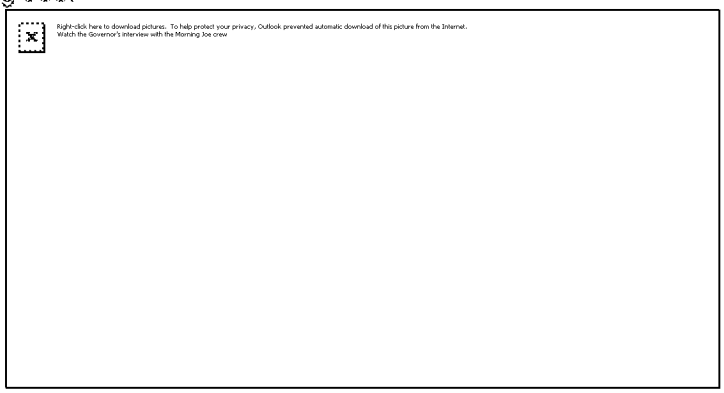
How we are fixing the Flint water crsis

Governor Rick Snyder has committed to spending the rest of his time as Governor to fixing the Flint water crisis. Over the last few days, he has sat down to explain what happened and how we're fixing the Flint water crisis. Watch the interviews below and be sure to read the Governor's Op-Ed in the USA Today.

Governor Snyder on Morning Joe

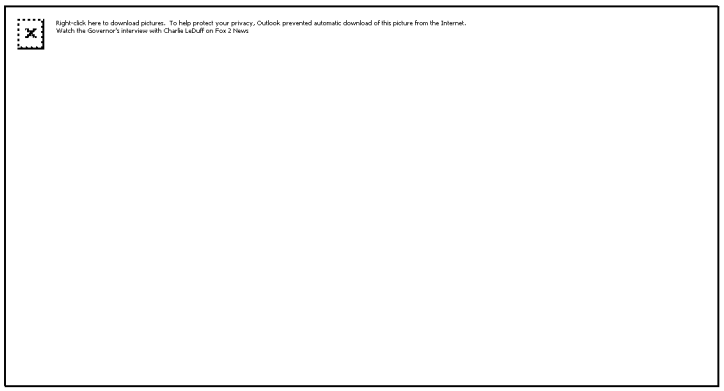
"What is so frustrating and what makes you so angry is you have a handful of experts who were career civil servants that made terrible decisions, in my view. We have to live with the consequences, and they worked for me, so I accept that responsibility. We are going to fix this problem." Watch Governor Snyder address how we are fixing the Flint water crisis on Morning Joe.



Governor Snyder with Charlie LeDuff on Fox 2 Detroit

"I feel awful about this. These are people. They've been harmed. You can't feel good about that. The people of Flint have been harmed and a major influence of that harm

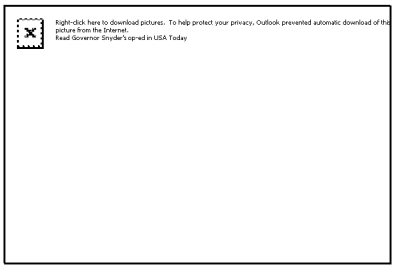
came from people who worked for me, and I feel responsible for that. But I am committed to solving the problem and addressing the damage as much as possible for the rest of the time I'm Governor." Watch Governor Snyder address the Flint water crisis with Charlie LeDuff on Fox 2 News.



Governor Snyder's 2016 State of the State

"Michiganders don't quit, we don't give up, instead we will work with even more passion and commitment to truly improve our state. For everyone who's chosen to make Michigan their home, this is more than a promise, this is my commitment." Watch Governor Snyder's full closing statement from his 2016 State of the State address.

Governor in USA Today: "I will fix this, and I mean it."



"Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take responsibility for what these families are going through, and I'm holding people in my administration accountable for their failures." Click here to read the Governor's full op-ed.

Washington Post: "Michigan Gov. Rick Snyder is in a tough spot, but he's his own best spokesman"

Snyder has born the brunt of criticism in the local health crisis that has turned into a national scandal. But unlike many other politicians facing crises of leadership, Snyder may also be his own best counter-programming. Click here to read the full story in the Washington Post.

Hey all -

I just talked to Caleb at DTMB (copied on this email) about the fact that we have too many admins for this site. I need to work on streamlining a bit. We've agreed to add Scott as an admin, but for now we'll hold off adding any more.

The upshot: I'll come up with a plan for content approval and site administration by end of day.

Anne and John, if you want to weigh in on best practices that I should follow, please do. Apologies for any confusion!

If tomorrow in Flint works better, we're located at 125 E. Union in Flint – GPS works well (take 69, go past Hammerberg exit and the next exit is Saginaw Street to downtown Flint. Stay left on the service road and turn left on Saginaw Street. Turn right on Third Street. Turn left on Harrison. The State of Michigan building is on the corner of Harrison and Union. Free parking structure across the street.)

Show the guard your state ID, go to the fifth floor and your state ID should get you through the door right next to the elevators. If not, knock.

Thanks Scott!

Ron, I know you are a busy guy up there - I'll try to be brief.
I'm looking at the website and seeing things we could optimize such as the Water Resource Sites http://www.michigan.gov/flintwater/0,6092,7-345--366279--,00.html
We could build a Google interactive local map based on the text based address info we have posted now. That

enables smartphone users to quickly click on the Fire Station of their choice to find exact directions to that site. Just one thought.

Also see below, please.

FOR IMMEDIATE RELEASE
January 22, 2016

Gov. Rick Snyder: This is a positive step forward for the city of Flint

RTAB, state treasurer approves additional powers for Flint's mayor

LANSING, Mich. – Gov. Rick Snyder today offered the following statement of support after State Treasurer Nick Khouri approved the Receivership Transition Advisory Board's recommendation that additional executive powers be returned to the mayor of Flint.

"Last week, I agreed with Flint Mayor Karen Weaver's request for the powers and authority vested in the city administrator to be transferred to the mayor, and I support the RTAB's decision today to return additional executive powers to Mayor Weaver during this critically important time. This is a positive step forward for the city of Flint.

"Mayor Weaver will now have the authority to appoint the city administrator and all department heads. Today's action is the next step in transitioning to full, local control in Flint."

The state of Michigan continues to coordinate response efforts in partnership with the city of Flint, Genesee County, and local community organizations. For information about clean water resources available in Flint—such as bottled water, water filters, home testing kits, and replacement cartridges, please visit www.mi.gov/FlintWater. For information about donating or volunteering in Flint, please visit www.HelpForFlint.com.

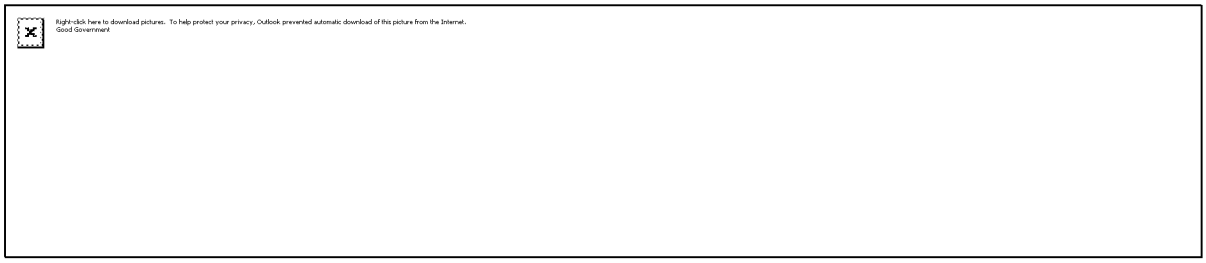
Subject: Flint Volunteer Efforts



Dear State Employees,

Gov. Rick Snyder and I want to thank everyone who donated their time during the holiday weekend to deliver bottled water, water filters, replacement cartridges and water testing kits to families in the city of Flint. We are working hard to ensure all residents are provided with the safe water resources they need, and each donation and hour of your time volunteered goes a long way.

For employees who would like to help the residents of Flint, there are several opportunities to do so. Please visit www.helpforflint.com to learn how you can help.

For additional information and updates, visit www.michigan.gov/flintwater.

Again, thank you for all your support.

Sincerely, Mike Zimmer
Office of Good Government Director

FOR IMMEDIATE RELEASE
Friday, January 22, 2016

Gov. Rick Snyder welcomes recommendations from Flint Water Task Force to re-establish safe drinking water

Expert panel also calls for outside assistance to study Legionella outbreak

LANSING, Mich. – Gov. Rick Snyder today said he welcomes the Flint Water Task Force's recommendations on methods to re-establish a reliable, safe water distribution system in Flint and efforts to determine the cause of an outbreak of Legionella in Genesee County.

The task force, an independent, bipartisan panel of experts, is reviewing all state, local and federal government actions in connection to the Flint water crisis and is charged with making long-term recommendations to protect the health and safety of Flint residents.

"I appreciate the task force's thoughtful work on these important issues, and we'll move quickly as possible to determine the best way to achieve the results," Snyder said. "The Flint water crisis is the result of missteps of government at all levels – city, state and federal. We're focused on fixing the problems and making sure nothing like this happens again in Flint or any other Michigan city."

Snyder has declared an emergency in Flint. He also has activated the National Guard to make sure city residents have access to bottled water, water filters, replacement cartridges and testing kits. More than 30,000 homes in the city have been contacted.

Directors of the state Department of Environmental Quality and Health and Human Services are committed to carrying out the task force's recommendations addressing health concerns and water quality.

The administration has already started on some of the recommendations, including reaching out to the U.S. Environmental Protection Agency to ask for the assistance of three experts versed in the Lead and Copper Rule.

Snyder in October appointed the task force. Members are Ken Sikkema, a senior policy fellow at Public Sector Consultants; **Chris Kolb,** president of the Michigan Environmental Council; Dr. **Matthew Davis**, professor of pediatrics and internal medicine at the University of Michigan Health System; **Eric Rothstein,** a national water issues consultant and principal at the Galardi Rothstein Group; and Dr. **Lawrence Reynolds,** a pediatrician in Flint who serves as president of the Mott Children's Health Center.

The state of Michigan continues to coordinate response efforts in partnership with the city of Flint, Genesee County, and local community organizations. For information about clean water resources available in Flint—such as bottled water, water filters, home testing kits, and replacement cartridges, please visit www.mi.gov/FlintWater. For information about donating or volunteering in Flint, please visit www.HelpForFlint.com.

Action taken against DEQ officials involved in Flint water testing

LANSING, Mich. – As a result of the pending questions regarding employee actions related to water testing in Flint, action was taken today against two Michigan Department of Environmental Quality employees, Gov. Rick Snyder said.

“Michiganders need to be able to depend on state government to do what’s best for them and in the case of the DEQ that means ensuring their drinking water is safe,” Snyder said. “Some DEQ actions lacked common sense and that resulted in this terrible tragedy in Flint. I look forward to the results of the investigation to ensure these mistakes don’t happen again.”

Both employees have been suspended pending an investigation, in accordance with Civil Service rules.

FOR IMMEDIATE RELEASE
Friday, January 22, 2016

EDITOR'S NOTE: Please find attached two letters sent from FEMA to Gov. Snyder.

Gov. Rick Snyder: Michigan to seek additional federal aid to help Flint residents despite rejected appeal

State will seek resources through two programs under emergency declaration

LANSING, Mich. – Gov. Rick Snyder today issued the following statement after President Obama denied his appeal for a federal disaster declaration to aid Flint.

However, Snyder said that he will request that Obama reconsider awarding funds under two programs allowed under the emergency declaration: The Individuals and Households Program, which provides such things as housing assistance and replacement of personal property; and money for emergency protective measures.

"I want to continue working to obtain additional federal resources for the people of Flint. These programs could help immensely as we work together on continued solutions to problems created by a failure of government at the state, local and federal levels. Just as our state Legislature is working to quickly approve funding for increased clean water resources and improved public health care in Flint, we are hoping for continued support from the federal government and Michigan's

Congressional delegation."

The state of Michigan continues to coordinate response efforts in partnership with the city of Flint, Genesee County, and local community organizations. For information about clean water resources available in Flint—such as bottled water, water filters, home testing kits, and replacement cartridges, please visit www.mi.gov/FlintWater. For information about donating or volunteering in Flint, please visit www.HelpForFlint.com.

FEMA

January 22, 2016

The Honorable Rick Snyder
Governor of Michigan
Lansing, Michigan 48909

Dear Governor Snyder:

This is in response to your January 14, 2016, request for an emergency declaration for the State of Michigan as a result of contaminated water described in your request as beginning on April 25, 2014, and continuing. You specifically requested a declaration for the Individuals and Households Program and emergency protective measures (Category B), including direct federal assistance and reimbursement, under the Public Assistance program for Genesee County.

The January 16, 2016, emergency declaration FEMA-3375-EM authorized emergency protective measures (Category B), limited to direct federal assistance, under the Public Assistance program at 75 percent federal funding. The emergency declaration authorized the federal provision of water, water filters, water filter cartridges, water test kits, and other necessary related items for a period of no more than 90 days for Genesee County. Additionally, the President offered assistance in identifying other Federal agency capabilities that could support the recovery effort.

After a thorough review of your request, it has been determined that additional Stafford Act assistance, beyond that which has been authorized under FEMA-3375-EM, is not appropriate for this event. Therefore, your request for the Individuals and Households Program and reimbursement for emergency protective measures (Category B) under the Public Assistance program for Genesee County is denied.

This denial may be appealed within 30 days after the date of this letter. Any appeal pursuant to 44 CFR § 206.46, along with additional information justifying the appeal, should be submitted to me through Andrew Velasquez III, Regional Administrator, FEMA Region V, located at 536 South Clark Street, Chicago, Illinois 60605.

Sincerely,

Elizabeth Zimmerman
Associate Administrator
Office of Response and Recovery

U.S. Department of Homeland Security
500 C Street, SW
Washington, DC 20472

FEMA

January 22, 2016

The Honorable Rick Snyder
Governor of Michigan
111 South Capitol Avenue
Lansing, Michigan 48909

Dear Governor Snyder:

This is in response to your January 20, 2016, appeal for a major disaster declaration for the State of Michigan as a result of water contamination described in your request as beginning on April 25, 2014, and continuing. You specifically requested Individual Assistance and Public Assistance, including direct federal assistance for Genesee County and Hazard Mitigation statewide.

After a thorough review of all of the information contained in your initial request and appeal, we reaffirm our original finding that a major disaster declaration under the Stafford Act is not appropriate. The request does not meet the legal definition of a "major disaster" under 42 U.S.C. § 5122, as implemented at 44 C.F.R. §§ 206.2(17). The incident was not a result of a natural catastrophe, nor was it caused by a fire, flood, or explosion. Therefore, I must inform you that your appeal for a major disaster declaration is denied.

As the President has directed, Federal agencies, including FEMA, will continue to assist the State however possible in addressing the needs of the citizens in Flint. Dr. Nicole Lurie, Assistant Secretary for Preparedness and Response at the US Department of Health and Human Services, the Federal government's senior response official, remains our main point of contact for coordinating these ongoing efforts.

Sincerely,

W. Craig Fugate
Administrator

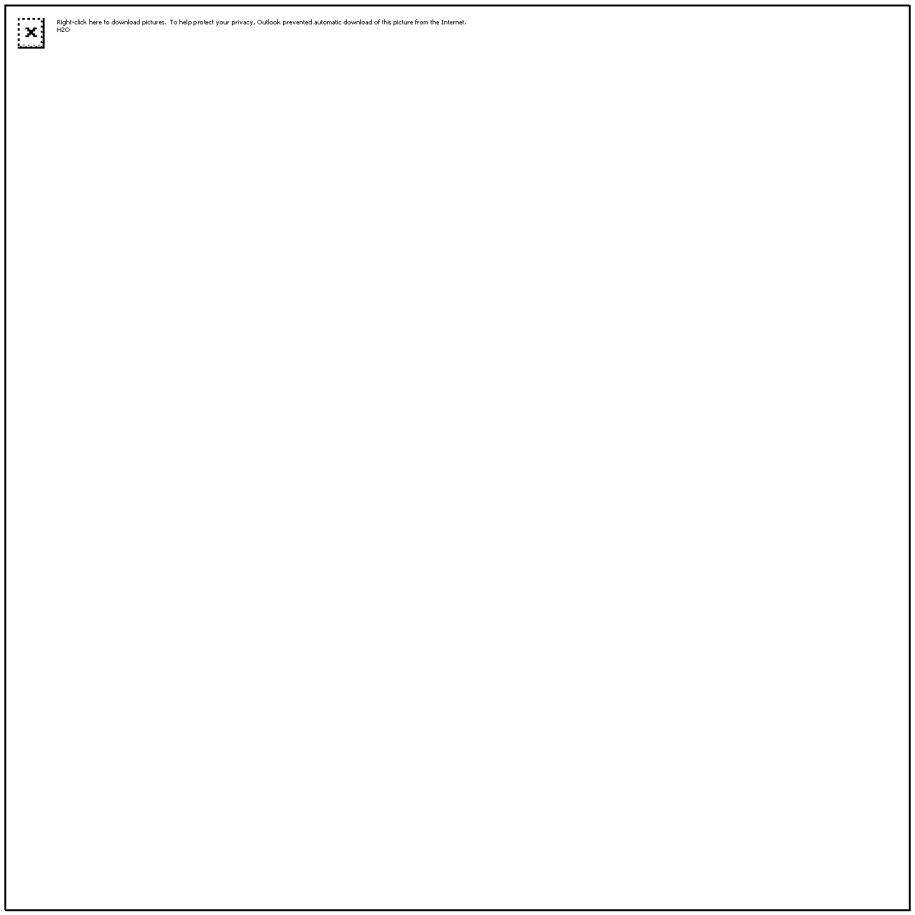
DTMB Header 1022.15

During this month's Martin Luther King Jr. holiday weekend, some state employees turned their "day off" into a "day on" in Flint. There, they delivered bottled water, water filters, replacement cartridges and water testing kits to families. The volunteers joined other Michiganders, turning Dr. King's birthday observance into a day of service.



Mike Zimmer, director of the Office of Good Government and the Department of Licensing and Regulatory Affairs, has shared a link – www.helpforflint.com – that offers other opportunities to contribute time, muscle and money to bring clean drinking water to the community.Here in DTMB, some of our employees didn't wait for an invitation to lend a hand. Office of Retirement Services staff contributed funds that were used to buy 31 cases and 23 gallons of water, which a local organization transported to Flint.

Autumn Hubbard, Ambrea Mack and Sarah Esquivel, who are in the photo at the left, nearly emptied the shelves at their local grocery store. Thanks for your efforts.

everyone.

Now work.

Last week, I signed a new policy that formalizes the annual employee review process and sets expectations for employees and managers. Administrative Policy 200.37 establishes consistent standards for implementing performance plans and reviews. Some of the standards are practices we have followed for years. Others are new. Some of particular note include:

- The mandatory use of HRMN
- A standard Feb. 1-Jan. 31 rating period for all employees
- An Individual Development Plan that specifies training or development programs for each employee
- Competencies and objectives that align to DTMB goals or scorecard metrics
- Consequences for managers and supervisors who do not complete the review process as required

A fundamental role of each DTMB manager or supervisor is to provide employees with direction and feedback on their performance. Employees also are expected to take an active role in pursuing professional development opportunities and achieving their competencies and objectives. I encourage you to review the new policy and talk with your manager or supervisor if you have questions. Of course, I welcome your questions and input as well. Please send your comments and ideas to me at behend@michigan.gov.

I know these have been busy weeks for many of you as you take on additional responsibilities and work hard to provide resources and services for our customers and citizens across the state. Please know that your hard work has not gone unnoticed. Thank you for everything you do, every day.

Have a great week,

David

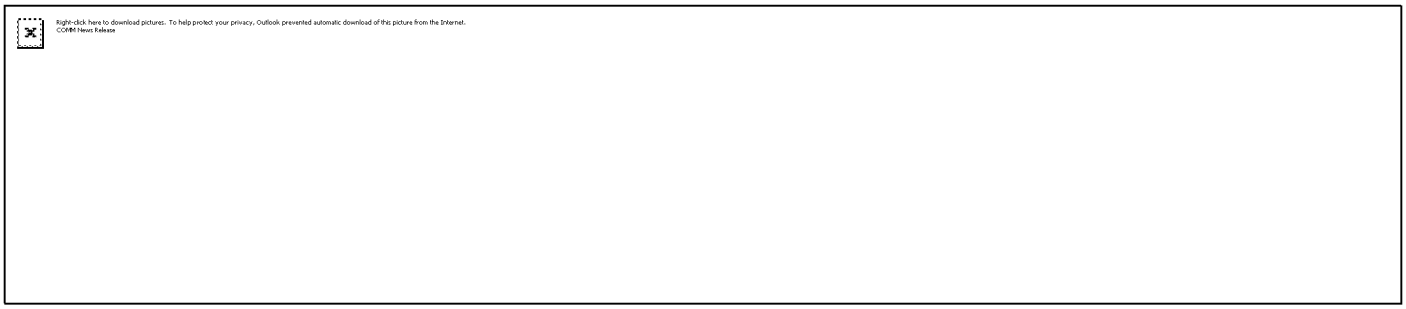
Subject: NEWS RELEASE: Gov. Rick Snyder: State to request additional medical services for Flint residents under age 21



Contacts: Dave Murray, Laura Biehl, or Anna Heaton

517-335-6397

FOR IMMEDIATE RELEASE
Tuesday, Jan. 26, 2016

Gov. Rick Snyder: State to request additional medical services for Flint residents under age 21

Request would boost coverage for children affected by lead exposure

LANSING, Mich. – All Flint residents under age 21 would receive additional healthcare services to address potential problems brought on from exposure to lead, under a request to be sent to the federal government by Gov. Rick Snyder.

"We're focused on protecting the health and welfare of Flint residents, especially children and young adults who might have been exposed to lead." Snyder said. "We want to make sure comprehensive medical care services are available, and we hope the federal government will partner in our efforts."

The request will include:

- Expanded Medicaid eligibility for all residents in the impacted areas up to age 21, regardless of income level. The request would also include the expansion of Medicaid coverage for people already enrolled in other forms of insurance to ensure comprehensive benefits are available to children who may have come into contact with lead in the water.
- Additional, community-based resources to ensure all children, regardless of health

insurance coverage, have access to comprehensive medical treatment. This will include physical and behavioral health treatment in addition to long-term health care services.

- Federal Medicaid match for lead abatement activities in impacted areas. Because of the number of children enrolled in Medicaid in the impacted area, lead-abatement programs would help minimize and/or prevent any long term adverse health problems associated with lead exposure.

These are efforts that will supplement state-supported health and well-being programs that are already in place to help people in Flint and across the state.

The formal request will be submitted soon by the Michigan Department of Health and Human Services to the U.S. Department of Health and Human Services.

For updates on Flint water, please visit www.mi.gov/flintwater.

For more information on how to help Flint residents, visit www.helpforflint.com.

Asott,
Are you intending that this page be the new home page or is it a secondary page? I am not sure what your plan is. I would suggest not to change too much around as we already have customers and you do not want them to think information has moved or been removed. If you know what I mean.
I also will suggest that if much more information is added, that the navigation be reinstated to handle the topic pages.

I think we'll just add text, as others have done, to the photos. One thing I think we need to do is size up the Taking Action graphic to use as a header and move into the header position.

Also, thinking about lightening up the accordion color value – Could you look it over and give your thoughts?

We're still working on other elements but would be interested in any comments or concerns you may have.
Thanks!

Probably one of the nuggets of info we missed by not being at the CMA meeting. ;) So I assume there are no issues working under the triple wide model? 1 double wide with 1 single wide fits as it used to (in terms of components and their settings). We are looking at using the BX Billboard; looks like it needs wider images now and the descriptive text isn't showing. We've tried several different tweaks but it doesn't seem to work. Do you know off hand what the PX width of a double wide/single wide are now?

Thanks.

Good morning Anne,
So we're preparing to do a bit of work on the Flint Water site, nothing ground-breaking or anything like that. I think the only real big change we're looking at is the placement of a feature scroller at the top.
But I'm wondering about the desktop resolution for the site. It seems to be much wider than other SOM sites and I was just curious if you had any information or could give me a bit of the history behind it?
It works well for mobile.

Thanks,
Scott

Hey all -

I just talked to Caleb at DTMB (copied on this email) about the fact that we have too many admins for this site. I need to work on streamlining a bit. We've agreed to add Scott as an admin, but for now we'll hold off adding any more.

The upshot: I'll come up with a plan for content approval and site administration by end of day.

Anne and John, if you want to weigh in on best practices that I should follow, please do. Apologies for any confusion!

Subject: RE: Flint JIC Staffing - Jan. 18-31

Scott,

If you'd rather do it during the weekend (obviously with your supervisor's permission), we'll be working out of the Lansing state emergency operations center Saturday and Sunday.

If tomorrow in Flint works better, we're located at 125 E. Union in Flint – GPS works well (take 69, go past Hammerberg exit and the next exit is Saginaw Street to downtown Flint. Stay left on the service road and turn left on Saginaw Street. Turn right on Third Street. Turn left on Harrison. The State of Michigan building is on the corner of Harrison and Union. Free parking structure across the street.)

Show the guard your state ID, go to the fifth floor and your state ID should get you through the door right next to the elevators. If not, knock.

Thanks Scott!

- Meegan

Subject: RE: Flint JIC Staffing - Jan. 18-31 <image001.gif> Ron, Are you the one who signs-off on website and content? I'm seeing things about this site that I would really like our office to help with. As I mentioned before I would propose an interactive local map that has location markers for the sections, Get Clean Drinking Water (currently Water Resource Sites) and Get a Water Filter (currently Filter Sites) I would focus on making the site more smart phone friendly with plain language as that is most likely the target device platform.

Our time resources are tight here but we would like to lend a hand - I would like to suggest optimizing the site structure on the fly, however. Is that something that you would be open to? If I need to come out I'm willing to do so to some extent, but I'm wondering if we can assist from Lansing as well. We have two in our office who could help with the site.

Thanks for your time,

Ron, I know you are a busy guy up there - I'll try to be brief.
I'm looking at the website and seeing things we could optimize such as the Water Resource Sites
http://www.michigan.gov/flintwater/0,6092,7-345--366279--,00.html
We could build a Google interactive local map based on the text based address info we have posted now. That enables smartphone users to quickly click on the Fire Station of their choice to find exact directions to that site. Just one thought.

Also see below, please.

517-335-6397

FOR IMMEDIATE RELEASE
Wednesday, Jan. 27, 2016

Gov. Rick Snyder appoints field experts to oversee long-term solutions for Flint water system

LANSING, Mich. – Gov. Rick Snyder today named a group of medical and field experts to the Flint Water Interagency Coordinating Committee to set in place long-term solutions to Flint's water system.

The 17 member committee, housed within the Michigan State Police, will be asked to make recommendations regarding the health and welfare of people exposed to lead, study Flint's water infrastructure and determine potential upgrades, review Flint Water Task Force recommendations, and establish ways to improve communication between local and state government.

"Flint residents deserve clean, safe drinking water, and I am confident that the expertise represented on this committee will be a tremendous asset as we continue to address the water crisis in Flint," Snyder said. "I am grateful to these appointees for their willingness to serve on this important committee."

Karen Weaver is the mayor of the city of Flint. She earned a bachelor's degree from Tougaloo College, a master's degree from Long Island University, and a doctorate from

Michigan State University.

Jamie Curtis is the chairman of the Genesee County Board of Commissioners. He earned a millwright apprenticeship certificate from Mott College. Curtis is a representative of Genesee County who shall be submitted by the Genesee County Board of Commissioners.

Marc Edwards is a professor at Virginia Tech with numerous awards and honors for his work. He earned a bachelor's degree in bio-physics from SUNY Buffalo, and both a master's and doctorate of science in environmental engineering from the University of Washington. Edwards will represent subject matter experts.

Mona Hanna-Attisha is the director of the pediatric residency program at Hurley Medical Center. She earned a bachelor's degree in resource ecology and management/environmental health from the University of Michigan, a doctorate from Michigan State University College of Human Medicine, and a master's from the University of Michigan School of Public Health.

Natasha Henderson is the city administrator and chief administrator officer for the city of Flint. She earned a bachelor's degree from the University of Arkansas – Pine Bluff, and a master's in business administration from Texas A&M University – Texarkana. Henderson is a representative of the city of Flint who shall be submitted by the mayor of the city of Flint.

Jim Koski retired as the Saginaw county drain commissioner, a role in which he had served from 1977 to 1980 and again in 1996 to 2011. He is a representative of Genesee County who shall be submitted by the Genesee County Board of Commissioners.

Lawrence Reynolds is president and CEO of the Mott Children's Health Center. He earned a bachelor's degree in political science from Wayne State University and a doctorate from Howard University College of Medicine. Reynolds will represent subject matter experts.

Laura Sullivan is a professor of mechanical engineering at Kettering University. She earned a bachelor's degree in premedical engineering from Arizona State University, and both a master's degree and a doctorate in materials science and engineering from the University of Texas at Arlington. Sullivan is a representative of the city of Flint who shall be submitted by the mayor of the city of Flint.

Mark Valacak is the health officer of the Genesee County Health Department and an instructor at the Michigan State University College of Human Medicine. He earned both a bachelor's degree and a master's of public health degree from the University of Michigan. Valacak is a representative of Genesee County who shall be submitted by the Genesee County Board of Commissioners.

One additional member will be named at a later date.

The following members will also serve on the Coordinating Committee:

- Harvey Hollins, director of Office of Urban Initiatives within the Executive Office of the Governor;
- Col. Chris Kelenske , deputy state director of Emergency Management and Homeland Security within the Michigan Department of State Police;
- Keith Creagh, director of the Department of Environmental Quality, or his or her designee;
- Nick Lyon, director of the Department of Health and Human Services, or his or her designee;
- Mike Zimmer, director of the Department or Licensing and Regulatory Affairs, or his or her designee;
- Nick Khouri, state treasurer, or his or her designee;
- Brian Whiston, superintendent of public instruction, or his or her designee;

Members will serve three-year terms expiring Dec. 31, 2018. Their appointments are not subject to the advice and consent from the Senate.

Gov. Rick Snyder announces comprehensive efforts to strengthen Flint

Marc Edwards, Dr. Mona Hanna-Attisha join teams focused on water, health

FLINT, Mich. – Gov. Rick Snyder today announced a comprehensive effort to embrace all aspects of Flint, from health and infrastructure to economic development to make it a stronger city after the water crisis.

Snyder was joined by Flint Mayor Karen Weaver and leaders of state departments that are focused on working with city leaders and experts from across state government.

"We are committed to Flint, working to address immediate concerns, but also long-term challenges residents may face moving forward," Snyder said. "We hope to help Flint not only recover from this water crisis, but also to improve the city's quality of life for generations to come. It's a proud, resilient city, and we are going to work with people in this city and across state government to make it stronger."

Snyder said Flint-native Rich Baird, a top adviser, will lead a team with an office in the city focused on improving the quality of life in Flint across the board, leveraging services to benefit residents, from nutrition programs to economic development.

Baird will be joined by Lt. Gov. Brian Calley, Harvey Hollins – who heads the Office of Urban

Initiatives—and experts from the Michigan National Guard, Michigan State Police and other state agencies.

"I've appointed Rich because I know he can get things done, and he cares deeply about his hometown," said Snyder. "He has been a passionate advocate for addressing the problems faced by Flint residents."

Mayor Weaver announced that Virginia Tech Scientist Dr. Marc Edwards has been retained by the City of Flint to oversee all water testing done by the State and the Federal Government. He is fully independent, reports to Mayor Weaver and is funded by private donations.

Snyder also announced that Edwards and Dr. Mona Hanna-Attisha, from Hurley Hospital, both instrumental in bringing to light the problems of elevated blood lead levels in the city, have agreed to be part of Flint Water Interagency Coordinating Council (FWICC).

The council, which will set in place long-term solutions for Flint's water system, also includes Flint and Genesee County leaders, educators, and representatives from across state government.

Nick Lyon, director of the Michigan Department of Health and Human Services, outlined the state's request to the federal government to support state efforts to address current and future medical needs. The request is for additional healthcare services for all Flint residents under age 21 to address potential problems brought on by exposure to lead.

The request will include expanded Medicaid eligibility for all residents in the impacted areas up to age 21, regardless of income level; lead-abatement programs to help minimize and/or prevent long-term health problems associated with lead exposure; and additional community-based resources to ensure all children have access to comprehensive medical treatment.

Keith Creagh, interim director of the Michigan Department of Environmental Quality, announced the state will adopt recommendations made by the Flint Water Task Force to focus on water quality and testing.

As a member of FWICC, Creagh will have a subcommittee on water quality and water safety that will advise the city and state on necessary steps relative to the conversion to the Karegnondi Water Authority.

The state is working with the U.S. Environmental Protection Agency on a new sampling protocol developed that examines human exposure and not merely technical compliance.

The state will seek the advice of third-party experts and organizations to help assess the quality and safety of drinking water in homes, schools, child care settings and hospitals.

Water testing results are being posted on mi.gov/flintwater.

The state of Michigan continues to coordinate response efforts in partnership with the city of Flint, Genesee County, and local community organizations. For information about clean water resources available in Flint—such as bottled water, water filters, home testing kits, and replacement cartridges, please visit www.mi.gov/FlintWater. Contacts: Dave Murray, Laura Biehl, or Anna Heaton

517-335-6397

FOR IMMEDIATE RELEASE
Thursday, January 28, 2016

$28 million in immediate supplemental funds for Flint approved by Michigan House, Senate

Funding passed unanimously in both chambers

LANSING, Mich. – Twenty-eight million in direct funding will aid with recovery efforts in Flint, after the Michigan House and Senate unanimously voted to pass a supplemental bill package today.

"Thanks to the swift action of the Legislature, this $28 million will provide the immediate resources needed in Flint," Snyder said. "I want the residents of Flint to know this supplemental funding is just one part of the solution for healing the city. The immediate needs will be met, but so will the long-term needs of residents with regard to public health, infrastructure replacement and community support.

"The quick approval of this funding shows how all of Michigan can pull together in times of crisis, and further shows what working together can accomplish."

The supplemental will allocate funding to:

- Supply free bottled water, faucet filters, and testing kits for Flint residents;
- Put nine nurses in local schools to monitor student health and well-being;
- Provide better nutrition for students and infants through WIC and in-school nutrition programs;
- Replace fixtures in schools, daycares and nursing homes;
- Provide for an infrastructure study using independent experts;
- Treat any children who have high lead levels in the blood, using diagnostic testing, nurse

visits and environmental assessments in the home;
- Help the city of Flint relieve residents of water bill payments.

Gov. Snyder asked for the $28 million during his State of the State address on Jan. 19. Further recommendations on long-term budget resources for Flint will come during his annual budget presentation on Feb. 10.

Thursday, Jan. 28, 2016

Gov. Rick Snyder: Flint emergency declaration extended to April 14

LANSING, Mich. – Gov. Rick Snyder today issued a proclamation calling for an extension to the emergency declaration in the city of Flint and Genesee County.

"The emergency response in the city of Flint has been critical to ensure every Flint family has access to bottled water, filters, and testing kits. While these efforts have a big impact in the short term, there is still much more work to be done.

"Extending this emergency will help us continue these efforts while working on long-term solutions to help Flint recover from this tragedy."

The Michigan House and Senate approved the request today, extending the emergency until April 14, 2016. The extension coincides with the current Presidential Emergency Declaration.

Lt. Gov. Brian Calley announces plan to recycle thousands of plastic bottles in Flint

Genesee County, City of Flint and other partners work to educate residents on benefits of recycling

FLINT, Mich. - A plan to recycle the thousands of plastic bottles being distributed to Flint residents during the water emergency was announced today by a coalition of state, Genesee County and City of Flint partners.

Lt. Gov. Brian Calley said the goal is to provide residents with several convenient options.

“While bottled water has been key to making sure residents have safe drinking water, it’s important to make sure we’re not harming our environment as a result,” Calley said. “The new recycling initiative brings together state, county and city partners to make sure we are keeping plastic bottles from entering landfills or littering Flint streets.”

The plan includes drop-off sites for recyclables and increased promotion of the curbside pickup already offered to Flint residents.

"Too few residents take advantage of the curbside service that is available to them at no extra cost. That's the best long-term solution to the recycling issue," said Matt Flechter, Recycling Market Development Specialist for the State of Michigan. "As a result, we're working to get the word out about how you can get a recycling bin or use designated clear plastic bags for recyclables."

Republic Services, the city's designated trash and recycle collector, picks up recyclables on a bi-weekly basis according to the pick-up calendar. Call Republic Services at 800-438-0966 to get a blue curbside recycling bin delivered to your door. Residents with overflow recyclables can also place them in clear plastic bags or a box marked "Recycling."

In addition, Young's Environmental Cleanup and Schupan Recycling are offering bottle drop-off locations. And TerraCycle will recycle PUR and Brita water filter replacement cartridges dropped off at all five water resource sites located in Flint Fire Stations.

Residents must package recyclables in ways that can be accepted by the recycling operations. Under no circumstances can recyclables be accepted in solid color or grocery bags. Details on what can be recycled are on cityoflint.com. Guidelines, locations, hours and other information are available here.

Other partners helping in the recycling effort are Keep Genesee County Beautiful, Petoskey Plastics, Webcor Packaging, Genesee Packaging, Michigan State Police, Michigan Department of Environmental Quality, and the Michigan Community Service Commission.

As additional recycling options become available, the information will be added to Michigan.gov/flintwater, Flechter said.

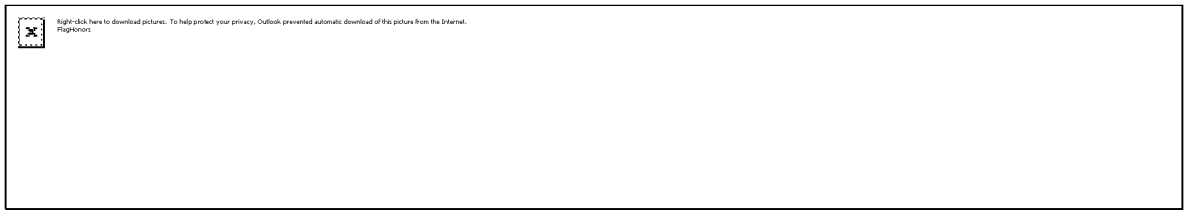
Subject: Thank you for your service



THANK YOU!

Fellow employees,

Each day, more than 46,000 state of Michigan employees come to work with the confidence and commitment to make Michigan a better place to live, work and play. I appreciate the way you care about the citizens we serve, and how it is reflected in the work that you do.

As you have heard from me and the media, our reputation and trust can be severely impacted when people do not make good decisions, or use good judgment in solving problems. That principle is universal, but never more so than when public health is at stake. What happened in Flint can never be allowed to happen again anywhere in our state.

I know that you want to work in a place where employee input is valued, efforts are recognized, and teams are always striving for continuous improvement. That's why we introduced employee surveys, Bureaucracy Busters and other reinvention initiatives. We want and deserve a culture of innovation, continuous improvement and employee engagement at every level. We can never take for granted how important the people are who depend on us to do our jobs, and I am asking you not to let the situation in Flint negatively impact your motivation to excel every day.

Many of you have taken an interest in helping the citizens of Flint on your own time, and I'd like to take this opportunity to recognize and thank those who have volunteered over the last couple of weekends. You have worked tirelessly to deliver cases of bottled water, water filters, replacement cartridges and water testing kits to the families in need. I appreciate you donating your time to help our fellow Michiganders. To date, more than 37,000 homes have been visited by one of our water resource teams.

For employees who would like to further help the people of Flint, please visit www.HelpForFlint.com to learn how you can do so. For additional information and to sign up for daily updates, please visit www.mi.gov/FlintWater. I am committed to ensuring that all residents have access to safe and clean water.

Again, I'd like to express my gratitude for the work you do every day to continuously improve our state and earn the trust of those you serve. You make a real difference.

Thanks,

Governor Rick Snyder

Gov. Rick Snyder secures $28 million in immediate aid to Flint residents

Governor renews call for federal support for Flint

LANSING, Mich. – Governor Snyder today signed legislation bringing $28 million to immediately help families in Flint with lead testing, treatment and other emergency services. The funding was part of a multi-point relief package the governor outlined last week during his state of the state address to the Michigan Legislature.

Speaking before the editors and publishers of the Michigan Press Association, the Governor also renewed his call for additional federal funding and assistance. To date, the federal government has only earmarked $5 million in assistance for Flint.

"This was a failure of government at every level - federal, state and local. I have apologized for the state's portion of this failure, accepted the resignation of top DEQ officials and suspended two pending a civil service investigation. I pledged to be accountable and those are not idle words - they are being put into action every day," Snyder said.

This is the second emergency supplemental funding bill allocated to assist the city of Flint this fiscal year. A previous $9.3 million package was approved in October 2015 to reconnect Flint to

the Detroit Water and Sewerage Department, provide filters and water testing to residents, aid in follow-up health services for children and assist with plumbing inspections at schools and health facilities.

"I thank the Legislature for their quick action to make this additional $28 million a reality. It is a necessary next-step in ongoing recovery efforts for the city. We know that more money will be needed to address long-term concerns and I want to reassure the families of Flint that I remain dedicated to fixing this problem," Snyder said.

House Bill 5220, sponsored by state Rep. Phil Phelps and approved unanimously in both the House and Senate will help ensure Flint residents have access to safe, clean drinking water while helping to do the following:

- Supply free bottled water, faucet filters, and testing kits for Flint residents;
- Put nine nurses in local schools to monitor student health and well-being;
- Provide better nutrition for students and infants through WIC and in-school nutrition programs;
- Replace fixtures in schools, daycares, nursing homes and hospitals;
- Provide for an infrastructure study using independent experts;
- Treat any children who have high lead levels in the blood, using diagnostic testing, nurse visits and environmental assessments in the home;
- Provide additional community education opportunities within the Genesee County Health Department;
- Compensate the Michigan National Guard's work to support water distribution;
- Assist with home lead abatement costs;
- Help the City of Flint with utility issues;
- Provide operational funding for the Flint Interagency Advisory Committee.

The funding bill totals $28 million with $22.6 million from the general fund. The remaining $5.4 million comes from a combination of federal and restricted funds. It is now Public Act 3 of 2016.

Snyder will propose a long-term funding solution to address the ongoing needs of Flint in his Feb. 10 formal budget recommendation.

Gov. Snyder was in Flint on Tuesday, Wednesday and Thursday this week, meeting with Mayor Karen Weaver, holding a roundtable with local pastors and also convening the first meeting of the Flint Water Interagency Coordinating Committee, which brings together community leaders and independent experts including Dr. Mona Hanna-Attisha and Marc Edwards of Virginia Tech University. The governor also met with the Rev. Jesse Jackson, NAACP President Cornell William Brooks and visited local fire stations to thank members of the National Guard and Red Cross volunteers for their door-to-door efforts.

#

The state of Michigan continues to coordinate response efforts in partnership with the city of Flint, Genesee County, and local community organizations. For information about clean water resources available in Flint---such as bottled water, water filters, home testing kits, and replacement cartridges, please visit www.mi.gov/FlintWater. For information about donating or volunteering in Flint, please visit www.HelpForFlint.com.

Gov. Rick Snyder urges Flint residents to get water tested

Gov. Rick Snyder today issued the following statement urging the people of Flint to get their water tested:

"It is essential that all Flint residents have the water in their homes tested as soon as possible. Please make it a priority for your family and encourage your friends and neighbors to obtain testing kits as well. The kits are available free of charge at the water resource sites within Flint fire stations."

Water testing kits are available at city hall and all Flint fire stations. Residents don't need to test their own water - simply fill up the bottle and return it to where it was obtained. Residents with questions can call United Way 2-1-1.

Gov Snyder: All levels of government must work together to help Flint recover

Editor's note: Request and denial letters attached below.

Gov. Snyder released the following statement today after the federal government denied the Michigan Department of Health and Human Services request to use supplemental nutrition funding for Flint children up to the age of 10 who may have been affected by high levels of lead in the water:

"I have strongly and continually stated that it is essential for all levels of government to work together to help Flint recover from this crisis, as it was all levels of government that failed Flint. While I understand WIC funding does not normally cover children over the age of 5, the improved health and developmental growth that will come from better nutrition for these kids necessitates a waiver of this rule.

"I strongly urge the federal government to reconsider this request and provide additional support for children ages 5 to 10. We must draw on all resources possible and work cooperatively to meet the needs of the residents of Flint, both immediate and long-term."

USDA-FNS-WIC Rules Exception Request
For Michigan WIC-Genesee County/Flint

The Michigan Department of Health & Human Services (MDHHS) WIC Program requests approval to increase the access and availability of WIC benefits and services to be expanded for children from 5 to 10 years of age. We seek approval to implement this exception based on the Flint Water Emergency and to fight lead with nutrition. MDHHS requests the additional WIC food and NSA (Admin) funds, plus support for additional Lactation Consultants to further increase, promote and support breastfeeding education.

Scott,
You need link text or title text. The text needs to carry a link and short text does NOT carry a link. I am trying to explain that is what happens when you leave titles blank or with comments.

Everything is located under HOME_PAGE because you created new ones under the new home page area instead of using existing categories for the new components. I renamed that category to HOME_PAGE instead of RESPONSE because that category name did not explain what was under that branch.

You could have probably used several existing categories for populating the new components. It is good to consult with us because we are good at doing that with site redesign. In any case, you will need to identify what content categories will be the "active" content cats and what should be emptied and removed. I was not involved in your thought process when you created this new site design so I am not able to assist you with that process. If you think you have all of the stuff covered under the HOME_PAGE category, then empty and remove the old ones that are not being used.

Gov.'s office is happy J Thanks.
We're trying to map out the categories for a number of reasons but mainly to educate other authors on where to post specific content. It looks like everything points to FLINTWATER-HOME_PAGE? And this is in progress…is this where we make all of our content adds/changes? We noticed one piece of content that is broken, the carousel, the second piece about GIS. That's an example of one item that doesn't seem to reconcile.

Thanks.

Importance: High

Anne,
We have the go ahead to flip the switch. I have two questions for you first though.

- Can you configure it so that when the site is in responsive mode on a mobile device that the right half of the banner drops off completely?
- I have a Google Translate Snippet that I am considering to post to the site. I know that it's not a perfect solution but given the gravity of the situation I want to at least make an attempt to make the info as available as possible. Do you think that I am overthinking this?

FOR IMMEDIATE RELEASE
Wednesday, Feb. 3, 2016

Gov. Rick Snyder: Budget recommendation will include $30 million request for Flint water bill repayments

Consumption and Consumer Use Credit would provide relief to residents, funding is on top of $37.3 million in relief already allocated this fiscal year

LANSING, Mich. – As part of his upcoming budget proposal, Gov. Rick Snyder will ask the Legislature to approve a $30 million water consumption credit plan for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.

The governor's proposal is part of the 2016-2017 Fiscal Year budget he will present to lawmakers next week, and calls for a new Consumption and Consumer Use Credit the city of Flint could apply to residents' water bills until state, federal, and independent water quality officials certify the water is safe for consumption.

"I agree with Flint residents, that they should not have to pay for water they cannot drink," Snyder said. "My budget recommendation will include the request for the state to make payments to the city's water system for residential bills going back to April 2014."

Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly 65 percent) of a resident's water portion of the bill. Residents still would be responsible for paying the sewer portion of their

water bills.

The $30 million recommendation is part of the governor's formal budget request to the Legislature. The credit would not take effect until the budget goes through the full state budget process, including vetting and approval by House and Senate committees as well as a vote of both chambers. Bill credits for residents going back to April 2014 is part of the governor's longer-term approach to the crisis and if enacted will help ensure the fiscal stability and structural integrity of the city's water system.

"As an American who sympathizes with the plight of Flint residents, it's hard to find moral justification in having them pay for water that is not suitable for consumption or until recently, bathing," said Marc Edwards, Charles P. Lunsford Professor of Environmental and Water Resources Engineering at Virginia Tech University. "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

Last Friday, Snyder signed supplemental spending for Flint in the amount of $28 million that will:

- Supply free bottled water, faucet filters, and testing kits for Flint residents;
- Put nine nurses in local schools to monitor student health and well-being;
- Provide better nutrition for students and infants through WIC and in-school nutrition programs;
- Replace fixtures in schools, daycares, nursing homes and hospitals;
- Provide for an infrastructure study using independent experts;
- Treat any children who have high lead levels in the blood, using diagnostic testing, nurse visits and environmental assessments in the home;
- Provide additional community education opportunities within the Genesee County Health Department;
- Compensate the Michigan National Guard's work to support water distribution;
- Assist with home lead abatement costs;
- Help the City of Flint with utility issues;
- Provide operational funding for the Flint Interagency Advisory Committee.

The $28 million emergency supplemental funding signed last week is in addition to $9.3 million in October 2015 to move back to Detroit's water system, test drinking water and provide wraparound services for children.

The governor will formally present his Fiscal Year 2016-2017 budget recommendation on Feb. 10 in Lansing.

Hi Courtney,

The CMA meeting last week talked about Adobe Acrobat being replaced by eCopy. I have a few questions:

- How does eCopy interact with different versions/types of Adobe (Reader, Standard and Professional)? Every year, we upload PDF fillable forms within our online application system, PTMS (Public Transportation Management System). Our transit agencies are required to fill out and save these forms within PTMS. Currently, these forms are only accessible when transit agencies use Adobe Reader 10 or 11. If our existing PDF forms are converted into eCopy, can transit agencies access (fill out and save) the forms using any versions/types of Adobe?

-Does the microphone feature in eCopy allow to skip reading symbols, such as _, (), etc.?

-Does eCopy have File comparison and Create Adobe Portfolio features like Adobe Professional?

It would be great if you could forward my questions to the e-Michigan's eCopy expert.

Thanks!

517-335-6397

FOR IMMEDIATE RELEASE
Thursday, Feb. 4, 2016

Gov. Rick Snyder: Swift Senate approval of $30 million for water bills shows strong commitment to Flint residents

If approved by House, supplemental funding for Flint totals $67.3 this fiscal year

LANSING, Mich. – The proposal announced yesterday by Gov. Rick Snyder to aid the city of Flint with credits to be applied to the portion of residents' water and sewer bills for water used for drinking, bathing and cooking is one step closer to enactment after the state Senate voted unanimously today for passage of the $30 million dollar funding request.

"We want to provide relief to Flint residents who were paying for water they could not drink," Snyder said. "The entire state continues to demonstrate unity in coming together for the residents of Flint, and I greatly appreciate the acts of cooperation, bipartisanship and good will that are advancing Flint's recovery."

If approved by both chambers and signed into law, the Consumption and Consumer Use Credit would aid the city of Flint in applying these credits to residents' water portion of their water and sewer bills until state and federal officials certify the water is safe to consume. Under the plan, the city would credit residential bills going back to April 2014 for water used for drinking, bathing and cooking - about 65 percent of the water portion of residential water and sewer bills. Residents would still be responsible for covering sewer costs as well as water not used for consumption - such as flushing toilets, hot water boilers and outside water use.

Last Friday, Snyder signed a supplemental budget bill for Flint for $28 million to supply free bottled water, faucet filters, and testing kits for Flint residents, put nurses in local schools to monitor

student health and well-being, provide better nutrition for students and infants through WIC and in-school nutrition programs and fund other health care and follow-up services for children with high lead levels.

The $28 million is in addition to $9.3 million appropriated in Oct. 2015 to move back to Detroit's water system, test drinking water and provide wraparound services for children. If this $30 million is approved by the House, state funding for Flint's water crisis for this Fiscal Year will total $67.3 million.

The supplemental spending now heads to the House for consideration, where it will be held for 5 days according to the Constitution before it can be voted on.

The governor will formally present his Fiscal Year 2016-2017 budget recommendation on Feb. 10 in Lansing.

Gov. Rick Snyder: Former head of DEQ water quality unit removed

LANSING, Mich. – After a departmental review of circumstances during the time period leading to the Flint water crisis, the former head of the Michigan Department of Environmental Quality's Drinking Water and Municipal Assistance unit was officially terminated from state employment today, Gov. Rick Snyder said.

"Putting the well-being of Michiganders first needs to be the top priority for all state employees," Snyder said. "Anything less than that is unacceptable. The DEQ is working to change this culture and ensure mistakes that endanger our residents don't occur again."

This former supervisor was dismissed today after a disciplinary conference regarding performance. A departmental review of the actions of a second employee who was suspended last month are continuing.

Subject: RE: eCopy Questions

Courtney and Elaine,

As we discussed during out phone conversations yesterday, here are the answers to your questions:

Q) How does eCopy interact with different versions/types of Adobe?
A) eCopy can create and edit PDF files created by Adobe Acrobat and other PDF applications. The PDF file format is an ISO standard. A PDF is a PDF no matter what manufacturer's software was used to create it. One exception is PDF fillable forms which will not work properly with earlier versions of Acrobat Reader or some other PDF applications. Another exception is Adobe LiveCycle PDF forms which may need to be edited in LiveCycle Designer. The limitation you are experiencing with the PDF forms within PTMS may be due to these exceptions. The limitations would likely also be the same with eCopy created PDF forms.

Q) Does the microphone (read text out loud) feature in eCopy allow to skip reading symbols, such as _, (), etc.?
A) Yes. The Read PDF feature within eCopy does not enunciate punctuation.

Q) Does eCopy have File comparison and Create Adobe Portfolio features like Adobe Professional?
A) Yes. eCopy has both features.

Let me know if you have any more questions.

Subject: eCopy Questions

Hi Courtney,

The CMA meeting last week talked about Adobe Acrobat being replaced by eCopy. I have a few questions:

- How does eCopy interact with different versions/types of Adobe (Reader, Standard and Professional)? Every year, we upload PDF fillable forms within our online application system, PTMS (Public Transportation Management System). Our transit agencies are required to fill out and save these forms within PTMS. Currently, these forms are only accessible when transit agencies use Adobe Reader 10 or 11. If our existing PDF forms are converted into eCopy, can transit agencies access (fill out and save) the forms using any versions/types of Adobe?

-Does the microphone feature in eCopy allow to skip reading symbols, such as _, (), etc.?

-Does eCopy have File comparison and Create Adobe Portfolio features like Adobe Professional?

It would be great if you could forward my questions to the e-Michigan's eCopy expert.

Thanks!

Elaine

Friday, Feb. 5, 2016

Gov. Rick Snyder: Flint businesses can seek assistance through Small Business Administration disaster loans

SBA approved Snyder's Thursday request

LANSING, Mich. – The Small Business Administration today approved Gov. Rick Snyder's request for low-interest disaster loans for businesses in Genesee County and the city of Flint.

"Approval of economic injury disaster loans will help business owners and nonprofits in Flint recover from any damages as a result of the water crisis," Snyder said. "We will continue to seek resources from all levels of government to help the people of Flint and appreciate the SBA's partnership in our efforts."

The approval provides access to federal Economic Injury Disaster Loans, which are working capital loans to small businesses, small agricultural cooperatives, small businesses engaged in aquaculture and most private, non-profit organizations that meet

their ordinary and necessary financial obligations that cannot be met as a direct result of the disaster. Business owners seeking these loans must apply by Nov. 7, 2016.

Repayment of disaster loans is tailored by the SBA to the borrower's financial capacity.

More information and criteria for SBA disaster loans is available atwww.sba.gov/disaster. Eligible Flint business owners can apply online via SBA's website at https://disasterloan.sba.gov/ela.

Gov. Rick Snyder: State partners with Flint human service groups to hire 50 Flint residents to assist with water testing

Additional residents to be hired as more work is identified

FLINT, Mich. –Flint residents will be hired to assist with water testing under a new partnership forged Friday between the state and Flint human service groups, Gov. Rick Snyder announced today.

The partnership with Orchards Children's Services and Flint YMCA's Safe Places Program will help hire and train 50 residents this month to fill jobs on teams helping conduct water tests across the city.

"The people of Flint deserve timely action on emergency efforts to help the city move toward recovery," Snyder said. "We realize our water testing teams need more manpower to get the job done. There is no one better suited to help the city bounce back than Flint residents themselves and we appreciate Orchards Children's Services and the YMCA for helping connect Flint talent with this important positions."

Snyder said this hiring is part of a larger and ongoing effort to ensure Flint residents benefit from

opportunities created by relief efforts in response to the water crisis.

“Orchards Children’s Services and the YMCA are committed to serving children and families in Flint as we have done long before this crisis and will do long after,” said Michael Williams, president of Orchards Children’s Services. “The solution to this situation should involve the people of Flint and that is why we are partnering with the state to strengthen our community for the future.”

Details on how to apply are available at http://www.orchards.org.

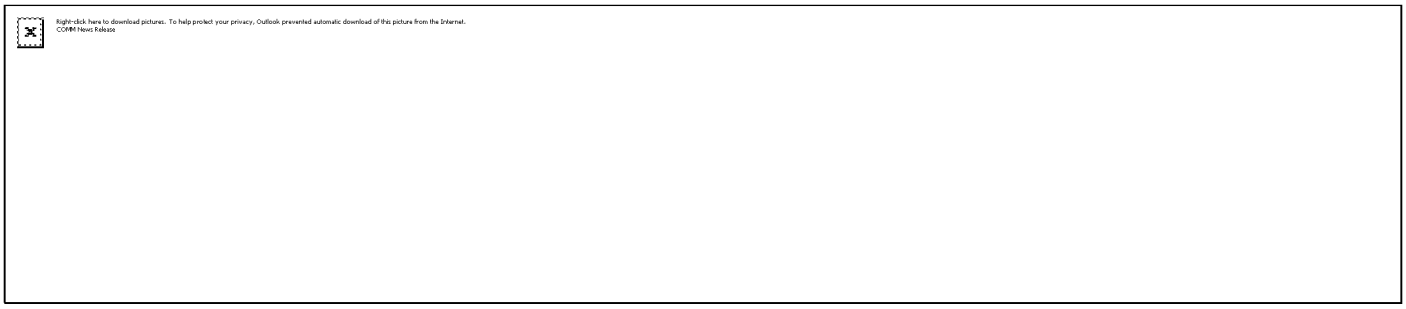
Subject: NEWS RELEASE: Snyder's budget proposal provides strong investments for one Michigan moving forward



Contacts: Dave Murray, Laura Biehl, or Anna Heaton

517-335-6397

FOR IMMEDIATE RELEASE
Wednesday, Feb. 10, 2016

EDITOR'S NOTE: Click to view DPS, Flint, and Statewide infrastructure infographics.

Snyder's budget proposal provides strong investments for one Michigan moving forward

Key investments for Flint water crisis, statewide infrastructure, and Detroit Public Schools

LANSING, Mich. — Gov. Rick Snyder presented his proposed fiscal year 2017 budget today, a total budget that is up just 0.8 percent from last year, calling for critical investments for the Flint water crisis, statewide infrastructure and the Detroit Public Schools. The governor's recommendation also addresses the skyrocketing costs of specialty medications that Michigan residents depend on for better health outcomes.

By investing in the specific needs for Flint and Detroit, setting aside funding for statewide infrastructure needs and the rising cost of prescription drugs, while staying committed to the core statewide priorities of education, talent and economic development, health and human services, and public safety, today's announcement provides the right plan for moving Michigan forward.

A new supplemental budget request for the current fiscal year was introduced, which includes $30 million for relief of Flint water bill payments currently being acted upon by the Legislature.

The supplemental request also includes $25 million for infrastructure needs specific to Flint and

another $165 million to be set aside for statewide infrastructure needs in a newly created Michigan Infrastructure Fund. The $165 million in statewide infrastructure funding represents the first step toward a longer term solution for the state's needs and will be used to make strategic improvements based on recommendations from the Commission on 21st Century Infrastructure.

The overall budget recommendation totals $54.9 billion, an increase of 0.8 percent or $438 million over last year, and includes $10.2 billion in general fund dollars. The general fund is up 1.5 percent from last year which translates to $145 million.

Budget recommendations to aid Flint and Detroit Public Schools include:

Funding for Flint Water Crisis

- An additional investment of over $195 million spread out across several state agencies to continue the support needed for the children and residents of Flint. These funds will be used to address various needs, including safe drinking water; food and nutrition; physical health; social well-being; and educational intervention. When combined with previously enacted supplemental funding in fiscal year 2016, total funding for Flint comes to more than $230 million.

Funding for Detroit Public Schools

- An investment of $72 million a year, for 10 years, from Michigan's tobacco settlement proceeds to offset the Detroit Public Schools' repayment of a debt load expected to accumulate to $515 million by this summer. The $720 million generated from this plan will provide for $200 million needed for the startup and transition costs to create the new district.
- The fiscal year 2016 supplemental includes $50 million to ensure Detroit schools remain solvent through the rest of this school year while the governor's longer term solution is considered by the Legislature. General fund dollars will used for this funding to ensure the school aid fund is held harmless.

The proposed fiscal year 2017 budget is a balanced approach focused on Michigan's continued growth and future prosperity. The governor today also offered a 2018 projected budget, continuing his practice of ensuring that Michigan maintains a long-range planning focus with an emphasis on fiscal responsibility.

With a growing economy and unemployment at its lowest rate in more than 15 years, Michigan's future economic forecast remains bright. With more than 440,000 new private sector jobs since December 2010 and rising personal incomes for families across Michigan, the state is well positioned to continue its comeback.

"I'm committed to providing critical investments needed for the Flint water crisis and Detroit Public Schools while maintaining the long-term focus on the key priorities of education, job creation, health and human services, public safety and fiscal responsibility. Coupled with fiscal year 2016 investments, this recommendation brings total funding for the Flint water crisis to more than $230 million. The plan provides new investments in both K-12 education as well as higher education and continues the emphasis on developing our talent and connecting that talent to jobs," Snyder said. "From day one we have remained committed to our vision and reinvention strategy and it is paying off. This budget recommendation is the next step in the remarkable growth of our state and I look forward to working on it with our partners in the Legislature."

State Budget Director John Roberts joined Snyder in outlining the budget recommendation to a joint session of House and Senate appropriations committees.

"As budget director, I am proud of this budget because we addressed the challenges we have in Flint and Detroit while remaining committed to our core budget principles and managing the taxpayer dollar wisely," Roberts said. "This is a credit positive plan that keeps us on a good growth curve."

Lt. Governor Brian Calley was in Flint during the budget presentation to meet with stakeholders about the budget recommendation and how it will directly benefit the residents of the city.

Snyder's recommended budget will now be reviewed and acted upon by the Legislature in the coming months with the target of having the budget signed in early June.

Additional highlights of the recommended budget include:

Preparing Our Children for the Future

- An additional $150 million for the K-12 foundation allowance, bringing total K-12 appropriations to $12.1 billion, a $1.4 billion funding increase from fiscal year 2011. The increase in the foundation allowance equates to an additional $60 to $120 per pupil.
- An additional $61.2 million or 4.3 percent for the operations of Michigan's 15 public universities and an additional $7.5 million or 2.4 percent for community college operations. The recommendation calls for universities to limit tuition increases to 4.8 percent or less in order to receive the funding increase. This investment restores aggregate university funding to fiscal year 2011 levels.
- An increase of $15 million for career and technical education middle college and equipment program
- An investment of $2.1 million to encourage students toward studying the fields of science, technology, engineering and mathematics.
- An investment of $9 million for water testing in schools.
- An investment of $5 million for school consolidation grants.

Putting People First

- Funding of $91.5 million to treat nearly 7,000 patients living with hepatitis C and $43.7 million to treat approximately 320 children with cystic fibrosis is built into the Department of Health and Human Services' (DHHS) base budget. The state Pharmacy and Therapeutics Committee recently recommended that new specialty medications to treat these conditions be approved for Medicaid patients.
- An investment of $30 million to include a specialty medications prescription reserve in the DHHS budget to address additional specialty medications in the pipeline.
- An investment of $3.4 billion in federal funds for the Healthy Michigan Plan to continue expanded Medicaid coverage for more than 600,000 Michigan residents.
- Another $25.6 million in funding to fully expand the Healthy Kids Dental program to cover all eligible children across the state in all 83 counties, growing the number of children who will receive good dental care to approximately 826,800. When the governor took office, the program covered 285,000 children in 61 counties.

- An investment of $7.6 million for a new patient unit at the Center for Forensic Psychiatry.
- An investment of $22.3 million to fully implement the state's automated child welfare information system.
- Increased funding of $6.1 million to enhance and expand the clothing allowance from $140 to $200 a year for children in the Family Independence Program. The clothing allowance will cover all children in the program, adding nearly 25,000 children.

Job Creation

- A total of $115.5 million to grow Michigan's economy through business attraction and community revitalization efforts.
- An investment of $2 million for the Community Ventures - Challenge Grant, which will provide matching grants to expand service and further program integration in Detroit, Flint and Saginaw to help the structurally unemployed pursue career opportunities and maintain employment.

- A $10 million increase to the skilled trades training program, bringing total funding to $35.6 million to match employers talent needs with skilled workers for in-demand jobs.

Infrastructure/Technology

- A total of $533.3 million in new dedicated transportation revenue, including $189.2 million for the state trunkline fund, $283 million for local road agencies and $61.4 million for rail and public transit, for maintenance and improvement of transportation infrastructure across the state.
- A total of $57.5 million in new federal funds from the Fixing America's Surface Transportation (FAST) Act, to be used for local road agency, state trunk line, and transit projects.
- A total of $132.8 million in new technology investments, including additional funding for cybersecurity to protect critical data from growing threats and added investment for the Information Technology Investment Fund for technology improvements to better serve residents and improve government efficiency.

Protecting the Public

- An additional $9.5 million to run a trooper recruit school with the goal of producing another 85 graduates that will further the enlisted strength within the Michigan State Police.
- A total of $1.5 million to expand the Secure Cities effort to the communities of Benton Harbor, Hamtramck, Harper Woods, Highland Park, Inkster and Muskegon Heights. The program has already produced impressive results by reducing violent crime in Detroit, Flint, Pontiac and Saginaw.
- An investment of $8.5 million to run an academy to train and graduate 350 new corrections officers for prisons across the state.
- A total of $500,000 to help prevent sexual assaults on college campuses through the higher education sexual assault prevention and education initiative.
- Funding of $2.2 million to enhance the capacity to combat the increasing growth of digital crime.

- An investment of $4 million to support safe and secure learning environments for students.
- An investment of close to $1 million for the purchase of new ballistic vests to keep probation and parole agents safe while on field duty.

Stronger Communities

- Eligible counties will receive a combination of revenue sharing payments and incentive-based payments, provided they meet required transparency provisions, totaling $215.2 million, which is the maximum funding allowed under statute to 78 eligible counties, up from 76 counties in the current fiscal year.
- A 3.9 percent increase in constitutional revenue sharing payments for cities, villages, and townships for a total of $781.5 million, based on estimated sales tax collections.
- As an incentive to combine government operations, all local units may apply for grant assistance to help defray expenses related to consolidation of services or programs, with a recommendation of $11 million for this competitive grant assistance program.

Focusing on Long-term Liabilities

- Fiscal year 2016 deposits to the Budget Stabilization ("Rainy Day") Fund will bring the projected total balance to $611 million which equates to a $609 million increase since the governor first took office, when the rainy day fund was at a mere $2.2 million.
- Funding for the school employee retirement system is recommended at $1 billion for K-12 schools, which equates to over $660 per K-12 student. This investment provides fiscal relief to schools for retirement obligations and helps ensure retirement promises made to employees can be kept. The governor's commitment to solving the state's pension and retiree health care obligations is strong. Reforms made to the school employee retirement system and the state employee retirement system have reduced the state's long-term debt by more than $20 billion.
- A $730,000 increase and a total of $5.9 million in ongoing funds is recommended within higher education to provide for costs above a proposed rate cap for seven participating universities in the Michigan Public School Employees Retirement System (MPSERS). Community colleges receive a recommended $3.7 million increase and $74.9 million total in ongoing funds, to provide for costs above the rate cap for MPSERS.

The state's new fiscal year begins Oct. 1.

Gov. Snyder thanks Flint residents for progress on establishing 'sentinel sites' to check water

402 households to help determine when city's water is safe to drink

FLINT, Mich. – Gov. Rick Snyder is thanking 402 households from across Flint who will provide water test data to help determine when the city's water is safe to drink.

The "sentinel sites" will be visited by teams made up of Michigan Departments of Environmental Quality employees and licensed plumbers. They'll teach homeowners how to test their water in a scientifically accurate manner and submit samples on a regular basis for the state to test.

"I want to thank the homeowners participating in this sentinel site program," said Gov. Rick Snyder. "Their diligence in taking scientific samples from their home's water system is crucial in helping us decide the right time to declare when Flint neighborhoods have safe drinking water."

Also launching today is a more streamlined system of addressing homes that test high for lead or copper in their water. This new process will provide residents with more efficient in-home follow-up for environmental and health wrap-around services coordinated by the Michigan Department of Health and Human Services.

"We want to provide the quickest response possible when we see that a home's water tests high

for lead or copper," Snyder said. "We've provided outreach in Flint since October and continue to improve our processes for getting residents the help they need. Streamlined coordination of services between the DHHS, DEQ, Genesee County Health Department and the Flint Local 370 Plumbers Union is yet another step in that direction."

Homes with higher lead levels will receive health and wellness information, blood test referrals, transportation to appointments if necessary and additional bottled water, filters and water sample kits. The homes will also be inspected for possible sources of lead in the water.

Additional information about the Flint water emergency is available at www.michigan.gov/flintwater, by calling United Way 211 or visiting www.helpforflint.com.

Gov. Rick Snyder releases departmental emails produced regarding Flint water crisis

LANSING, Mich. - Gov. Rick Snyder's office today posted emails and corresponding documents that have been made available to requesting entities from state departments regarding the Flint water crisis. The documentation represents requests fulfilled to date by the Department of Environmental Quality, Department of Health and Human Services, Department of Treasury, Department of Technology, Management and Budget, and Department of Agriculture and Rural Development regarding Flint water.

"All levels of government failed the people of Flint," Snyder said. "This crisis should never have happened, but we are making progress each day to meet the needs of residents.

"By making the information easily accessible, everyone can review it and take what they need, and then we can all focus and work together on solutions, healing and moving Flint forward."

NOTE: All emails and attachments can be accessed using the below links. Documents are large and will take time to download. Viewing on a mobile device is not recommended.

LEGAL NOTICE

- The release of these documents is not a waiver of any legal privilege. Because of the voluminous nature of these records, some documents that are subject to the attorney-client, attorney work product, and other privileges may have been inadvertently disclosed. Should this posting include such documents, their disclosure here does not constitute a waiver of the privilege.
- Those seeking information as part of a legal proceeding or investigation should not rely solely upon the documents posted here to satisfy their request. Such requests should be directed to the appropriate state custodian.
- The posting of these documents does not, is not intended to, and cannot be relied upon to, create any right or benefit, substantive or procedural, that is enforceable by any external

Gov. Rick Snyder requests opportunity to testify before federal oversight committee

Gov. Rick Snyder today said he asked the chairman of the U.S. House Committee on Oversight and Government Reform for the opportunity to testify to explain how the local, state and federal governments combined to fail the people of Flint and the improvements he is recommending at the federal level as well as in Michigan to ensure a water quality crisis of this nature does not happen again.

The governor called Congressman Jason Chaffetz (R-UT) on Thursday and offered to travel to Washington, D.C. for a future hearing to explain mistakes made by water quality experts that led to the current crisis and detail the emergency response in place to help residents recover.

“The people of Flint have suffered because they were failed by all levels of government, and so it is understandable that there are questions at all levels of government,” Snyder said. “In Michigan we are learning a great deal from this crisis and I am hopeful the federal government also will use this as an opportunity to examine health and safety protections in place, assess infrastructure needs, and avoid this type of crisis in the future.”

Snyder was not invited to the first Flint water hearing held Feb. 3 by the U.S. House Committee on Oversight and Government Reform. Keith Creagh, interim director of the Department of Environmental Quality, represented the state at the hearing of the full committee.

Snyder last fall appointed an independent task force to identify where specific failures occurred within state government. Their report is expected in the coming weeks. The state Office of the

Auditor General also examined events leading to the water crisis, and released a report that can be found here.

FOR IMMEDIATE RELEASE
Sunday, Feb. 14, 2016

Editor's note: See attached for official letter and waiver request.

Gov. Rick Snyder seeks federal waiver to expand Medicaid services in Flint to people under age 21, pregnant women

Request would ensure access to needed health services

LANSING, Mich. – Gov. Rick Snyder is seeking to expand Medicaid for those up to age 21 and pregnant women who have been served by the city of Flint's water system, and today submitted a request to the Centers for Medicare and Medicaid Services.

"Children, teens and young adults exposed to lead need more coverage to get testing and the treatment they need," Gov. Rick Snyder said. "Expanding these services and lead abatement efforts will mitigate the risks of lead exposure and result in better identifying any long-term health challenges, including behavioral issues."

Approval of the waiver request would mean an expansion of Medicaid and Children's

Health Insurance Program services to about 15,000 more Flint residents.

In his letter, Gov. Snyder said the state of Michigan would dedicate case managers to help individuals with:

- Coordinating primary care physicians and behavioral health providers, Medicaid health plans and others to ensure access to all necessary health services;
- Providing nutrition support;
- Improving access to educational and social supports and services that may be available in the community to assist them with their individual needs.

The program would meet the needs of Flint's children, in addition to many other forms of aid being provided by the state of Michigan, the city of Flint and others. Medicaid and CHIP now are primarily income-based aid programs.

Those eligible for coverage include anyone up to the age of 21 and are being served, or who were served, by Flint's water system between April 2014 and a future date when the water system is deemed safe. Pregnant women and their future children will also be made eligible. Coverage is available to all incomes. Individuals with income over 400 percent of the federal poverty level - which is $47,520 for one person or $97,200 for a family of four - will have the option to buy into the program for full Medicaid benefits.

The state of Michigan continues to coordinate response efforts in partnership with the all federal, state, and local levels of government and community organizations.

Additional information about water response efforts is available at www.michigan.gov/flintwater, by calling United Way's 2-1-1 or visiting www.helpforflint.com.

EXECUTIVE OFFICE
LANSING

RICK SNYDER
GOVERNOR

BRIAN CALLEY
LT. GOVERNOR

February 13, 2016

Ms. Victoria Wachino, Director
Center for Medicaid and Chip Services
Centers for Medicare and Medicaid Services
7500 Security Boulevard
Mail Stop: S2-01-16
Baltimore, Maryland 21244-1850

Dear Ms Wachino:

The State of Michigan hereby submits a demonstration application, pursuant to Section 1115 of the Social Security Act, to address issues related to lead exposure in the impacted areas of Flint, Michigan.

The waiver request has three aims: (1) to expand Medicaid and Children's Health Insurance Program eligibility for select individuals (i.e. children up to age 21 and pregnant women) in the impacted area; (2) to coordinate comprehensive benefits and resources through the provision of Targeted Case Management services; and (3) to provide a mechanism for expanded lead abatement activities in the impacted area. Approval of this demonstration will expand access to health care, case management and other supportive services and is necessary to minimize and further prevent any long-term adverse health effects associated with lead exposure.

We appreciate the assistance both you and your colleagues at the Centers for Medicare & Medicaid Services have already provided, and look forward to working together to achieve our mutual goal of improving the health and well-being of Michigan's citizens.

Sincerely,

Rick Snyder
Governor

Enclosure

A Medicaid Waiver Request to Assist in Addressing Health Impacts from Potential Lead Exposure in Flint, Michigan, Pursuant to Section 1115 of the Social Security Act

February 13, 2016

State of Michigan

Rick Snyder, Governor

Nick Lyon, Director
Michigan Department of Health and Human Services
201 Townsend Street
Lansing, MI 48913

I. Overview

The State of Michigan, through its Department of Health and Human Services (MDHHS), hereby submits the following request for a waiver pursuant to Section 1115 of the Social Security Act. The purpose of this waiver request is to address potential lead exposure in the impacted areas of Flint, Michigan as further described herein.

This request has three aims: (1) to expand Medicaid and Children's Health Insurance Program (CHIP) eligibility for select individuals in the impacted area; (2), to coordinate comprehensive benefits and resources for these individuals through the provision of Targeted Case Management services; and (3) to provide a mechanism for expanded lead abatement activities in the impacted area. Although measures have been taken to address the public health issues brought about by this emergency, obtaining proper health care, case management and other assistance is necessary to minimize and further prevent any long-term adverse health effects associated with lead exposure.

II. Section 1115 Waiver Request

A. Expansion of Medicaid and CHIP Eligibility for Impacted Individuals

MDHHS proposes to suspend or alter existing eligibility requirements to provide Medicaid eligibility for select individuals who are served by the Flint water system or were served by the Flint water system. The requirements to be modified and the target population are described below.

1. Eligible Individuals: Eligible individuals include residents of Michigan who meet one of the following criteria:

    - Those individuals up to age 21 who are served by the Flint water system or were served by the Flint water system between April 2014 and the date on which the Flint water system is deemed safe by the appropriate authorities. This would include any children born to the pregnant women described below.
    - Those individuals who are served by the Flint water system and are pregnant between the date of approval of this waiver request and the date on which the Flint water system is deemed safe by the appropriate authorities.

2. Income and Asset Standards: An income standard of 400 percent FPL would be applied, using MAGI-based methodologies. No asset test would be applied. Individuals up to age 21 and pregnant women with household income above 400 percent FPL could buy in to unsubsidized coverage under the program.

3. Annual Renewals: MDHHS will use an electronic passive renewal process to redetermine the eligibility of those found eligible under this waiver. The renewals will occur at least once in each twelve month eligibility period. Income and residency will be verified. Those who are found ineligible through the electronic process will be given an opportunity to provide paper verification. In addition, any individual who has already been determined eligible for a Medicaid category and is served by or has been served by the Flint water system during the above mentioned period will maintain their current eligibility according to the rules described

above. However, these individuals may be reevaluated using the modified standards if they lose their eligibility at any time before the Flint water system is deemed safe by the appropriate authorities.

4. Duration of Eligibility: Those determined eligible based on the above criteria will retain full Medicaid eligibility according the following schedule:

   - Pregnant Women: The duration of the pregnancy and during the two calendar months post-delivery.
   - All others: Until the age of 21.

5. Benefits

   Eligible beneficiaries described above will receive the full array of State Plan benefits. This includes the provision of Early and Periodic Screening, Diagnostic and Treatment Services (EPSDT) for children up to age 21, Non-Emergency Medical Transportation (NEMT) and Maternal Infant Health Program services.

6. Delivery System

   The State will utilize its existing delivery systems to provide Medicaid benefits to eligible individuals. Individuals will be enrolled in the Medicaid Health Plans, consistent with the State's approved §1915(b) waiver. Populations that are considered voluntary or exempt from enrollment into a Medicaid Health Plan (e.g., Native Americans, beneficiaries who have other Health Maintenance Organization or Preferred Provider Organization coverage, etc.), will remain a voluntary or exempt population from managed care under this demonstration.

   Behavioral health services and related specialty supports will also be provided to eligible individuals through the State's existing Prepaid Inpatient Health Plan system in accordance with the Medicaid State Plan and any relevant waiver authorities. The services provided under this demonstration will be coordinated with existing case management services as appropriate.

7. Cost-Sharing

   Michigan does not impose any cost sharing for individuals under 21 or pregnant women under the state plan. Cost-sharing for eligible individuals described above will be consistent with the Medicaid State Plan. Children under age 19 covered under MIChild (the state's title XXI-funded Medicaid expansion program, with income between 160 – 212% of the FPL) are charged a premium under the state plan. However, individuals subject to this waiver will be exempt from all premiums. Children who are currently eligible for the MIChild program and are served by or have been served by the Flint water system as described in Section II A will also be exempt from premiums for the duration of their eligibility.

B. Targeted Case Management

In addition to the benefits described above, the State plans to offer Targeted Case Management (TCM) Services to all children and pregnant women served by the Flint water system who have

been determined eligible for Medicaid. For the purposes of this demonstration, TCM services are defined as services furnished to assist these individuals within the target population in gaining access to needed medical, social, educational, and other services. The State will provide face-to-face TCM services in a manner consistent with 42CFR 441.18 and 42 CFR 440.169 through a Designated Provider Organization (DPO), as defined below.

1. Target Population

   For the purposes of this demonstration, the target group includes all children who are newly eligible pursuant to Section II A, as well as all Medicaid eligible children (up to 21) served by the Flint water system.

2. Delivery System

   As noted above, the State will provide TCM services through DPOs. For the purposes of this demonstration, a DPO is any provider who has been approved by the State (in coordination with community leaders and stakeholders in the impacted area) and meets the following qualifications:

   - Is currently enrolled as a Michigan Medicaid Provider;
   - Can demonstrate the capacity to provide all core elements of TCM, including comprehensive assessment and care plan management, as well as linking, coordination and long-term monitoring of services;
   - Has a sufficient number of staff to meet the service needs of the target population and the administrative capacity to ensure the provision of quality services in accordance with State and Federal requirements;
   - Has experience in the coordination and linkage of community services; and
   - Has the willingness and capabilities to coordinate with the individual's Medicaid Health Plan, as applicable.

3. DPO Staff Qualifications

   The DPO will provide TCM services primarily through the use of a case manager. The case manager must meet one of the following criteria:

   - Licensure as a Registered Nurse by the Michigan Department of Licensing and Regulatory Affairs and at least one year of experience providing community health, pediatric or maternal of infant health nursing services; or
   - Licensure as a Social Worker by the Michigan Department of Licensing and Regulatory Affairs and at least one year of experience providing social work services to families.

   With active participation by the beneficiary, case managers will be required to provide comprehensive TCM services consistent with 42 CFR 440.169, which includes but is not limited to: performance of a comprehensive history, assessment, and reassessment of the individual; the development and ongoing management of an individualized plan of care, including identification of goals and actions; the provision of ongoing communication with

the individual's primary care physician and health plan (as applicable); coordination of health care and related community support services, including physical and behavioral health-related services (i.e. Medicaid health plans and community mental health services programs), nutritional support and age appropriate referrals to Early On, Great Start Readiness Programs and Head Start; and referral to and assistance in obtaining additional social supports, including financial, housing and transportation assistance, and lead assessment and abatement resources.

C. Lead Abatement

The State also seeks enhancement and expansion of its current lead abatement program through the use of a designated state health program model. As part of this expansion, the State would provide abatement services to homes in the impacted area. Abatement services are defined as the removal of lead hazards, including:

- The permanent enclosure or encapsulation of lead based paint,
- The replacement of surfaces or fixtures, the removal or covering of soil lead hazards, and
- All preparation, cleanup, disposal, and post-abatement clearance testing activities associated with such measures.

Individuals performing abatement services must be properly certified by the state. MDHHS also requests funding to train individuals in lead abatement.

III. Goals and Objectives

Through the provision of direct health care services as part of expanded eligibility, and the inclusion of TCM services, along with the provision of lead abatement activities, the State expects to do the following:

- Identify and address any physical or behavioral health issues associated with actual or potential exposure to lead hazards.
- Mitigate lead hazards in the impacted area through the provision of expanded lead abatement activities, which will result in a reduction in the number of individuals experiencing potential lead exposure.

As part of this demonstration, the State will test the following hypotheses:

- Providing expanded eligibility under this waiver will allow for enrollees to have access to services to identify and address physical or behavioral health issues associated with lead exposure.
- Providing Targeted Case Management services will allow for enrollees to receive assistance in gaining access to needed medical, social, educational, and other service.
- Providing enhancement and expansion of the lead hazard removal program will reduce the potential for ongoing or re-exposure to lead hazards.

To test these hypotheses, the State will utilize the following evaluation measures:

- Utilization of services for waiver enrollees including but not limited to access to primary/preventive services, lead screening, well-child visits, behavioral health services.
- Utilization of TCM services including but not limited to the number of waiver enrollees served, types of referrals provided.
- Number of homes in the designated area in which lead hazard removal has occurred.

IV. Enrollment and Financial Information

The State anticipates approximately 15,000 individuals will be eligible for the group described in Section II A. In addition, approximately 30,000 individuals in the impacted area are currently enrolled in Medicaid.

V. Cost-Effectiveness and Budget Neutrality

The Medicaid Eligibility Group (MEG) and associated amounts listed in the table below in conjunction with the amount calculated in paragraph (B) constitute the budget neutrality limit for the target population.

MEG	DY 1 – PMPM	DY 2 – PMPM	DY 3 – PMPM	DY 4 – PMPM	DY 5 – PMPM
Target Population	$446.83	$449.35	$469.07	$484.60	$500.93

A. The PMPM amounts detailed in the table above represent estimated total computable costs for the full array of State Plan benefits and Targeted Case Management Services for the target population. If the state's experience of the take up rate and other factors that affect the costs of this population indicates that the PMPM limit above may underestimate the actual costs of State Plan benefits and Targeted Case Management Services for the target population, the state may submit a PMPM adjustment for CMS review and approval without submitting a formal waiver amendment.

B. In addition to the PMPM amounts above, the budget neutrality amounts will be increased to include the total computable costs of lead abatement services for the target population in the impacted area. These costs will be incurred in a manner which utilizes existing state administrative infrastructure and lead abatement programs. The non-federal share of these costs will be limited to resources appropriated by the state for the express purpose of lead abatement in the impacted area. Amounts associated with this paragraph will be reported to CMS on an annual basis for inclusion in the overall budget neutrality limit for the target population.

C. The State requests Title XXI funding be made available for the population made eligible by this waiver and all lead abatement activities described herein.

VI. Waivers and Expenditure Authorities

MDHHS seeks waiver of the following requirements of the Social Security Act:

- Eligibility §1902(e)(14) – To the extent necessary to eliminate the income and asset test and modify redetermination requirements for eligible individuals as described herein.
- Comparability §1902(a)(17) or § 1902(a)(10)(B) - To the extent necessary to provide the benefits described in this demonstration request to those individuals who meet the criteria described herein.
- Cost-Sharing §1902(a)(14) insofar as it incorporates Sections 1916 and 1916A, and § 2103(e) - To the extent necessary to waive premiums in the State's MIChild program for those individuals impacted by this demonstration.
- Freedom of Choice §1902(a)(23) - To the extent necessary to allow the State to limit those entities providing Targeted Case Management services under this demonstration.
- Statewideness §1902(a)(1) - To the extent necessary to allow the State to carry out the demonstration as described herein.
- Amount, Duration, and Scope of Services -Section 1902(a)(10)(b) - To the extent necessary to allow the State to provide a benefit package to the demonstration population that differs from the State Plan benefit package.

VII. Public Notice and Tribal Consultation Process

Given that this request is intended to address an emergency, as declared by the President on January 16, 2016, the State seeks an exemption from the public notice process pursuant to 42 CFR 431.416(g). However, the State does intend to seek input from the public as well as various stakeholders as part of the waiver development and implementation process, and has already issued some information through a press release as the State developed this proposal.

Given the expedient nature of this emergency request, the State also requests modification of the tribal consultation process. The State is submitting a letter to the Tribal Chairs and Health Directors in concert with the submission of this request, which will notify them of this proposal. MDHHS expects to schedule a conference call with the Tribal Chairs and Health Directors to discuss the waiver application, seek consultation and answer any questions.

VIII. Implementation Timeline

The State anticipates a phased approach to implementation upon approval of the demonstration.

The State also plans to engage in targeted outreach efforts to reach the individuals described in Section IIA as well as those in the impacted area who are currently eligible. This may include, but is not limited to, increasing the availability of application materials and related support services in the impacted area and providing State eligibility specialists in schools, health care facilities and other community locations to assist with the application process. The State also expects to pursue a streamlined application process for individuals who may be eligible under this demonstration.

IX. Expedited Renewal

Given the possible long-term risks from potential lead exposure, the State requests that upon expiration of the waiver, an expedited renewal process will be granted.

Gov. Rick Snyder: Process under way to locate and replace lead water pipes in Flint

Flint-based engineering firm to track service lines, identify high-priority areas

FLINT, Mich. – Work on replacing high-risk lead service lines in Flint is under way as state and city leaders collaboratively focus on removing pipes in priority areas while analyzing the city's water pipe network to maximize efficiency, Gov. Rick Snyder said.

The state today came to an agreement with Rowe Professional Services, a Flint-based engineering firm, to update recent analysis of water pipes in the city and boost efforts to protect the health and safety of city residents.

"We're committed to the people of Flint, and the top priority is ensuring people have access to safe water," Snyder said. "We need to make sure people will be able to once again turn on the tap and be able to use what comes from it. We're immediately targeting high-risk, high-hazard homes to help those families. Together, we can focus on longer-term solutions."

Retired National Guard Brig. General Michael McDaniel is assisting in coordinating the efforts between the city of Flint, the Lansing Board of Water and Light, state and federal agencies and other stakeholders.

"Flint Mayor Karen Weaver wants this work to be completed as quickly as possible to protect Flint residents," McDaniel said. "We've been working in partnership to identify the areas that need to be addressed immediately and remove lead pipes, bringing peace of mind to Flint families and make

sure this never happens again."

Snyder said a supplemental budget request approved unanimously in the Legislature last month includes money for utilities and can be used to survey Flint's underground network of pipes. Ongoing water testing is revealing where there are high-risk, high-priority areas that should be addressed most quickly. Teams are moving with great urgency to locate where lead water pipes are located and focus on high-risk areas.

"We need to find out which of the city's pipes are made of lead and have lead soldering, and are the most critical to address immediately," he said. "We're hiring Flint residents and training them to assist with that process, working together to make the community safer."

A supplemental budget request to the Legislature includes $25 million that can be used for water infrastructure. Snyder said other resources can potentially be tapped for additional funds to replace pipes.

The $25 million was included in a $195 million package of immediate and long-term support for Flint and its families that Snyder unveiled as part of Wednesday's budget presentation, focusing on health, education and infrastructure.

The budget request includes money for other infrastructure needs, including water testing, inspecting and replacing fixtures in schools and daycare facilities, prioritizing infrastructure repairs and staying connected with Detroit water.

Also included is money for food and nutritional programs, health-related programs and funds to bring relief to residents who had been paying for water they could not use.

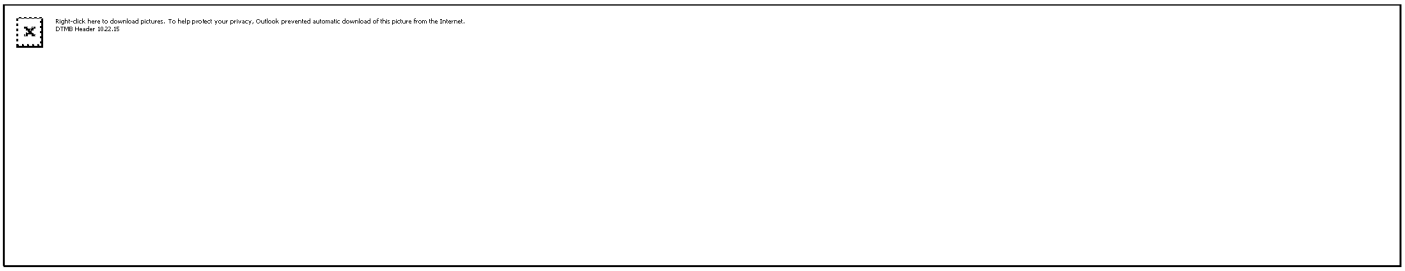
From: DTMB Director and CIO David Behen <dtmb@govsubscriptions.michigan.gov>
Sent: Wednesday, February 17, 2016 10:10 AM
To: Nolan, Anne (DTMB)
Subject: The Gov. Snyder's Budget Proposal



Good morning everyone. I hope everyone had a great holiday weekend.

I had the good fortune to travel to Marquette on Monday with Chad Laidlaw, DTMB's policy and planning analyst, to meet with city, business and university leaders and to address the Economic Club of Marquette. I told them about the many things DTMB does, placing special emphasis on our work in mobility and cybersecurity. Marquette is really developing and making its mark as an innovative and entrepreneurial community.

Now work.

The executive budget Gov. Snyder presented last week outlined his investment plan for Michigan. Yes, the proposal for fiscal year 2017-18 outlined a strategy to address the critical challenges of addressing the Flint water crisis and turning around Detroit's Public Schools, but the $54.9 billion plan also includes investment in four key areas:

- **Education.** The budget increases investment to K-12 schools, community colleges and the state's public universities. Additional funds are proposed to expand career, technical, science, technology, engineering and math programs.
- **Protecting the Public.** The governor's plan expands the Secure Cities program, which has reduced violent crime in four major Michigan cities. Funds also would support an additional trooper recruit school and an academy to train corrections officers, among other initiatives.
- **Putting People First.** The governor recommends continued expansion of the Healthy Kids Dental Program and funding efforts to ensure residents have access to affordable health care. His proposal boosts funds to help cover new higher cost specialty medications to treat conditions such as hepatitis C and cystic fibrosis, among others.
- **Investing in Infrastructure.** The proposal allocates $1.2 billion to maintain and repair Michigan roads, bridges and other critical infrastructure.

The budget proposal also includes FY 2017-18 funding recommendations for DTMB. Gov. Snyder recommends ongoing funding of $1.3 billion for department operations and a one-time allocation of $32.4 million.

A few highlights include:

- $502 million for information technology support for all state agencies and $132.8 million for 14 high-priority IT projects in seven agencies. He recommends increasing the Information Technology Investment Fund by $7 million, from $65 million to $72 million. This fund supports several major multiyear IT projects and upgrades, including the replacement of outdated legacy systems.
- An additional $5 million to support cybersecurity improvements to safeguard citizens' personal information and protect critical infrastructure and government services.
- IT support of $6.5 million to modernize the Office of Retirement Services' systems and enhance customer service for more than 530,000 current and future retirees.

You can see the full executive budget recommendations, which are posted on the Budget Office website. Details of DTMB's proposed budget begin on page B-75.

We can expect to see many changes before the budgets are signed and become effective Oct. 1. The executive budget will be used by the House and Senate Appropriations Committees as they work on their own budgets and hold committee hearings on the proposals. I'll keep you posted as the process moves ahead.

As always, I welcome your notes, whether about the budget process or any other topic. Please send them to me at behend@michigan.gov.

Thank you again for all the good work you do. I hope you have a great week ahead.

David

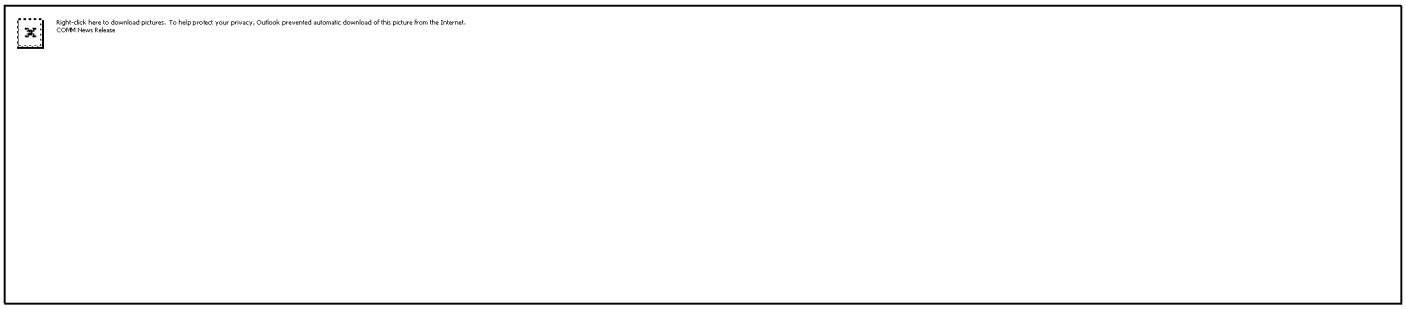
Subject: NEWS RELEASE: Gov. Snyder: Flint to receive additional $2 million in water infrastructure replacement funding



Contacts: Dave Murray, Laura Biehl, or Anna Heaton

517-335-6397

FOR IMMEDIATE RELEASE
Feb. 18, 2016

Gov. Snyder: Flint to receive additional $2 million in water infrastructure replacement funding

Money will help advance action plan Flint mayor and state agreed to on Feb. 8

LANSING, Mich. – Flint will receive an additional $2 million from the state to help with water infrastructure replacement costs, Gov. Rick Snyder said today, which will be available for the city to start removing priority lead service lines within the next 30 days. Under Mayor Weaver's plan, which relies on estimates from the Lansing Board of Water and Light, this funding would cover replacement of lead service lines for several hundred homes.

The financing will come in the form of grant funding, intended to reimburse the city for the $2 million it paid as part of the state-local agreement to reconnect with the Detroit water system last October. The Flint City Council and chief financial officer will have to take action to complete the grant process.

"This funding continues Michigan's substantial and coordinated response to the Flint water crisis," Snyder said. "We continue to ensure every possible resource is being utilized so that Flint families have safe and reliable drinking water in their homes and schools."

The Financially Distressed Cities, Villages and Townships Grant is designed to ensure that funding can be used to ensure the safety, reliability and sustainability of the city's water system. Municipalities are eligible for a grant if they are experiencing one or more conditions indicative of "probable financial stress". The city of Flint also received a $2 million dollar grant from this program in Feb. 2015 to finance water system infrastructure improvements.

The state continues to work closely with the city of Flint on a comprehensive approach to identify lead service lines and replace them, beginning with the highest priority homes – ones with very high lead levels and those with young children or pregnant women in the home. Rich Baird, who is leading Gov. Snyder's Mission Flint team, and State Budget Director John Roberts met with Flint Mayor Karen Weaver on Feb. 7 to discuss the governor's proposed budget recommendation and the plan to coordinate with Rowe Engineering to complete an infrastructure study and begin service line replacement on the most high-priority homes in February. Gov. Snyder and Baird met with Mayor Weaver and Gen. Mike McDaniel, head of Flint's Fast Start program, on Feb. 8, where all parties agreed to move forward on the contract with Rowe to complete an infrastructure study before replacing lines.

To date, more than 10,000 Flint homes have been tested for lead levels. One Flint home on Feb. 11 was identified as having higher than 10,000 parts per billion lead levels. A response team comprised of DEQ, DHHS and a licensed plumber made contact with the homeowner on Feb. 12, where a plumbing inspection, cleansing of aerators and flushing of lines was provided. The homeowner was provided two additional test kits and a bus pass to assist with travel to a clinic for blood testing. The High Lead/Copper Team visited with the resident again Wednesday.

Since Oct. 2, 2015, the state has assisted the city of Flint in the amount of $39.3 million. A supplemental funding bill, pending final legislative approval, will allocate an additional $30 million to aid the city of Flint in crediting a portion of residents' water bills going back to April 2014 for water that was unsuitable for consumption. State Treasurer Nick Khouri is working with the city of Flint's chief financial officer on a plan for implementation of the reimbursements.

We create short urls to certain places so the press or printed matted does not have to sue the full URLs generated by our system.
Have you attended training for content entry or site admin?
If I was you, I would also change the homepage to have Flint Water on the carousel with a better image and more text. The link would go to your new page when it is ready.

I will create the short URL and call me if you need further assistance getting this page done.
You can test it http://w3.michigan.gov/flintwater

I have reviewed the link to the site provided below. I really like the way it looks and I would lean toward working with Michelle for a couple reasons. The first is that I am new in my role and I cannot update or change much on my own yet. Second, I am going to be in Flint covering the event on Friday and not able to make on the fly changes to the page that may pop up. So I would prefer that the DEQ doesn't host the page, as long as we can request/make changes as needed going forward. I can work with Karen to get you all the materials you will need for the initial page setup too. Does that make sense to everyone as a plan for this?

Hi everyone,

Regarding the Flint water website, it seems there might be two separate projects happening at once.

I just spoke with Karen (PIO at DEQ), and she said that Bob Andorfer and Eric Shaw are working on a flint water site.

Our team in the Gov's office asked John Estill and Michelle Stiffler to start on a site, too .

I'm not sure if you four have been working together, but we wanted to make sure moving forward that we are all on the same page.

Best,

Josh Paciorek

Josh,

Below is the in-progress shell, with a couple of stock images just for fill and the categories that were initially requested. I have created a 'Flint Water Admin' group and added you to it, so you should be all set with adding content when you're ready.

Just let us know what cosmetic changes you need, and if you would like any special components such as toggle and/or accordion for the FAQ, etc.

Hi Michelle and John,

Also, I know in the first email I wrote, "
The 'header' should be: "Understanding the Flint Drinking Water Situation"

We'd like to change that to "Taking Action on Flint Water."

Thank you!

To: Thompson, John (DTMB)

Cc: Estill, John (DTMB); Stiffler, Michelle (DTMB)
Subject: RE: New web page

Great, John! Thanks.

It should be a relatively small site and it should be kept very basic like the www.mi.gov/Detroitcantwait or www.michigan.gov/highlandparkschools sites.

I can assist with the creation & publishing of the content. Just let me know what you'll need from me, and I'll be in touch later today as I learn more about exactly what they want included on this site.

Thanks again

Josh

Subject: RE: New web page

HI Josh,

Please work with John Estill and Michelle Stiffler to help get the site created. They are also involved in the launching of the new MDDHS this week so as long as this is going to be a relative small site with not a lot of back and forth changes they should be able to get it done by Friday. Is there someone that can assist with the creation and the publishing of the content so that John and Michelle can focus on getting the graphics and structure of the site built out?

Thanks,
John Thompson

I am getting signed up for training. I plan to take all I can. I used to do some content management stuff for MDOT. I am getting back up to speed and working with Bob Andorfer for assistance.

We do plan to change the carousel to link to the new flint drinking water page using a new image and better text. Thanks for the that recommendation. The FAQ on the carousel now will be removed and added to the new page as an asset.

Thanks
ERIC

Subject: RE: Flint Water page

We create short urls to certain places so the press or printed matted does not have to sue the full URLs generated by our system.
Have you attended training for content entry or site admin?
If I was you, I would also change the homepage to have Flint Water on the carousel with a better image and more text. The link would go to your new page when it is ready.

I will create the short URL and call me if you need further assistance getting this page done.
You can test it http://w3.michigan.gov/flintwater

Good Morning,

Here is the location of the Flint Drinking water webpage. I am new to this step, sorry. What do I need to do to request the vanity URL Michigan.gov/flintwater?
We are still working on the material that will populate the page.

Thank you for your help.

ov. Rick Snyder signs bill authorizing funding for Flint to move back to Detroit w

ıursday, Oct. 15, 2015

ANSING, Mich. – Gov. Rick Snyder has signed bipartisan legislation that will direct funding to the City of connect the city's water supply to the Great Lakes Water Authority until the Karegnondi Water Authority

his funding is a coordinated response to a serious problem and I'm pleased so many parties came togeth y of Flint," Snyder said. "Reconnecting to the Great Lakes Water Authority is only the first step, as the st ısure Flint families and children have clean water in their homes and schools."

ɔuse Bill 4102, sponsored by state Rep. Al Pscholka, authorizes $6 million to move the city back to Detr ıished.

addition to the $6 million:

- $300,000 goes to the Department of Environmental Quality's drinking water and environmental hea
- $1 million will provide for DEQ to test drinking water samples;
- $1 million allows the Department of Health and Human Services to purchase and distribute water fi

- Gov. Rick S Academic, f public scho new approa
- Gov. Rick S task force to
- Gov. Rick S Michigan co looking forw
- Gov. Rick S bill allowing to maintain property tax
- Lt. Gov. Bric louts Michig companies,

It is apparent that associating is the better way to go.

I will try to leave you in peace today. ☺

Thanks for everything from yesterday! If Eric sent you anything about the home page I wasn't cc'd on it so I don't know what is going on there.

Have a good day, Deb

Hello Anne,

I am emailing to potentially ask for your help today. We have updates that may need to be posted to our Flint Water page today. Deb is out sick and I am out of the office. If they do indeed need to be posted, could I send them over to you for and you post them? Sorry if this is not how I should do this.

Thank you!
Eric Shaw

I moved that permit category away from KeyTopics so it was related to Water better. It will appear under Water-Permits now. Doing that will enable that page to use the Water Permits left nav making it more part of the Water site. It also handles that extra space by displaying a left nav.
Win Win!

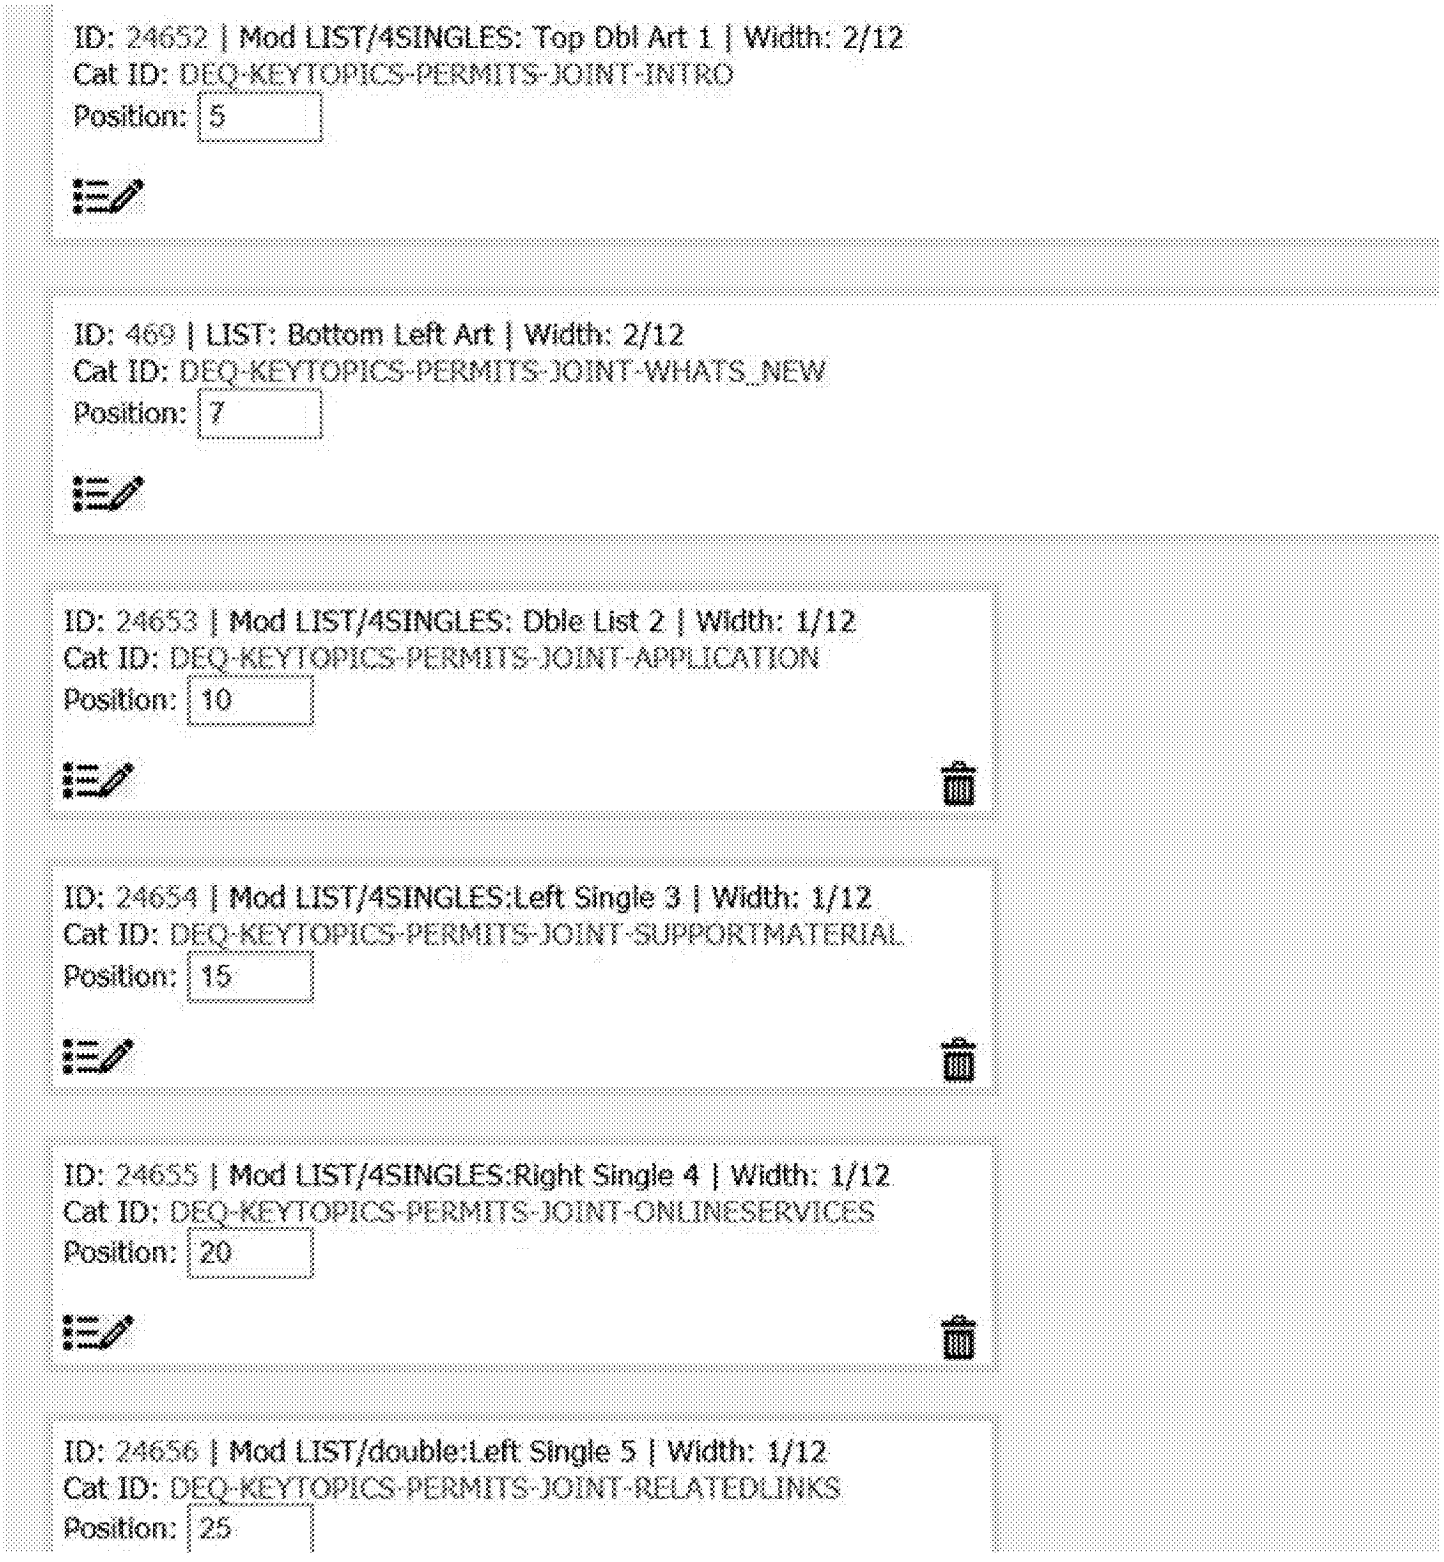
Subject: FW: web page width

Hi Anne,

The category (24403) is set up like this:



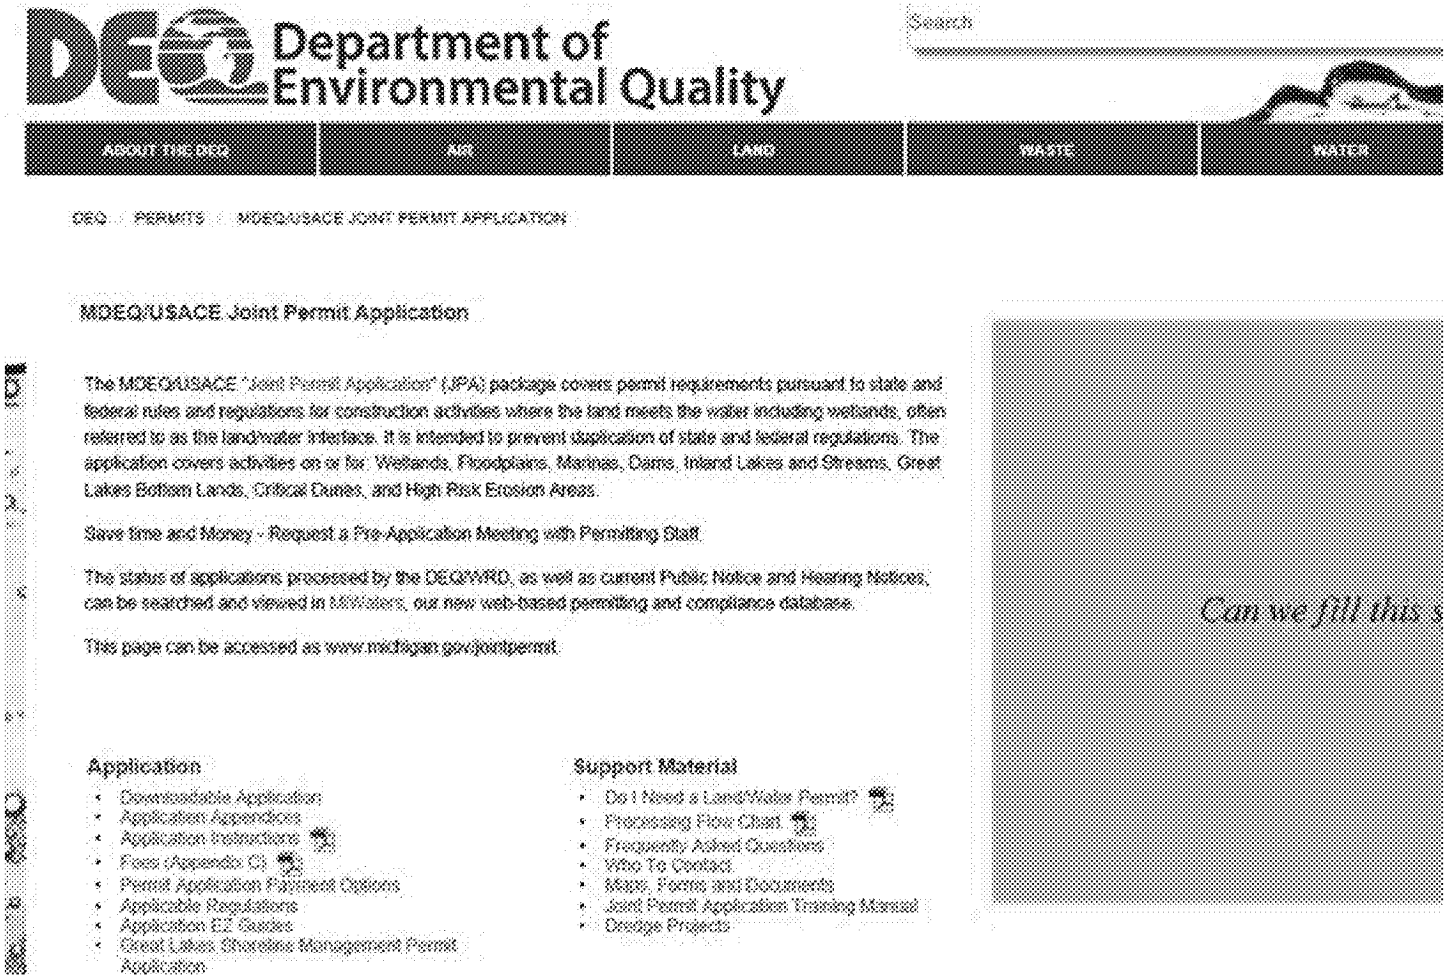
The Introduction is 2/12, can it be larger? The introduction is #24404, content #67370.

Thanks, Deb

From: Fongers, Dave (DEQ)
Sent: Thursday, December 17, 2015 11:08 AM
To: Shaw, Eric (DEQ) <ShawE2@michigan.gov>; Sweet, Debra (DEQ) <SWEETD@michigan.gov>
Subject: web page width

Is there an easy way to have the content on a page expand to use all the width available?

Example:



From: Nolan, Anne (DTMB)
Sent: Tuesday, December 22, 2015 11:46 AM
To: Sweet, Debra (DEQ)
Subject: RE: Flint Water Page Revision

I have not responded because the layout is really not very clean or user friendly. I was under the impression that DEQ was looking for a clean and concise look to the pages for the future. The boxes add a cluttered and random feeling to the page. Maybe this is just a draft but without knowing how the content will be structured below this page. I cannot begin to manage it. Where and what are those boxes linking to? I need the complete picture detailed out in writing before I can assist.
Anne

Subject: Flint Water Page Revision

Hi Anne,

Attached is a draft mockup for the Flint Water web page revision.

Listed below is the requested criteria:

- Current page must remain LIVE until this revision goes LIVE
- Link to "See the Governor's Action Plan" will be provided
- Latest Updates on "What the State is Doing Now" will be a PDF asset (text change from mockup)
- Free Water Filters box will be on every page in the same location (small text edit will be done)
- Color borders are to remain on boxes
- The video will be removed
- Current content will be distributed among new pages (some of the content might change to another page)
  - In Your Schools – School Testing Results
  - News & Info – News Updates
  - In Your Body – Flint Drinking Water Resources
- Graphics in Information on Lead: cannot read words or see faces of children – In Your Body graphic – faucet (please call me about this one)
- In the Information on Lead boxes – change the white behind READ MORE to different background
- On new page - Under Information on Lead:
  - In order from left to right
  - First row - In Your Body, In Your Home, In Your Schools
  - Second row – News & Info, Free Help

I would like to discuss two things with you on Tuesday. I will be telecommuting then. Number 517-651-5808.

Thanks, Deb

Subject: RE: Flint Water Page Revision

Thanks Deb and Anne for working on this with us. I am sure it is getting confusing for you, because I know it is for me. The email chain is needed and I understand that, but being a communications guy, it is easier for me to talk it over and explain what we want and then put what we agree upon in writing.

The hope here is to meet the Governor's After Action Committee requests to clean up our Flint Water Page. I was told to make these changes as soon as possible.

The Mock Up draft I made should help. It makes the Michigan.gov/FlintWater page easier to use and less cluttered with PDF links. The hope is to give short clear descriptions, with a picture or graphic included, in the boxes that will visually grab the attention of the viewer. Example: A concerned parent wants to know what the state found in their child's school. Our "In the School" box will link them to a separate page which will list all school results. The parent can quickly look at the list and find the one they want. This singles out the school results on its own page and makes it easier to find, instead of leaving it on a busier page with all the other links like we have now.

If a person is on the Flint Water page, our proposal should only require them to make two clicks to find any specific information they want. First to click on the box for their chosen topic and then on a specific link within that topic. If they only want to see the "What is the State doing now" link on the main page, it will only require one click.

I have attached the Mock Up of the main Flint Water Page and the "In our Schools" page so you can see how we propose to lay it out.

Sorry for any confusion and I hope this helps, I am here if I can help.

Thank you for your help on this,
ERIC

Subject: RE: Flint Water Page Revision

Hi Anne,

I will try to clean up the information. Eric, if you would like to add information, please do so.

Main Page
Current page must remain LIVE until this revision goes LIVE
Link to "See the Governor's Action Plan" will be provided
Latest Updates on "What the State is Doing Now" will be a PDF asset (text change from mockup)
The video will be removed
Color borders are to remain on boxes
Order of boxes will be: In Your Body, In Your Home, In Your Schools, News & Info, Free Help

Small boxes
The boxes are linking to new pages: In Your Body(Content currently under Flint Drinking Water Resources), In Your Home, In Your Schools(Content currently under School Testing Results, News & Info(Content currently under News Updates), and Free Help.
The new pages will contain the information that is on the current page and additional information will be added.
Each of these pages will contain the Free Water Filters box on them in the same location
For the small boxes – behind the READ MORE the white background needs to be removed.
Graphics: The schools name or children cannot be recognizable.

Thank you, Deb

Subject: RE: Flint Water Page Revision

I have not responded because the layout is really not very clean or user friendly. I was under the impression that DEQ was looking for a clean and concise look to the pages for the future. The boxes add a cluttered and random feeling to the page.

Maybe this is just a draft but without knowing how the content will be structured below this page. I cannot begin to manage it. Where and what are those boxes linking to? I need the complete picture detailed out in writing before I can assist.

Hi,

What do you think of this? I am not sure where to begin. Would all the new pages be Full Content? Two doubles?

Subject: Flint Water Page Revision

Hi Anne,

Attached is a draft mockup for the Flint Water web page revision.

Listed below is the requested criteria:

- Current page must remain LIVE until this revision goes LIVE
- Link to "See the Governor's Action Plan" will be provided
- Latest Updates on "What the State is Doing Now" will be a PDF asset (text change from mockup)
- Free Water Filters box will be on every page in the same location (small text edit will be done)
- Color borders are to remain on boxes

- The video will be removed
- Current content will be distributed among new pages (some of the content might change to another page)
  - In Your Schools – School Testing Results
  - News & Info – News Updates
  - In Your Body – Flint Drinking Water Resources
- Graphics in Information on Lead: cannot read words or see faces of children – In Your Body graphic – faucet (please call me about this one)
- In the Information on Lead boxes – change the white behind READ MORE to different background
- On new page - Under Information on Lead:
  - In order from left to right
  - First row - In Your Body, In Your Home, In Your Schools
  - Second row – News & Info, Free Help

I would like to discuss two things with you on Tuesday. I will be telecommuting then. Number 517-651-5808.

Thanks, Deb

To: Anderson, Madhu (DEQ);Shaw, Eric (DEQ)
Cc: Thompson, John (DTMB)
Subject: RE: Changes to DEQ's Flint Water Page

Flint Water Page

1. Deleted list of new articles and replaced with associated content by associating the Governor's and Directors content to the Flint Water News Category ID 73999
2. Any additional news stories should be associated in this manner to the news category. You should be able to request from the Governor's office to add any Flint Water news by using asking them to associate category id 73999 to the article.
3. Renamed the category FLINT_RESOURCES to IN_BODY since most of the content in that category is about the effects on the body. Also per Deb Sweet's suggestion.
4. Added HOME category and moved 3 pieces of content most related to in the home issues to that category.
5. Removed the video
6. Restyled the Water Testing announcement to be more modern and concise in design.
7. Created header graphics for the topics
8. Once the topics have a lot of content, we can change it to link to separate pages. Currently linking off for a short list of links is not advised.
9. As you know, working on a live page entails some interim updates as the page is live and the goal is to not lose any content along the way. This has been accomplished.
10. Please review and we can tweak tomorrow.

Question:
Have you set up a GovDelivery mailing list for people to subscribe to updates and news on Flint Water? If you had this list, who would be the owner, DEQ or Gov's office?

I would like to clarify the scope of what all state websites means. There are ~120 michigan.gov websites that could be edited. My guess is that we do not want to edit all of them.

We should make changes to the 19(?)agency websites.

Should we also ask webmasters to make changes to sites like Housing and Development Authority (http://www.michigan.gov/msdha)? Children with Special Needs Fund (http://michigan.gov/csnfund) Aging, Mental Health, Etc.

Ok, we can make that happen. I see that Jordan will be drafting a note to PIOs, can you make sure to let them know that this is temporary and will be removed once it is determined the emergency has subsided?

Given that you are at SEOC, I assume that you have been keeping DEQ in the loop on these changes?

Subject: Re: Action item for state websites ASAP

At SEOC now, and we just discussed it and needs to be on all sites for now, sorry. It is temporary and we feel that even the sites that seem unrelated, such as SOS, are one of the sites people visit the most and thus it is best to include on all of them for now. There is a strong feeling that the info. that most needs to get out re; filters, testing, etc. has not gotten out and has to change ASAP.

The category ID for Flint Water News is 73999. Josh can add this category association to the governor's press release content to avoid recreating it.
I associated this one so this is for future reference. The same will go for anyone at DEQ who needs a release for Flint to appear on the page.

Please review this concept for the Flint page. The page remains under DEQ but a new template has applied a "promo" type look to the page.

Thanks. Let's take off the water background, and in the header where it says "to get your water tested for free.." let's change to a quote from the Gov: "I want the Flint community to know how very sorry I am that this has happened. And I want all Michigan citizens to know that we will learn from this experience, because Flint is not the only city that has an aging infrastructure."

Please review this concept for the Flint page. The page remains under DEQ but a new template has applied a "promo" type look to the page.

We just walked Jordan through setting up a new list. She has the code information that Josh will need to add the signup link to the Flint site. You can decide how prominent you want to make the link on the site. You can also reference the ability to sign up for updates in future press releases and other communications.

If you need any further help, don't hesitate to reach out to one of us.

Subject: RE: Action item for state websites ASAP

I think the first option, a listserv. We are looking for exactly what Anne said in earlier email: A GovDelivery mailing list for people to subscribe to updates and news on Flint water. So they could subscribe and then we would push out info. as there are updates to share. We don't really have an existing list to work from except maybe constit inquiries.

Subject: RE: Action item for state websites ASAP

I'm just seeing this email on GovDelivery. I can help with setting that up, but I need to know more about what your goals are.

A listserv in GovDelivery will allow you to communicate with interested parties, sending messages directly to them. A regular email address would be used if you wanted to create a channel for the public to reach out to you.

Not being involved in the conversations at the SEOC, I'm not sure what your goals are. Given that you already have a mechanism for residents to get in touch with constits through phone and email, I would think that you would like to have the listserv.

Let me know what you are thinking and if you want to discuss further. For either option, we would need to determine

who the administrator(s) will be.

The category ID for Flint Water News is 73999. Josh can add this category association to the governor's press release content to avoid recreating it.
I associated this one so this is for future reference. The same will go for anyone at DEQ who needs a release for Flint to appear on the page.

Subject: RE: Action item for state websites ASAP

All,
For the duration of the Flint Water Crisis, I need to allow a few people access to the DEQ water category so they can associate content to the Flint Water pages.
I have created a group (Flint Water) and Josh Paciorek from the Governor's Office and Ron Leix from MSP are members of that group. The group has access to DEQ-WATER. I will stress to them that they should ONLY work within the confines of the Flint Water site.
When the Flint Water Crisis has been alleviated, the pages can revert back to the normal DEQ format and those perms should be removed.
Any questions or issues can be directed to Anna in the Gov's office.

Anne

Subject: RE: Flint Water Help Today

All,
We are ready to move all of this to a separate site fro easier updating. Please mention this to the group. It would be seamless and can be done in a matter of minutes. You can see the site at w3.michigan.gov/flintdrinkingwater
The current redirect will be directed to that site and the site name will be changed to /flintwater.
I think this will be a better option than having it inside of DEQ for the time being.
Having it there poses issues with permissions as we are not able to provide limited perms to this content without opening up all of DEQ and having DEQ having perms to all of the Flint Water stuff.
Let me know if you would like this separate site launched.

Subject: Flint Water Help Today

All,
I am working at the Joint Information Center in Flint today and I have been tasked with making some improvements to the /flintwater website, with your help, of course. I don't have many details yet, but I do know that they are hoping that we can create a multimedia section where all the photos and video that has been and will be gathered can be posted.

I'm likely to get more information in the next couple hours, but I wanted to get you thinking about our options. Some of the media that we have includes, video and audio PSAs, photos and video from various press events and video tutorials.

I will be in touch soon, but feel free to contact me if you have any questions in the meantime.

Thanks,

Subject: RE: Flint Water Help Today

The Flint Water site is on its own now. The group has been created and admins added are: Christie Christman MSP, Darlene Harris DEQ, Josh Paciorek GOV, Eric Shaw DEQ...
Send me any additional names that need access to the site.
The DEQ Flint Water page remains at http://www.michigan.gov/deq/0,4561,7-135-3313_3675_73946---,00.html but is asks people to visit the new standalone site.
The URL /flintwater goes to the new site.

Anything else, just let us know.

Subject: Flint Water Help Today

All,
I am working at the Joint Information Center in Flint today and I have been tasked with making some improvements to the /flintwater website, with your help, of course. I don't have many details yet, but I do know that they are hoping that we can create a multimedia section where all the photos and video that has been and will be gathered can be posted.

I'm likely to get more information in the next couple hours, but I wanted to get you thinking about our options. Some of the media that we have includes, video and audio PSAs, photos and video from various press events and video tutorials.

I will be in touch soon, but feel free to contact me if you have any questions in the meantime.

Thanks,

Caleb Buhs

Thanks Michelle. I have asked the JIC to please coordinate their requests and work through one individual. Is there someone on the eMichigan team that you would like them to contact for changes.

We can talk this through on Friday, if you'd like.

Caleb Buhs

To endorse Caleb's request to funnel all items through one person:
Great idea. Rick was called on the eMichigan On Call phone yesterday and that number is only supposed to be active for after work hours. Calling the on call number during work hours may not result in a prompt response as most of us do not carry it at work.
Rick and I did a couple of things yesterday resulting from that call.
The site does have permissioned agency people who can log in make these types of changes with eMichigan filling in for emergency postings.

Scott,

If you'd rather do it during the weekend (obviously with your supervisor's permission), we'll be working out of the Lansing state emergency operations center Saturday and Sunday.

If tomorrow in Flint works better, we're located at 125 E. Union in Flint -- GPS works well (take 69, go past Hammerberg exit and the next exit is Saginaw Street to downtown Flint. Stay left on the service road and turn left on Saginaw Street. Turn right on Third Street. Turn left on Harrison. The State of Michigan building is on the corner of Harrison and Union. Free parking structure across the street.)

Show the guard your state ID, go to the fifth floor and your state ID should get you through the door right next to the elevators. If not, knock.

Thanks Scott!

Ron, I know you are a busy guy up there - I'll try to be brief.
I'm looking at the website and seeing things we could optimize such as the Water Resource Sites http://www.michigan.gov/flintwater/0,6092,7-345--366279--,00.html
We could build a Google interactive local map based on the text based address info we have posted now. That enables smartphone users to quickly click on the Fire Station of their choice to find exact directions to that site. Just one thought.

Also see below, please.

Ron, I know you are a busy guy up there - i'll try to be brief.
I'm looking at the website and seeing things we could optimize such as the Water Resource Sites http://www.michigan.gov/flintwater/0,6092,7-345--366279--,00.html
We could build a Google interactive local map based on the text based address info we have posted now. That enables smartphone users to quickly click on the Fire Station of their choice to find exact directions to that site. Just one thought.

Also see below, please.

Hey all -

I just talked to Caleb at DTMB (copied on this email) about the fact that we have too many admins for this site. I need to work on streamlining a bit. We've agreed to add Scott as an admin, but for now we'll hold off adding any more.

The upshot: I'll come up with a plan for content approval and site administration by end of day.

Anne and John, if you want to weigh in on best practices that I should follow, please do. Apologies for any confusion!

<image001.gif>
Ron,
Are you the one who signs-off on website and content? I'm seeing things about this site that I would really like our office to help with. As I mentioned before I would propose an interactive local map that has location markers for the sections, **Get Clean Drinking Water** (currently ***Water Resource Sites***) and **Get a Water Filter** (currently ***Filter Sites***) I would focus on making the site more smart phone friendly with plain language as that is most likely the target device platform.

Our time resources are tight here but we would like to lend a hand - I would like to suggest optimizing the site structure on the fly, however. Is that something that you would be open to? If I need to come out I'm willing to do so to some extent, but I'm wondering if we can assist from Lansing as well. We have two in our office who could help with the site.

Thanks for your time,

Good morning Anne,
So we're preparing to do a bit of work on the Flint Water site, nothing ground-breaking or anything like that. I think the only real big change we're looking at is the placement of a feature scroller at the top.
But I'm wondering about the desktop resolution for the site. It seems to be much wider than other SOM sites and I was just curious if you had any information or could give me a bit of the history behind it?
It works well for mobile.

Thanks,
Scott

Probably one of the nuggets of info we missed by not being at the CMA meeting. ;)
So I assume there are no issues working under the triple wide model? 1 double wide with 1 single wide fits as it used to (in terms of components and their settings). We are looking at using the BX Billboard; looks like it needs wider images now and the descriptive text isn't showing. We've tried several different tweaks but it doesn't seem to work. Do you know off hand what the PX width of a double wide/single wide are now?

Thanks.

Good morning Anne,
So we're preparing to do a bit of work on the Flint Water site, nothing ground-breaking or anything like that. I think the only real big change we're looking at is the placement of a feature scroller at the top.
But I'm wondering about the desktop resolution for the site. It seems to be much wider than other SOM sites and I was just curious if you had any information or could give me a bit of the history behind it?
It works well for mobile.

Thanks,
Scott

Hey all -

I just talked to Caleb at DTMB (copied on this email) about the fact that we have too many admins for this site. I need to work on streamlining a bit. We've agreed to add Scott as an admin, but for now we'll hold off adding any more.

The upshot: I'll come up with a plan for content approval and site administration by end of day.

Anne and John, if you want to weigh in on best practices that I should follow, please do. Apologies for any confusion!

Scott,
Are you intending that this page be the new home page or is it a secondary page? I am not sure what your plan is. I would suggest not to change too much around as we already have customers and you do not want them to think information has moved or been removed. If you know what I mean.
I also will suggest that if much more information is added, that the navigation be reinstated to handle the topic pages.
Let me know what you need me to do and I am here to assist.

Anne

In process: http://w3.michigan.gov/flintwater/0,6092,7-345-75251---,00.html#RESOURCES

I think we'll just add text, as others have done, to the photos. One thing I think we need to do is size up the Taking Action graphic to use as a header and move into the header position.

Also, thinking about lightening up the accordion color value – Could you look it over and give your thoughts?

We're still working on other elements but would be interested in any comments or concerns you may have.
Thanks!

Probably one of the nuggets of info we missed by not being at the CMA meeting. ;)

So I assume there are no issues working under the triple wide model? 1 double wide with 1 single wide fits as it used to (in terms of components and their settings). We are looking at using the BX Billboard; looks like it needs wider images now and the descriptive text isn't showing. We've tried several different tweaks but it doesn't seem to work. Do you know off hand what the PX width of a double wide/single wide are now?

Thanks.

Anne,
We have the go ahead to flip the switch. I have two questions for you first though.

- Can you configure it so that when the site is in responsive mode on a mobile device that the right half of the banner drops off completely?
- I have a Google Translate Snippet that I am considering to post to the site. I know that it's not a perfect solution but given the gravity of the situation I want to at least make an attempt to make the info as available as possible. Do you think that I am overthinking this?

Flint Water Advisory

Date/Time:

Effective Wednesday, January 7, 2015

Details:

The City of Flint recently sent out the attached notice regarding violations to the drinking water standards. While the City of Flint states that corrective actions are not necessary, DTMB is in the process of providing a water cooler on each occupied floor, positioned near the water fountain, so you can choose which water to drink. The coolers will arrive today and will be provided as long as the public water does not meet treatment requirements.

	Since we spend about 40 hours a week at our workplaces, isn't the office the best place to try out some new energy-saving tricks? The Energy Information Administration estimates that if commercial and industrial buildings improved their energy efficiency by 10 percent, our economy could see yearly savings of nearly $20 billion.

Subject: Flint Drinking Water

Team,

I made contact with the City of Flint to get an update on the potable water issue and found that on the re-test the water met the violated MCL from the test in January. Mr. Wright with the City Water Department told me they have made several changes to their operation and are planning to add charcoal filters to the system late this summer. The department still has to meet the MCL guidelines in their quarterly sample May 16th before reporting the water is all clear but it does look like they are making progress. I thought you guys might like the information to help keep up on the issue.

Thank you,
Brian

Flint Alternate Water Resource

Date/Time:

Monday, October 5, 2015 at 6:00 a.m. until further notice

Details:

Beginning Monday, October 5, 2015, water coolers will be available in common areas on floors 1-6 of the Flint State Office Building. Although the drinking water has been tested and falls within all DEQ and EPA regulation standards, alternate water sources will be offered to accommodate all tenants due to recent concerns regarding the water supply. Water testing will continue and the alternate water source will be available until all quality concerns are addressed.

Thank you for you cooperation.

Did you see Flint will be tied back to the Detroit water system in the next 2 weeks? Still lots of water sampling to do for planning purposes but at least the city will be back to the same system they were before the change to the Flint River. The plan is to still tie into the new water supply after completion of the main line in the summer 2016. The report did say customers of the city water should have received notice of the higher lead samples in August 2015 for posting but we didn't receive the notice like we did back in January for the other reporting violation. It sounds like the city has a plan I will keep you posted as it goes forward.

> ## House Approves Flint Water Fix
>
> The House unanimously voted this evening to approve $9. 35 million of state funds to return Flint to the Detroit water system and pay for additional state staff in the city's schools to gauge exposure to lead, handle evaluation and protocols on drinking water and to assist with plumbing engineers.
>
> Governor Rick Snyder last week called for state funds to return the city to drawing water from the Detroit system and ending a disastrous move to pull water from the Flint River, as well as funds to pay for additional state staffers from the Department of Health and Human Services, the Department of Environmental Quality and the Department of Licensing and Regulatory Affairs working in the city.
>
> The supplemental (HB 4102) allocates $6 million to get the city back on Detroit's water system; $300,000 for DEQ's drinking water and environmental health services; $1 million for DEQ's laboratory services; $1 million for DHHS emergency services to purchase and distribute water to Flint residents; $850,000 for follow up services for children, including testing lead levels and care for those with abnormal levels; and $200,000 for plumbing inspections.

Insufficient corrosion controls for water drawn from the river – which is inherently more corrosive than water drawn from Lake Huron, where the Detroit system draws its water – caused lead from the city's old service lines to leach into the water, leading to lead levels in the water exceeding the federal standard to trigger remediation and to elevated lead levels in the blood of some Flint children.

Larry,

Just want to let you know that I have been working with Jenette Doll on the flint state of emergency and finding a location for the (PIOs) Public Information Officials .

We are putting them on the 5th floor in our conference room and will be setting up an area for them to do interviews in our other conference room.

I T has a tech onsite to install phone and data as needed. They should be up and rolling by noon Friday .

I can take two chairs that are stored for DHHS that are like new. We will need to get two soon.

I just spoke with Larry and he said that we can get two from Lansing this week or sooner if needed.

Im sure our tenants won't mind if I borrow two chairs temporarily. Given the circumstances.
I would even give them two of mine or my staffs chairs (not really in great shape mind you). I just didn't want them to have something like that.

But Monday two chairs will be in that office and we can swap out later .

Is everyone ok with that.

Marsha-

We have one of the offices originally designed for the Governor's staff in Flint available for your use. It has furniture in it minus a chair and is ready to use starting today. I am sure that we can find an extra chair onsite. There is data in the wall, but I did not see a patch cord on the desk.

I have attached a furniture plan noting the location on the 5th floor and this room's relative location to where another group of individuals related to the water situation are stationed.

This space is currently vacant and in DTMB's control. I have cc'd Mike Noonan and Brian Walts onto this email and they are both aware of your request and in agreement that this room is open for your use. Mike is the Facility Manager and Brian the Building Trades Supervisor.

Please let us know if you need anything else.

We also have test done and another one on the way . Are levels were very low they are available on the shared file .

We also have been providing Culligan drinking water in the common areas .
I was also just informed that FEMA will reimburse us for the water bills since April

Subject: FW: Sample Storage Space

Good afternoon,
Do you guys know if we could make heated storage space available temporarily for DEQ Flint water samples at the SOM W.C? The Initial estimate of space needs based on the number of potential samples would be 1000-1500 ft^2, enough to hold around 100 (3'x4') pallets with additional space to maneuver around to get to specific pallets if necessary.
Thanks,
Jamie

Subject: Sample Storage Space

Neal – Based on our phone conversation, I'm looking for storage/warehouse space for a potentially large amount of water samples over the next few months with the State of Emergency that is happening in Flint right now. Wondering if there are any locations near the Lab that we could utilize for this effort if necessary. At a minimum, the space would need to be secured and temperature controlled, only to prevent freezing. Also looking for pallets that can hold around 1000 Lbs or more. The idea is that we palletize samples here and have them transferred to this storage location on a daily/weekly basis as necessary. There is really no storage space for this kind of capacity here at the State Lab. Initial estimate of space needs based on the number of potential samples would be 1000-1500 ft^2, enough to hold around 100 (3'x4') pallets with additional space to maneuver around to get to specific pallets if necessary.

Sandip – Copying you on this message if you have any ideas that could help.

Thank you!
Kirby

Martin, Ric (DTMB)
Subject: Flint SOB drinking water notice action

Team,

We have the notices posted and the new water dispensers have been installed at all the drinking fountain locations at the Flint State Office Building in reaction to the City of Flints notice of a violation in the drinking water standard for the water they supply to our Flint Facility. Please see photo attached. The potable water vendor couldn't deliver till Friday so we pick up the equipment and installed to avoid any extra disruption this issue may cause our tenants and visitors to the building. We worked the vendor for a new customer price so the first month rent on the dispensers was free and will only be $7.00 per month after that with a price of $4.00 per 5 gallon container of water. I have made contact with the City of Flint Water Department to gain more information on the corrective action plan and possibly the time line to correct the issue but they were unable to provide any more information at this time. Please let me know if more action is necessary and I will keep everyone posted if I hear any new information on this issue.

Thank you,
Brian

Monday, January 25, 2016

To: The Kettering Community of Parents of our Students and our Alumni

Subject: Kettering Campus Water Update[1]

I know that you value the excellence of the education we provide, but I expect as alumni or parents of students currently enrolled at our great University that you are concerned about the barrage of news about Flint's water supply. I am a proud parent of a Kettering student, and my family and I reside in Flint, so I understand deeply and very personally how you might be feeling about the situation as reported in the media.

Last week, I sent a detailed Kettering Water Update letter to our campus and to our students. Because I know (from direct experience!) that students may not always communicate promptly with their parents on even important issues, I thought I would take a moment to update you and our alumni directly on this issue, because I know it is a subject of concern.

Unfortunately, as is often the case in public crises, a great deal of misinformation about the water supply in Flint is being reported as fact. Just as distressingly, though, a great deal of important information that we do have about the situation is also *not* being reported.

Kettering campus water is safe, and our faculty, staff, students, and campus residents are **not** being exposed to contaminated water on campus. We are, and have been even before the current crisis emerged, committed to ongoing testing of our water to ensure the safety of the campus water supply. Moreover, the entire water supply of Flint has not been contaminated with lead; although some sections of the city have experienced problems, some severe, other sections have not.

All of us deplore that any single person has been exposed to unsafe levels of lead in the water; however, many people living in Flint have not been exposed to water containing elevated levels of lead in their residences or places of business.

I also want to clarify that *the water from the Flint River that was used as the city's water source from April 2014 through October 2015 was not contaminated with lead.* The contamination, where it occurred, was due primarily to interactions between treated river water and lead supply lines in the distribution system, particularly in lead lines connecting individual houses to local water mains. This is not a global problem with the water, but a problem with how that water - after treatment - interacted with some pipes and other elements of the city's distribution system. This interaction was often (considerably) different - even house-by-house on a single block.

In this letter I want to outline for you what we know about the nature of the contamination of the Flint system, how the university has responded to it, what we have done and are doing on an ongoing basis to ensure the integrity and safety of drinking water on the campus, and how we are working to ensure that those in the campus community who live off-campus in private housing

[1] This memo is a revision of an earlier memo dated Monday, January 18, 2016. In this revision, any references and citations to measured blood levels in children or numbers of children impacted in Flint have been removed, because the original data cited and as supplied by the State of Michigan has been significantly revised since the publication of the original memo.

have access to appropriate information, tests, and filters to ensure and monitor the safety of their private supplies.

Because I want to document what I write, I am also including footnotes that will lead you, if you are interested, to the sources of my information, something I learned to do as a faculty member and still highly value. We are committed to deploying every resource at our disposal to continue to ensure the safety of our entire campus community and our visitors. We value your input, and I hope that as members of the Kettering Community and of this great University that the information presented in this letter is helpful to you. If you have questions, comments, or thoughts on this issue we welcome you to send them to us at water@kettering.edu.

Introduction

Elevated lead levels have been detected in the water supply in a number of areas in the city of Flint, and these have received significant medical, political, and media attention over the last three months. The State of Michigan officially declared a state of emergency in Flint on January 6, 2016,[2] and the Federal Government followed on January 16, 2016.[3] Federal, state and local officials have now engaged and are taking more aggressive corrective action to address this situation and the public health crisis that has resulted from it. Proudly, many in the Kettering Community have taken a very active role in helping those families and children in Flint impacted by this health crisis since its beginning last year.

The levels of lead found in some areas of Flint are gravely upsetting, but I want again to stress that the problem of lead contamination in public and private drinking water supplies is not present in all of Flint. Unfortunately, this distinction has been absent from much of the reporting on this subject in the media. Reports often imply that the water was tainted at the source (i.e. the Flint River), or that contamination of the water is uniform across the entire distribution system and that every house and business has been equally affected.

I also think it important for us to recognize that this problem is widespread and in fact is not isolated to Flint.[4] For example, I am sad to report, drinking water supply contamination, in some cases at levels far worse than have been found in Flint, has been found in Washington D.C., Seattle, Baltimore, Philadelphia, and Los Angeles among other cities and areas of the country.[5] In Michigan, elevated blood-lead levels have been found in an even higher percentage of children than Flint is experiencing in sections of Jackson, Detroit, Grand Rapids, Saginaw, Holland, and a number of other cities.[6]

The Nature of the Problem

First, the nature and cause of the contamination are reasonably well understood at this point. In brief:

[6] http://www.crainsdetroit.com/article/20151210/NEWS/151219980/interactive-map-places-with-higher-lead-rates-than-flint

- Historically, the Flint water system used and distributed treated water from Detroit Water Authority. It did so until April 2014, when it switched to treating water from the Flint River in an existing Flint water treatment plant.
- The "raw" river water to which the city switched in April 2014 was not contaminated with lead.
- The water within *some* sections of the distribution network was, however, contaminated *after* the water left the treatment plant by the leaching of metals such as lead, iron, and copper from lead service lines and lines containing lead solder.

After the switch to river water, the City failed to treat the water for corrosivity by managing its chemistry,[7] which lead to the erosion (and release) of lead-bearing pipe scale in supply lines[8] and lead/copper galvanic corrosion of lead solder and lead copper joints in the distribution system.[9] Because raw water quality varies across the US, federal law requires all municipal water systems to have a corrosion control plan to address this possibility; this regulation is known as the Lead and Copper Rule.[10] Flint unfortunately did not have such a plan in place when it switched the water source to the River.

Here I want to stress that the lack of corrosion control did not, in and of itself, make the water unsafe. What it did do, however, is increase the potential for the water to react chemically with certain types of plumbing systems, and in doing so leach lead and other metals (if they were present) from those systems.

And if this isn't enough complexity, the City (out of what I'm sure were benign motives) used a relatively high level of chlorine to treat the river water to prevent bacterial growth in the supply. The unanticipated consequence of this choice, combined with a lack of activated charcoal filtration in the treatment process, led to the subsequent production of elevated levels of trihalomethanes (which are disinfection by-products of water chlorination) in the water, but these were present primarily in areas of the system where the water pooled or moved through the system slowly.

In October of last year, Flint switched its water source back to Detroit Water Authority. It took approximately 3-4 weeks for the Detroit source water to replace fully all of the water in the distribution system. In December, Flint also began introducing additional corrosion control additives to the water supply.[11] It did this expecting that the addition of these additives will, over time, help to rebuild the protective scale on the inside of the parts of the distribution system where it has been damaged.

Not All Areas of Flint were Impacted Equally

The specific mechanisms that gave rise to the contamination of the system mean that **not all areas of the system were equally impacted**. Portions of the system that do not contain lead service lines or lead solder were not as greatly impacted as those that do. Older parts of the

[7] Specifically the chloride-to-sulfate mass ratio in the treated water, which can be influenced by salt entering the source river from runoff or changes in the way that organics are removed in the treatment process. It can also be affected by the use of Ferric Chloride ($FeCl_3$) as a coagulant in the water treatment process. This ratio is typically adjusted by adding lime or orthophosphates in the treatment process, see http://www.waterrf.org/publicreportlibrary/4088.pdf

[11] https://www.cityofflint.com/2016/01/10/flint-city-leaders-county-state-officials-announce-relief-effort-expansion/

system, especially sections built in the 1940's through the 1960's[12] that have not been upgraded since their construction are disproportionately vulnerable.[13] Other areas are far less so.

As a consequence, **the presence of lead contamination in the water supply was not uniform across the entire municipal water system, and not all areas of the city or all resident supplies were equally affected by it**.[14]

- The amount of lead that leached into a given part of the system depended upon a variety of factors, including the age of the system in the area, the specifics of its construction (e.g. are lead service lines present), and the time that water typically spends in that part of the system between treatment and use.
    - The levels of lead contamination measured in the water drawn from a particular source point depends upon the characteristics of the infrastructure through which the water passed, and how long it took to do so. **This is why water drawn in some houses on a single block might show measurable lead contamination, while others did not.**[15]
- For the same reason, as I noted earlier, only a percentage of Flint residents have been exposed to water containing elevated levels of lead in their residences or places of business (for information on how lead levels in water are specified and interpreted, see the discussion beginning on page 5).
    - Of the 853 samples of water from Flint homes tested by the Michigan Department of Environmental Quality between September 29, 2015 and January 15, 2016, approximately 92% of the samples had measured lead levels below 15 ppb, 79% registered below 5 ppb.[16]

Kettering's Campus Water Supply and Our Approach to Ensuring its Safety

The municipal water infrastructure that supplies Kettering is relatively modern, the flow-rates of water through the system are high, and we do not have lead-copper transitions in the main supply lines, as do many residences in some areas of the city. All of these factors reduce the chance of contamination in our supply. Even so, the University has taken a number of proactive steps to ensure that the campus drinking and cooking water supplies are free from contamination, a number of which have been described in previous communications to the campus on this issue. These include:

- Since early 2015 (after the switch to river water but before lead contamination was suspected), the University has been engaged in recurring testing of all drinking and food service water distribution points on campus using an independent, certified laboratory (Brighton Analytical, LLC). We will continue to test all drinking and food service water distribution points (and there are almost 100 of these) indefinitely.

[12] In the early part of the last century, many municipal codes *required* the use of lead pipes when connecting homes and businesses to municipal water mains but most codes banned the use of lead pipes by the early 1970's. Chicago, for example, continued to require them as recently as 1986, see: *EPA warns modernizing water system may boost levels of lead*, Chicago Tribune, September 25, 2013. Some major U.S. cities still have 100% piping bringing water from the utilities to homes and businesses, see: https://www.safeplumbing.org/health-safety/lead-in-plumbing.

[13] http://nepis.epa.gov/Exe/ZyPDF.cgi?Dockey=20001R4V.txt

[14] For an example see: https://web.archive.org/web/20160120012739/https://michigan.gov/documents/deq/Copy_of_deq-fw-Flint-Home-Owner-Data-Sept-3-thru_Nov-5-15_505529_7_505579_7.pdf

[15] ibid.

[16] http://www.freep.com/story/news/local/michigan/flint-water-crisis/2016/01/23/flint-lead-levels/79178786/

- We also similarly test incoming water from our (six) Flint Municipal Water system input supply lines.
- All food service water source lines are flushed for a minimum of five minutes prior to use each morning, and only cold water is used, consistent with EPA guidelines.[17]
- We use NSF/ANSI 53 certified filters on all drinking water supplies on campus; these filters are certified to remove lead and trihalomethanes in addition to a wide variety of other contaminants and suspended solids. You may find details on the NSF/ANSI 53 certification standard at nsf.org and on the websites of manufacturers that produce filters conforming to this standard. There are 31 specific performance criteria that fall under Standard 53.
- All of our filters are maintained and replaced at the intervals recommended by their respective manufacturers.
- To be conservative, we shut off all water fountains on campus where the filters for that fountain were located at a significant physical distance from the fountain itself (usually because of space restrictions in the fountain cabinet).

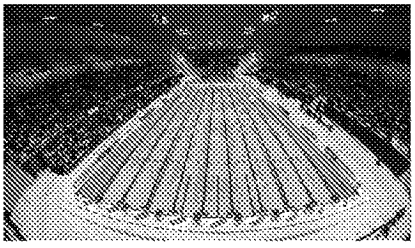
  We did this as a precautionary measure, since it is possible for lead (if, for example lead solder was used in its supply line) to be produced through the interaction of water with plumbing in the supply line *after* it has been filtered *if* that water is allowed to sit undisturbed for a protracted time in the supply line (such as when a water fountain is used very rarely).

We do not test the water used in toilets, bathroom vanities, or showers, **but we do test the sources from which they draw water** (i.e. the input supply lines to campus). **Human skin does not absorb lead in water**, so bathing, washing, or showering is safe even using water containing lead over the EPA's action level.[18] [19] Adults may safely use unfiltered water for brushing their teeth.[20]

In addition, we continue to make improvements to our local system to improve convenience and ensure safety. One of the most visible of these is the replacement of many of our water fountains across campus with hydration stations; this project in fact began a number of years ago. All of our hydration stations are monitored and contain integral NSF/ANSI 53 water filtration systems.

How are Lead Levels in Water Specified and Interpreted?

The concentration of a metal, like lead, in water is often measured in parts per billion, usually denoted **ppb**. A concentration in water of 1 ppb represents one gram, or three one-hundredths of an ounce (3/100 ounce), of a substance in 260,000 *gallons* of water. One ppb is also three seconds out of 100 years. Ten parts per billion (10 ppb) is the equivalent of approximately one teaspoon of water in an Olympic-sized swimming pool.



The EPA has set an action level for lead in drinking water supplies at 15 ppb, and a goal of 0 ppb given its health

[17] EPA 810-F-93-001
[18] http://www.cdc.gov/nceh/lead/tips/water.htm
[19] http://www.michigan.gov/deq/0,4561,7-135-3313_3675_73946-372051--,00.html
[20] http://www.michigan.gov/documents/deq/2015-10-21_-_Lead_-_Flint_Water_FINAL_504265_7.pdf

effects on children.[21] In other words, if drinking water contains lead below the 15 pbb level, EPA regulations state that no action is required.[22]

For reference, the EPA permits faucets to be sold in the U.S. that leach 10 ppb or less of lead into water during a 19-day test.[23] Studies conducted by the EPA have found that the geometric mean of lead levels in drinking water systems in the US is 2.8 ppb.[24]

Results of Our Ongoing Testing

- As of the date of our last test series and over the past many months, we have tested the water drawn from the six input lines to campus a total of 15 times and all tests have resulted in a measured level of "ND" (for "None Detected"), with only three, single-test exceptions. In these three exceptions:
    - One detection was at 1 ppb, one was at 5 ppb, and the other was at 7 ppb. All of these are significantly lower than the EPA's action limit for lead of 15 ppb.[25]
    - These were single point-in-time detections; **later repeat testing of the same distribution points detected no lead**.
- **No lead has ever been detected in any water source used for food preparation.**
- As of the date of our last test series and over the past many months, all drinking water distribution points (e.g. water fountains) on campus have consistently tested "ND" (for "None Detected") for lead, with only six, single-test exceptions in well over one-hundred tests conducted. In these six exceptions:
    - All detections were at levels of less than 5 ppb (1,4,5,2,3 and 2 ppb respectively); all are significantly under the EPA's action limit for lead of 15 ppb.[26]
    - These were single point-in-time detections; **later repeat testing of the same distribution points detected no lead**.

Access to Test Data

We make all results of these tests public. You may always find our latest test results along with other information related to the state of water in Flint at http://www.kettering.edu/water. We will continue to update the test reports on this site as we receive them.

On this same webpage, you will also find a link to PDF copies of the certified assay reports provided to us by our independent laboratory.

We have encouraged our students to speak with their parents or guardians about this issue, and to share with them all communications they receive from us. Copies of all of our communications to students on this matter may also always be found at http://www.kettering.edu/water.

[26] ibid.

More Information

If you have further concerns, I encourage you to read the Centers for Disease Control website on lead contamination of water at http://www.cdc.gov/nceh/lead/leadinwater/ and http://www.cdc.gov/nceh/lead/tips/water.htm as well as the citations in this letter. Additional information is also available on our website at http://www.kettering.edu/water.

If you have technical questions about the campus water supply, they may be directed to Nadine Thor, Director of Auxiliary Services, at nthor@kettering.edu. Questions from students or their families of a more general nature should be directed to Dean Betsy Homsher, Dean of Students, at bhomsher@kettering.edu.

We will of course continue to update the campus as this situation evolves.

Members of the Kettering Community that Live off Campus in Impacted Areas

We have encouraged our students, faculty and staff who live off campus within Flint city limits to use bottled water, to test their water (which also supports the city's data collection and analysis efforts), and to use appropriate water filtration in drinking water sources until notified otherwise by civil authorities.[27]

In the interim, **free bottles of water, water filters, replacement cartridges, and home water testing kits are widely available to all Flint residents.**[28] There are multiple distribution points for these around the city, and the University maintains a supply of filters as well as bottled water in the Office of Student Life for students otherwise unable to obtain them.

Information on the city's distribution of all of these items to residents may be found at www.michigan.gov/deq. Students residing off campus needing assistance in acquiring water, test kits, and/or faucet filters have been encouraged to contact the Office of Student Life at (810) 762-9871.

A Note on Water Clarity

You may see pictures of bottles of rusty or cloudy water in articles on water safety; the same has been true of the reporting surrounding the water crisis in Flint.

The presence of suspended rust in water can turn it orange, red, brown or yellow. The presence of rust in water is not necessarily an indication of the presence of lead or other contaminants in the water, nor does it necessarily indicate that the water is unsafe to drink,[29] but water corrosivity does accelerate the erosion of iron elements in the water system which may discolor the water.[30] In water, lead is colorless, odorless, and tasteless,[31] and the presence of rust in water does not indicate the presence of lead, bacteria, or other substances. Conversely, water may also be clear and yet contaminated with lead or bacteria.

> *On its own, rust in water is not a sign of harmful bacteria or lead. In fact, the limits set by the Environmental Protection Agency (EPA) for iron in drinking*

[27] http://www.michigan.gov/deq/0,4561,7-135-3313_3675_73946---,00.html
[28] http://www.michigan.gov/deq/0,4561,7-135-3313_3675_73946-366279--,00.html
[29] http://www.quincyma.gov/CityOfQuincy_Content/documents/RustyWaterFactSheet.pdf
[30] Iron erosion can also negatively affect the level of free chlorine in the water.
[31] http://extension.psu.edu/natural-resources/water/drinking-water/water-testing/pollutants/lead-in-drinking-water

water are based on aesthetics (taste, odor, color), not safety concerns.[32]

Trapped air (in the form of small bubbles) in the water can also turn it cloudy or milky. Water pipelines are pressurized systems, so any air introduced into the system can remain trapped until the water leaves a faucet. This cloudiness is not indicator of water quality.

The NSF/ANSI 53 water filtration systems we use on campus for all drinking water remove suspended particulates including the iron that can discolor water (known as "turbidity reduction").

Legionella

It has very recently been reported[33] that there were an unusually high number of cases of Legionnaire's Disease seen in Genesee County in 2014-2015.[34] It has also been suggested in the media that this increase related in some way to the switch in the Flint water supply. Roughly half of the cases identified are in individuals who live outside of the city and the Flint municipal water service zone,[35] and a possible causal link between the two has not been established.

We have no evidence of any member of the University community having contracted Legionnaire's Disease.

Legionnaire's Disease is not contracted by drinking water containing *Legionella* nor is it transmitted between individuals. It is not contagious.

Legionnaire's Disease is a form of pneumonia caused by the bacteria *Legionella pneumophila*, and it is treatable with several classes of antibiotics.[36] It has an incubation period of two to ten days. *Legionella* do not survive in water above 140 °F (60 °C). *Legionella* are normally found in rivers, lakes, and streams,[37] and they are normally present in the water systems of large buildings and even in a percentage of residential water systems.[38]

Legionnaire's Disease is primarily contracted by heavy smokers, immunocompromised individuals, and individuals with chronic lung disease[39] through the aspiration of water or the inhalation of water mist contaminated with the *Legionella* bacteria.[40] Even after exposure to *Legionella* most people do not become sick.

Cooling towers for large buildings are frequently cited as potential breeding ground for *Legionella* bacteria if they are not regularly maintained and disinfected.[41] **The University has for many years routinely monitored and disinfected all cooling towers on campus.**

As part of a proactive effort, though, we have also begun ongoing and recurring testing of our water for the presence of *Legionella.* We will take appropriate action (which we will report) if elevated levels of the bacteria are detected in campus water supplies in the future. We will of course publish the results of these tests on http://www.kettering.edu/water when they become available.

Federal Emergency Declaration

On January 16, 2016 and at the request of the state of Michigan, President Obama signed an emergency declaration the purpose of which is to make Federal aid available to the city in support of current filter and water distribution efforts to impacted persons in the city.[42] Substantively, this declaration simply mobilizes the Federal Emergency Management Agency (FEMA) to assist in these efforts and also makes certain federal funds available to the city for the purpose of supporting these activities. As stated in the order, it "is to provide water, water filters, water filter cartridges, water test kits, and other necessary related items for a period of no more than 90 days."[43]

A Kettering Professor (from the Beginning) and Our Students have been and will continue to be Part of the Solution

Last year, Kettering's Mechanical Engineering Professor Laura Sullivan was asked to co-chair Flint's Technical Water Advisory Board and was recently appointed by Mayor Karen Weaver to the Karegnondi Water Authority. This is important work, and through it she makes all of us in the greater Kettering family a key part of the solution. I want to take this opportunity to recognize her and to thank her for her service to Flint and the University.

Our students are some of the most creative in the world, and so we have been and are continuing to organize ways for our students, often in teams, to solve some of the challenging and unforeseen problems that have arisen in the distribution and installation of filters in affected areas of Flint. These efforts not only take advantage of the expertise and ingenuity of our students but they are also consistent with Kettering's ongoing commitment to Flint. We will make information on these efforts available on http://www.kettering.edu/water as it becomes available.

Please know that we are deploying every resource at our disposal to ensure the safety of our entire campus community and our visitors, and we will continue to work with federal, state, and local officials to help create long-term solutions to these problems. We value your input, and I hope that as valued members of the Kettering Community and of this great University that this letter has been helpful to you. If you have questions, comments, or thoughts on this issue or the University's response to it please send them to us at water@kettering.edu.

Thank you.

Warmest Regards,

Dr. Robert K. McMahan
President

Subject: Information

Caleb -
Please see the attached account info. The water coolers are in the common areas and were/are available to the public as well. As I mentioned, they receive an average of 500 visitors per day (not counting children) in the Flint State Office Building.

Here are the number of people by floor:

1st Floor: DTMB Facilities (15 employees) 2nd Floor: DHHS (54 employees) 3rd Floor: DHHS (83 employees) 4th Floor: DHHS (86 employees) 5th Floor: LARA/BSBP (8 employees), Treasury (21 employees), DTMB – Vacant (8 employees), MDCR-Civil Rights (13 employees), Office of the Governor (2) Offices.
6th Floor: DHHS (127 employees)

7th Floor: DHHS (71 stations + 32 Customer Kiosk stations proposed)

Approximately 480 staff (not counting the 8 vacant spaces on 5th floor or the 32 proposed kiosk stations on 7th floor).

Departments in the Flint State Office Building: Treasury; LARA, DTMB; Civil Rights (they moved out two months ago); DHHS.

Let us know if you need anything further.

Thanks -

Kerri Droste

Subject: FOIA Request
Importance: High

I have a meeting today at 3:30 to discuss this. What if any records would we have to support this? Thoughts on process and time to respond for our Team?

Request for Public Record

To: FOIA Coordinators via email

I am a person as defined under Michigan FOIA. Please accept this correspondence as a request pursuant to the Michigan Freedom of Information Act (FOIA) Michigan Compiled Laws §15.231 to §15.246 *et seq*., the Michigan Constitution and common law, and the U.S. Constitution, for certain public documents hereinafter specified.

Date of Request: 2/4/16 **Time:** 4:40 p.m. via email

Person Requesting Record: Matthew Dolan Phone: 313-223-4743

Mailing address: Detroit Free Press

160 W. Fort Street

Detroit, MI 48226

Email Address: msdolan@freepress.com **Fax:** n/a

Delivery Specifications:

Please select the quickest form to be able to view the documents:

∟**Email:** to requestor at the email address above if possible, and if not please mail to the address above.

∟**In-office Inspection:** Please contact me with an acceptable contact, time, and date when I may appear for inspection and possible scanning of documents.

∟**Pick- up:** Please contact me with an acceptable contact, time, and date when I may pick up the documents.

Auditor or Attorney: _____ Contact: _____

Media Specification: Paper Copies or Email attachment less than 20 MB, CD-ROM or DVD, unless certain records are not available in computer format, in which case response by fax or in-person viewing is preferred

Records requested: The records and documents I am requesting are all those relating to:

Copies of the documents, including but not limited to emails already requested by and provided to Progress Michigan or those associated with the organization related to any and all discussion of Flint's water supply, including but not limited to contaminant such as lead and copper in the water as well as any and all discussion of Legionnaire's disease in Genesee County, Mich.

For the purposes of this request, the term "**you**" or "**your**" refers to public body generating or maintaining the public records requested in this request, and to which this request is directed, whether that be an agency, municipality, office, county, or any other entity subject to disclosure under this act; the term "**records**" refers to all documents, regardless of physical form (including without limitation papers, reports, notes of telephone conversations, telephone call messages, studies, proposals, indices, letters, messages, faxes, minutes, logs, journal entries, calendars, and computer-based or computer-generated materials including e-mail, or any other documentation of any kind of any and all kind) of or belonging to any department, agency, service area, board or other subdivision of the public body. "Records" shall include drafts of records to the extent permitted by law; The term "**email**" includes any electronic message and any attachment to any such message, and specifically includes emails sent or received by an officer, agent, or employee using an email address other than that person's official government issued email address if sent or received while on duty, using a government computer, in a government building, sent or received using a government contact list, or other using any other government resource.

Michigan law requires you to respond to this request not more than five (5) days from your receipt of this request, but you are asked to expedite this request if possible. If this request is sent by fax or email, the time to comply begins the day after the faxed request is sent to you. If your agency does not maintain these public records, please let my designated auditor know who does, and include the proper custodian's name and address. If this fax request does not go directly to the office of the FOIA coordinator, you must deliver it there immediately. If you deny any part of this request, please indicate the name and position of the person too who an appeal should be directed prior to instituting suit, so that needless litigation in which costs, damages, and attorney fee may be taxed against you might be avoided.

Take notice of the penalties and consequences for failure to comply with this request: Willful violation of FOIA by refusing to disclose or delaying in disclosing or providing copies of a public record, may result in the court awarding in addition to any actual or compensatory damages, award punitive

damages in the amount of $500 to the person seeking the right to inspect or receive a copy of a public record. Reasonable attorneys' fees, costs, and disbursements" will be awarded to any person who prevails in an action to compel disclosure under MCLA § 15.240. If the requesting person only prevails in part, "the court may, in its discretion, award all or an appropriate portion of reasonable attorneys' fees, costs, and disbursements.

Because of the civic educational purpose of this request, I request a fee waiver and ask that you determine that a waiver or reduction of the fee is in the public interest because furnishing copies of the public record can be considered as primarily benefiting the general public." MCLA § 15.234(l)

I agree to pay any reasonable search, copying, and postage fees of not more than $2.00. If the cost would be greater than this amount, Please immediately contact me by telephone or email if you anticipate that the costs will exceed this amount, so as not to cause delay in the prompt disclosure of the records requested. I may appear in person to inspect the documents on scan them using my portable equipment. Please provide a receipt indicating the charges for each document. The Michigan FOIA law provides that, "A fee shall not be charged for the cost of search, examination, review, and the deletion and separation of exempt from nonexempt information as provided in section 14 unless failure to charge a fee would result in unreasonably high costs to the public body because of the nature of the request in the particular instance, and the public body specifically identifies the nature of these unreasonably high costs. MCLA § 15.234(3).

If the documents I have requested are not subject to disclosure in their entirety, I request that you release all nonexempt portions of the documents that may be segregated and all parts of the documents that can be rendered disclosable by redaction without fee. If you determine that any of the requested documents fall within a statutory exemption, I request that you exercise your discretion to disclose those materials because of the overriding public concern about the improper use of government email systems and resources to further political agendas. As to any portion of the documents that you withhold, please state with specificity the legal and factual basis for withholding such portion. To the extent that you are unable to produce copies of or otherwise make available all records requested within the time frame provided, please notify my auditor in writing and provide me with those records that are available within the prescribed time frame and the remainder of the records on a "rolling" basis as they become available for production.

I appreciate your anticipated prompt cooperation and will expect your response within 5 days, as required by the act. If you need further explanation of the details or the nature or scope of this request, please feel free to call me or my designated auditor or attorney specified above using the contact information provided.

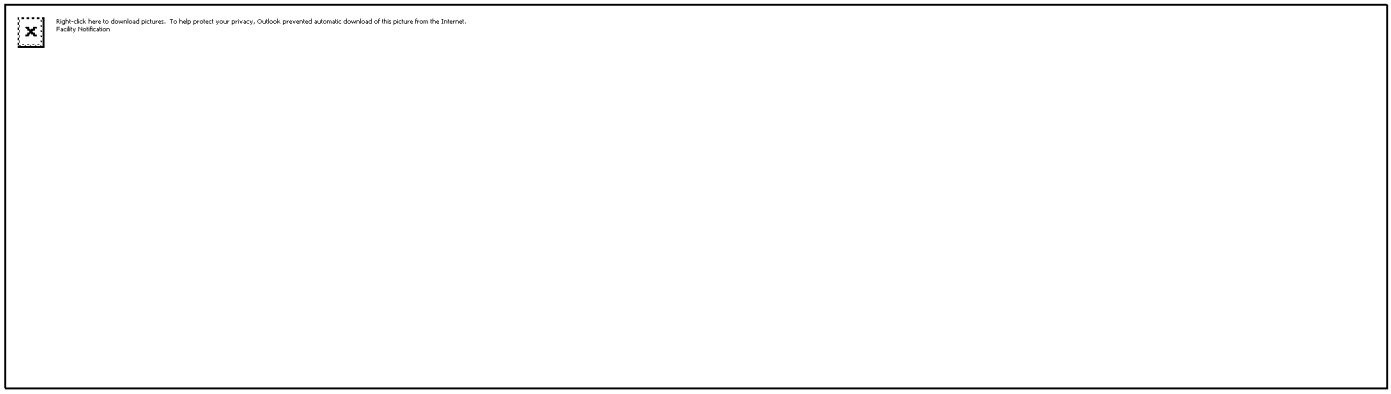
Bethanie, please review
CSC – please send to Flint employee with the enclosed attachment

Thanks.



Flint Water Advisory

Date/Time:

Effective Wednesday, January 7, 2015

Details:

The City of Flint recently sent out the attached notice regarding violations to the drinking water standards. While the City of Flint states that corrective actions are not necessary, DTMB is in the process of providing a water cooler on each occupied floor, positioned near the water fountain, so you can choose which water to drink. The coolers will arrive today and will be provided as long as the public water does not meet treatment requirements.

Contact:

DTMB Customer Service Center, DTMB-Customerservice@michigan.gov or (844) DTMB-CSC or (844-386-2272)

	Since we spend about 40 hours a week at our workplaces, isn't the office the best place to try out some new energy-saving tricks? The Energy Information Administration estimates that if commercial and industrial buildings improved their energy efficiency by 10 percent, our economy could see yearly savings of nearly $20 billion.

This email was sent to paaschk@michigan.gov using GovDelivery, on behalf of DTMB · Lewis Cass Building · 320 South Walnut Street · Lansing, MI 48933 (517) 373-1004

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

City of Flint Did Not Meet Treatment Requirements

Our water system was recently found to be in violation of a drinking water standard. Although this incident was not an emergency, as our customers, you have a right to know what happened and what we are doing to correct this situation.

We routinely monitor for the presence of drinking water contaminants. Samples were collected for total trihalomethanes (TTHM) analysis from eight locations on a quarterly basis (May 21, August 21, and November 20 of 2014). The average of the results at **ANY** of the eight locations must not exceed the maximum contaminant level (MCL) for TTHMs, otherwise our water system exceeds the Maximum Contaminant Level (MCL). The standard for TTHMs is 80 ug/L. The location reporting the highest TTHM level was 81 ug/L, thus, our water system exceeds the TTHM MCL.

What should I do?

- There is nothing you need to do unless you have a severely compromised immune system, have an infant, or are elderly. In that case, you may be at increased risk and should seek advice about drinking water from your health care provider.
- You do not need to boil your water or take other corrective actions. If a situation arises where the water is no longer safe to drink, you will be notified within 24 hours.

What does this mean?

This is not an emergency. If it had been an emergency, you would have been notified within 24 hours.

People who drink water containing trihalomethanes in excess of the MCL over many years may experience problems with their liver, kidneys, or central nervous system, and may have an increased risk of getting cancer.

What is being done?

We are currently working on solutions to correct the problem. We anticipate resolving the problem in 2015.

For more information, please contact Mr. Brent Wright or Mike Glasgow at 810-787-6537 or the Water Plant at 4500 North Dort Highway, Flint, MI 48505.

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.

This notice is being sent to you by the City of Flint.

CERTIFICATION: F1 S3 WSSN: 02310

I certify that this water supply has fully complied with the public notification requirements in the Michigan Safe Drinking Water Act, 1976 PA 399, as amended, and the administrative rules. Reminder to water supplier: This notice/certification must be sent to the DEQ.

DOLPHIN WATERCARE
TREATING WATER RESPONSIBLY

Capitol View Building
• Building Inspires Environmental Improvements in City •

The Capitol View Building Complex in Lansing, Michigan

One of the major operational priorities when the building was fully functional and occupied was to eliminate the handling of chemicals being used to treat the HVAC process water. With the cooling tower installed on the 9th floor, the building had no convenient means to deliver and store these chemicals. The owners worried about the prospect of process water leaks, which could pose catastrophic consequences. Discharge of the chemically laden blow-down was also a nuisance, and owners wanted to minimize the possibility of Legionella amplification.

The owners had heard of the chemical-free water treatment system installed at the nearby Jackson National Life office building. When they visited this site and saw the Dolphin System in action, they decided to transition to the chemical-free alternative. After installing the system (middle-right photo), they saw the HVAC process water turn from murky to crystal clear (lower right photo of the center section of the cooling tower).

Many other building owners in Lansing are now planning their transitions to the Dolphin System.

The nine-story Capitol View Building in Lansing, Michigan, is occupied primarily by state government agencies, with the remainder of the office space being used by law firms.

The first floor of the building is used for high-end restaurant and retail space.

There were some environmentally related challenges to resolve when the building was first opened, and the owners wanted to make sure that the building was protective of human health and the environment.

Ms. Goodrich,

Hello! My name is Chuck Days and I represent Chem Aqua. We are a full-line water treatment provider with nationwide and international coverage.

I talked to Rick Martin on the phone today, and after discussing a little bit about what Chem Aqua can do, referred me to you and provided your e-mail address.

Attached to this e-mail, you will find a Chem Aqua Brochure and a Chem Aqua Line Card that provides some more information about my company and what we can do for our customers.

I'd like to schedule a meeting with you so we can discuss our capabilities in person, and how those capabilities might meet the needs of your organization. I realize doing business with the State of Michigan is more complicated than that, but I'd like to get the process started off on the right foot and I'm excited to represent Chem Aqua to you.

I'll be working in the Lansing area this week on Thursday and Friday and can be pretty flexible in my schedule, if this week works for you. If not, please let me know what days you might have available next week. Please feel free to contact me if you have any questions or would like more information.

I look forward to hearing from you soon, and I hope you have a wonderful day!

Thank You,
Chuck Days

Subject: Sample Storage Space

Neal – Based on our phone conversation, I'm looking for storage/warehouse space for a potentially large amount of water samples over the next few months with the State of Emergency that is happening in Flint right now. Wondering if there are any locations near the Lab that we could utilize for this effort if necessary. At a minimum, the space would need to be secured and temperature controlled, only to prevent freezing. Also looking for pallets that can hold around 1000 Lbs or more. The idea is that we palletize samples here and have them transferred to this storage location on a daily/weekly basis as necessary. There is really no storage space for this kind of capacity here at the State Lab. Initial estimate of space needs based on the number of potential samples would be 1000-1500 ft^2, enough to hold around 100 (3'x4') pallets with additional space to maneuver around to get to specific pallets if necessary.

Sandip – Copying you on this message if you have any ideas that could help.

Thank you!

Kirby

Subject: Volunteer Opportunity in Flint

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, https://www.surveymonkey.com/r/28NVJBL

To volunteer on Sunday, January 17, https://www.surveymonkey.com/r/26NMJKK

To volunteer on Monday, January 18, https://www.surveymonkey.com/r/26P7P5G

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit www.michigan.gov/flintwater.

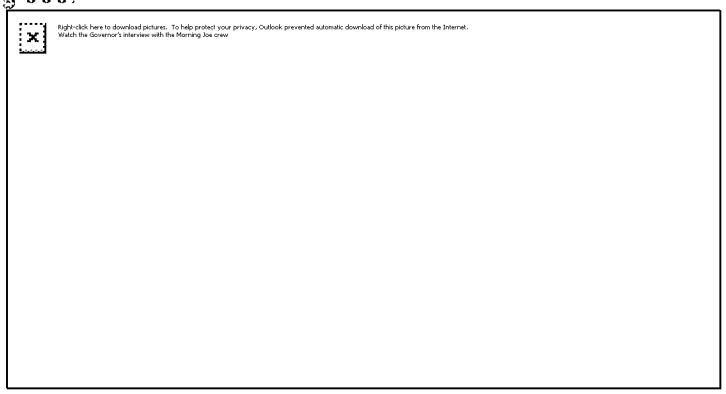
How we are fixing the Flint water crsis

Governor Rick Snyder has committed to spending the rest of his time as Governor to fixing the Flint water crisis. Over the last few days, he has sat down to explain what

happened and how we're fixing the Flint water crisis. Watch the interviews below and be sure to read the Governor's Op-Ed in the USA Today.

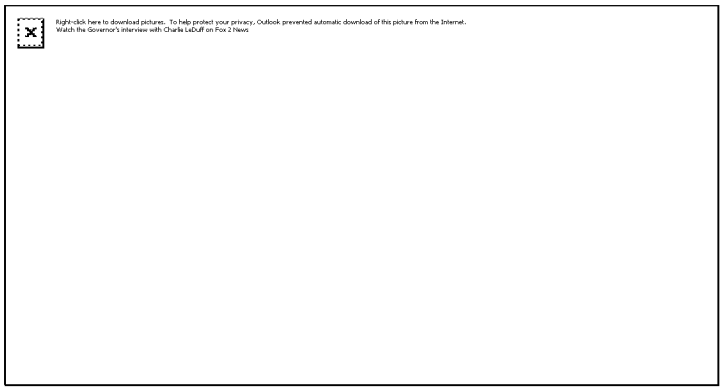
Governor Snyder on Morning Joe

"What is so frustrating and what makes you so angry is you have a handful of experts who were career civil servants that made terrible decisions, in my view. We have to live with the consequences, and they worked for me, so I accept that responsibility. We are going to fix this problem." Watch Governor Snyder address how we are fixing the Flint water crisis on Morning Joe.



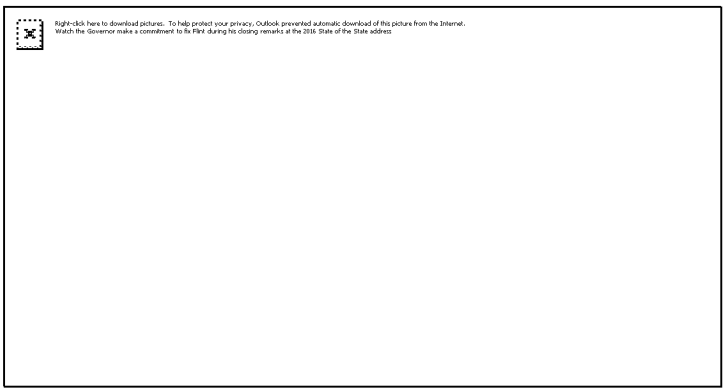
Governor Snyder with Charlie LeDuff on Fox 2 Detroit

"I feel awful about this. These are people. They've been harmed. You can't feel good about that. The people of Flint have been harmed and a major influence of that harm came from people who worked for me, and I feel responsible for that. But I am committed to solving the problem and addressing the damage as much as possible for the rest of the time I'm Governor." Watch Governor Snyder address the Flint water crisis with Charlie LeDuff on Fox 2 News.

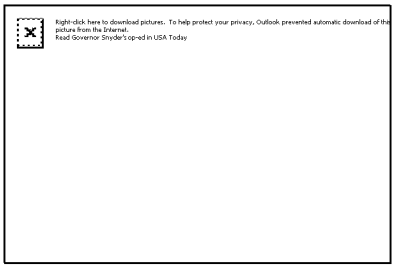


Governor Snyder's 2016 State of the State

"Michiganders don't quit, we don't give up, instead we will work with even more passion and commitment to truly improve our state. For everyone who's chosen to make Michigan their home, this is more than a promise, this is my commitment." Watch Governor Snyder's full closing statement from his 2016 State of the State address.



Governor in USA Today: "I will fix this, and I mean it."



"Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take responsibility for what these families are going through, and I'm holding people in my administration accountable for their failures." Click here to read the Governor's full op-ed.

Washington Post: "Michigan Gov. Rick Snyder is in a tough spot, but he's his own best spokesman"

Snyder has born the brunt of criticism in the local health crisis that has turned into a national scandal. But unlike many other politicians facing crises of leadership, Snyder may also be his own best counter-programming. Click here to read the full story in the Washington Post.

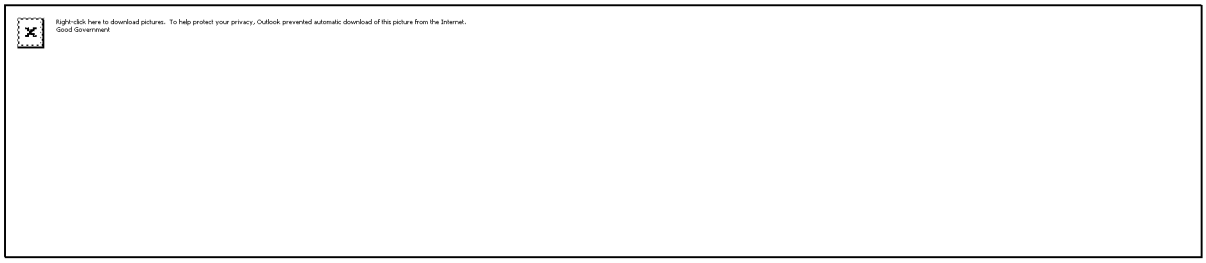
Subject: Flint Volunteer Efforts



Dear State Employees,

Gov. Rick Snyder and I want to thank everyone who donated their time during the holiday weekend to deliver bottled water, water filters, replacement cartridges and water testing kits to families in the city of Flint. We are working hard to ensure all residents are provided with the safe water resources they need, and each donation and hour of your time volunteered goes a long way.

For employees who would like to help the residents of Flint, there are several opportunities to do so. Please visit www.helpforflint.com to learn how you can help.

For additional information and updates, visit www.michigan.gov/flintwater.

Again, thank you for all your support.

Sincerely, Mike Zimmer
Office of Good Government Director

To: Paasch, Keith (DTMB)
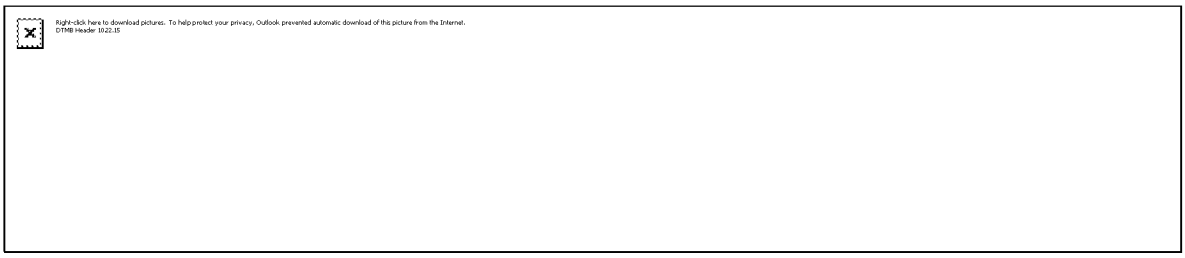
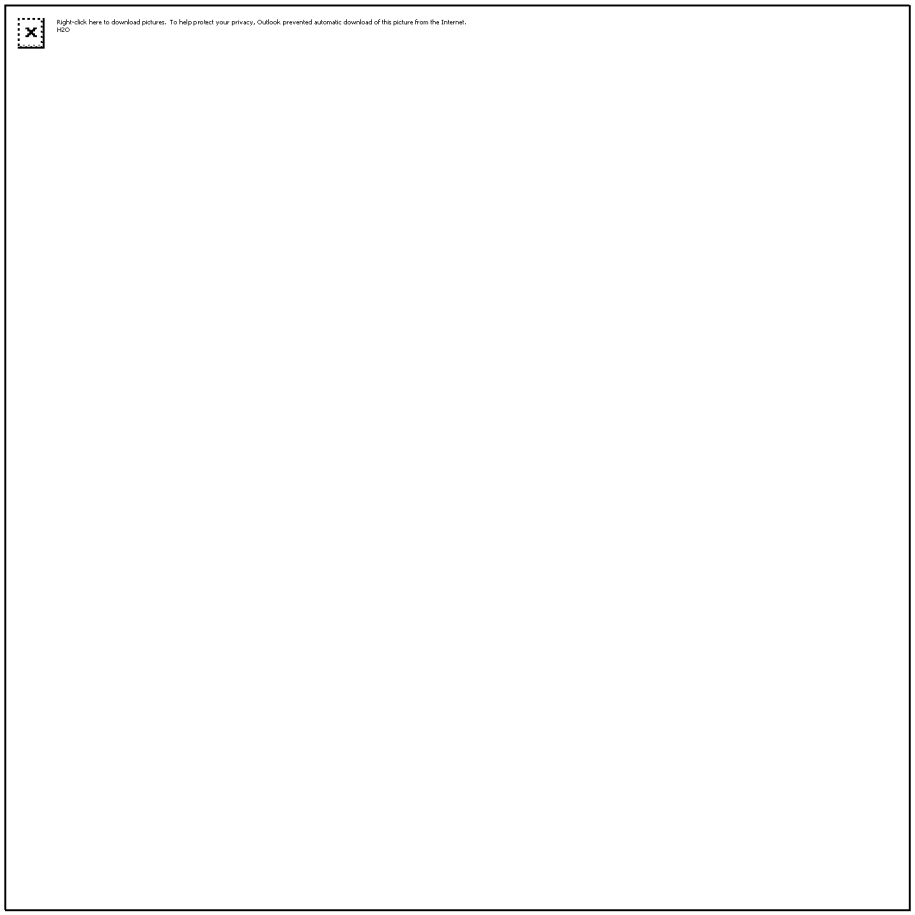
Subject: Contributing time, muscle and money



During this month's Martin Luther King Jr. holiday weekend, some state employees turned their "day off" into a "day on" in Flint. There, they delivered bottled water, water filters, replacement cartridges and water testing kits to families. The volunteers joined other Michiganders, turning Dr. King's birthday observance into a day of service.



Mike Zimmer, director of the Office of Good Government and the Department of Licensing and Regulatory Affairs, has shared a link – www.helpforflint.com – that offers other opportunities to contribute time, muscle and money to bring clean drinking water to the community.Here in DTMB, some of our employees didn't wait for an invitation to lend a hand. Office of Retirement Services staff contributed funds that were used to buy 31 cases and 23 gallons of water, which a local organization transported to Flint.

Autumn Hubbard, Ambrea Mack and Sarah Esquivel, who are in the photo at the left, nearly emptied the shelves at their local grocery store. Thanks for your efforts.

everyone.

Now work.

Last week, I signed a new policy that formalizes the annual employee review process and sets expectations for employees and managers. Administrative Policy 200.37 establishes consistent standards for implementing performance plans and reviews. Some of the standards are practices we have followed for years. Others are new. Some of particular note include:

- The mandatory use of HRMN
- A standard Feb. 1-Jan. 31 rating period for all employees
- An Individual Development Plan that specifies training or development programs for each employee
- Competencies and objectives that align to DTMB goals or scorecard metrics
- Consequences for managers and supervisors who do not complete the review process as required

A fundamental role of each DTMB manager or supervisor is to provide employees with direction and feedback on their performance. Employees also are expected to take an active role in pursuing professional development opportunities and achieving their competencies and objectives. I encourage you to review the new policy and talk with your manager or supervisor if you have questions. Of course, I welcome your questions and input as well. Please send your comments and ideas to me at behend@michigan.gov.

I know these have been busy weeks for many of you as you take on additional responsibilities and work hard to provide resources and services for our customers and citizens across the state. Please know that your hard work has not gone unnoticed. Thank you for everything you do, every day.

Have a great week,

David

Mr. Shane,

I have added in Will Doxie, my Leasing Manager, who may be able to help. His team is working on leasing a distribution center for a related purpose that may also serve your needs. Will's team can assist you.

Bob

Subject: Sample Storage Space

Neal – Based on our phone conversation, I'm looking for storage/warehouse space for a potentially large amount of water samples over the next few months with the State of Emergency that is happening in Flint right now. Wondering if there are any locations near the Lab that we could utilize for this effort if necessary. At a minimum, the space would need to be secured and temperature controlled, only to prevent freezing. Also looking for pallets that can hold around 1000 Lbs or more. The idea is that we palletize samples here and have them transferred to this storage location on a daily/weekly basis as necessary. There is really no storage space for this kind of capacity here at the State Lab. Initial estimate of space needs based on the number of potential samples would be 1000-1500 ft^2, enough to hold around 100 (3'x4') pallets with additional space to maneuver around to get to specific pallets if necessary.

Sandip – Copying you on this message if you have any ideas that could help.

Thank you!
Kirby

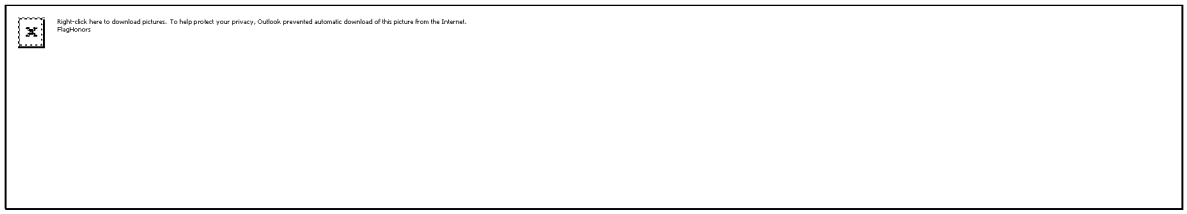
Subject: Thank you for your service



THANK YOU!

Fellow employees,

Each day, more than 46,000 state of Michigan employees come to work with the confidence and commitment to make Michigan a better place to live, work and play. I appreciate the way you care about the citizens we serve, and how it is reflected in the work that you do.

As you have heard from me and the media, our reputation and trust can be severely impacted when people do not make good decisions, or use good judgment in solving problems. That principle is universal, but never more so than when public health is at stake. What happened in Flint can never be allowed to happen again anywhere in our state.

I know that you want to work in a place where employee input is valued, efforts are recognized, and teams are always striving for continuous improvement. That's why we introduced employee surveys, Bureaucracy Busters and other reinvention initiatives. We want and deserve a culture of innovation, continuous improvement and employee engagement at every level. We can never take for granted how important the people are who depend on us to do our jobs, and I am asking you not to let the situation in Flint negatively impact your motivation to excel every day.

Many of you have taken an interest in helping the citizens of Flint on your own time, and I'd like to take this opportunity to recognize and thank those who have volunteered over the last couple of weekends. You have worked tirelessly to deliver cases of bottled water, water filters, replacement cartridges and water testing kits to the families in need. I appreciate you donating your time to help our fellow Michiganders. To date, more than 37,000 homes have been visited by one of our water resource teams.

For employees who would like to further help the people of Flint, please visit www.HelpForFlint.com to learn how you can do so. For additional information and to sign up for daily updates, please visit www.mi.gov/FlintWater. I am committed to ensuring that all residents have access to safe and clean water.

Again, I'd like to express my gratitude for the work you do every day to continuously improve our state and earn the trust of those you serve. You make a real difference.

Thanks,

Governor Rick Snyder

GLREA News

Exhibitor and Sponsor Registration is open for the annual Michigan Renewable Energy Fair June 24 & 25 at the Ingham County Fairgrounds. The Fair includes renewable energy, energy efficiency, sustainability and environmentally minded companies and groups and this year the Great Lakes Emergency Preparedness Expo will be part of the Fair. Their exhibitors will have information on food preservation, emergency communications, water, storage and more. In addition, the Ann Arbor Hands-On Museum will be developing a number of interactive wind energy exhibits and activities that will be at the Fair.

MSU Extension, in partnership with GLREA, is holding the Powering Michigan Agriculture with Renewable Energy event on Thursday, March 10. This event will take place during the 2016 ANR Week at the Kellogg Hotel and Conference Center. The conference is designed to showcase ways to provide energy on the farm by harnessing the natural energy of the wind, sun, water or energy crops. During this day-long program farmers will have the opportunity to learn more about energy efficiency and various renewable energy technologies. We invite you to become a sponsor or vendor. http://events.anr.msu.edu/poweringmiag/

GLREA officers were elected at the January board meeting: Jim Carter, President; Dave Konkle, Vice-President; Cary Church, Treasurer; and Dan Worth, Secretary. GLREA has a speakers' bureau with volunteer presenters throughout Michigan. If you know of a group interested in a presentation on renewable energy, they should contact me at johnsarver3@gmail.com.

Michigan News

Energy Issues were not mentioned in Gov. Snyder's State of the State address. The Flint water crisis took center stage. Senate Energy and Technology Committee Chair Mike Nofs (R-Battle Creek) has said he's going to pick up where he left off last year and see if he can get legislation to the House by the end of February. Asked if he believes there's a "looming energy crisis" in Michigan, Senate Majority Leader Arlan Meekhof (R-West Olive) said, "No," adding that the energy bill is still a "ways off."

MPSC approved an agreement in November between developer Geronimo Energy and Consumers Energy for a 100 MW wind project. Geronimo will sell wind energy to Consumers for less than $45 per MWH, the lowest wind price to date approved by the MPSC. In 2010, the MPSC approved contracts for more than double that amount.

Ontonagon County Rural Electrification Assoc. has backed off a plan to restructure its solar net metering program that infuriated some of its members last year. In August, the utility notified its 17 net metering members that it would no longer purchase their excess electricity at retail rates. On Oct. 1, Ontonagon planned to purchase excess generation at wholesale rates, mirroring a statewide plan that's being discussed in the state legislature. Ontonagon has decided to commission studies to help clarify how other members are being impacted by the coop's net metering program. More details.

Powers Distributing, a beer distributor in Orion Township, has teamed up with Newman Consulting Group, Lean & Green Michigan, and Michigan Solar Solutions to complete Michigan's first refinanced PACE project (Property Assessed Clean Energy). Any project that qualifies for PACE financing can also be refinanced by PACE, allowing companies to obtain long-term financing for recently completed clean energy projects. Between 2013 and 2015, Powers Distributing added a 95 kW solar system to the roof of its recycling center and installed LED lighting throughout the facility. The $435,000 project will save $48,000 per year in energy costs. http://www.newmanconsultinggroup.us/

City of Saginaw has begun a $1.8 million project that will convert its 6,400 streetlights to LED technology. The conversion process is expected to take about four months. The LED fixtures, on average, use 68% less electricity than the older high-pressure sodium streetlights for the same level of illumination. With a $650,000 annual budget for streetlights, the city will save $440,000 per year. More details.

Beyond Michigan

GM has unveiled the production version of the Chevrolet Bolt, a 200-mile-range all-electric car with a $30,000 price tag after federal incentives. The Bolt's range is double the range of EVs in a comparable price bracket, and second only to the Tesla Model S among production vehicles. Tesla's premium sedan boasts a 265-mile range, but comes with a price tag starting at $70,000. In March, Tesla will unveil the Model 3with a $35,000 price tag and a range of up to 300 miles. Production of the Model 3 is slated to start in 2017, which puts the Bolt at least half a year ahead, with production scheduled to start this year. More details.

Buffalo Solar Gigafactory is expected to start production in 6 months. Soon after SolarCity acquired solar panel maker Silevo in the summer of 2014, it announced the construction of the 1.2 million sq.ft. factory. The move had two main goals: 1) SolarCity gets its own secure supply of high-efficiency solar panels (Silevo panels are currently 21% efficient, but the company claims they can get to 24%) and 2) drive down the cost of the panels and installation (higher efficiency, fewer panels). The solar cells to be produced have a target price of $0.50/watt. More details

Japanese 100% renewable energy zones, or municipalities producing renewable energy exceeding energy demand from consumers, agriculture, forestry and fisheries, has steadily increased from 50 in FY2011 to 57 in FY2013. Also the number of 100% sustainable electricity zones, or municipalities producing more electricity from renewable sources than electricity demand has increased from 84 in FY2011 to 89 in FY2013. More details.

United Wind Inc, which has carved out a niche leasing wind turbines to farms and rural homes, has clinched $200 million in funding from Toronto-based Forum Equity Partners - the largest-ever single investment in small wind projects. The $200 million will fund about 1,000 projects in the Northeast and Midwest, allowing United Wind to expand significantly beyond the 26 projects it developed since 2013. The funding from Forum adds to the

$13.5 million United Wind received from New York's state-sponsored NY Green Bank and U.S. Bancorp late last year. More details.

Events

MECS, 3rd Annual Michigan Energy Conference, will bring together corporate leaders in what has become an important dialogue on accelerating the sourcing, procuring, and managing of 21st Century energy resources. The conference will be on Feb. 2 at the Westin Book Cadillac in Detroit. More details.

Michigan Energy Forum – Clean Power Plan will be held on Feb. 11, 5:00 pm at Ann Arbor SPARK Central. Register here.

Solar Site Assessment course at NMC will be held for 4 weeks online from Feb. 15 - March 13. www.nmc.edu/energy

Keeping PACE with Energy Efficiency in Michigan will be held on February 16, 11:30-1:30 in Midland at the Great Hall, 5121 Bay City Rd. Learn more about Michigan's Property Assessed Clean Energy (PACE) statute and what it could do in your community. More details.

Introduction to Solar Electric Power will be held on Thursday, Feb. 25, 8am - 5pm at Northwestern Michigan College. The course is a pre-requisite for the Solar Site Assessor Certificate program. www.nmc.edu/energy

Solar Energy and Storage course will be held on Monday, March 7 at Northwestern Michigan College. www.nmc.edu/energy

MSU Extension, in partnership with GLREA, is holding the Powering Michigan Agriculture with Renewable Energy event on March 10 during the 2016 ANR Week at the Kellogg Hotel and Conference Center. The conference will showcase ways to provide energy on the farm by harnessing wind, sun, water or energy crops.

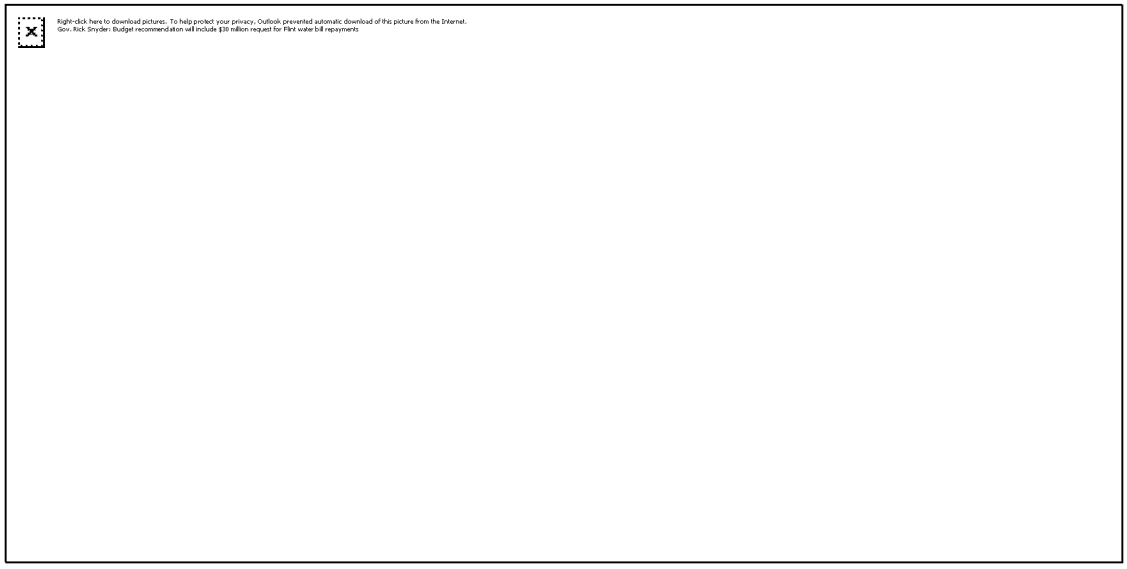
Subject: "Flint residents should not have to pay for water they cannot drink"

Budget recommendation will include $30 million request for Flint water bill repayments



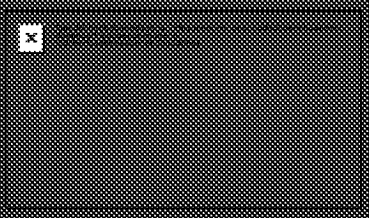
When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a $30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.

Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly 65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking,

and washing your hands. Residents still would be responsible for paying the sewer portion of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

Click here to learn more about the budget request.



We spoke with Staff Sgt. Thomas Vega about the critical resources they're providing to Flint families every day. He also encouraged residents to pick up and return their water testing kits to Flint fire stations. Test results will be posted online at www.mi.gov/flintwater. **Click here to watch the video.**

Flint Drinking Water

Details:

DTMB will continue to offer tap and bottled water as options in the Flint State Office Building. An advisory has been sent asking residents and businesses within a defined area (see attached notice and map) to boil water before using it. However, the Flint State Office Building does not fall within the Area of Interest on the map. Additionally, the results of testing we commissioned in October 2015 showed no signs of threats in the water supply to our building.

We will continue to monitor the water crisis and if at any time we have evidence that our water supply poses a threat to the health of our employees and visitors, we will take immediate action. Either way, we will continue to provide bottled water as an option for those who are still concerned.

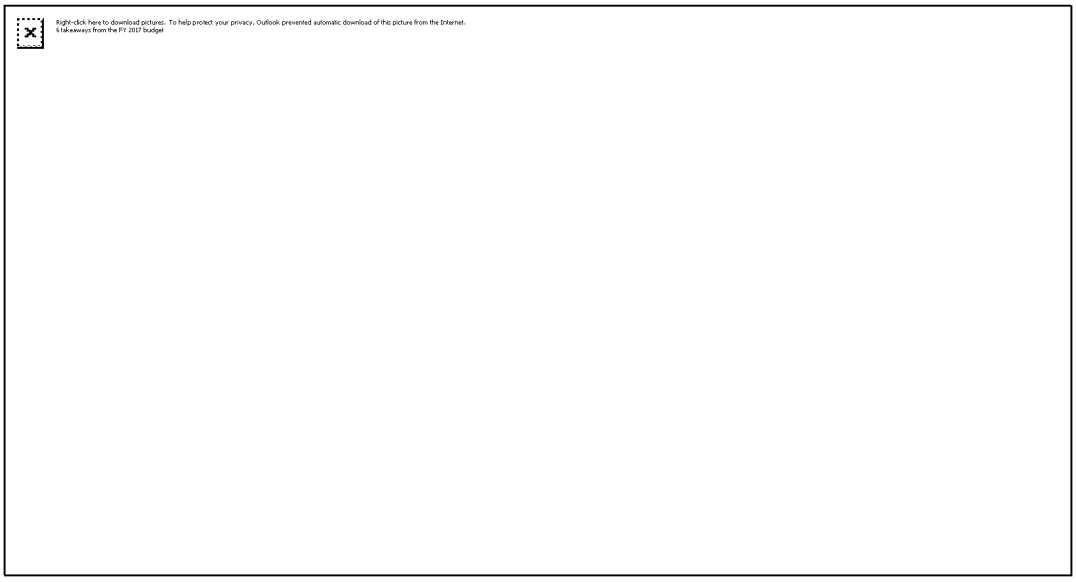
Subject: What this year's budget means for Michigan...

VIDEO: What Governor Snyder's FY17 budget means for Michigan



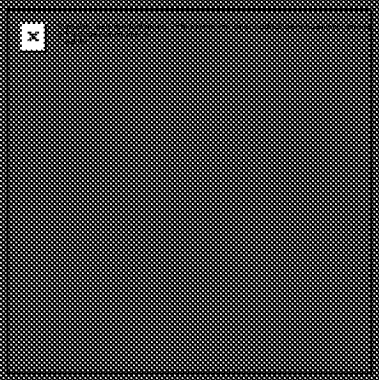
Gov. Rick Snyder's FY 2017 budget calls for critical investments for the Flint water crisis, statewide infrastructure and the Detroit Public Schools. The governor's recommendation also addresses the skyrocketing costs of specialty medications that Michigan residents depend on for better health outcomes.

This budget also stays committed to the Governor's core statewide priorities of education, talent and economic development, health and human services, and public safety.

The proposed FY 2017 budget makes key investments to strengthen the state for all of Michigan's families. Click here to learn more about the top 6 takeaways from the

Governor's FY 2017 state budget.

Click a tweet to tweet it out:



The #MIBudget @OneToughNerd proposed yesterday makes key investments to strengthen Michigan for all families --> www.mi.gov/MIBudget

--> @OneToughNerd's #MIBudget includes $72 million a year for Detroit Public Schools. It is time to act now --> www.mi.gov/MIBudget

THIS WEEK IN POLITICS

Top Officials at Risk and Unresolved 2016 Election Maps

BY ALAN GREENBLATT

Statewide Officials Find Themselves at Risk

Executive branch jobs are generally more stable than legislative positions. But some didn't seem too secure this week.

In Michigan, the drumbeat of complaints about Republican Gov. Rick Snyder just keep getting louder. On Monday, the Board of State Canvassers approved one of many recall petitions, which gives Snyder's critics a green light to collect signatures to put a recall measure on the November ballot. The approved petition has to do with education, but any recall campaign will focus squarely on how Snyder has handled the Flint water crisis.

In Indiana, Republican Gov. Mike Pence, who is up for re-election this fall, picked a new running mate this week after his quit. Lt. Gov. Sue Ellspermann is up for a job running a community college system, so Pence turned to Eric Holcomb, a former chair of the state GOP, to shore up his ties with party activists.

"By selecting Holcomb as his running mate, Pence sent a clear message about how endangered his political career is," wrote Matthew Tully, a columnist with the *Indianapolis Star*.

Pence is being challenged by Democrat John Gregg, a former House speaker.

Subject: We Have Arrived!!!!
Good Afternoon Team Union St.!!!
Well, I must say that, once again, you have amazed me with yet another EXCELLENT effort!! I cannot believe that we have packed, partied, relocated, and unpacked 160 staff members without a major hiccup on our part!!! I thank each of you for working together to make this transition as seamless as possible. I am humbled by your positive attitudes and willingness to assist each other throughout this process. If you have an opportunity, please extend a kind word to Marlene and Jean as they are still tirelessly doing everything possible to make sure that we are well taken care of and in order.
I sincerely hope that you are enjoying your new environment and its amenities. It is really good to see the smiles on so many faces as you get settled in. This is absolutely a beautiful place to do our work and it is fit for such a great team. I truly believe that you are the best and deserve to have the best!!!
Please allow me to share a few things that I am grateful for…

-I am so grateful for each of you and the work that you do.
-I am grateful for a beautiful working environment for my team.
-I am grateful for being able to serve those that are in need.
-I am grateful for the many smiles that greeted me this morning.
-I am grateful for the DTMB, Telecom, Children's Services, and Property Management staff who helped us with the move.
-I am grateful for this day.

If you will just a take a moment to consider one thing (or more) that you are grateful for and ride that energy throughout this day, I hope that it brings you peace and joy. Please continue to spread the positive energy and infect the environment and those that you come into contact with it!! Remember that the Union Street District is what you make it…let's make it great!!!!

Ruth,

As I mentioned to you earlier in our checkpoint meeting, we received excellent customer service from Bill Brown (who works for Doug Church @ DTMB Facilities) this past week when preparing and setting up for the design showcases. He was courteous and knowledgeable about the equipment, offered to arrange tables, chairs, microphones and taped down the cords on the stage for our staff that were presenting each day (12/2 and 12/3). Our session yesterday was slated to end at 5pm, but we ended up staying in the room after that to do some logistical planning for the following day and Bill not only made himself readily available to us, but also offered to do the set-up that evening so we didn't have to worry about it in the morning. When we had some trouble with a microphone, he found a replacement for us and also checked and refreshed the batteries in the wireless microphones. He also provided the name of the person who would be on shift to assist us at 7 in the morning if needed and then followed back up with us after our session the next day. In addition, Bill has been a helpful point of contact that Amy has utilized for questions about equipment, lighting, connectivity and logistics during our prior planning phase for these sessions. Very impressed with this service!

Subject: Design & Construction

Gentlemen,

I have been providing legal advice and litigation representation to the Design & Construction Division for the last five years. I am moving on to a new position with the Municipal Employees Retirement System; but before I go, I thought it important to let you know the positive impression your employees are making with our department.

During my time in the Department of Attorney General, I have worked closely with Design & Construction's Director, Bob Hall. We have worked on several complicated and litigious construction projects and I have always found Bob to be extremely professional, knowledgeable, and an excellent manager of his staff. I have the deepest respect for him and his staff, particularly Irene Henry and Patrick Mullen, both of whom exude the same terrific qualities of their director.

Your leadership team in Design & Construction are true ambassadors for DTMB and the State.

Sincerely,

Brian LaVictoire

RE: DTMB Staff

Happy Holidays Mr. Behen

Now that we have reached the end of another year in State Government, I wanted to take a few minutes and let you know how much I and my colleagues at MSHDA appreciate how much DTMB has done for us in 2015. MSHDA has endured many challenges this year and DTMB staff have been there to help us each time. MSHDA has made many changes with our leases for office space and the staff at the Real Estate Division have gone above and beyond to assist us. Especially Kris Garrison and Maureen Bailey. I have had the pleasure of working with both over the last few years and they both are very knowledgeable and are always pleasant and professional.

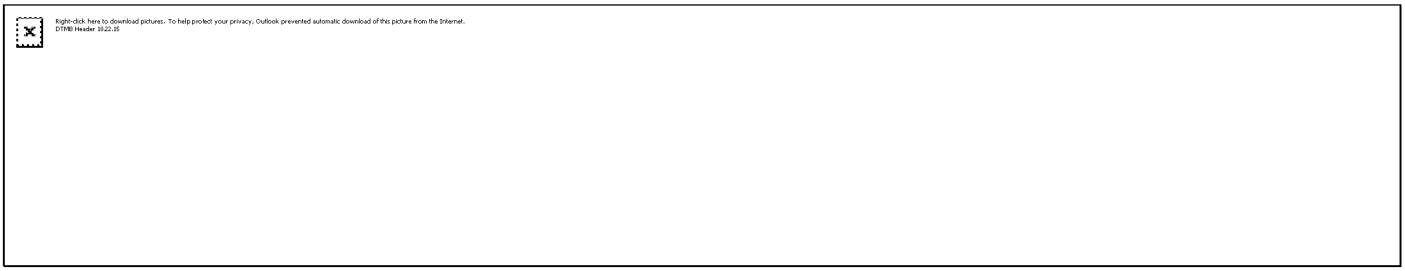
Subject: The Gov. Snyder's Budget Proposal



Good morning everyone. I hope everyone had a great holiday weekend.

I had the good fortune to travel to Marquette on Monday with Chad Laidlaw, DTMB's policy and planning analyst, to meet with city, business and university leaders and to address the Economic Club of Marquette. I told them about the many things DTMB does, placing special emphasis on our work in mobility and cybersecurity. Marquette is really developing and making its mark as an innovative and entrepreneurial community.

Now work.

The executive budget Gov. Snyder presented last week outlined his investment plan for Michigan. Yes, the proposal for fiscal year 2017-18 outlined a strategy to address the critical challenges of addressing the Flint water crisis and turning around Detroit's Public Schools, but the $54.9 billion plan also includes investment in four key areas:

- **Education.** The budget increases investment to K-12 schools, community colleges and the state's public universities. Additional funds are proposed to expand career, technical, science, technology, engineering and math programs.
- **Protecting the Public.** The governor's plan expands the Secure Cities program, which has reduced violent crime in four major Michigan cities. Funds also would support an additional trooper recruit school and an academy to train corrections officers, among other initiatives.
- **Putting People First.** The governor recommends continued expansion of the Healthy Kids Dental Program and funding efforts to ensure residents have access to affordable health care. His proposal boosts funds to help cover new higher cost specialty medications to treat conditions such as hepatitis C and cystic fibrosis, among others.
- **Investing in Infrastructure.** The proposal allocates $1.2 billion to maintain and repair Michigan roads, bridges and other critical infrastructure.

The budget proposal also includes FY 2017-18 funding recommendations for DTMB. Gov. Snyder recommends ongoing funding of $1.3 billion for department operations and a one-time allocation of $32.4 million.

A few highlights include:

- $502 million for information technology support for all state agencies and $132.8 million for 14 high-priority IT projects in seven agencies. He recommends increasing the Information Technology Investment Fund by $7 million, from $65 million to $72 million. This fund supports several major multiyear IT projects and upgrades, including the replacement of outdated legacy systems.
- An additional $5 million to support cybersecurity improvements to safeguard citizens' personal information and protect critical infrastructure and government services.
- IT support of $6.5 million to modernize the Office of Retirement Services' systems and enhance customer service for more than 530,000 current and future retirees.

You can see the full executive budget recommendations, which are posted on the Budget Office website. Details of DTMB's proposed budget begin on page B-75.

We can expect to see many changes before the budgets are signed and become effective Oct. 1. The executive budget will be used by the House and Senate Appropriations Committees as they work on their own budgets and hold committee hearings on the proposals. I'll keep you posted as the process moves ahead.

As always, I welcome your notes, whether about the budget process or any other topic. Please send them to me at behend@michigan.gov.

Thank you again for all the good work you do. I hope you have a great week ahead.

David

Subject: FW: Sample Storage Space

Good afternoon,
Do you guys know if we could make heated storage space available temporarily for DEQ Flint water samples at the SOM W.C? The Initial estimate of space needs based on the number of potential samples would be 1000-1500 ft^2, enough to hold around 100 (3'x4') pallets with additional space to maneuver around to get to specific pallets if necessary.
Thanks,
Jamie

Subject: Sample Storage Space

Neal – Based on our phone conversation, I'm looking for storage/warehouse space for a potentially large amount of water samples over the next few months with the State of Emergency that is happening in Flint right now. Wondering if there are any locations near the Lab that we could utilize for this effort if necessary. At a minimum, the space would need to be secured and temperature controlled, only to prevent freezing. Also looking for pallets that can hold around 1000 Lbs or more. The idea is that we palletize samples here and have them transferred to this storage location on a daily/weekly basis as necessary. There is really no storage space for this kind of capacity here at the State Lab. Initial estimate of space needs based on the number of potential samples would be 1000-1500 ft^2, enough to hold around 100 (3'x4') pallets with additional space to maneuver around to get to specific pallets if necessary.

Sandip – Copying you on this message if you have any ideas that could help.

Thank you!
Kirby

THIS WEEK IN POLITICS

Flint Fallout, Corruption in Court and One State's New Supermajority

BY ALAN GREENBLATT

This was a busy week in politics -- but then, practically every week is. That's why *Governing* is offering this new weekly newsletter.

We won't cover the presidential campaign -- you can find plenty of that elsewhere. Instead, we aim to share with you the most interesting and important developments in state and local politics each week.

You can sign up for a free subscription here.

ADVERTISEMENT ... Content continues below

Flint Curbs Snyder's Future

Although it's premature to call him a lame duck, Michigan Gov. Rick Snyder's political capital has clearly been diminished by the Flint water crisis. During his State of the State address on Tuesday, Snyder offered lots of apologies: "You did not create this crisis;" "Government failed you;" and, "I'm sorry."

Since winning re-election in 2014, Snyder had been mentioned as a potential presidential or vice presidential pick on the Republican side. That kind of talk, however, has abruptly ended. "Even some Michigan Republicans concede that Snyder's national prospects are toast, at least in the short term," reports *Politico*. **KEEP READING >>**

JANUARY 30, 2016

Welcome to a special Saturday edition of GovTech Today, where we recap our best stories of the week — just in case you missed them. Thanks for spending a little bit of your weekend with us.

Anonymous Activates #OpFlint: According to the hacker group, OpFlint promises online attacks directed toward Michigan Gov. Rick Snyder's administration in response to the Flint water emergency, which has dominated national headlines recently. Though Vocativ.com says the video doesn't explain any specifics of Anonymous' attack plan, it does assure to those affected by the water crisis that, "We will amplify your voice where the mainstream media will surely fail you, as it has in the past." See what Michigan officials had to say about the threat.

Speed Up by Slowing Down: It's becoming increasingly difficult to stay current with emerging technologies while mitigating security vulnerabilities. So what can be done to keep up? Surprisingly, it may be best to slow down, look around and catch your breath. That's right — if you want to speed up innovation, many experts suggest slowing down first.

Emerging Tech Affects Jobs: A new study has some worrisome revelations for the future of the global job market: By 2020, more than 5 million jobs could disappear in the wake of advancing technology. And those in the public sector are not immune.

SF's Startup in Residence: Building on a program from 2014, the San Francisco Mayor's Office of Civic Innovation announced during a Jan. 28 press conference the 2016 Startup in Residence program that includes a regional partnership with the neighboring cities of Oakland, San Leandro and West Sacramento. The ultimate goal? To build

Flint Water Advisory

Date/Time:
Effective Wednesday, January 7, 2015
Details:
The City of Flint recently sent out the attached notice regarding violations to the drinking water standards. While the City of Flint states that corrective actions are not necessary, DTMB is in the process of providing a water cooler on each occupied floor, positioned near the water fountain, so you can choose which water to drink. The coolers will arrive today and will be provided as long as the public water does not meet treatment requirements.

Since we spend about 40 hours a week at our workplaces, isn't the office the best place to try out some new energy-saving tricks? The Energy Information Administration estimates that if commercial and industrial buildings improved their energy efficiency by 10 percent, our economy could see yearly savings of nearly $20 billion.

Subject: Lead in Drinking Water

Hi David,

DynGlobal manufactures units to remove heavy metals including lead from drinking water. Our technology is scalable from under sink units to large municipal scale facilities.

Please let me know how we can assist Flint to remove lead or other metals or bacteria from drinking water. DynGlobal's technology can be rapidly deployed within less than two months to resolve the current emergency situation.

Thank you and best regards,

Vern

Wagner, Robert (DEQ) <WAGNERR1@michigan.gov>
Subject: Sample Storage Space

Neal – Based on our phone conversation, I'm looking for storage/warehouse space for a potentially large amount of water samples over the next few months with the State of Emergency that is happening in Flint right now. Wondering if there are any locations near the Lab that we could utilize for this effort if necessary. At a minimum, the space would need to be secured and temperature controlled, only to prevent freezing. Also looking for pallets that can hold around 1000 Lbs or more. The idea is that we palletize samples here and have them transferred to this storage location on a daily/weekly basis as necessary. There is really no storage space for this kind of capacity here at the State Lab. Initial estimate of space needs based on the number of potential samples would be 1000-1500 ft^2, enough to hold around 100 (3'x4') pallets with additional space to maneuver around to get to specific pallets if necessary.

Sandip – Copying you on this message if you have any ideas that could help.

Thank you!
Kirby

The idea is that we palletize samples here and have them transferred to this storage location on a daily/weekly basis as necessary. There is really no storage space for this kind of capacity here at the State Lab. Initial estimate of space needs based on the number of potential samples would be 1000-1500 ft^2, enough to hold around 100 (3'x4') pallets with additional space to maneuver around to get to specific pallets if necessary.

Sandip – Copying you on this message if you have any ideas that could help.

Thank you!
Kirby

GLREA News

Exhibitor and Sponsor Registration is open for the annual Michigan Renewable Energy Fair June 24 & 25 at the Ingham County Fairgrounds. The Fair includes renewable energy, energy efficiency, sustainability and environmentally minded companies and groups and this year the Great Lakes Emergency Preparedness Expo will be part of the Fair. Their exhibitors will have information on food preservation, emergency

communications, water, storage and more. In addition, the Ann Arbor Hands-On Museum will be developing a number of interactive wind energy exhibits and activities that will be at the Fair.

MSU Extension, in partnership with GLREA, is holding the Powering Michigan Agriculture with Renewable Energy event on Thursday, March 10. This event will take place during the 2016 ANR Week at the Kellogg Hotel and Conference Center. The conference is designed to showcase ways to provide energy on the farm by harnessing the natural energy of the wind, sun, water or energy crops. During this day-long program farmers will have the opportunity to learn more about energy efficiency and various renewable energy technologies. We invite you to become a sponsor or vendor. http://events.anr.msu.edu/poweringmiag/

GLREA officers were elected at the January board meeting: Jim Carter, President; Dave Konkle, Vice-President; Cary Church, Treasurer; and Dan Worth, Secretary. GLREA has a speakers' bureau with volunteer presenters throughout Michigan. If you know of a group interested in a presentation on renewable energy, they should contact me at johnsarver3@gmail.com.

Michigan News

Energy Issues were not mentioned in Gov. Snyder's State of the State address. The Flint water crisis took center stage. Senate Energy and Technology Committee Chair Mike Nofs (R-Battle Creek) has said he's going to pick up where he left off last year and see if he can get legislation to the House by the end of February. Asked if he believes there's a "looming energy crisis" in Michigan, Senate Majority Leader Arlan Meekhof (R-West Olive) said, "No," adding that the energy bill is still a "ways off."

MPSC approved an agreement in November between developer Geronimo Energy and Consumers Energy for a 100 MW wind project. Geronimo will sell wind energy to Consumers for less than $45 per MWH, the lowest wind price to date approved by the MPSC. In 2010, the MPSC approved contracts for more than double that amount.

Ontonagon County Rural Electrification Assoc. has backed off a plan to restructure its solar net metering program that infuriated some of its members last year. In August, the utility notified its 17 net metering members that it would no longer purchase their excess electricity at retail rates. On Oct. 1, Ontonagon planned to purchase excess generation at

wholesale rates, mirroring a statewide plan that's being discussed in the state legislature. Ontonagon has decided to commission studies to help clarify how other members are being impacted by the coop's net metering program. More details.

Powers Distributing, a beer distributor in Orion Township, has teamed up with Newman Consulting Group, Lean & Green Michigan, and Michigan Solar Solutions to complete Michigan's first refinanced PACE project (Property Assessed Clean Energy). Any project that qualifies for PACE financing can also be refinanced by PACE, allowing companies to obtain long-term financing for recently completed clean energy projects. Between 2013 and 2015, Powers Distributing added a 95 kW solar system to the roof of its recycling center and installed LED lighting throughout the facility. The $435,000 project will save $48,000 per year in energy costs. http://www.newmanconsultinggroup.us/

City of Saginaw has begun a $1.8 million project that will convert its 6,400 streetlights to LED technology. The conversion process is expected to take about four months. The LED fixtures, on average, use 68% less electricity than the older high-pressure sodium streetlights for the same level of illumination. With a $650,000 annual budget for streetlights, the city will save $440,000 per year. More details.

Beyond Michigan

GM has unveiled the production version of the Chevrolet Bolt, a 200-mile-range all-electric car with a $30,000 price tag after federal incentives. The Bolt's range is double the range of EVs in a comparable price bracket, and second only to the Tesla Model S among production vehicles. Tesla's premium sedan boasts a 265-mile range, but comes with a price tag starting at $70,000. In March, Tesla will unveil the Model 3with a $35,000 price tag and a range of up to 300 miles. Production of the Model 3 is slated to start in 2017, which puts the Bolt at least half a year ahead, with production scheduled to start this year. More details.

Buffalo Solar Gigafactory is expected to start production in 6 months. Soon after SolarCity acquired solar panel maker Silevo in the summer of 2014, it announced the construction of the 1.2 million sq.ft. factory. The move had two main goals: 1) SolarCity gets its own secure supply of high-efficiency solar panels (Silevo panels are currently 21% efficient, but the company claims they can get to 24%) and 2) drive down the cost of the panels and installation (higher efficiency, fewer panels). The solar cells to be produced have a target price of $0.50/watt. More details.

Japanese 100% renewable energy zones, or municipalities producing renewable energy exceeding energy demand from consumers, agriculture, forestry and fisheries, has steadily increased from 50 in FY2011 to 57 in FY2013. Also the number of 100% sustainable electricity zones, or municipalities producing more electricity from renewable sources than electricity demand has increased from 84 in FY2011 to 89 in FY2013. More details.

United Wind Inc, which has carved out a niche leasing wind turbines to farms and rural homes, has clinched $200 million in funding from Toronto-based Forum Equity Partners - the largest-ever single investment in small wind projects. The $200 million will fund about 1,000 projects in the Northeast and Midwest, allowing United Wind to expand significantly beyond the 26 projects it developed since 2013. The funding from Forum adds to the $13.5 million United Wind received from New York's state-sponsored NY Green Bank and U.S. Bancorp late last year. More details.

Events

MECS, 3rd Annual Michigan Energy Conference, will bring together corporate leaders in what has become an important dialogue on accelerating the sourcing, procuring, and managing of 21st Century energy resources. The conference will be on Feb. 2 at the Westin Book Cadillac in Detroit. More details.

Michigan Energy Forum -- Clean Power Plan will be held on Feb. 11, 5:00 pm at Ann Arbor SPARK Central. Register here.

Solar Site Assessment course at NMC will be held for 4 weeks online from Feb. 15 - March 13. www.nmc.edu/energy

Keeping PACE with Energy Efficiency in Michigan will be held on February 16, 11:30-1:30 in Midland at the Great Hall, 5121 Bay City Rd. Learn more about Michigan's Property Assessed Clean Energy (PACE) statute and what it could do in your community. More details.

Introduction to Solar Electric Power will be held on Thursday, Feb. 25, 8am - 5pm at Northwestern Michigan College. The course is a pre-requisite for the Solar Site Assessor Certificate program. www.nmc.edu/energy

Solar Energy and Storage course will be held on Monday, March 7 at Northwestern Michigan College. www.nmc.edu/energy

MSU Extension, in partnership with GLREA, is holding the Powering Michigan Agriculture with Renewable Energy event on March 10 during the 2016 ANR Week at the Kellogg Hotel and Conference Center. The conference will showcase ways to provide energy on the farm by harnessing wind, sun, water or energy crops.
http://events.anr.msu.edu/poweringmiag/

Michigan Renewable Energy Fair will be June 24 & 25 at the Ingham County Fairgrounds. The Fair includes renewable energy, energy efficiency, sustainability and environmentally minded companies and groups. www.glrea.org

ASES Solar 2016 will be held in conjunction with Intersolar North America on July 11-13 in San Francisco. Interested in presenting? Deadline for abstracts is Feb. 22. Submit here. Questions? solar2016@ases.org.

Flint Drinking Water

Details:

DTMB will continue to offer tap and bottled water as options in the Flint State Office Building. An advisory has been sent asking residents and businesses within a defined area (see attached notice and map) to boil water before using it. However, the Flint State Office Building does not fall within the Area of Interest on the map. Additionally, the results of testing we commissioned in October 2015 showed no signs of threats in the water supply to our building.

We will continue to monitor the water crisis and if at any time we have evidence that our water supply poses a threat to the health of our employees and visitors, we will take immediate action. Either way, we will continue to provide bottled water as an option for those who are still concerned.

Subject: Conversation with Rokely, Rick (DTMB)

Rokely, Rick (DTMB) [2:51 PM]:
There are potentially some overtime opportunities coming up soon within OIP due to the Flint crisis. I volunteered to help if there is a need and if my schedule fits too
Parker, Alexandrea (DTMB) [2:51 PM]:
sounds good, will they actually pay you?
or do you just get "free time"
Rokely, Rick (DTMB) [2:51 PM]:
I think Chris said he will be sending an email out to OIP staff to see if there is anyone that can be available
I heard it from both Brandon and Chris that they would fill out the required form to give actual overtime pay
Parker, Alexandrea (DTMB) [2:52 PM]:
oh that would be great. yeah i would like to get in on it if we get it offered too. we shall seeeeee
Rokely, Rick (DTMB) [2:53 PM]:
Yeah i hope anyone can volunteer. He made it sound like the request would go out anyone to see who is available
Parker, Alexandrea (DTMB) [2:53 PM]:
right right.
well we'll see, i wonder what they need done
Rokely, Rick (DTMB) [2:56 PM]:
From the sound of it, i could be anything. Jeff has been at the JOC on and off for the last four days doing things here and there. He also had to round up another 31 ipads to get them to Flint because there was a need. Chris has been running to local stores and buying mass quantities of water to send too
Parker, Alexandrea (DTMB) [2:58 PM]:
wow interesting

Flint Alternate Water Resource

Date/Time:

Monday, October 5, 2015 at 6:00 a.m. until further notice

Details:

Beginning Monday, October 5, 2015, water coolers will be available in common areas on floors 1-6 of the Flint State Office Building. Although the drinking water has been tested and falls within all DEQ and EPA regulation standards, alternate water sources will be offered to accommodate all tenants due to recent concerns regarding the water supply. Water testing will continue and the alternate water source will be available until all quality concerns are addressed.

Thank you for you cooperation.

Emergency Notification System Test

When emergencies interrupt business, communicating accurate and timely information is a priority for the Department of Technology, Management and Budget. Building closure information for multiple areas will be posted on the Michigan.gov website to ensure employees and media outlets are receiving the same information. Employees in DTMB-managed state-owned facilities will also receive building closure notifications via telephone, text or emails.

To assist us in this endeavor, DTMB added a communication software called NotiFind to our emergency notification system. NotiFind uses mobile telephones, text

messaging, land lines and E-mail to inform participants of the emergency situation.

The software works with HRMN and imports employee name, work-site location, email address, and work and home telephone numbers bi-weekly into a confidential data base. The information is then disseminated into DTMB-managed state-owned building specific emergency plans.

We are asking for your assistance with this project. Please review your HRMN contact information and make changes as necessary to ensure DTMB has your most up-to-date contact information in the event of an emergency.

To review and update your information:

1. Go to michigan.gov/selfserv
2. Log into your self-service account
3. Choose "Employment" link, then choose "Work Phone & Email" (Update if necessary)
4. Choose "Personal Information" link (Update if necessary)
    - Choose Home Address link, choose "Change my Home Address" to update Home & Supplemental phone
    - Choose "Emergency" link, Click "Add" to update your emergency contacts
    - Choose "Additional Contacts" to add mobile and other contact numbers
5. At each step be sure to click the "Update" button and read response to ensure your new information was updated.

**Please submit all information by the end of the workday, on Friday, December 18, 2015.

The NotiFind system is tested annually and participants will receive a message stating "this is a test of the NotiFind system." If you receive notification for a building you no longer work in, please contact your Human Resources office to have the information corrected.

DTMB will begin testing the email notification system Wednesday, January 13, 2016 with tenants receiving a notification by their designated worksite building.

Thank you for your cooperation and patience as we continue to seek ways in which to improve service to our customers.

Subject: Volunteer Opportunity in Flint

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, https://www.surveymonkey.com/r/28NVJBL

To volunteer on Sunday, January 17, https://www.surveymonkey.com/r/26NMJKK

To volunteer on Monday, January 18, https://www.surveymonkey.com/r/26P7P5G

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit www.michigan.gov/flintwater.

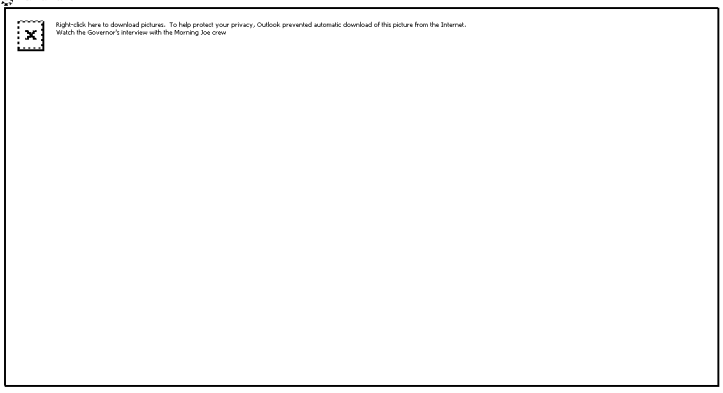
How we are fixing the Flint water crsis

Governor Rick Snyder has committed to spending the rest of his time as Governor to fixing the Flint water crisis. Over the last few days, he has sat down to explain what happened and how we're fixing the Flint water crisis. Watch the interviews below and be sure to read the Governor's Op-Ed in the USA Today.

Governor Snyder on Morning Joe

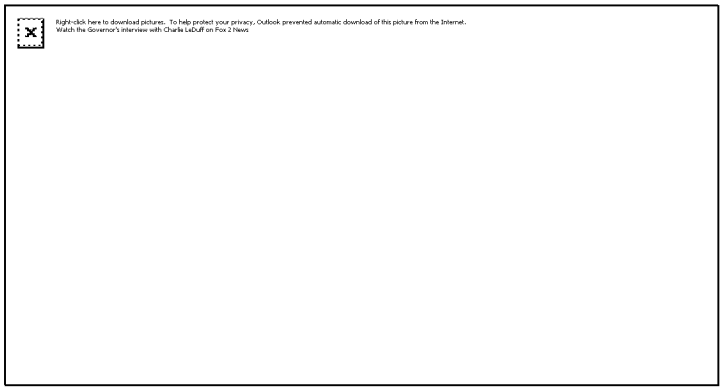
"What is so frustrating and what makes you so angry is you have a handful of experts who were career civil servants that made terrible decisions, in my view. We have to live with the consequences, and they worked for me, so I accept that responsibility. We are going to fix this problem." Watch Governor Snyder address how we are fixing the Flint water crisis on Morning Joe.



Governor Snyder with Charlie LeDuff on Fox 2 Detroit

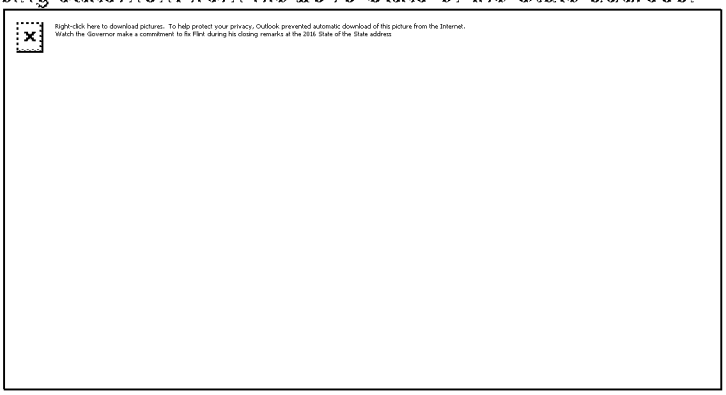
"I feel awful about this. These are people. They've been harmed. You can't feel good about that. The people of Flint have been harmed and a major influence of that harm came from people who worked for me, and I feel responsible for that. But I am committed

to solving the problem and addressing the damage as much as possible for the rest of the time I'm Governor." Watch Governor Snyder address the Flint water crisis with Charlie LeDuff on Fox 2 News.

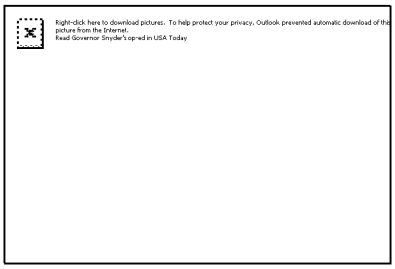


Governor Snyder's 2016 State of the State

"Michiganders don't quit, we don't give up, instead we will work with even more passion and commitment to truly improve our state. For everyone who's chosen to make Michigan their home, this is more than a promise, this is my commitment." Watch Governor Snyder's full closing statement from his 2016 State of the State address.



Governor in USA Today: "I will fix this, and I mean it."



"Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take responsibility for what these families are going through, and I'm holding people in my administration accountable for their failures." Click here to read the Governor's full op-ed.

Washington Post: "Michigan Gov. Rick Snyder is in a tough spot, but he's his own best spokesman"

Snyder has born the brunt of criticism in the local health crisis that has turned into a national scandal. But unlike many other politicians facing crises of leadership, Snyder may also be his own best counter-programming. Click here to read the full story in the Washington Post.

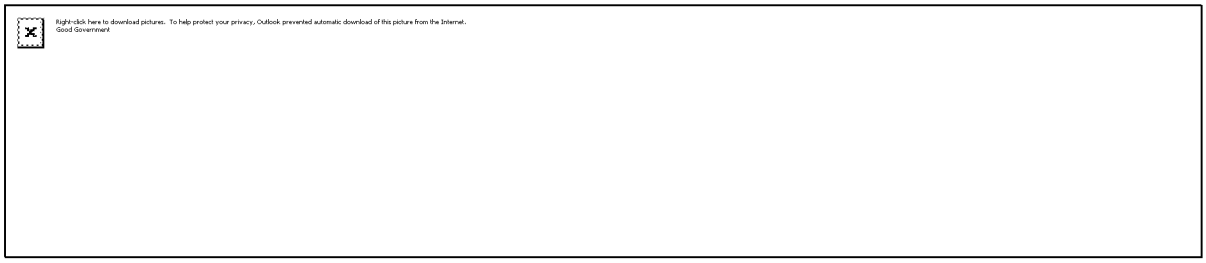
Subject: Flint Volunteer Efforts



Dear State Employees,

Gov. Rick Snyder and I want to thank everyone who donated their time during the holiday weekend to deliver bottled water, water filters, replacement cartridges and water testing kits to families in the city of Flint. We are working hard to ensure all residents are provided with the safe water resources they need, and each donation and hour of your time volunteered goes a long way.

For employees who would like to help the residents of Flint, there are several opportunities to do so. Please visit www.helpforflint.com to learn how you can help.

For additional information and updates, visit www.michigan.gov/flintwater.

Again, thank you for all your support.

Sincerely, Mike Zimmer
Office of Good Government Director
Dept. of Licensing and Regulatory Affairs Director

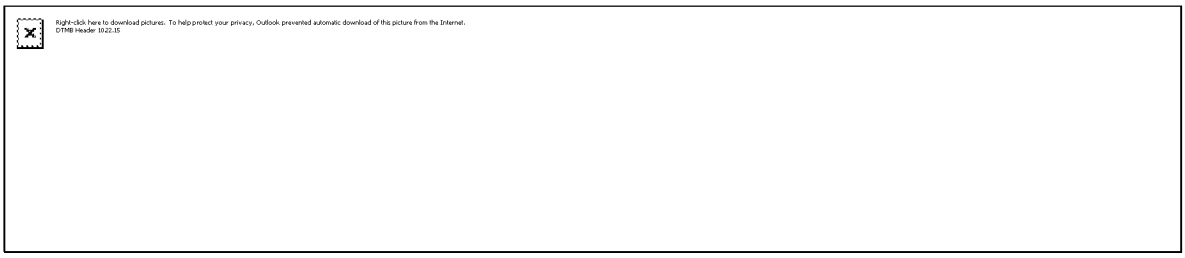
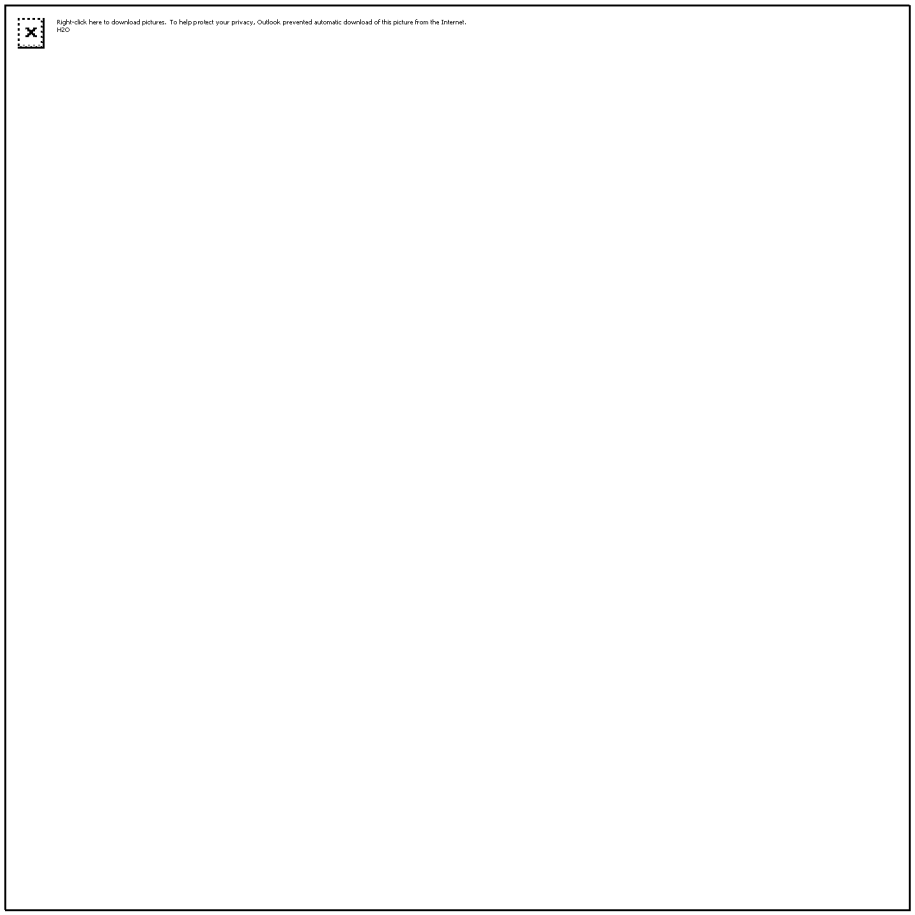
Subject: Contributing time, muscle and money



During this month's Martin Luther King Jr. holiday weekend, some state employees turned their "day off" into a "day on" in Flint. There, they delivered bottled water, water filters, replacement cartridges and water testing kits to families. The volunteers joined other Michiganders, turning Dr. King's birthday observance into a day of service.



Mike Zimmer, director of the Office of Good Government and the Department of Licensing and Regulatory Affairs, has shared a link – www.helpforflint.com – that offers other opportunities to contribute time, muscle and money to bring clean drinking water to the community.Here in DTMB, some of our employees didn't wait for an invitation to lend a hand. Office of Retirement Services staff contributed funds that were used to buy 31 cases and 23 gallons of water, which a local organization transported to Flint.

Autumn Hubbard, Ambrea Mack and Sarah Esquivel, who are in the photo at the left, nearly emptied the shelves at their local grocery store. Thanks for your efforts.

everyone.

Now work.

Last week, I signed a new policy that formalizes the annual employee review process and sets expectations for employees and managers. Administrative Policy 200.37 establishes consistent standards for implementing performance plans and reviews. Some of the standards are practices we have followed for years. Others are new. Some of particular note include:

- The mandatory use of HRMN
- A standard Feb. 1-Jan. 31 rating period for all employees
- An Individual Development Plan that specifies training or development programs for each employee
- Competencies and objectives that align to DTMB goals or scorecard metrics
- Consequences for managers and supervisors who do not complete the review process as required

A fundamental role of each DTMB manager or supervisor is to provide employees with direction and feedback on their performance. Employees also are expected to take an active role in pursuing professional development opportunities and achieving their competencies and objectives. I encourage you to review the new policy and talk with your manager or supervisor if you have questions. Of course, I welcome your questions and input as well. Please send your comments and ideas to me at behend@michigan.gov.

I know these have been busy weeks for many of you as you take on additional responsibilities and work hard to provide resources and services for our customers and citizens across the state. Please know that your hard work has not gone unnoticed. Thank you for everything you do, every day.

Have a great week,

David

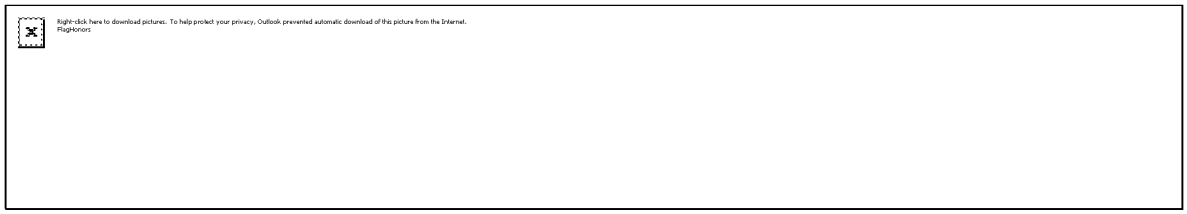
Subject: Thank you for your service



THANK YOU!

Fellow employees,

Each day, more than 46,000 state of Michigan employees come to work with the confidence and commitment to make Michigan a better place to live, work and play. I appreciate the way you care about the citizens we serve, and how it is reflected in the work that you do.

As you have heard from me and the media, our reputation and trust can be severely impacted when people do not make good decisions, or use good judgment in solving problems. That principle is universal, but never more so than when public health is at stake. What happened in Flint can never be allowed to happen again anywhere in our state.

I know that you want to work in a place where employee input is valued, efforts are recognized, and teams are always striving for continuous improvement. That's why we introduced employee surveys, Bureaucracy Busters and other reinvention initiatives. We want and deserve a culture of innovation, continuous improvement and employee engagement at every level. We can never take for granted how important the people are who depend on us to do our jobs, and I am asking you not to let the situation in Flint negatively impact your motivation to excel every day.

Many of you have taken an interest in helping the citizens of Flint on your own time, and I'd like to take this opportunity to recognize and thank those who have volunteered over the last couple of weekends. You have worked tirelessly to deliver cases of bottled water, water filters, replacement cartridges and water testing kits to the families in need. I appreciate you donating your time to help our fellow Michiganders. To date, more than 37,000 homes have been visited by one of our water resource teams.

For employees who would like to further help the people of Flint, please visit www.HelpForFlint.com to learn how you can do so. For additional information and to sign up for daily updates, please visit www.mi.gov/FlintWater. I am committed to ensuring that all residents have access to safe and clean water.

Again, I'd like to express my gratitude for the work you do every day to continuously improve our state and earn the trust of those you serve. You make a real difference.

Thanks,

Governor Rick Snyder

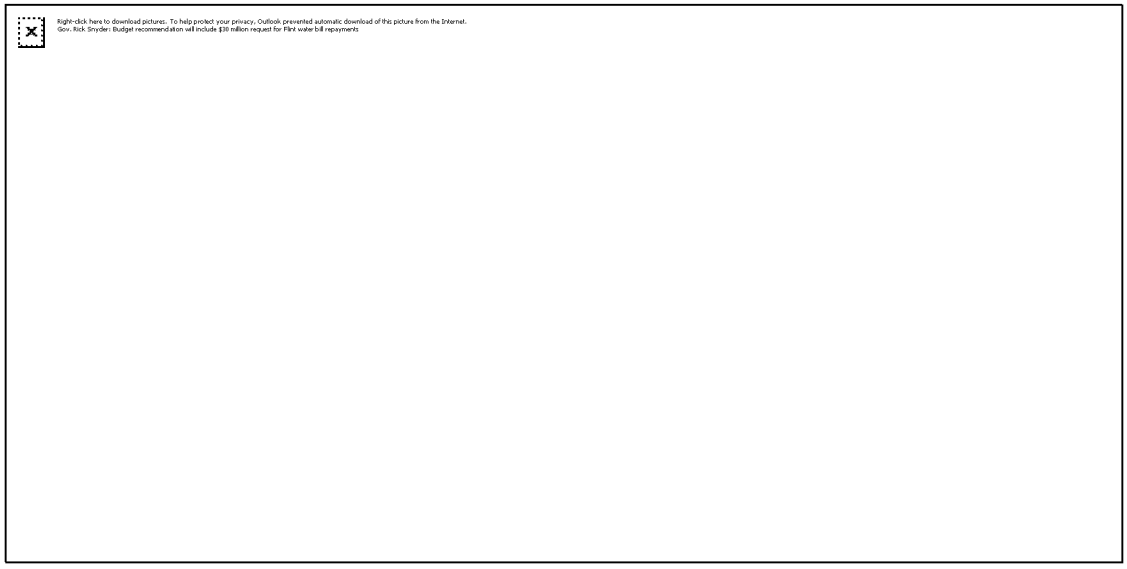
From: Governor's Office <governorsoffice@govsubscriptions.michigan.gov>
Sent: Wednesday, February 03, 2016 6:27 PM
To: Parker, Alexandrea (DTMB)
Subject: "Flint residents should not have to pay for water they cannot drink"

Budget recommendation will include $30 million request for Flint water bill repayments



When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a $30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.

Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly

65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking, and washing your hands. Residents still would be responsible for paying the sewer portion of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

Click here to learn more about the budget request.

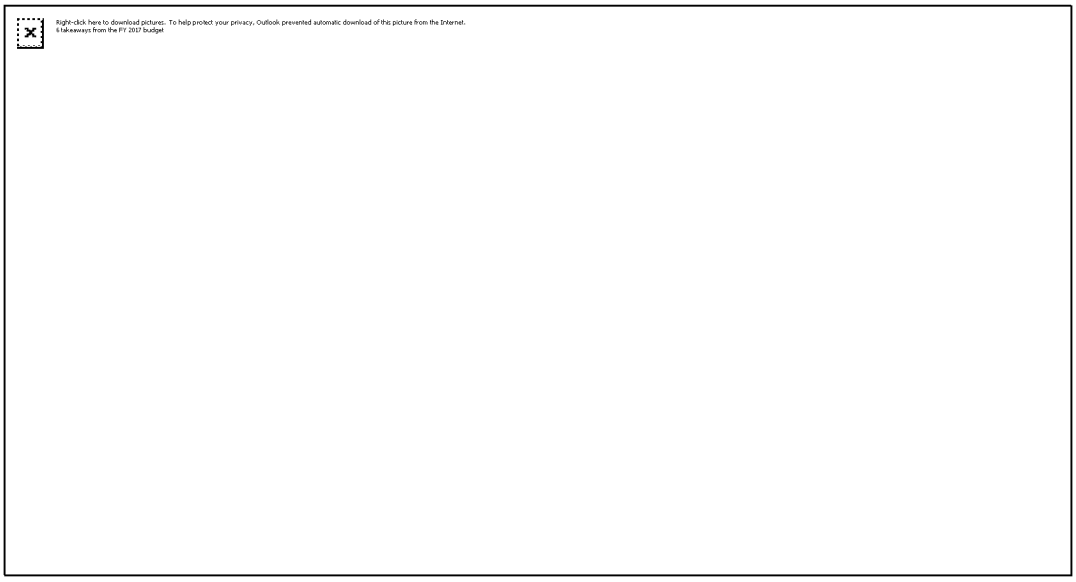
Subject: What this year's budget means for Michigan...

VIDEO: What Governor Snyder's FY17 budget means for Michigan



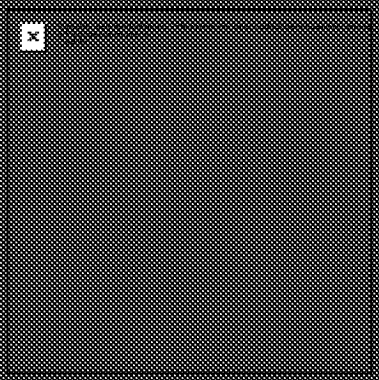
Gov. Rick Snyder's FY 2017 budget calls for critical investments for the Flint water crisis, statewide infrastructure and the Detroit Public Schools. The governor's recommendation also addresses the skyrocketing costs of specialty medications that Michigan residents depend on for better health outcomes.

This budget also stays committed to the Governor's core statewide priorities of education, talent and economic development, health and human services, and public safety.

The proposed FY 2017 budget makes key investments to strengthen the state for all of Michigan's families. Click here to learn more about the top 6 takeaways from the

Governor's FY 2017 state budget.

Click a tweet to tweet it out:



The #MIBudget @OneToughNerd proposed yesterday makes key investments to strengthen Michigan for all families --> www.mi.gov/MIBudget

--> @OneToughNerd's #MIBudget includes $72 million a year for Detroit Public Schools. It is time to act now --> www.mi.gov/MIBudget

--> @onetoughnerd's significant investment in #Flint families is the right thing to do. #FlintFWD #MIBudget www.mi.gov/MIBudget

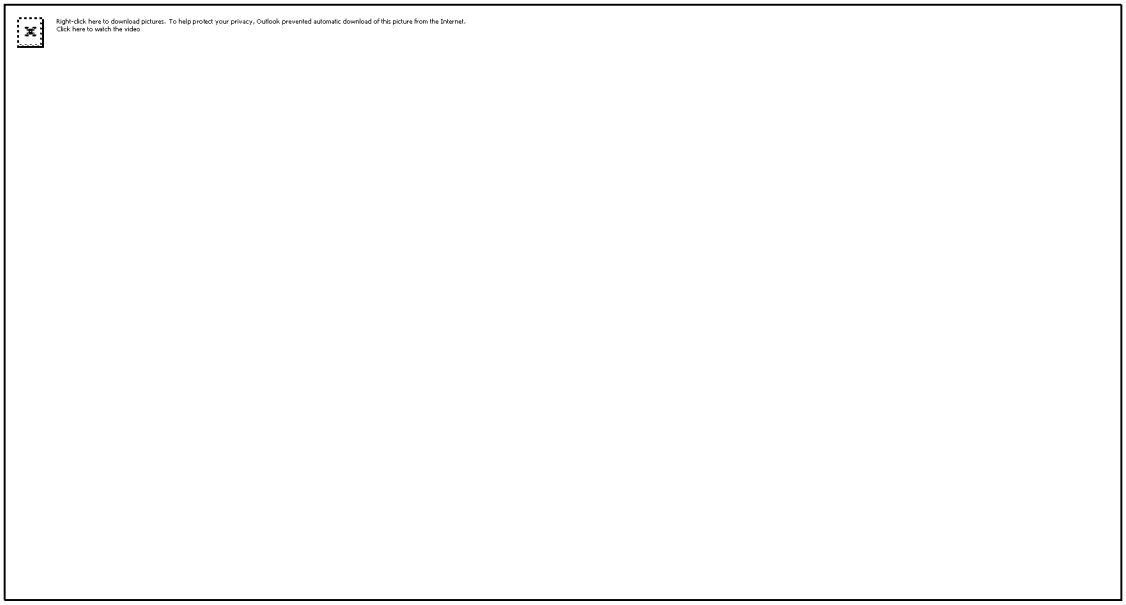
Subject: VIDEO: Volunteering in Flint

VIDEO: How volunteers are helping Flint



Volunteers at the Food Bank of Eastern Michigan are working hard to collect donations in order to help the families of Flint. Last Thursday, Governor Snyder visited with the many dedicated volunteers and helped sort cans of food.

Good nutrition is critically important for Flint's children. Foods that are high in calcium, vitamin C, and iron can help limit the effects of lead exposure. To donate or volunteer at the Food Bank of Eastern Michigan, visit www.fbem.org.

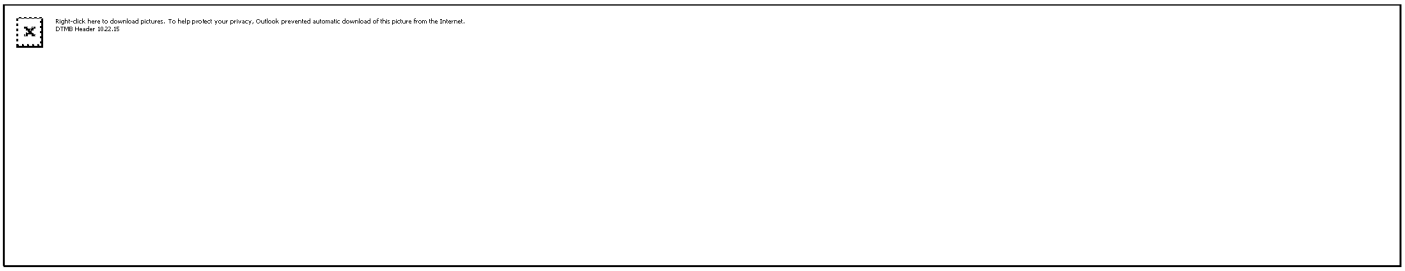
From: DTMB Director and CIO David Behen <dtmb@govsubscriptions.michigan.gov>
Sent: Wednesday, February 17, 2016 10:10 AM
To: Parker, Alexandrea (DTMB)
Subject: The Gov. Snyder's Budget Proposal



Good morning everyone. I hope everyone had a great holiday weekend.

I had the good fortune to travel to Marquette on Monday with Chad Laidlaw, DTMB's policy and planning analyst, to meet with city, business and university leaders and to address the Economic Club of Marquette. I told them about the many things DTMB does, placing special emphasis on our work in mobility and cybersecurity. Marquette is really developing and making its mark as an innovative and entrepreneurial community.

Now work.

The executive budget Gov. Snyder presented last week outlined his investment plan for Michigan. Yes, the proposal for fiscal year 2017-18 outlined a strategy to address the critical challenges of addressing the Flint water crisis and turning around Detroit's Public Schools, but the $54.9 billion plan also includes investment in four key areas:

- **Education.** The budget increases investment to K-12 schools, community colleges and the state's public universities. Additional funds are proposed to expand career, technical, science, technology, engineering and math programs.
- **Protecting the Public.** The governor's plan expands the Secure Cities program, which has reduced violent crime in four major Michigan cities. Funds also would support an additional trooper recruit school and an academy to train corrections officers, among other initiatives.
- **Putting People First.** The governor recommends continued expansion of the Healthy Kids Dental Program and funding efforts to ensure residents have access to affordable health care. His proposal boosts funds to help cover new higher cost specialty medications to treat conditions such as hepatitis C and cystic fibrosis, among others.
- **Investing in Infrastructure.** The proposal allocates $1.2 billion to maintain and repair Michigan roads, bridges and other critical infrastructure.

The budget proposal also includes FY 2017-18 funding recommendations for DTMB. Gov. Snyder recommends ongoing funding of $1.3 billion for department operations and a one-time allocation of $32.4 million.

A few highlights include:

- $502 million for information technology support for all state agencies and $132.8 million for 14 high-priority IT projects in seven agencies. He recommends increasing the Information Technology Investment Fund by $7 million, from $65 million to $72 million. This fund supports several major multiyear IT projects and upgrades, including the replacement of outdated legacy systems.
- An additional $5 million to support cybersecurity improvements to safeguard citizens' personal information and protect critical infrastructure and government services.
- IT support of $6.5 million to modernize the Office of Retirement Services' systems and enhance customer service for more than 530,000 current and future retirees.

You can see the full executive budget recommendations, which are posted on the Budget Office website. Details of DTMB's proposed budget begin on page B-75.

We can expect to see many changes before the budgets are signed and become effective Oct. 1. The executive budget will be used by the House and Senate Appropriations Committees as they work on their own budgets and hold committee hearings on the proposals. I'll keep you posted as the process moves ahead.

As always, I welcome your notes, whether about the budget process or any other topic. Please send them to me at behend@michigan.gov.

Thank you again for all the good work you do. I hope you have a great week ahead.

David

<Map - Precautionary Boil Water Advisory.pdf>

<Precautionary Boil Water Notice 2-9-16.pdf>

DRINKING WATER WARNING

The City of Flint water system lost pressure and contamination may have occurred
BOIL YOUR FILTERED WATER BEFORE USING

Due to a drop in pressure in the City of Flint water supply, bacterial contamination may have occurred in the water system. Bacteria are generally not harmful and are common throughout our environment. Corrective measures are currently being undertaken to correct the situation.

What should I do?

AS A PRECAUTIONARY MEASURE, DO NOT DRINK THE WATER WITHOUT BOILING IT FIRST. Bring all FILTERED water to a boil, let it boil for one minute, and let it cool before using, or use bottled water. If you are currently NOT using a filter to remove lead from drinking water, FLUSH your water for AT LEAST 7 minutes before collecting any to boil. Boiled FILTERED, boiled FLUSHED, or bottled water should be used for drinking, making ice, brushing teeth, washing dishes, and preparing food. Boiling kills bacteria and other organisms in the water. Continue using boiled or bottled water until further notice.

Due to the pressure loss, there may be trapped air and loose sediment in your water lines. The air and sediment may be removed by flushing you water system. DO NOT FLUSH YOUR SYSTEM THROUGH THE FILTER. The resulting air and sediment may affect the performance of your filter and the filter cartridge should be replaced.

What happened? What is being done?

These precautionary actions are being taken due to the loss of water pressure in the water distribution system caused by a water transmission main break on February 9, 2016. Whenever a water system loses pressure for any significant length of time, precautionary measures are recommended.

The City of Flint Water Department is working to get pressure restored, and water staff will be taking other remedial actions such as flushing and collecting bacteriological samples from around the system. The samples will be collected to determine that the water quality meets the state drinking water standards. We will inform you when tests show no bacteria and you no longer need to boil your water. We anticipate resolving the problem later today. This precautionary boil water notice shall remain in effect until results from the sampling verify the water is safe to drink. **Customers will be advised when the boil water advisory has been lifted.**

For more information, please contact The City of Flint Water Department at (810) 766-7202. General guidelines on ways to lessen the risk of infection by microbes are available from the EPA Safe Drinking Water Hotline at 1(800) 426-4791.

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.

CERTIFICATION: WSSN: 2310

I certify that this water supply has fully complied with the public notification requirements in the Michigan Safe Drinking Water Act, 1976 PA 399, as amended, and the administrative rules.

Michael Glasgow	UTILITIES ADMINISTRATOR	2/9/16
Signature	Title	Date Distributed

Reminder to water supplier: This notice / certification must be sent to the DEQ.

Details:

An advisory has been issued by the City of Flint asking water customers within a defined area (see attached notice and map) to boil water before using it. However, the Flint State Office Building does not fall within the identified area. DTMB continues to offer tap and bottled water in public areas on each floor as options in the Flint State Office Building.

Flint Water Quality

Details:

DTMB commissioned testing of the water in the Flint State Office Building and the results show our water poses no health threats. Although the water is safe to drink, we will continue to provide water coolers in common areas on floors 1-6 of the Flint State Office Building until we are connected to the Detroit water system.

If you have any questions, please contact the Flint Building Trades Supervisor, Brian Walts, at WaltsB@michigan.gov or 810-760-2044.

Subject: Time Sensitive Request

SMT,

Jean Ingersoll is leading DTMB's effort to comply with document production requests related to freedom of information requests and certain lawsuits against the state.

At some point during the day tomorrow, Jean will share with you a list of standard "search terms" which we will use to compile documents related to this lawsuit.

Within 2 hours of receiving this email from Jean, you need to respond with a list of likely custodians from your work area. Jean may have more information on this tomorrow, but generally speaking a custodian will be a staff member who might reasonably be expected to have documents (electronic or otherwise) that correspond to the issues identified in the search terms.

If you have any questions, please call me or Jean. This is an important issue and I thank you in advance for your attention to this matter.

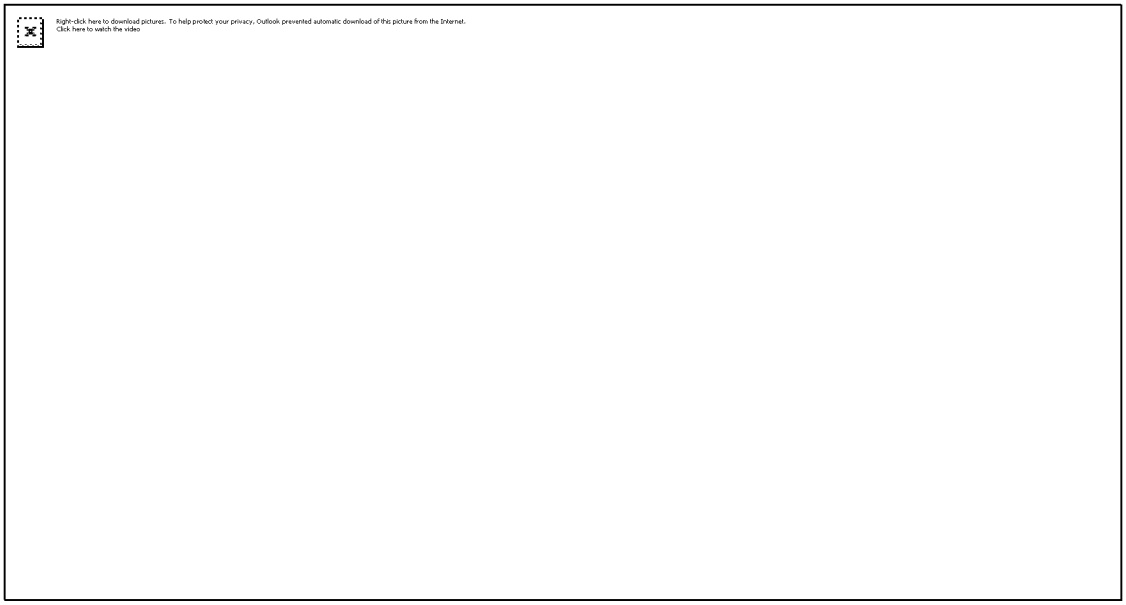
VIDEO: How volunteers are helping Flint



Volunteers at the Food Bank of Eastern Michigan are working hard to collect donations in order to help the families of Flint. Last Thursday, Governor Snyder visited with the many dedicated volunteers and helped sort cans of food.

Good nutrition is critically important for Flint's children. Foods that are high in calcium, vitamin C, and iron can help limit the effects of lead exposure. To donate or volunteer at the Food Bank of Eastern Michigan, visit www.fbem.org.

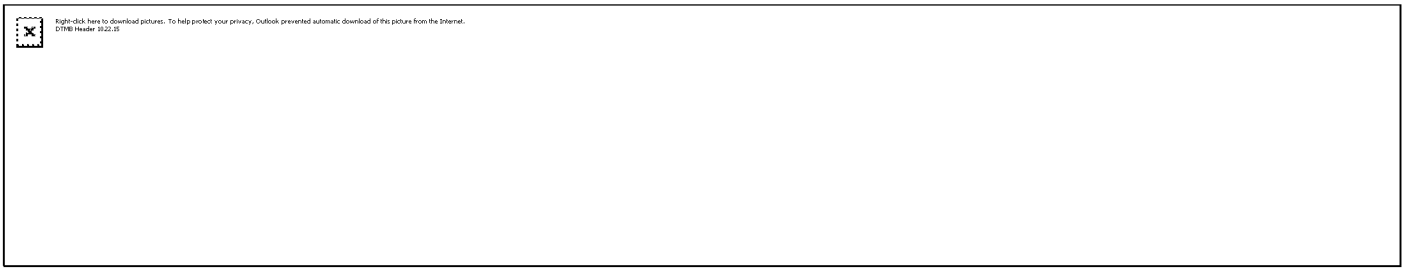
Subject: The Gov. Snyder's Budget Proposal



Good morning everyone. I hope everyone had a great holiday weekend.

I had the good fortune to travel to Marquette on Monday with Chad Laidlaw, DTMB's policy and planning analyst, to meet with city, business and university leaders and to address the Economic Club of Marquette. I told them about the many things DTMB does, placing special emphasis on our work in mobility and cybersecurity. Marquette is really developing and making its mark as an innovative and entrepreneurial community.

Now work.

The executive budget Gov. Snyder presented last week outlined his investment plan for Michigan. Yes, the proposal for fiscal year 2017-18 outlined a strategy to address the critical challenges of addressing the Flint water crisis and turning around Detroit's Public Schools, but the $54.9 billion plan also includes investment in four key areas:

- **Education.** The budget increases investment to K-12 schools, community colleges and the state's public universities. Additional funds are proposed to expand career, technical, science, technology, engineering and math programs.
- **Protecting the Public.** The governor's plan expands the Secure Cities program, which has reduced violent crime in four major Michigan cities. Funds also would support an additional trooper recruit school and an academy to train corrections officers, among other initiatives.
- **Putting People First.** The governor recommends continued expansion of the Healthy Kids Dental Program and funding efforts to ensure residents have access to affordable health care. His proposal boosts funds to help cover new higher cost specialty medications to treat conditions such as hepatitis C and cystic fibrosis, among others.
- **Investing in Infrastructure.** The proposal allocates $1.2 billion to maintain and repair Michigan roads, bridges and other critical infrastructure.

The budget proposal also includes FY 2017-18 funding recommendations for DTMB. Gov. Snyder recommends ongoing funding of $1.3 billion for department operations and a one-time allocation of $32.4 million.

A few highlights include:

- $502 million for information technology support for all state agencies and $132.8 million for 14 high-priority IT projects in seven agencies. He recommends increasing the Information Technology Investment Fund by $7 million, from $65 million to $72 million. This fund supports several major multiyear IT projects and upgrades, including the replacement of outdated legacy systems.
- An additional $5 million to support cybersecurity improvements to safeguard citizens' personal information and protect critical infrastructure and government services.
- IT support of $6.5 million to modernize the Office of Retirement Services' systems and enhance customer service for more than 530,000 current and future retirees.

You can see the full executive budget recommendations, which are posted on the Budget Office website. Details of DTMB's proposed budget begin on page B-75.

We can expect to see many changes before the budgets are signed and become effective Oct. 1. The executive budget will be used by the House and Senate Appropriations Committees as they work on their own budgets and hold committee hearings on the proposals. I'll keep you posted as the process moves ahead.

As always, I welcome your notes, whether about the budget process or any other topic. Please send them to me at behend@michigan.gov.

Thank you again for all the good work you do. I hope you have a great week ahead.

David

Subject: Volunteer Opportunity in Flint

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, https://www.surveymonkey.com/r/28NVJBL

To volunteer on Sunday, January 17, https://www.surveymonkey.com/r/26NMJKK

To volunteer on Monday, January 18, https://www.surveymonkey.com/r/26P7P5G

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit www.michigan.gov/flintwater.

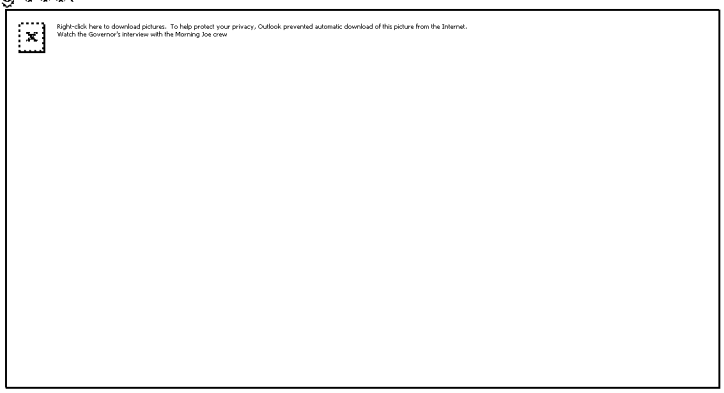
How we are fixing the Flint water crsis

Governor Rick Snyder has committed to spending the rest of his time as Governor to fixing the Flint water crisis. Over the last few days, he has sat down to explain what happened and how we're fixing the Flint water crisis. Watch the interviews below and be sure to read the Governor's Op-Ed in the USA Today.

Governor Snyder on Morning Joe

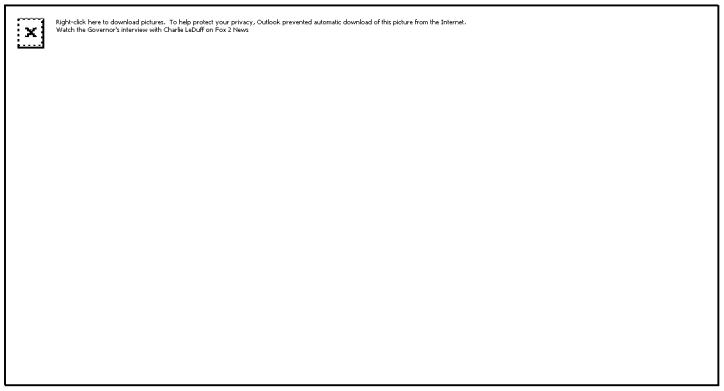
"What is so frustrating and what makes you so angry is you have a handful of experts who were career civil servants that made terrible decisions, in my view. We have to live with the consequences, and they worked for me, so I accept that responsibility. We are going to fix this problem." Watch Governor Snyder address how we are fixing the Flint water crisis on Morning Joe.



Governor Snyder with Charlie LeDuff on Fox 2 Detroit

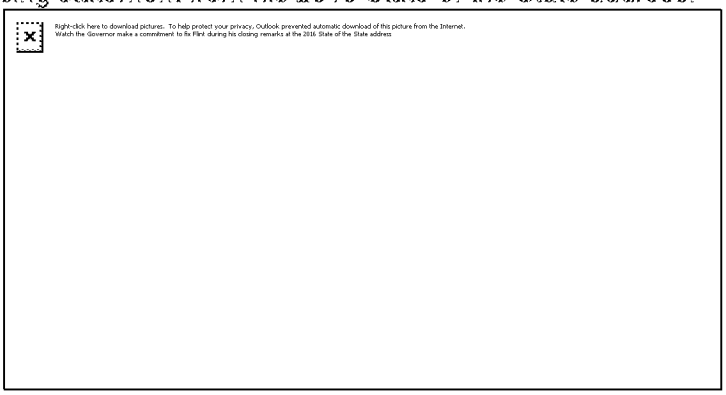
"I feel awful about this. These are people. They've been harmed. You can't feel good about that. The people of Flint have been harmed and a major influence of that harm came from people who worked for me, and I feel responsible for that. But I am committed

to solving the problem and addressing the damage as much as possible for the rest of the time I'm Governor." Watch Governor Snyder address the Flint water crisis with Charlie LeDuff on Fox 2 News.

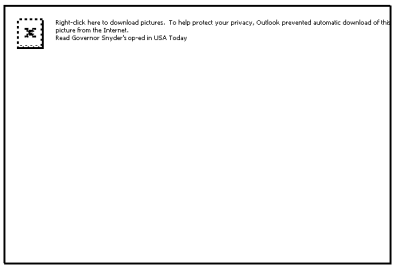


Governor Snyder's 2016 State of the State

"Michiganders don't quit, we don't give up, instead we will work with even more passion and commitment to truly improve our state. For everyone who's chosen to make Michigan their home, this is more than a promise, this is my commitment." Watch Governor Snyder's full closing statement from his 2016 State of the State address.



Governor in USA Today: "I will fix this, and I mean it."



"Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take responsibility for what these families are going through, and I'm holding people in my administration accountable for their failures." Click here to read the Governor's full op-ed.

Washington Post: "Michigan Gov. Rick Snyder is in a tough spot, but he's his own best spokesman"

Snyder has born the brunt of criticism in the local health crisis that has turned into a national scandal. But unlike many other politicians facing crises of leadership, Snyder may also be his own best counter-programming. Click here to read the full story in the Washington Post.

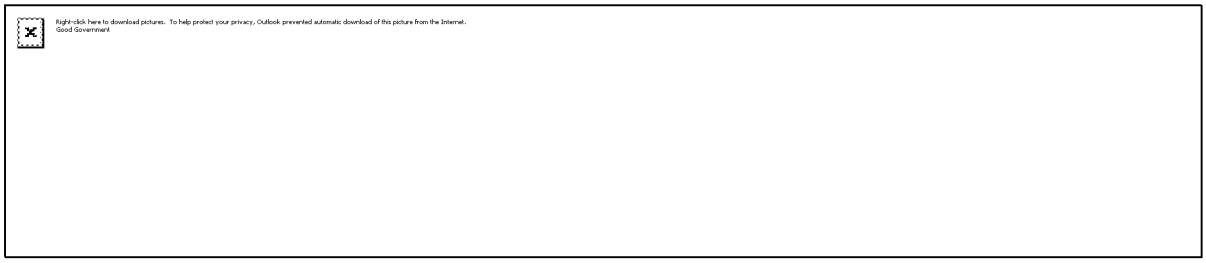
Subject: Flint Volunteer Efforts



Dear State Employees,

Gov. Rick Snyder and I want to thank everyone who donated their time during the holiday weekend to deliver bottled water, water filters, replacement cartridges and water testing kits to families in the city of Flint. We are working hard to ensure all residents are provided with the safe water resources they need, and each donation and hour of your time volunteered goes a long way.

For employees who would like to help the residents of Flint, there are several opportunities to do so. Please visit www.helpforflint.com to learn how you can help.

For additional information and updates, visit www.michigan.gov/flintwater.

Again, thank you for all your support.

Sincerely, Mike Zimmer
Office of Good Government Director
Dept. of Licensing and Regulatory Affairs Director

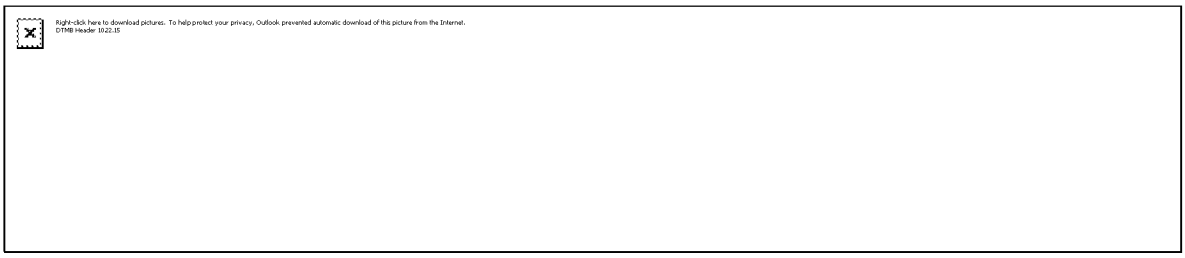
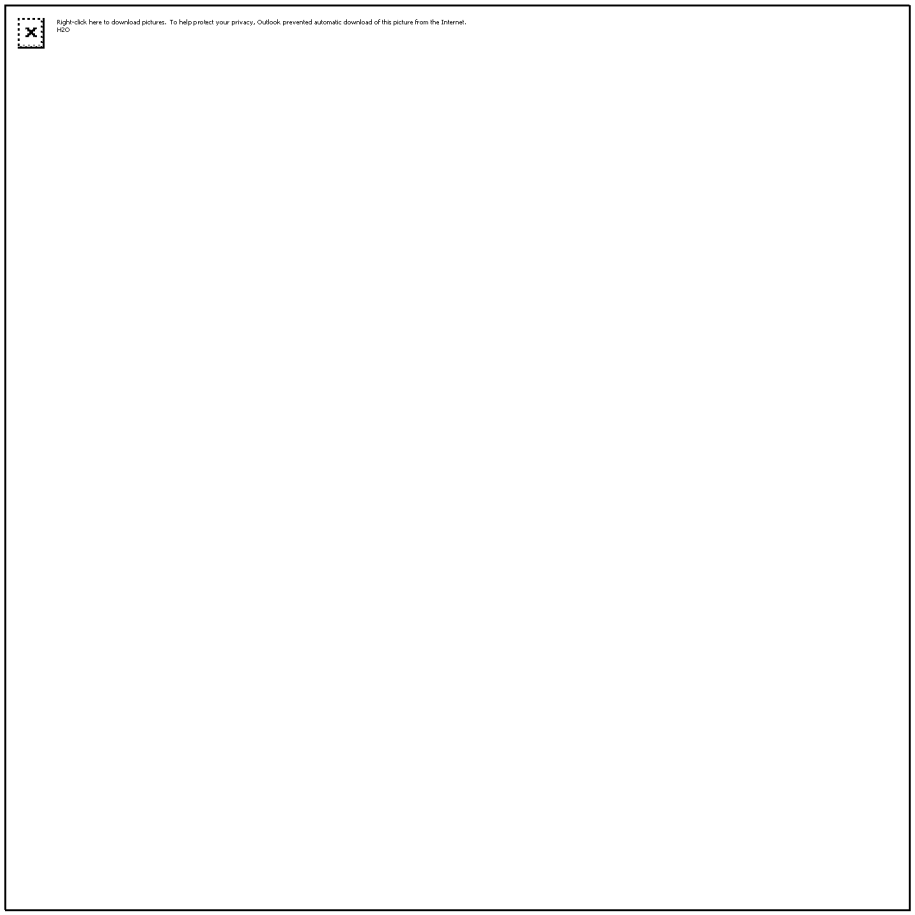
To: Parker, Daniel (DTMB)
Subject: Contributing time, muscle and money



During this month's Martin Luther King Jr. holiday weekend, some state employees turned their "day off" into a "day on" in Flint. There, they delivered bottled water, water filters, replacement cartridges and water testing kits to families. The volunteers joined other Michiganders, turning Dr. King's birthday observance into a day of service.



Mike Zimmer, director of the Office of Good Government and the Department of Licensing and Regulatory Affairs, has shared a link – www.helpforflint.com – that offers other opportunities to contribute time, muscle and money to bring clean drinking water to the community.Here in DTMB, some of our employees didn't wait for an invitation to lend a hand. Office of Retirement Services staff contributed funds that were used to buy 31 cases and 23 gallons of water, which a local organization transported to Flint.

Autumn Hubbard, Ambrea Mack and Sarah Esquivel, who are in the photo at the left, nearly emptied the shelves at their local grocery store. Thanks for your efforts.

everyone.

Now work.

Last week, I signed a new policy that formalizes the annual employee review process and sets expectations for employees and managers. Administrative Policy 200.37 establishes consistent standards for implementing performance plans and reviews. Some of the standards are practices we have followed for years. Others are new. Some of particular note include:

- The mandatory use of HRMN
- A standard Feb. 1-Jan. 31 rating period for all employees
- An Individual Development Plan that specifies training or development programs for each employee
- Competencies and objectives that align to DTMB goals or scorecard metrics
- Consequences for managers and supervisors who do not complete the review process as required

A fundamental role of each DTMB manager or supervisor is to provide employees with direction and feedback on their performance. Employees also are expected to take an active role in pursuing professional development opportunities and achieving their competencies and objectives. I encourage you to review the new policy and talk with your manager or supervisor if you have questions. Of course, I welcome your questions and input as well. Please send your comments and ideas to me at behend@michigan.gov.

I know these have been busy weeks for many of you as you take on additional responsibilities and work hard to provide resources and services for our customers and citizens across the state. Please know that your hard work has not gone unnoticed. Thank you for everything you do, every day.

Have a great week,

David

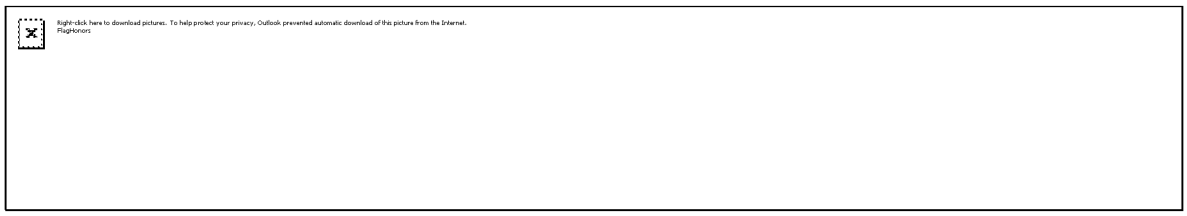
Subject: Thank you for your service



THANK YOU!

Fellow employees,

Each day, more than 46,000 state of Michigan employees come to work with the confidence and commitment to make Michigan a better place to live, work and play. I appreciate the way you care about the citizens we serve, and how it is reflected in the work that you do.

As you have heard from me and the media, our reputation and trust can be severely impacted when people do not make good decisions, or use good judgment in solving problems. That principle is universal, but never more so than when public health is at stake. What happened in Flint can never be allowed to happen again anywhere in our state.

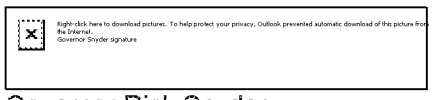
I know that you want to work in a place where employee input is valued, efforts are recognized, and teams are always striving for continuous improvement. That's why we introduced employee surveys, Bureaucracy Busters and other reinvention initiatives. We want and deserve a culture of innovation, continuous improvement and employee engagement at every level. We can never take for granted how important the people are who depend on us to do our jobs, and I am asking you not to let the situation in Flint negatively impact your motivation to excel every day.

Many of you have taken an interest in helping the citizens of Flint on your own time, and I'd like to take this opportunity to recognize and thank those who have volunteered over the last couple of weekends. You have worked tirelessly to deliver cases of bottled water, water filters, replacement cartridges and water testing kits to the families in need. I appreciate you donating your time to help our fellow Michiganders. To date, more than 37,000 homes have been visited by one of our water resource teams.

For employees who would like to further help the people of Flint, please visit www.HelpForFlint.com to learn how you can do so. For additional information and to sign up for daily updates, please visit www.mi.gov/FlintWater. I am committed to ensuring that all residents have access to safe and clean water.

Again, I'd like to express my gratitude for the work you do every day to continuously improve our state and earn the trust of those you serve. You make a real difference.

Thanks,



Governor Rick Snyder

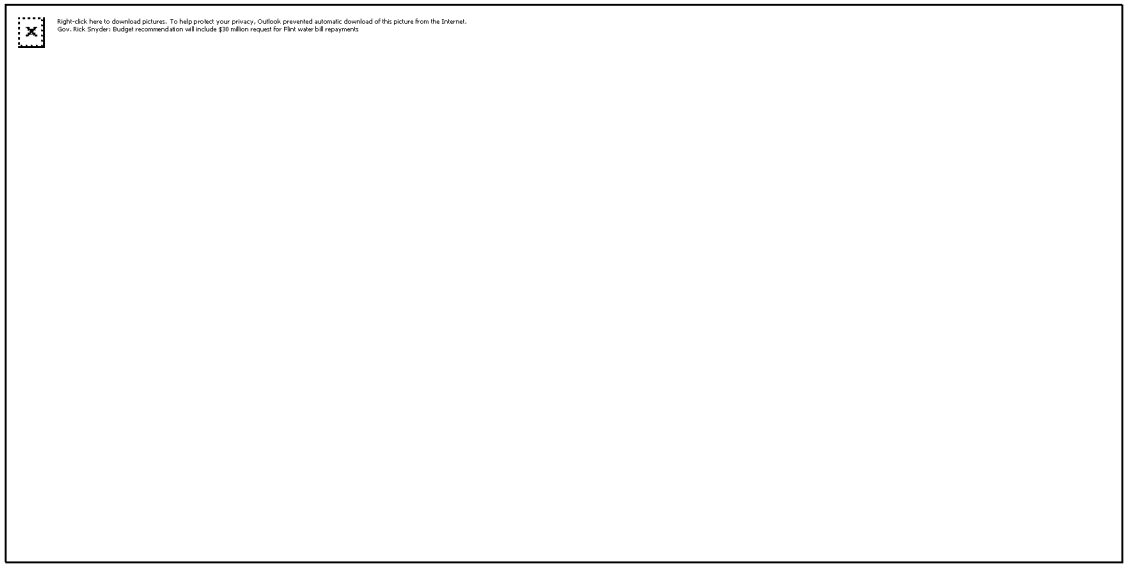
Sent: Wednesday, February 03, 2016 6:13 PM
To: Parker, Daniel (DTMB)
Subject: "Flint residents should not have to pay for water they cannot drink"

Budget recommendation will include $30 million request for Flint water bill repayments



When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a $30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.

Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly

65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking, and washing your hands. Residents still would be responsible for paying the sewer portion of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

Click here to learn more about the budget request.

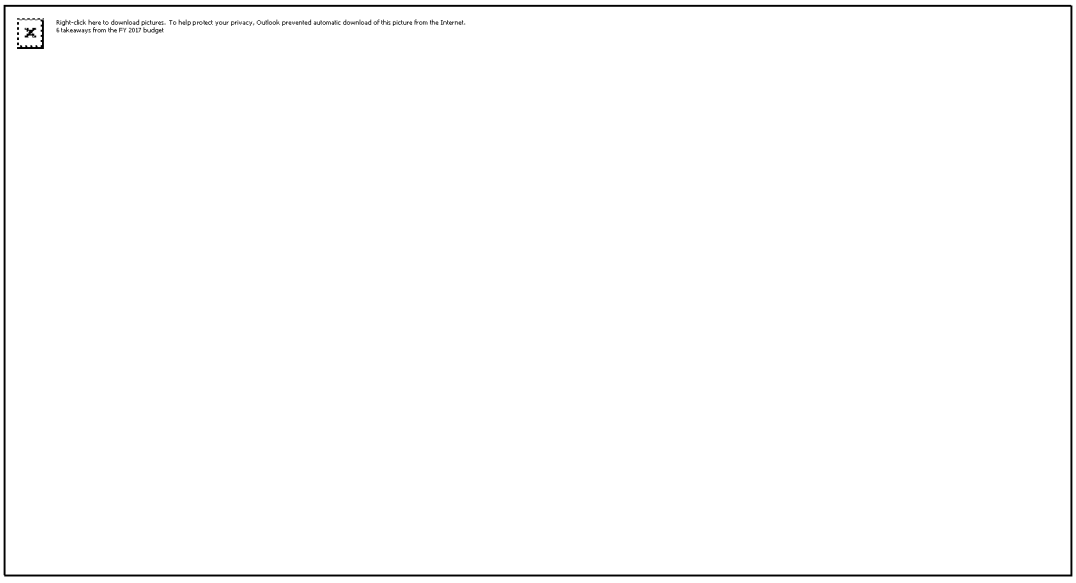
VIDEO: What Governor Snyder's FY17 budget means for Michigan



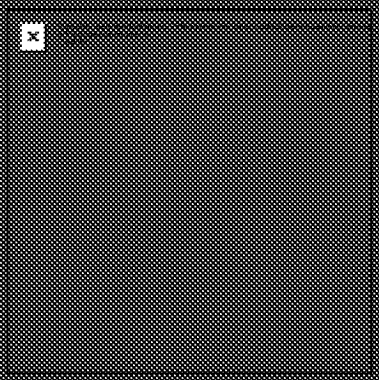
Gov. Rick Snyder's FY 2017 budget calls for critical investments for the Flint water crisis, statewide infrastructure and the Detroit Public Schools. The governor's recommendation also addresses the skyrocketing costs of specialty medications that Michigan residents depend on for better health outcomes.

This budget also stays committed to the Governor's core statewide priorities of education, talent and economic development, health and human services, and public safety.

The proposed FY 2017 budget makes key investments to strengthen the state for all of Michigan's families. Click here to learn more about the top 6 takeaways from the

Governor's FY 2017 state budget.

Click a tweet to tweet it out:



The #MIBudget @OneToughNerd proposed yesterday makes key investments to strengthen Michigan for all families --> www.mi.gov/MIBudget

--> @OneToughNerd's #MIBudget includes $72 million a year for Detroit Public Schools. It is time to act now --> www.mi.gov/MIBudget

--> @onetoughnerd's significant investment in #Flint families is the right thing to do. #FlintFWD #MIBudget www.mi.gov/MIBudget

Subject: Michigan Radio Connect: What you made possible in 2015

Thanks for supporting Michigan Radio, Blane!

View this email in your browser

Hello again Blane,

It's a hectic time of year, but we wanted to take a few minutes to raise a virtual glass of bubbly to you and the members of the Michigan Radio community who helped make so much possible in 2015.

Here are a few highlights:

1. Special reporting on the Flint water crisis - Before it was a national headline, you heard about the water crisis in Flint from Michigan Radio. From the initial shut-offs, to what it might mean for other Michigan communities, Michigan Radio has been committed to giving you the full story as it develops.

2. *State of Opportunity's* Day of Opportunity - On April 11th, Michigan Radio partnered with nonprofits

across the state for a Day of Opportunity to bring listeners and fans a chance to volunteer with *State of Opportunity* and Michigan Radio staff.

3. Issues and Ale events - This year, Michigan Radio's Issues and Ale series crisscrossed Michigan to discuss topics ranging from the road funding debate, to how post 9/11 veterans are faring in Michigan, to college access and affordability. We continue to bring you discussions that impact Michigan communities at your favorite breweries and pubs.

Want to find more stories that we covered this year? Check them out here.

Again, on behalf of everyone at Michigan Radio, our deepest thanks. Your love and support of Michigan Radio inspires this work. We look forward to serving you with more radio that makes a difference in the year ahead.

Cheers!

Jackie, Scott, Alison, Courtney, and Larry

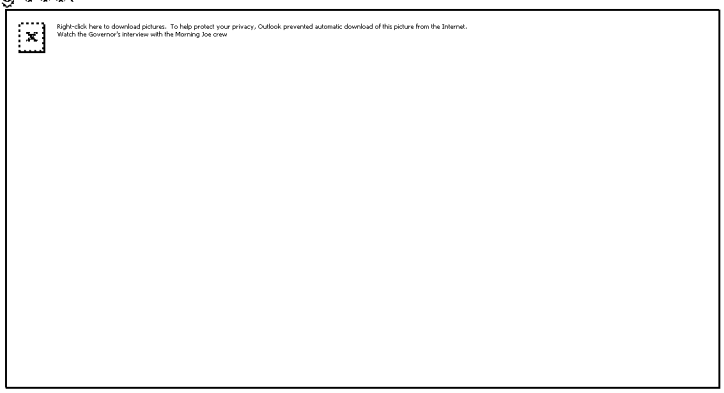
How we are fixing the Flint water crsis

Governor Rick Snyder has committed to spending the rest of his time as Governor to fixing the Flint water crisis. Over the last few days, he has sat down to explain what happened and how we're fixing the Flint water crisis. Watch the interviews below and be sure to read the Governor's Op-Ed in the USA Today.

Governor Snyder on Morning Joe

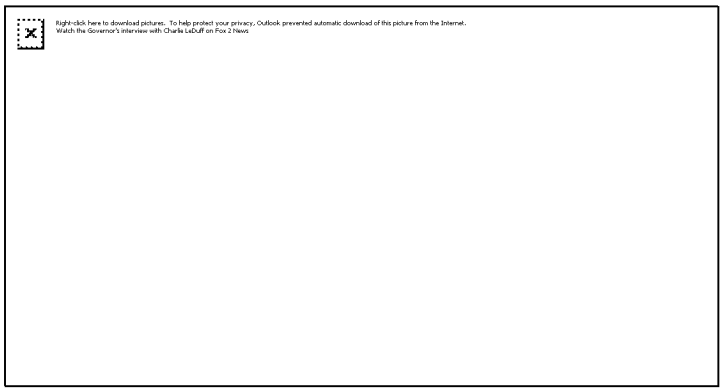
"What is so frustrating and what makes you so angry is you have a handful of experts who were career civil servants that made terrible decisions, in my view. We have to live with the consequences, and they worked for me, so I accept that responsibility. We are going to fix this problem." Watch Governor Snyder address how we are fixing the Flint water crisis on Morning Joe.



Governor Snyder with Charlie LeDuff on Fox 2 Detroit

"I feel awful about this. These are people. They've been harmed. You can't feel good about that. The people of Flint have been harmed and a major influence of that harm

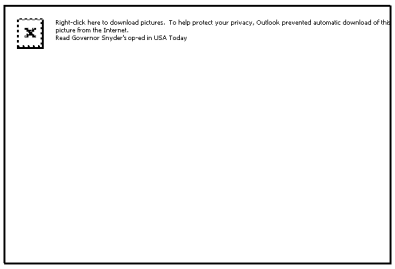
came from people who worked for me, and I feel responsible for that. But I am committed to solving the problem and addressing the damage as much as possible for the rest of the time I'm Governor." Watch Governor Snyder address the Flint water crisis with Charlie LeDuff on Fox 2 News.



Governor Snyder's 2016 State of the State

"Michiganders don't quit, we don't give up, instead we will work with even more passion and commitment to truly improve our state. For everyone who's chosen to make Michigan their home, this is more than a promise, this is my commitment." Watch Governor Snyder's full closing statement from his 2016 State of the State address.

Governor in USA Today: "I will fix this, and I mean it."



"Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take responsibility for what these families are going through, and I'm holding people in my administration accountable for their failures." Click here to read the Governor's full op-ed.

Washington Post: "Michigan Gov. Rick Snyder is in a tough spot, but he's his own best spokesman"

Snyder has born the brunt of criticism in the local health crisis that has turned into a national scandal. But unlike many other politicians facing crises of leadership, Snyder may also be his own best counter-programming. Click here to read the full story in the Washington Post.

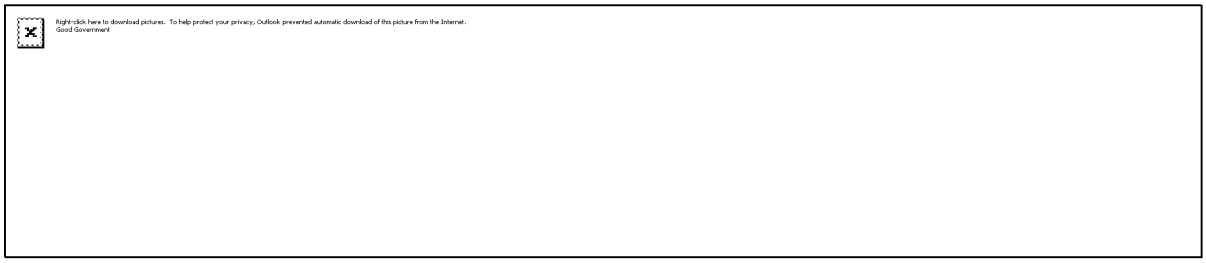
Subject: Flint Volunteer Efforts



Dear State Employees,

Gov. Rick Snyder and I want to thank everyone who donated their time during the holiday weekend to deliver bottled water, water filters, replacement cartridges and water testing kits to families in the city of Flint. We are working hard to ensure all residents are provided with the safe water resources they need, and each donation and hour of your time volunteered goes a long way.

For employees who would like to help the residents of Flint, there are several opportunities to do so. Please visit www.helpforflint.com to learn how you can help.

For additional information and updates, visit www.michigan.gov/flintwater.

Again, thank you for all your support.

Sincerely, Mike Zimmer
Office of Good Government Director
Dept. of Licensing and Regulatory Affairs Director

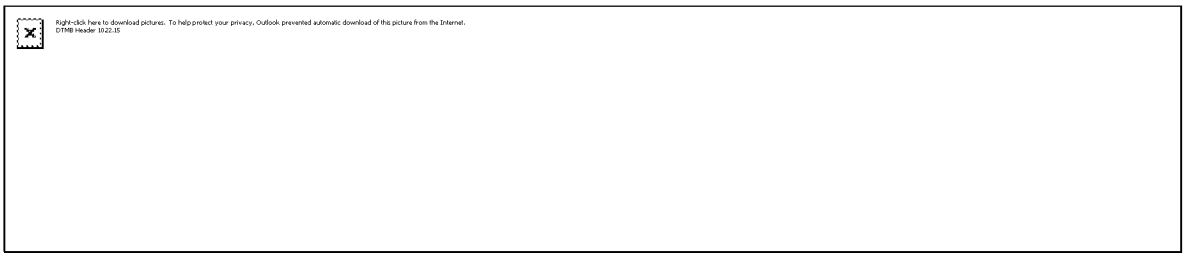
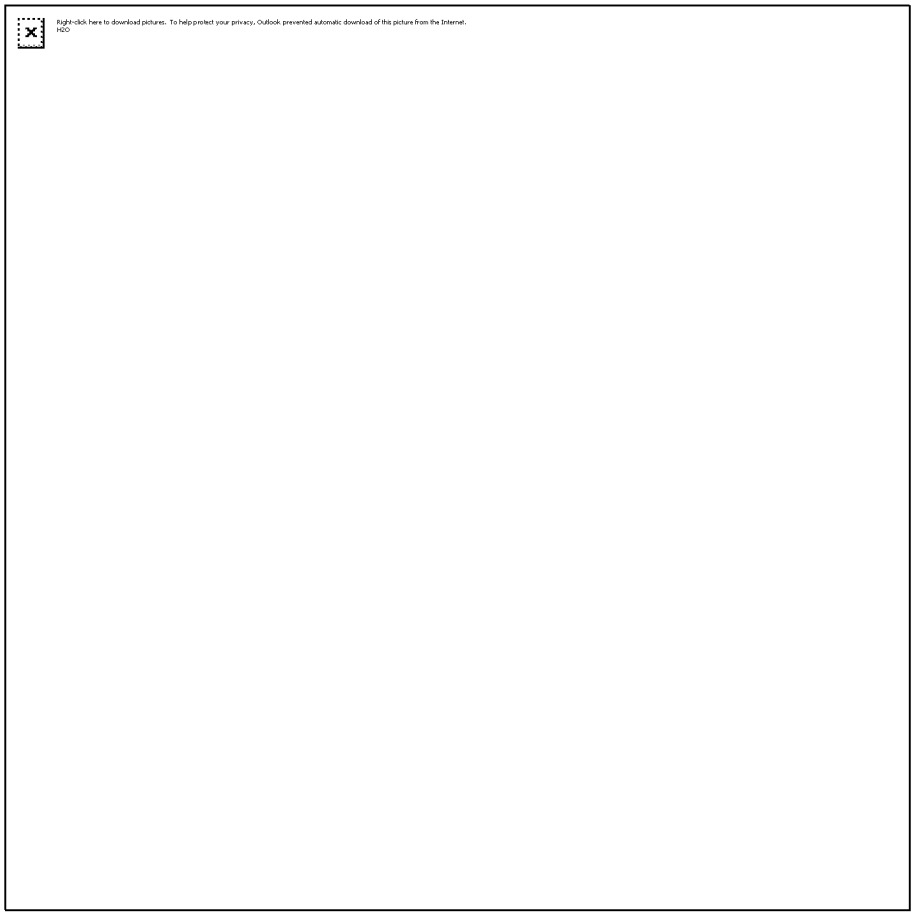
Subject: Contributing time, muscle and money



During this month's Martin Luther King Jr. holiday weekend, some state employees turned their "day off" into a "day on" in Flint. There, they delivered bottled water, water filters, replacement cartridges and water testing kits to families. The volunteers joined other Michiganders, turning Dr. King's birthday observance into a day of service.



Mike Zimmer, director of the Office of Good Government and the Department of Licensing and Regulatory Affairs, has shared a link – www.helpforflint.com – that offers other opportunities to contribute time, muscle and money to bring clean drinking water to the community.Here in DTMB, some of our employees didn't wait for an invitation to lend a hand. Office of Retirement Services staff contributed funds that were used to buy 31 cases and 23 gallons of water, which a local organization transported to Flint.

Autumn Hubbard, Ambrea Mack and Sarah Esquivel, who are in the photo at the left, nearly emptied the shelves at their local grocery store. Thanks for your efforts.

everyone.

Now work.

Last week, I signed a new policy that formalizes the annual employee review process and sets expectations for employees and managers. Administrative Policy 200.37 establishes consistent standards for implementing performance plans and reviews. Some of the standards are practices we have followed for years. Others are new. Some of particular note include:

- The mandatory use of HRMN
- A standard Feb. 1-Jan. 31 rating period for all employees
- An Individual Development Plan that specifies training or development programs for each employee
- Competencies and objectives that align to DTMB goals or scorecard metrics
- Consequences for managers and supervisors who do not complete the review process as required

A fundamental role of each DTMB manager or supervisor is to provide employees with direction and feedback on their performance. Employees also are expected to take an active role in pursuing professional development opportunities and achieving their competencies and objectives. I encourage you to review the new policy and talk with your manager or supervisor if you have questions. Of course, I welcome your questions and input as well. Please send your comments and ideas to me at behend@michigan.gov.

I know these have been busy weeks for many of you as you take on additional responsibilities and work hard to provide resources and services for our customers and citizens across the state. Please know that your hard work has not gone unnoticed. Thank you for everything you do, every day.

Have a great week,

David

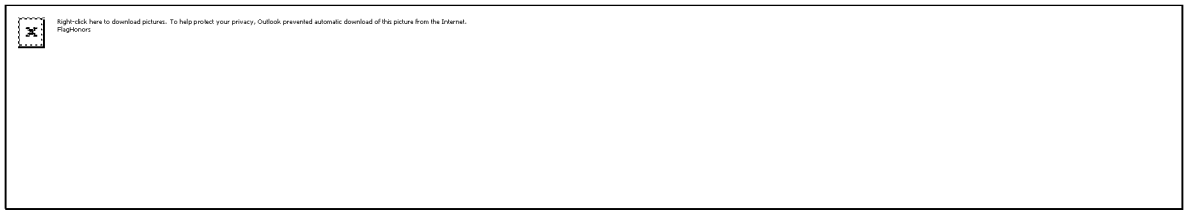
Subject: Thank you for your service



THANK YOU!

Fellow employees,

Each day, more than 46,000 state of Michigan employees come to work with the confidence and commitment to make Michigan a better place to live, work and play. I appreciate the way you care about the citizens we serve, and how it is reflected in the work that you do.

As you have heard from me and the media, our reputation and trust can be severely impacted when people do not make good decisions, or use good judgment in solving problems. That principle is universal, but never more so than when public health is at stake. What happened in Flint can never be allowed to happen again anywhere in our state.

I know that you want to work in a place where employee input is valued, efforts are recognized, and teams are always striving for continuous improvement. That's why we introduced employee surveys, Bureaucracy Busters and other reinvention initiatives. We want and deserve a culture of innovation, continuous improvement and employee engagement at every level. We can never take for granted how important the people are who depend on us to do our jobs, and I am asking you not to let the situation in Flint negatively impact your motivation to excel every day.

Many of you have taken an interest in helping the citizens of Flint on your own time, and I'd like to take this opportunity to recognize and thank those who have volunteered over the last couple of weekends. You have worked tirelessly to deliver cases of bottled water, water filters, replacement cartridges and water testing kits to the families in need. I appreciate you donating your time to help our fellow Michiganders. To date, more than 37,000 homes have been visited by one of our water resource teams.

For employees who would like to further help the people of Flint, please visit www.HelpForFlint.com to learn how you can do so. For additional information and to sign up for daily updates, please visit www.mi.gov/FlintWater. I am committed to ensuring that all residents have access to safe and clean water.

Again, I'd like to express my gratitude for the work you do every day to continuously improve our state and earn the trust of those you serve. You make a real difference.

Thanks,

Governor Rick Snyder

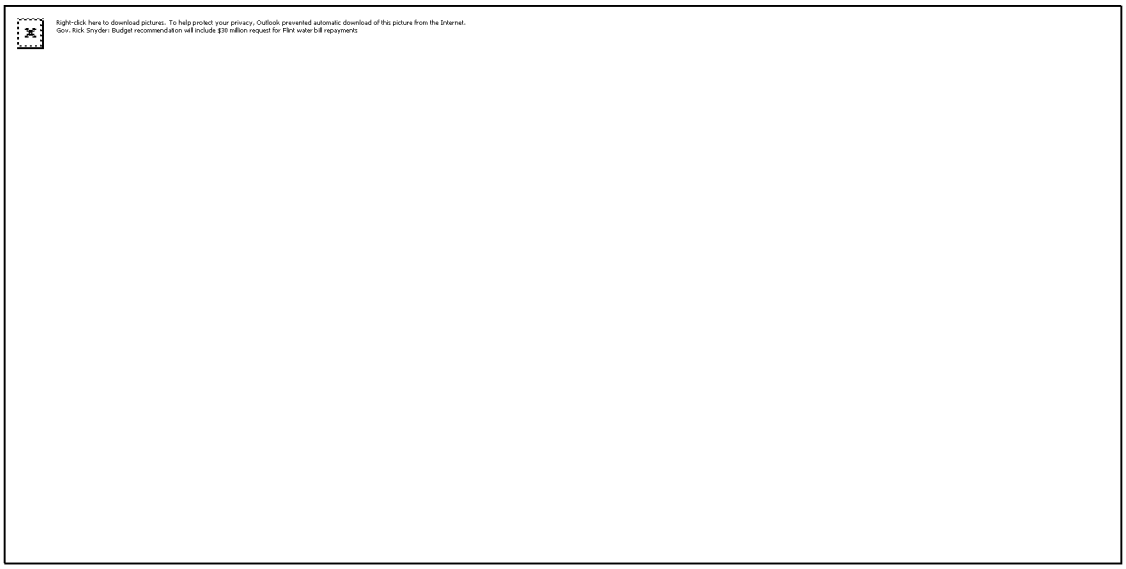
Subject: "Flint residents should not have to pay for water they cannot drink"

Budget recommendation will include $30 million request for Flint water bill repayments



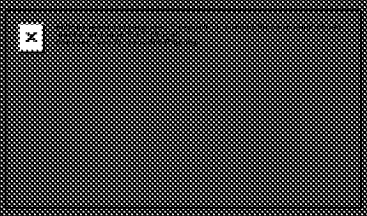
When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a $30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.

Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly 65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking, and washing your hands. Residents still would be responsible for paying the sewer portion

of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

Click here to learn more about the budget request.



We spoke with Staff Sgt. Thomas Vega about the critical resources they're providing to Flint families every day. He also encouraged residents to pick up and return their water testing kits to Flint fire stations. Test results will be posted online at www.mi.gov/flintwater. **Click here to watch the video.**

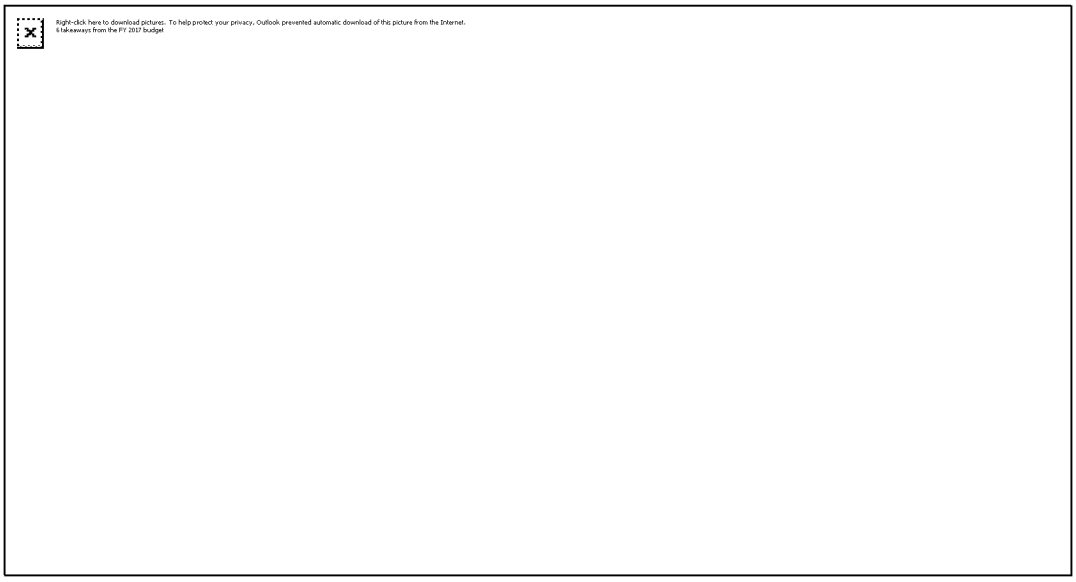
VIDEO: What Governor Snyder's FY17 budget means for Michigan



Gov. Rick Snyder's FY 2017 budget calls for critical investments for the Flint water crisis, statewide infrastructure and the Detroit Public Schools. The governor's recommendation also addresses the skyrocketing costs of specialty medications that Michigan residents depend on for better health outcomes.

This budget also stays committed to the Governor's core statewide priorities of education, talent and economic development, health and human services, and public safety.

The proposed FY 2017 budget makes key investments to strengthen the state for all of

Michigan's families. Click here to learn more about the top 6 takeaways from the Governor's FY 2017 state budget.

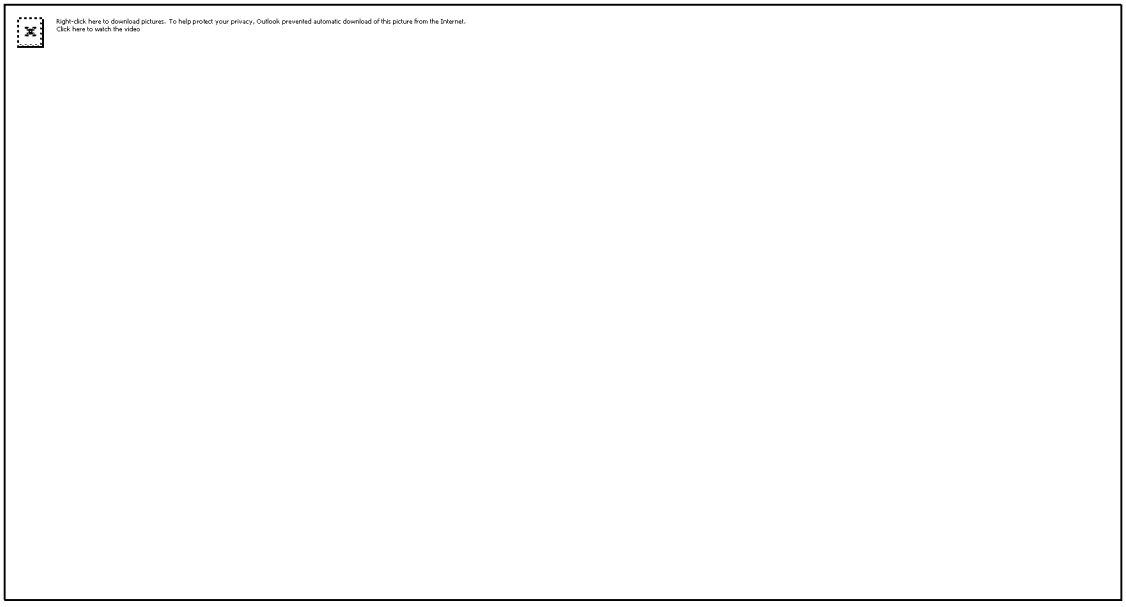
VIDEO: How volunteers are helping Flint



Volunteers at the Food Bank of Eastern Michigan are working hard to collect donations in order to help the families of Flint. Last Thursday, Governor Snyder visited with the many dedicated volunteers and helped sort cans of food.

Good nutrition is critically important for Flint's children. Foods that are high in calcium, vitamin C, and iron can help limit the effects of lead exposure. To donate or volunteer at the Food Bank of Eastern Michigan, visit www.fbem.org.

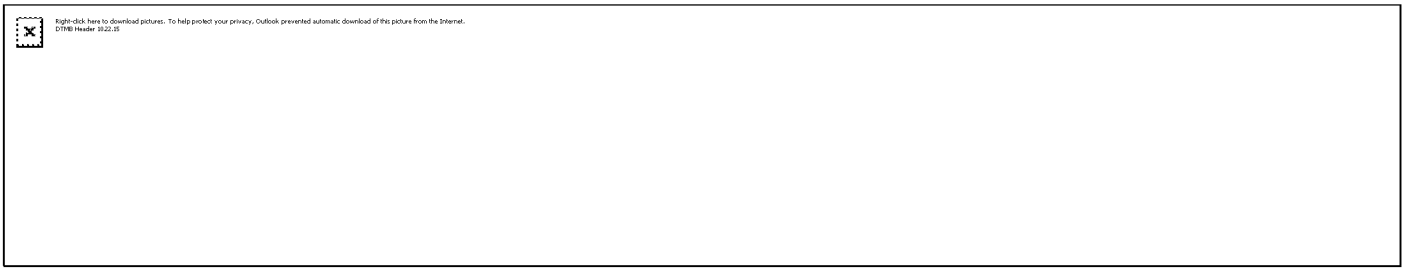
Sent: Wednesday, February 17, 2016 10:10 AM
To: Perry, Blane (DTMB)
Subject: The Gov. Snyder's Budget Proposal



Good morning everyone. I hope everyone had a great holiday weekend.

I had the good fortune to travel to Marquette on Monday with Chad Laidlaw, DTMB's policy and planning analyst, to meet with city, business and university leaders and to address the Economic Club of Marquette. I told them about the many things DTMB does, placing special emphasis on our work in mobility and cybersecurity. Marquette is really developing and making its mark as an innovative and entrepreneurial community.

Now work.

The executive budget Gov. Snyder presented last week outlined his investment plan for Michigan. Yes, the proposal for fiscal year 2017-18 outlined a strategy to address the critical challenges of addressing the Flint water crisis and turning around Detroit's Public Schools, but the $54.9 billion plan also includes investment in four key areas:

- **Education.** The budget increases investment to K-12 schools, community colleges and the state's public universities. Additional funds are proposed to expand career, technical, science, technology, engineering and math programs.
- **Protecting the Public.** The governor's plan expands the Secure Cities program, which has reduced violent crime in four major Michigan cities. Funds also would support an additional trooper recruit school and an academy to train corrections officers, among other initiatives.
- **Putting People First.** The governor recommends continued expansion of the Healthy Kids Dental Program and funding efforts to ensure residents have access to affordable health care. His proposal boosts funds to help cover new higher cost specialty medications to treat conditions such as hepatitis C and cystic fibrosis, among others.
- **Investing in Infrastructure.** The proposal allocates $1.2 billion to maintain and repair Michigan roads, bridges and other critical infrastructure.

The budget proposal also includes FY 2017-18 funding recommendations for DTMB. Gov. Snyder recommends ongoing funding of $1.3 billion for department operations and a one-time allocation of $32.4 million.

A few highlights include:

- $502 million for information technology support for all state agencies and $132.8 million for 14 high-priority IT projects in seven agencies. He recommends increasing the Information Technology Investment Fund by $7 million, from $65 million to $72 million. This fund supports several major multiyear IT projects and upgrades, including the replacement of outdated legacy systems.
- An additional $5 million to support cybersecurity improvements to safeguard citizens' personal information and protect critical infrastructure and government services.
- IT support of $6.5 million to modernize the Office of Retirement Services' systems and enhance customer service for more than 530,000 current and future retirees.

You can see the full executive budget recommendations, which are posted on the Budget Office website. Details of DTMB's proposed budget begin on page B-75.

We can expect to see many changes before the budgets are signed and become effective Oct. 1. The executive budget will be used by the House and Senate Appropriations Committees as they work on their own budgets and hold committee hearings on the proposals. I'll keep you posted as the process moves ahead.

As always, I welcome your notes, whether about the budget process or any other topic. Please send them to me at behend@michigan.gov.

Thank you again for all the good work you do. I hope you have a great week ahead.

David

Requested By:
DTMB Executive Staff

Location:
Ottawa Building
Upper Level – Conference Room 4
611 W. Ottawa Street
Lansing, MI 48933

Call-in: 866-390-1828
Access code: 1842654

Security:
Please have your State Employee ID showing at all times.

Parking:
Metered parking is available along Ottawa and Pine street.

Briefing:
In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive

correspondence and/or documents related to these requests. As a custodian, you are required to produce, by a certain date, any documents containing certain search terms. In this meeting we will review instructions for the process of identifying, compiling, scanning, and copying the necessary information.

Agenda

1) Kickoff – Brom Stibitz, Chief Deputy Director
2) Why you are here – Jean Ingersoll, Interim Chief of Staff
3) What you need to do (February 22, 2016 deadline) – Jean
4) What will be done for you – Jean
5) What's next – Jean
6) Public Information Reminder – Caleb Buhs, Public Information Officer
7) Questions and Answers - Group

DAVID B. BEHEN
DIRECTOR

February 17, 2016

TO: All DTMB Custodians of Correspondence Related to Flint

FROM: Jean Ingersoll, Interim Chief of Staff to David B. Behen, Director and CIO

SUBJECT: Flint Document Production – Search Terms and Guidance

In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. **As a custodian, you are required to produce any documents containing the search terms listed below, no later than Monday, February 22, 2016.** This memorandum contains detailed instructions for the process of identifying, compiling, scanning, and copying the necessary information.

Microsoft 365 – Outlook (*includes emails, calendar items) and OneDrive*

DTMB staff will centrally coordinate the Microsoft 365 search for all of DTMB's custodians. Therefore, DTMB's custodians *do not need to independently search any of their Microsoft 365 applications* for the search terms listed below.

Network Drives

Similar to the approach outlined above, DTMB staff will centrally coordinate the network drive search effort for all DTMB custodians. Custodians do *not* need to independently conduct a network drive search for the search terms below.

Non-Network Drives – *includes hard drives, desktop, and thumb/flash drives*

For all non-network drive types, ***each custodian will need to search every search term listed below in every non-network format, and move all relevant/related documents in to a network drive for collection. In order to move items to the network, you must be connected to the network.***

Start by conducting the search of all non-network drives, filling out the attached search term checklist as you go. If you need guidance as to how to perform this search, a step-by-step guide is included below in Appendix 1.

All relevant/responsive items that are produced as a result of your search need to be moved to a network drive. You can move your relevant/related documents to a network drive in whatever format the document is currently in. After the February 22, 2016, deadline, DTMB staff will access the network drives to collect the files.

Paper Files

Review all applicable paper files. Scan any relevant/related documents, and save them to a network drive, as described above. If this is not possible, you may provide hard copies of documents to Jean Ingersoll in the Director's Office. These documents must be received in the Director's Office by February 22, 2016, and will not be returned to you.

Home Computer

Any relevant e-mails or other documents on a personal computer also are subject to this request. Please check your personal computer for any e-mails or other documents relating to this search. If you discover any relevant/related documents, please include the phrase "personal computer" in the file name, and save them to the aforementioned network drive.

Conclusion

Thank you for your cooperation in complying with this request. Should you have any questions, please contact Jean Ingersoll at 1-8844.

Search Term Checklist

In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. As a custodian, you are required to search and copy all items that you identify to a DTMB network drive, as described above.

Please complete your search no later than close of business on Monday, February 22, 2016. Relevant/related items from the past 10 years should be included.

You should search for *each term exactly as it is shown below, and include quotation marks around each separate word.* For example, "Legionnaire", "Legionella", or "Flint" would all go into search fields. After you complete a search term, check the box beside the term.

Search Terms:

- ☐ "Legionnaire"
- ☐ "Legionella"
- ☐ "boil water order" & "Flint"
- ☐ "coli" & "Flint"
- ☐ "bacteria" & "Flint"
- ☐ "microb" & "Flint"
- ☐ "TTHM" & "Flint"
- ☐ "Lead" & "Flint"
- ☐ "emergency" & "Flint"
- ☐ "Karegnondi"
- ☐ "Genesee County Health Department"
- ☐ "Flint" & "utilities"
- ☐ "Lead and Copper Rule"
- ☐ "Detroit Water and Sewerage Department" & "Flint"
- ☐ "DWSD" & "Flint"
- ☐ "Flint River"
- ☐ "Pb" & "water"
- ☐ "KWA"

Search conducted on the email account of: _____

By (your name): _____

Date completed: _____

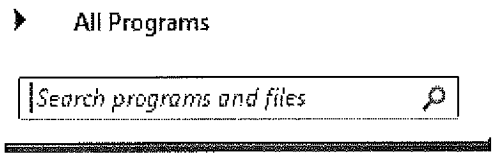
Please return this completed Checklist to DTMB Director's Office staff by February 22, 2016, at DTMB@michigan.gov, or
Directors Office, Cass Building, Second Floor

APPENDIX 1 – Search Guidance

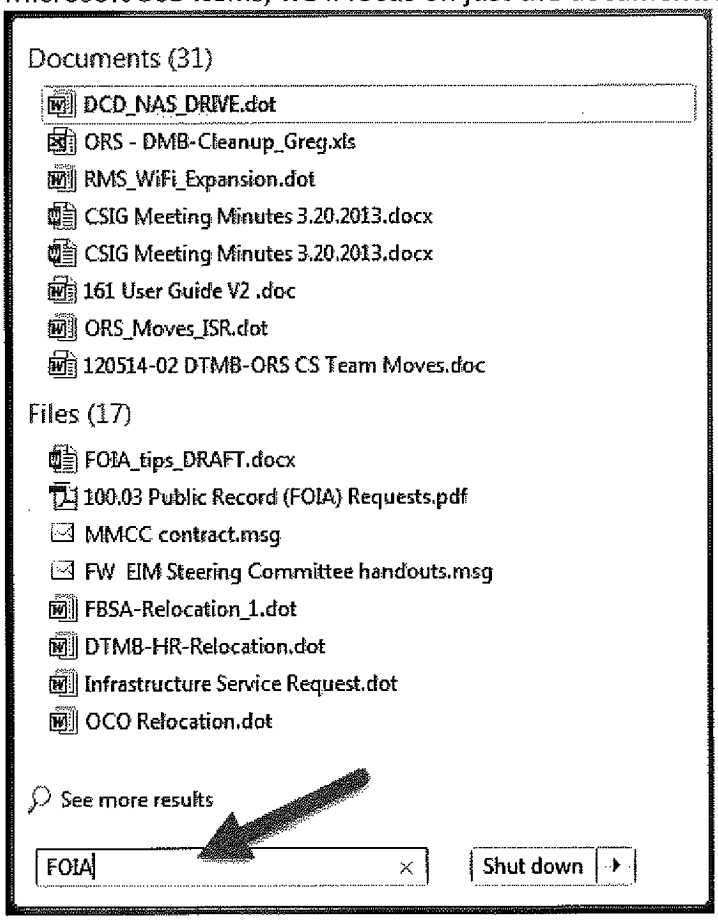
Regardless of what version of Windows you're using, each of them has a search feature built in called "Windows Explorer," you see it every time you open up a folder on a network drive, or on your own computer.

Using the search function in windows 7

Since the majority of DTMB is on Windows 7, the examples below are on that operating system. If you click on windows Start button, you'll see the search box right next to it

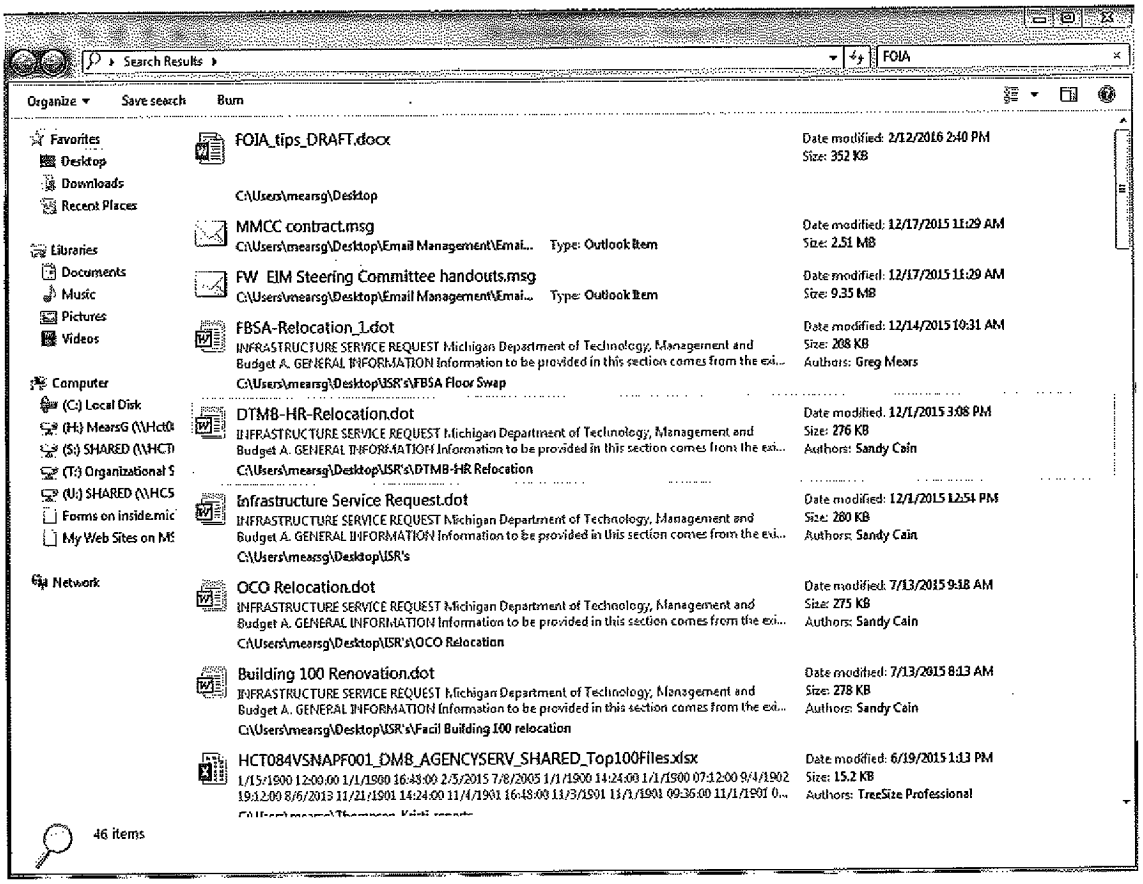


This example searches for the word FOIA. As you can see, the search yielded numerous documents including emails. Since DTMB is centrally collecting relevant emails and other Microsoft 365 items, we'll focus on just the documents.



You need to open each document to make sure that it's relevant. In this instance, the search brought up a DTMB Move form, but only because it has the word FOIA in the form.
You'll notice that the words "See more results" appears at the bottom of the list. This means that the search turned up a lot more documents than what can easily be displayed. You must

click on the link to open Windows Explorer and reveal a comprehensive list, along with their locations.



As you can see from this example the search found 46 items. We can now select them all using the "Ctrl-A method", and copy them to a network drive.

Brian,

Can you find another location the construction meetings.

Jan,

With the state of emergency for the water issue in flint we now have a representative from the governors office onsite along with 10 or more PIOs handling questions from the residence and the media.

I would like to ask that you push the contractor to get the lobby done asap! They have not done any real work in there and they seem to not be concerned with it.

I am off for a few days if you have any questions Brian can help you.

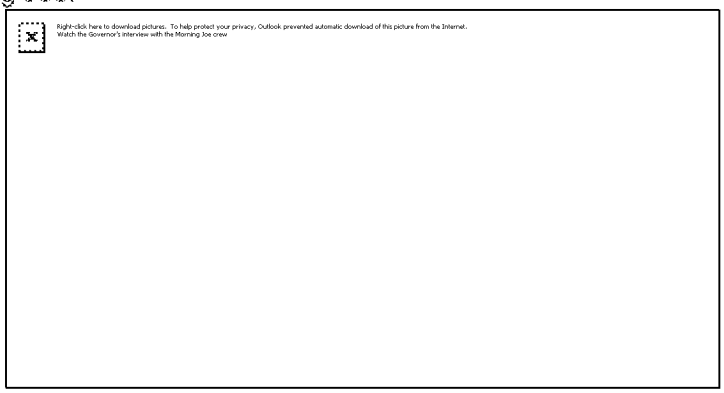
How we are fixing the Flint water crsis

Governor Rick Snyder has committed to spending the rest of his time as Governor to fixing the Flint water crisis. Over the last few days, he has sat down to explain what happened and how we're fixing the Flint water crisis. Watch the interviews below and be sure to read the Governor's Op-Ed in the USA Today.

Governor Snyder on Morning Joe

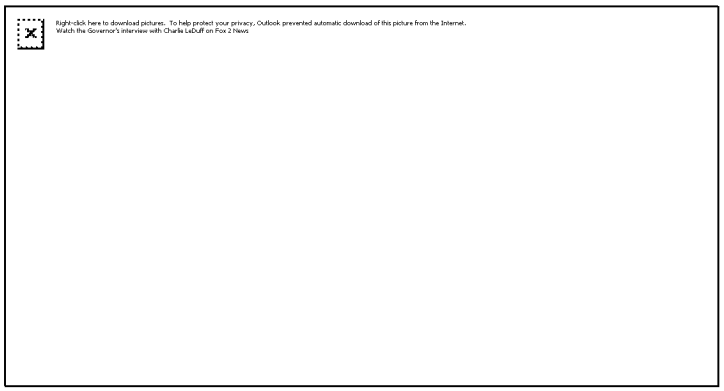
"What is so frustrating and what makes you so angry is you have a handful of experts who were career civil servants that made terrible decisions, in my view. We have to live with the consequences, and they worked for me, so I accept that responsibility. We are going to fix this problem." Watch Governor Snyder address how we are fixing the Flint water crisis on Morning Joe.



Governor Snyder with Charlie LeDuff on Fox 2 Detroit

"I feel awful about this. These are people. They've been harmed. You can't feel good about that. The people of Flint have been harmed and a major influence of that harm

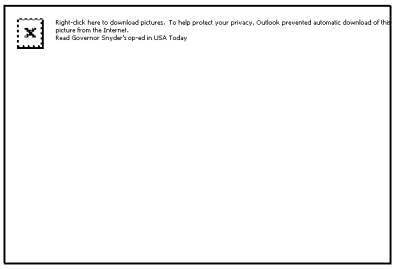
came from people who worked for me, and I feel responsible for that. But I am committed to solving the problem and addressing the damage as much as possible for the rest of the time I'm Governor." Watch Governor Snyder address the Flint water crisis with Charlie LeDuff on Fox 2 News.



Governor Snyder's 2016 State of the State

"Michiganders don't quit, we don't give up, instead we will work with even more passion and commitment to truly improve our state. For everyone who's chosen to make Michigan their home, this is more than a promise, this is my commitment." Watch Governor Snyder's full closing statement from his 2016 State of the State address.

Governor in USA Today: "I will fix this, and I mean it."



"Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take responsibility for what these families are going through, and I'm holding people in my administration accountable for their failures." Click here to read the Governor's full op-ed.

Washington Post: "Michigan Gov. Rick Snyder is in a tough spot, but he's his own best spokesman"

Snyder has born the brunt of criticism in the local health crisis that has turned into a national scandal. But unlike many other politicians facing crises of leadership, Snyder may also be his own best counter-programming. Click here to read the full story in the Washington Post.

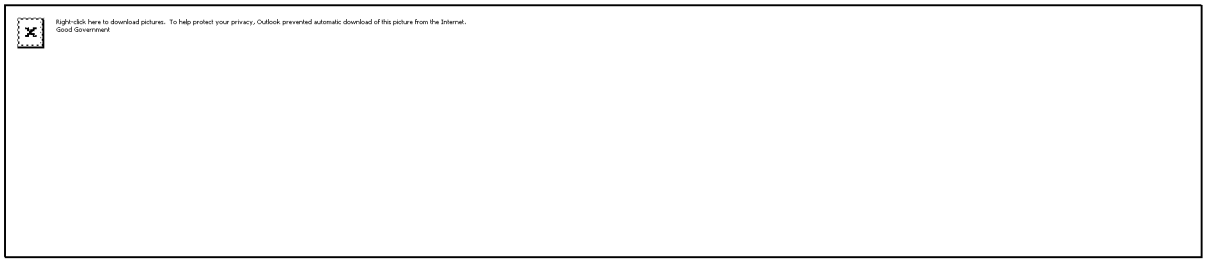
To: Phillippo, Jamie (DTMB)
Subject: Flint Volunteer Efforts



Dear State Employees,

Gov. Rick Snyder and I want to thank everyone who donated their time during the holiday weekend to deliver bottled water, water filters, replacement cartridges and water testing kits to families in the city of Flint. We are working hard to ensure all residents are provided with the safe water resources they need, and each donation and hour of your time volunteered goes a long way.

For employees who would like to help the residents of Flint, there are several opportunities to do so. Please visit www.helpforflint.com to learn how you can help.

For additional information and updates, visit www.michigan.gov/flintwater.

Again, thank you for all your support.

Sincerely, Mike Zimmer

I think we may have an option that's not to involved.
Call me in the morning and we can talk thru it. I know Dhhs won't be happy with moving off that floor but this maybe a smooth fix.

> I just read through the email chain. To give FEMA all 12 stations, we may need to relocate 12 people (I heard anywhere from 8-12 depending on who I talked to). The idea of moving three people this morning also involved removing one cluster of furniture to set up tables in that space to accommodate additional people. DHHS has two different groups in this area. When I reached out to Patty Curtis this morning, DHHS is claiming they are out of space an have no where to house these staff on other floors. I believe Mike and Brian talked to managers on site and they were unwilling to give up the space. Just a hurdle we'll have to work through when contacting DHHS. I'll be in at 8 and can help with the DHHS piece.

In our meeting I asked Jamie to set up a call with FEMA, Jeannette Doll and Maureen Bailey. Because we had received several contradictory requests for space for FEMA, I felt it would be best to discuss it with them directly and determine their true space counts and figure out likely growth. We could also determine who could be offsite if possible.

If Chris could get this going with FEMA we will create a plan.

Is this possible?

Jamie (DTMB)
<Phillippoj@michigan.gov> wrote:

Mike-

Keith Paasch, Bob Burns, Larry Scates, Jim Clark and I met to discuss the request for additional space in Flint. The building is considered full, as in the office space as designed is assigned. We determined that the best way to serve our current clients and the additional resources needed to deal with this crisis may be to find additional space close by. We came up with several ideas (U of M Flint, School for the Deaf in Flint, City of Flint or FEMA bringing in trailers onsite). Maureen Bailey has confirmed 7,000 sq ft is available on Bristol Road at $12/sq. ft. plus utilities.

Please see the attached prints in reference to space. There is one group of 12 stations that was occupied by Civil Rights plus two offices originally designed for the Governor that the Governor no longer needed on the 5th floor that is highlighted in green. DHHS is taking over the space and has a reconfigure planned starting in March. DHHS is temporarily using the

majority of this space until 7th floor is complete. The area reference below is highlighted in yellow within the green space. As stated below, DHHS staff are already in these station and in order for it to accommodate we would need to relocate the staff and tear down the furniture. The other rooms highlighted in orange within the green box have already been occupied by the Governor's staff as well as FEMA personnel. Two open areas are left in the building-the 5th and 6th floor lobbies. The 6th floor is already over occupancy and therefore we cannot add people here. As for adding people in the 5th floor lobby, I'm not sure how our tenants of the floor would be with that as this floor was not supposed to be accessed by the public.

Please let us know how you would like to proceed.

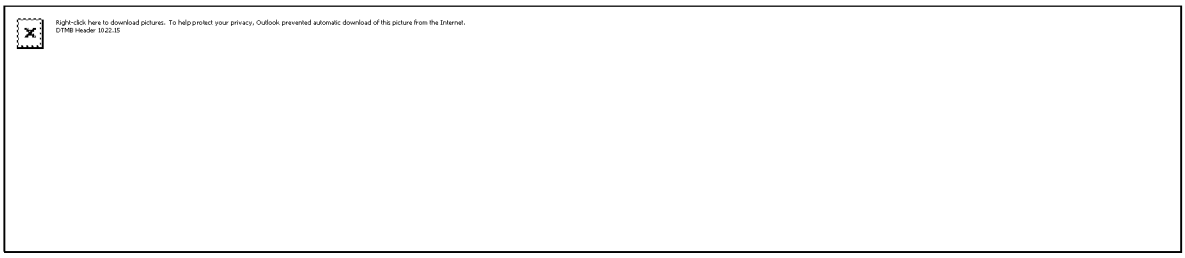
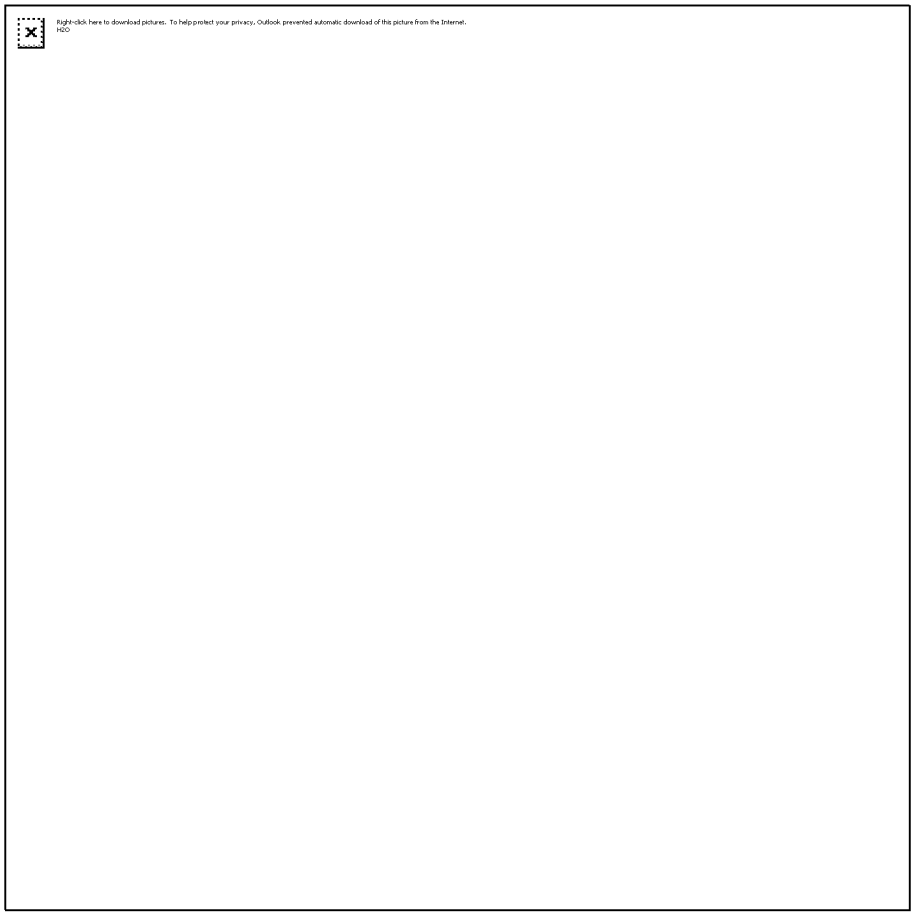
<Flint Space.pdf>

From: Dept. Technology, Management & Budget <dtmb@govsubscriptions.michigan.gov>
Sent: Tuesday, January 26, 2016 8:39 AM
To: Phillippo, Jamie (DTMB)
Subject: Contributing time, muscle and money



During this month's Martin Luther King Jr. holiday weekend, some state employees turned their "day off" into a "day on" in Flint. There, they delivered bottled water, water filters, replacement cartridges and water testing kits to families. The volunteers joined other Michiganders, turning Dr. King's birthday observance into a day of service.



Mike Zimmer, director of the Office of Good Government and the Department of Licensing and Regulatory Affairs, has shared a link – www.helpforflint.com – that offers other opportunities to contribute time, muscle and money to bring clean drinking water to the community.Here in DTMB, some of our employees didn't wait for an invitation to lend a hand. Office of Retirement Services staff contributed funds that were used to buy 31 cases and 23 gallons of water, which a local organization transported to Flint.

Autumn Hubbard, Ambrea Mack and Sarah Esquivel, who are in the photo at the left, nearly emptied the shelves at their local grocery store. Thanks for your efforts.

everyone.

Now work.

Last week, I signed a new policy that formalizes the annual employee review process and sets expectations for employees and managers. Administrative Policy 200.37 establishes consistent standards for implementing performance plans and reviews. Some of the standards are practices we have followed for years. Others are new. Some of particular note include:

- The mandatory use of HRMN
- A standard Feb. 1-Jan. 31 rating period for all employees
- An Individual Development Plan that specifies training or development programs for each employee
- Competencies and objectives that align to DTMB goals or scorecard metrics
- Consequences for managers and supervisors who do not complete the review process as required

A fundamental role of each DTMB manager or supervisor is to provide employees with direction and feedback on their performance. Employees also are expected to take an active role in pursuing professional development opportunities and achieving their competencies and objectives. I encourage you to review the new policy and talk with your manager or supervisor if you have questions. Of course, I welcome your questions and input as well. Please send your comments and ideas to me at behend@michigan.gov.

I know these have been busy weeks for many of you as you take on additional responsibilities and work hard to provide resources and services for our customers and citizens across the state. Please know that your hard work has not gone unnoticed. Thank you for everything you do, every day.

Have a great week,

David

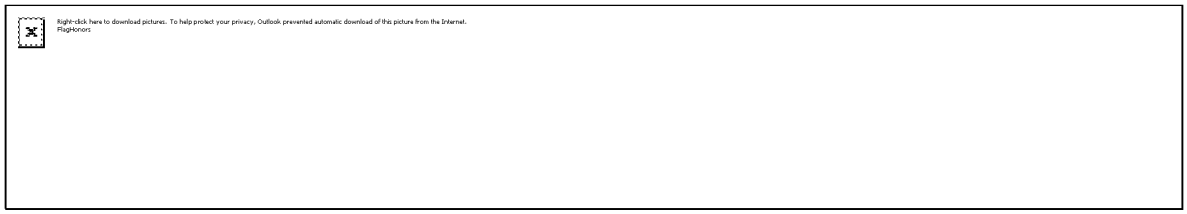
Subject: Thank you for your service



THANK YOU!

Fellow employees,

Each day, more than 46,000 state of Michigan employees come to work with the confidence and commitment to make Michigan a better place to live, work and play. I appreciate the way you care about the citizens we serve, and how it is reflected in the work that you do.

As you have heard from me and the media, our reputation and trust can be severely impacted when people do not make good decisions, or use good judgment in solving problems. That principle is universal, but never more so than when public health is at stake. What happened in Flint can never be allowed to happen again anywhere in our state.

I know that you want to work in a place where employee input is valued, efforts are recognized, and teams are always striving for continuous improvement. That's why we introduced employee surveys, Bureaucracy Busters and other reinvention initiatives. We want and deserve a culture of innovation, continuous improvement and employee engagement at every level. We can never take for granted how important the people are who depend on us to do our jobs, and I am asking you not to let the situation in Flint negatively impact your motivation to excel every day.

Many of you have taken an interest in helping the citizens of Flint on your own time, and I'd like to take this opportunity to recognize and thank those who have volunteered over the last couple of weekends. You have worked tirelessly to deliver cases of bottled water, water filters, replacement cartridges and water testing kits to the families in need. I appreciate you donating your time to help our fellow Michiganders. To date, more than 37,000 homes have been visited by one of our water resource teams.

For employees who would like to further help the people of Flint, please visit www.HelpForFlint.com to learn how you can do so. For additional information and to sign up for daily updates, please visit www.mi.gov/FlintWater. I am committed to ensuring that all residents have access to safe and clean water.

Again, I'd like to express my gratitude for the work you do every day to continuously improve our state and earn the trust of those you serve. You make a real difference.

Thanks,

Governor Rick Snyder

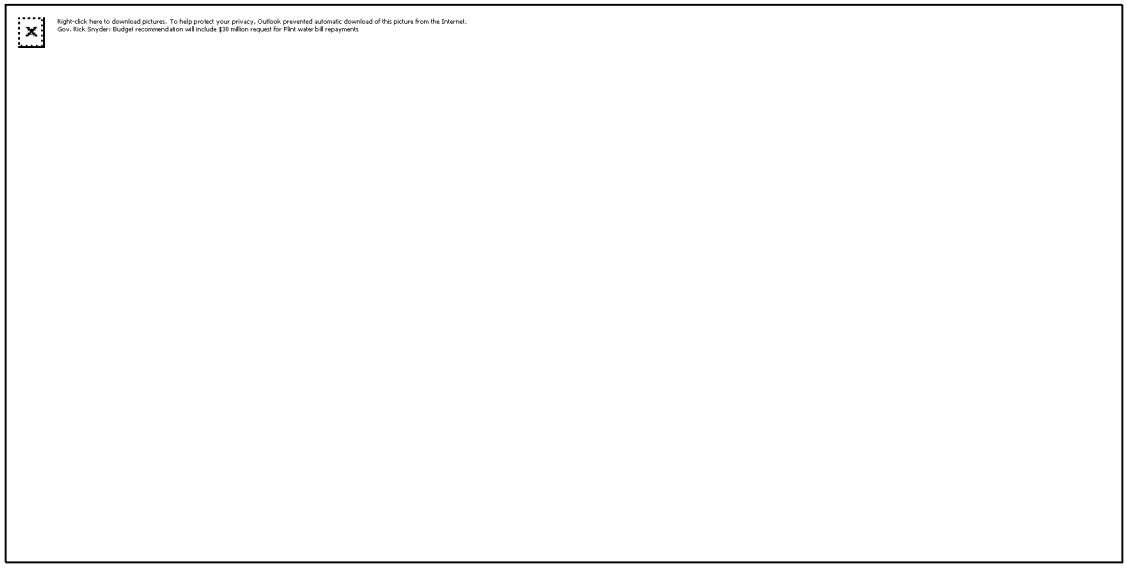
Subject: "Flint residents should not have to pay for water they cannot drink"

Budget recommendation will include $30 million request for Flint water bill repayments



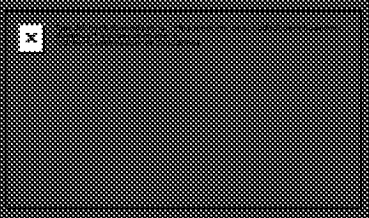
When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a $30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.

Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly 65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking,

and washing your hands. Residents still would be responsible for paying the sewer portion of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

Click here to learn more about the budget request.



We spoke with Staff Sgt. Thomas Vega about the critical resources they're providing to Flint families every day. He also encouraged residents to pick up and return their water testing kits to Flint fire stations. Test results will be posted online at www.mi.gov/flintwater. **Click here to watch the video.**

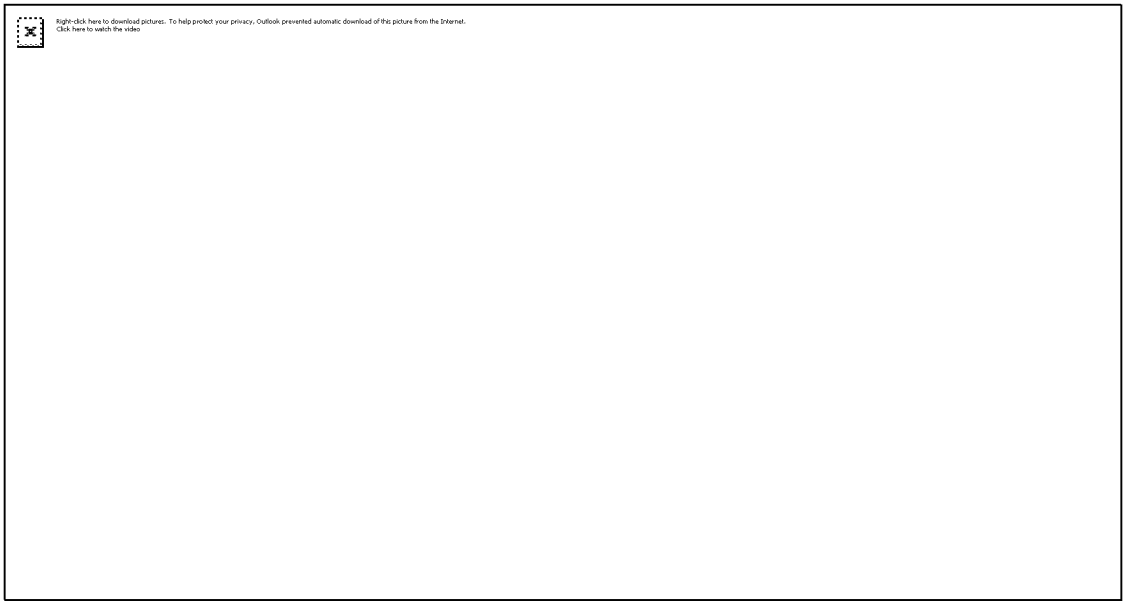
VIDEO: How volunteers are helping Flint



Volunteers at the Food Bank of Eastern Michigan are working hard to collect donations in order to help the families of Flint. Last Thursday, Governor Snyder visited with the many dedicated volunteers and helped sort cans of food.

Good nutrition is critically important for Flint's children. Foods that are high in calcium, vitamin C, and iron can help limit the effects of lead exposure. To donate or volunteer at the Food Bank of Eastern Michigan, visit www.fbem.org.

Click here to watch the video and learn more about how the Food Bank of Eastern Michigan is helping Flint's families.

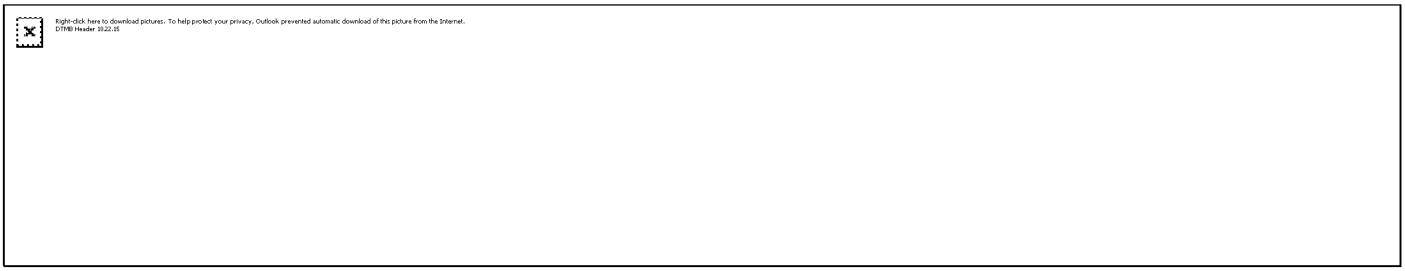
Subject: The Gov. Snyder's Budget Proposal



Good morning everyone. I hope everyone had a great holiday weekend.

I had the good fortune to travel to Marquette on Monday with Chad Laidlaw, DTMB's policy and planning analyst, to meet with city, business and university leaders and to address the Economic Club of Marquette. I told them about the many things DTMB does, placing special emphasis on our work in mobility and cybersecurity. Marquette is really developing and making its mark as an innovative and entrepreneurial community.

Now work.

The executive budget Gov. Snyder presented last week outlined his investment plan for Michigan. Yes, the proposal for fiscal year 2017-18 outlined a strategy to address the critical challenges of addressing the Flint water crisis and turning around Detroit's Public Schools, but the $54.9 billion plan also includes investment in four key areas:

- **Education.** The budget increases investment to K-12 schools, community colleges and the state's public universities. Additional funds are proposed to expand career, technical, science, technology, engineering and math programs.
- **Protecting the Public.** The governor's plan expands the Secure Cities program, which has reduced violent crime in four major Michigan cities. Funds also would support an additional trooper recruit school and an academy to train corrections officers, among other initiatives.
- **Putting People First.** The governor recommends continued expansion of the Healthy Kids Dental Program and funding efforts to ensure residents have access to affordable health care. His proposal boosts funds to help cover new higher cost specialty medications to treat conditions such as hepatitis C and cystic fibrosis, among others.
- **Investing in Infrastructure.** The proposal allocates $1.2 billion to maintain and repair Michigan roads, bridges and other critical infrastructure.

The budget proposal also includes FY 2017-18 funding recommendations for DTMB. Gov. Snyder recommends ongoing funding of $1.3 billion for department operations and a one-time allocation of $32.4 million.

A few highlights include:

- $502 million for information technology support for all state agencies and $132.8 million for 14 high-priority IT projects in seven agencies. He recommends increasing the Information Technology Investment Fund by $7 million, from $65 million to $72 million. This fund supports several major multiyear IT projects and upgrades, including the replacement of outdated legacy systems.
- An additional $5 million to support cybersecurity improvements to safeguard citizens' personal information and protect critical infrastructure and government services.
- IT support of $6.5 million to modernize the Office of Retirement Services' systems and enhance customer service for more than 530,000 current and future retirees.

You can see the full executive budget recommendations, which are posted on the Budget Office website. Details of DTMB's proposed budget begin on page B-75.

We can expect to see many changes before the budgets are signed and become effective Oct. 1. The executive budget will be used by the House and Senate Appropriations Committees as they work on their own budgets and hold committee hearings on the proposals. I'll keep you posted as the process moves ahead.

As always, I welcome your notes, whether about the budget process or any other topic. Please send them to me at behend@michigan.gov.

Thank you again for all the good work you do. I hope you have a great week ahead.

David

Subject: Volunteer Opportunity in Flint

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, https://www.surveymonkey.com/r/28NVJBL

To volunteer on Sunday, January 17, https://www.surveymonkey.com/r/26NMJKK

To volunteer on Monday, January 18, https://www.surveymonkey.com/r/26P7P5G

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit www.michigan.gov/flintwater.

Mike-

Keith Paasch, Bob Burns, Larry Scates, Jim Clark and I met to discuss the request for additional space in Flint. The building is considered full, as in the office space as designed is assigned. We determined that the best way to serve our current clients and the additional resources needed to deal with this crisis may be to find additional space close by. We came up with several ideas (U of M Flint, School for the Deaf in Flint, City of Flint or FEMA bringing in trailers onsite). Maureen Bailey has confirmed 7,000 sq ft is available on Bristol Road at $12/sq. ft. plus utilities.

Please see the attached prints in reference to space. There is one group of 12 stations that was occupied by Civil Rights plus two offices originally designed for the Governor that the Governor no longer needed on the 5th floor that is highlighted in green. DHHS is taking over the space and has a reconfigure planned starting in March. DHHS is temporarily using the majority of this space until 7th floor is complete. The area reference below is highlighted in yellow within the green space. As stated below, DHHS staff are already in these station and in order for it to accommodate we would need to relocate the staff and tear down the furniture. The other rooms highlighted in orange within the green box have already been occupied by the Governor's staff as well as FEMA personnel. Two open areas are left in the building-the 5th and 6th floor lobbies. The 6th floor is already over occupancy and therefore we cannot add people here. As for adding people in the 5th floor lobby, I'm not sure how our tenants of the floor would be with that as this floor was not supposed to be accessed by the public.

Please let us know how you would like to proceed.

Subject: Flint Office Space Issue
Chris,

MSP has requested that we find additional space in the Flint State Office Building for additional Federal personnel that will need space in the next few days. DTMB had a meeting this morning in regards to this and after the meeting, BOD/Real Estate determined that we are at "max" in the Flint State Office Building. I asked if that meant we filled all the cubicles or if we are at building occupancy limits. The response was that we filled the cubicles and not at occupancy limits.

Can you assist in getting traction? If we can get these Federal partners in the same area as the State personnel, they can better coordinate response efforts. I spoke with Brian Walts (Flint BTS) and he indicated that if we move 3 DHHS staff members on the 5th floor, they could setup tables capable of housing 30-40 individuals. Brian confirmed that he has space on other floors that they could sit temporarily.

35. This includes Federal partners from FEMA, HHS, CDC and EPA.

The ideal space would be an open space that can accommodate the entire amount and also include a break-out area for meetings of about 12-15 people. I talked directly to the FEMA representative requesting the space. They will make whatever we give them work. They do not want to incur any additional costs.

Chris, we can work out the details on providing the 12 spaces to FEMA tomorrow. The concern is that we are told there could be a total of 40 FEMA spaces needed? Can you confirm? Will need to solution another option to meet those needs if valid? Plan for taking the 12 tomorrow for short term, we will need to communicate with DHHS. Please advise, thanks

35. This includes Federal partners from FEMA, HHS, CDC and EPA.

The ideal space would be an open space that can accommodate the entire amount and also include a break-out area for meetings of about 12-15 people. I talked directly to the FEMA representative requesting the space. They will make whatever we give them work. They do not want to incur any additional costs.

Chris, we can work out the details on providing the 12 spaces to FEMA tomorrow. The concern is that we are told there could be a total of 40 FEMA spaces needed? Can you confirm? Will need to solution another option to meet those needs if valid? Plan for taking the 12 tomorrow for short term, we will need to communicate with DHHS. Please advise, thanks

Keith Paasch, Bob Burns, Larry Scates, Jim Clark and I met to discuss the request for additional space in Flint. The building is considered full, as in the office space as designed is assigned. We determined that the best way to serve our current clients and the additional resources needed to deal with this crisis may be to find additional space close by. We came up with several ideas (U of M Flint, School for the Deaf in Flint, City of Flint or FEMA bringing in trailers onsite). Maureen Bailey has confirmed 7,000 sq ft is available on Bristol Road at $12/sq. ft. plus utilities.

Please see the attached prints in reference to space. There is one group of 12 stations that was occupied by Civil Rights plus two offices originally designed for the Governor that the Governor no longer needed on the 5th floor that is highlighted in green. DHHS is taking over the space and has a reconfigure planned starting in March. DHHS is temporarily using the majority of this space until 7th floor is complete. The area reference below is highlighted in yellow within the green space. As stated below, DHHS staff are already in these station and in order for it to accommodate we would need to relocate the staff and tear down the furniture. The other rooms highlighted in orange within the green box have already been occupied by the Governor's staff as well as FEMA personnel. Two open areas are left in the building-the 5th and 6th floor lobbies. The 6th floor is already over occupancy and therefore we cannot add people here. As for adding people in the 5th floor lobby, I'm not sure how our tenants of the floor would be with that as this floor was not supposed to be accessed by the public.

Please let us know how you would like to proceed.

Chris,

MSP has requested that we find additional space in the Flint State Office Building for additional Federal personnel that will need space in the next few days. DTMB had a meeting this morning in regards to this and after the meeting, BOD/Real Estate determined that we are at “max” in the Flint State Office Building. I asked if that meant we filled all the cubicles or if we are at building occupancy limits. The response was that we filled the cubicles and not at occupancy limits.

Can you assist in getting traction? If we can get these Federal partners in the same area as the State personnel, they can better coordinate response efforts. I spoke with Brian Walts (Flint BTS) and he indicated that if we move 3 DHHS staff members on the 5th floor, they could setup tables capable of housing 30-40 individuals. Brian confirmed that he has space on other floors that they could sit temporarily.

Thank you,

Ryan McKee,

Subject: RE: Flint SOB Space for 10 DEQ Staff?

Mary Kay-

Sadly, we are full at the Flint State Office Building. Civil Rights moved out of the 5th floor back in November and DHHS is temporarily using the vacant DTMB space as well as part of Civil Rights' space until the 7th floor is finished. DHHS will then be reconfiguring and taking over the 5th floor space in March. We have converted all unused/unassigned space within the building into work areas for different groups responding to the water issues (DHHS, CDC, FEMA, etc).

I was informed today that a group of 10-15 people may be leaving on the 20th. This group is sitting in an open

Subject: RE: Flint SOB Space for 10 DEQ Staff?

Mary Kay,
There is office space located at the same strip mall on Pierson Road in Flint. As you know the DHHS space is there as well as the prior Kroger store, 74,000 square feet, just leased by DTMB for the water filters and water distribution. The space was originally built-out by Hurley Medical Center, it has twelve offices etc. He is offering it @ $9.63 psf. Perhaps you can share this space with other departments that may need space if you can't use all of this space.
Please see the information below from the Landlord, just in case there isn't room at the State Office Building.

Thanks,
Maureen

Here is the data on the medical space build-out.

Size: 7800 square feet, single story, barrier free Four restrooms, twelve, possibly more individual offices, large main office with built-in work stations, central filing bank in main office, large lobby, children's play area with restroom, large space for potential conference area.

Power operated entrance doors (two sets) additional storage in rear if needed in fenced-in location inside of 8,100 of storage space. We will replace all burned out lights, clean carpeting, paint walls which may require same, clean restrooms and make ready for occupancy. The phone system KSU is in the building and would only need compatible phone instruments. The building also has a security system which could be activated. It is fully sprinkled.
Cost for all-inclusive lease, one year minimum is $6500 per month.

Let me know if anyone is interested as painting and cleaning can take a couple of days. Thanks.

Subject: Re: FSOB - 7th floor plan

Ethan,

Thanks for the confirmation. DHHS has also approved the floor plan. LARA will be responsible for the furniture/build out costs of the two additional stations and file cabinets. Once DBI is through the specification process, they can provide a summary page with the detailed costs. LARA will also need to cover cabling costs and phones for the additional stations.

We were planning on starting the reconfigure after DHHS takes ownership of the 7th floor (first day for staff on the 7th floor is going to be March 21st). Teardown is expected on 5 shortly after and then the redesigned stations can be built. The only hiccup to this plan may be if emergency personnel are still onsite in Flint for the water crisis as they are occupying some space on 5th floor. I am hoping to have a clearer picture of the impact of these additional people by the end of the week.

DHHS Flint State Office Bldg 7th Floor Move - (151116-02)

DHHS Flint State Office buildi...

13208-7 Data Drop Green Update...

7thFloor 10-28-15.xlsx

Update from Jamie Phillippo (1/25):

I talked to Patty Curtis and confirmed that the new target date for the move will be March 18th and 19th. DHHS will be paying for field services on the weekend, that will not come out of the project budget. DHHS would like all staff to be up and running on Monday morning. Disconnects can start on Friday, March 18th at 1 pm. Marlene Brewer will follow up with the order of disconnects.

The question of card readers was raised. Patty understands what the staff onsite want and she discussed this with Jan Miller and the Architect at one of the last construction meetings to make sure everyone was on the same page. A question was also asked about the status of the intercom PO. It is in process but due to the water crisis and rush POs that need to happen, DHHS financial services is a bit backed up. Patty was going to check on it last Friday and I have cc'd her on this email so she can provide an update if she has one.

1/21/16 Meeting Notes:

Western Telecom to be data drop install 2/1
Move date may change to the March 19th weekend due to Solar panel drilling.
Client wants disconnects/reconnects completed during the weekend.

12/16/15 Meeting Notes:

Anticipated move date is now March 4th
Discuss door access card readers at next meeting.

12/1/15 Meeting Notes:

Currently planning to move on Feb 13th (pending construction schedule).

Wayne Tagg has been managing Telecom side of this project. Data drops, Wireless, UTNET (Kiosks), fax lines, Cisco phones have been planned for.

EBT Card Reader to be moved by staff.

Kiosks stored offsite will be brought in by staff.

Field Services to disconnect/reconnect ~35-40 workstations

Device spreadsheet and floor plan attached.

Please delegate/forward as necessary.

DHHS Flint State Office Bldg 7th Floor Move - (151116-02)

DHHS Flint State Office build...

13208-7 Data Drop Green Update...

7thFloor 10-28-15.xlsx

Rescheduled from 3/1 to 3/2

Update from Jamie Phillippo (1/25):

I talked to Patty Curtis and confirmed that the new target date for the move will be March 18th and 19th. DHHS will be paying for field services on the weekend, that will not come out of the project budget. DHHS would like all staff to be up and running on Monday morning. Disconnects can start on Friday, March 18th at 1 pm. Marlene Brewer will follow up with the order of disconnects.

The question of card readers was raised. Patty understands what the staff onsite want and she discussed this with Jan Miller and the Architect at one of the last construction meetings to make sure everyone was on the same page. A question was also asked about the status of the intercom PO. It is in process but due to the water crisis and rush POs that need to happen, DHHS financial services is a bit backed up. Patty was going to check on it last Friday and I have cc'd her on this email so she can provide an update if she has one.

Marsha-

We have one of the offices originally designed for the Governor's staff in Flint available for your use. It has furniture in it minus a chair and is ready to use starting today. I am sure that we can find an extra chair onsite. There is data in the wall, but I did not see a patch cord on the desk.

I have attached a furniture plan noting the location on the 5th floor and this room's relative location to where another group of individuals related to the water situation are stationed.

This space is currently vacant and in DTMB's control. I have cc'd Mike Noonan and Brian Walts onto this email and they are both aware of your request and in agreement that this room is open for your use. Mike is the Facility Manager and Brian the Building Trades Supervisor.

Please let us know if you need anything else.

Mike-

Keith Paasch, Bob Burns, Larry Scates, Jim Clark and I met to discuss the request for additional space in Flint. The building is considered full, as in the office space as designed is assigned. We determined that the best way to serve our current clients and the additional resources needed to deal with this crisis may be to find additional space close by. We came up with several ideas (U of M Flint, School for the Deaf in Flint, City of Flint or FEMA bringing in trailers onsite). Maureen Bailey has confirmed 7,000 sq ft is available on Bristol Road at $12/sq. ft. plus utilities.

Please see the attached prints in reference to space. There is one group of 12 stations that was occupied by Civil Rights plus two offices originally designed for the Governor that the Governor no longer needed on the 5th floor that is highlighted in green. DHHS is taking over the space and has a reconfigure planned starting in March. DHHS is temporarily using the majority of this space until 7th floor is complete. The area reference below is highlighted in yellow within the green space. As stated below, DHHS staff are already in these station and in order for it to accommodate we would need to relocate the staff and tear down the furniture. The other rooms highlighted in orange within the green box have already been occupied by the Governor's staff as well as FEMA personnel. Two open areas are left in the building-the 5th and 6th floor lobbies. The 6th floor is already over occupancy and therefore we cannot add people here. As for adding people in the 5th floor lobby, I'm not sure how our tenants of the floor would be with that as this floor was not supposed to be accessed by the public.

Please let us know how you would like to proceed.

Subject: Flint Office Space Issue

Chris,

MSP has requested that we find additional space in the Flint State Office Building for additional Federal personnel that will need space in the next few days. DTMB had a meeting this morning in regards to this and after the meeting, BOD/Real Estate determined that we are at "max" in the Flint State Office Building. I asked if that meant we filled all the cubicles or if we are at building occupancy limits. The response was that we filled the cubicles and not at occupancy limits.

Can you assist in getting traction? If we can get these Federal partners in the same area as the State personnel, they can better coordinate response efforts. I spoke with Brian Waits (Flint BTS) and he indicated that if we move 3 DHHS staff members on the 5th floor, they could setup tables capable of housing 30-40 individuals. Brian confirmed that he has space on other floors that they could sit temporarily.

Thank you,

Subject: Re: FSOB - 7th floor plan

Ethan,

Thanks for the confirmation. DHHS has also approved the floor plan. LARA will be responsible for the furniture/build out costs of the two additional stations and file cabinets. Once DBI is through the specification process, they can provide a summary page with the detailed costs. LARA will also need to cover cabling costs and phones for the additional stations.

We were planning on starting the reconfigure after DHHS takes ownership of the 7th floor (first day for staff on the 7th floor is going to be March 21st). Teardown is expected on 5 shortly after and then the redesigned stations can be built. The only hiccup to this plan may be if emergency personnel are still onsite in Flint for the water crisis as they are occupying some space on 5th floor. I am hoping to have a clearer picture of the impact of these additional people by the end of the week.

I like it but we'll see about the end users. In looking at this, LARA could always move some of their locking storage cabinets more towards DHHS and use some of that space for people??? Just a thought.

Mishler, Amy (DTMB) 9:26 AM:
My virtual machine is having issues...
Hoffman, Timothy (DTMB) 9:26 AM:
What kind of issues?
Kessler, Chad (DTMB) 9:26 AM:
What's going on?
Ostrowski, Amy (DTMB) 9:26 AM:
anybody have 2 seconds to look at s6761jv54f42
and see if the client looks okay?
the virtual was unable to start...attempting repairs now.
ugh
Hoffman, Timothy (DTMB) 9:27 AM:
Shouldn't need a VM anymore for the SCCM stuff. I think you can check zone 3 DNR on your main machine.
Cox, John (DTMB) 9:28 AM:
cant remote to them though can you
Hoffman, Timothy (DTMB) 9:28 AM:
No, I don't think you can remote.
Ostrowski, Amy (DTMB) 9:28 AM:
can anybody look at it quickly?
Hoffman, Timothy (DTMB) 9:29 AM:
Sadly, it almost seems like we should have another VM just for the stupid DNR.
Ostrowski, Amy (DTMB) 9:30 AM:
[1/11/2016 9:28 AM] Mishler, Amy (DTMB):
can anybody look at it quickly?
We couldn't reach everyone to send this message.
Hoffman, Timothy (DTMB) 9:31 AM:
OK. I'm looking at it. What are we trying to see.
Ostrowski, Amy (DTMB) 9:31 AM:
just look to see if the client looks okay.
Hoffman, Timothy (DTMB) 9:31 AM:
The client comes up and it connects.
Kessler, Chad (DTMB) 9:31 AM:
I know I'm off topic but has anyone else noticed in the Client Center that IE 11 is now an Application with no pre-req?
Ostrowski, Amy (DTMB) 9:31 AM:
windows updates start and then back all the way out.
Teall, Brandy (DTMB) 9:32 AM:
[1/11/2016 9:17 AM] Teall, Brandy (DTMB):
How do you disable a touch pad on a 6510. FN+F5 doesn't work and there is nothing unable Control Panel Mouse for the touch pad. Is is within the Bois

Mund, Dale (DTMB) 9:32 AM:
Pre req is all bundled in with the one IE11 now.
Kessler, Chad (DTMB) 9:32 AM:
Pretty sweet, I hope it works!
Cook, Matthew (DTMB) 9:32 AM:
seems to work better now chad. the IE 11
I haven't had it fail yet did about 3 so far
Kessler, Chad (DTMB) 9:33 AM:
Ok, I'm doing my first one now ... I think I'll have two more later today (upgrades to the CM client)
Cox, John (DTMB) 9:34 AM:
client got some patches and now she can connect to her hotspot and VPN, but cannot get to intranet and I cannot ping her
she does have dne patch, l;aptop
cant remember what our fix was for this
Kessler, Chad (DTMB) 9:34 AM:
Any error when connecting, John?
Cox, John (DTMB) 9:34 AM:
nope
connected fine and we tried internal vpn also that connected
Kessler, Chad (DTMB) 9:35 AM:
So it does connect with no issues?
Cox, John (DTMB) 9:35 AM:
yep
just cant get anywahere once connected
Kessler, Chad (DTMB) 9:35 AM:
Ok, probably needs the dneupdate reinstalled - I've seen it a few times now - where somehow the dneupdate breaks
Cox, John (DTMB) 9:35 AM:
rog
Cox, John (DTMB) 9:38 AM:
64 or 32 bit
Kessler, Chad (DTMB) 9:40 AM:
64
Cox, John (DTMB) 9:59 AM:
this client does not have bars in bottom right for wifi or screen with plug for lan, why is that and how can she connect to wifi without it
both are turned on
Lindsey, Nathan (DTMB) 9:59 AM:
Hmm, I remember find a fix for that a bit ago. I'd have to remember it.
It's a matter of deleting a few registry settings.
Teall, Brandy (DTMB) 10:01 AM:
I am packing up my equipment to take back to CSC. Does anyone need anything? I will drop it off to you
Mund, Dale (DTMB) 10:02 AM:
Cash!
Kessler, Chad (DTMB) 10:04 AM:
Coming over to my place?
Lindsey, Nathan (DTMB) 10:04 AM:
Chad's creepin' again.
Cook, Matthew (DTMB) 10:05 AM:
LOL
Kessler, Chad (DTMB) 10:06 AM:
LOL, Um.....
She did say she was going to drop it off.....
Teall, Brandy (DTMB) 10:18 AM:
Yes, Chad I can drop it off to you
Since you leave not far from Nate I can stop at Nates too
Kessler, Chad (DTMB) 10:20 AM:

What have you got?
Teall, Brandy (DTMB) 10:22 AM:
3 monitors, docking station, keyboard, mouse and brb phone
Debbie Clark :(
Krumm, Jody (DTMB) 10:24 AM:
you have debbie clark with you
Kessler, Chad (DTMB) 10:25 AM:
I'd give that away too
Krumm, Jody (DTMB) 10:25 AM:
LOL
no comment
Cook, Matthew (DTMB) 10:29 AM:
LOL

OMG you guys
LOL
I am going to miss you guys
Kessler, Chad (DTMB) 10:31 AM:
Going to miss YOU!
Teall, Brandy (DTMB) 10:31 AM:
I am going over to Westshire today to make everything final at 2:30
I am sad to leave
Kessler, Chad (DTMB) 10:32 AM:
Only right now, you'll be fine
Cook, Matthew (DTMB) 10:40 AM:
Enjoy! hope the roads are good
Lindsey, Nathan (DTMB) 10:41 AM:
Let me ask my jammy pants if the roads are good...they say how the f%@! should I know?
Kessler, Chad (DTMB) 10:42 AM:
LOL
Justice, Dana (DTMB) 10:43 AM:
Has anyone dealt with MicroMainXM before (not the XM Request)?
If so, know of anything that is required to be installed with it?
Kessler, Chad (DTMB) 10:44 AM:
Dealt with it many times
Nothing required
Justice, Dana (DTMB) 10:46 AM:
Ideas why we are getting error "This Recordset is not updateable" ?
Kessler, Chad (DTMB) 10:47 AM:
Is it pointing to the correct DB?
Justice, Dana (DTMB) 10:48 AM:
Pointing to local DB, should it be the one on the shared (again, not request and I haven't seen config for this one bf)?
Kessler, Chad (DTMB) 10:48 AM:
Depends, I've seen it both ways
Try the shared one and see how it works
MicroMain is all about trial and error, :-)
Lindsey, Nathan (DTMB) 11:01 AM:
Oh, can someone see the Calendar that tells us if we can take a day off? I need to know if next Tuesday is considered a SWAT day.
Kessler, Chad (DTMB) 11:01 AM:
Yes, I can
Krumm, Jody (DTMB) 11:01 AM:
why do we have Monday off?
Kessler, Chad (DTMB) 11:01 AM:
It should be a SWAT day
Cook, Matthew (DTMB) 11:01 AM:

its MLK day
Lindsey, Nathan (DTMB) 11:01 AM:
I would think so.
Cook, Matthew (DTMB) 11:01 AM:
on Monday Jody
Krumm, Jody (DTMB) 11:01 AM:
it's always a swat day after a holiday
Cook, Matthew (DTMB) 11:02 AM:
if you submit it
I bet they will approve it
Lindsey, Nathan (DTMB) 11:02 AM:
I guess it's worth a try. Thinking about going to the Auto show that day.
Krumm, Jody (DTMB) 11:05 AM:
that's not a bad idea, it will be packed though
Nate, did you finish watching "making a murderer"
Lindsey, Nathan (DTMB) 11:06 AM:
Yeah
Krumm, Jody (DTMB) 11:06 AM:
so guilty or innocent?
Cook, Matthew (DTMB) 11:10 AM:
u didn't finish it jody?
Krumm, Jody (DTMB) 11:10 AM:
I did...
Cook, Matthew (DTMB) 11:10 AM:
Lori binge watched that over the weekend
Krumm, Jody (DTMB) 11:10 AM:
got it done in 3 days
Cook, Matthew (DTMB) 11:10 AM:
I don't know based on the show how anyone could say he did it.
Krumm, Jody (DTMB) 11:11 AM:
had to take a break for a day because I had so much going on
Lindsey, Nathan (DTMB) 11:11 AM:
There is a bunch of stuff they decided to leave out. But yeah, something wasn't right.
Cook, Matthew (DTMB) 11:11 AM:
I felt so bad for his nephew...
and his first lawyer walking out saying hes' guilty
Lindsey, Nathan (DTMB) 11:12 AM:
Yeah, that guy was a piece of shit.
Justice, Dana (DTMB) 11:12 AM:
Why would the nephew repeatedly confess and go back and forth between saying he was coerced and he did it?
Even if you're dumb, pick 1 and stick to it
Lindsey, Nathan (DTMB) 11:13 AM:
I read that the part that they cut out is where he actually got really lucid and gave a full confession without the whole leading on.
Plus he confessed that he helped his Uncle hid the truck and his Uncle opened the hood and removed the battery cable. His DNA was found on the latch under the hood.
Krumm, Jody (DTMB) 11:19 AM:
why would you hide it that way though
why wouldn't you just crush it
they weren't the brightest people though
Lindsey, Nathan (DTMB) 11:19 AM:
Yeah, that's what I was thinking.
Krumm, Jody (DTMB) 11:20 AM:
it was definitely compelling drama to watch
Lindsey, Nathan (DTMB) 11:20 AM:
Oh yeah

Justice, Dana (DTMB) 11:20 AM:
Right, a lot of the investigation seemed to be based on their stupidity... but they really should've documented evidence better
Is season 2 supposed to be the nephew?
Krumm, Jody (DTMB) 11:24 AM:
are they doing a season 2?
or is it a new story
Justice, Dana (DTMB) 11:24 AM:
I just assumed
Lindsey, Nathan (DTMB) 11:24 AM:
I wouldn't think so.
Krumm, Jody (DTMB) 11:39 AM:
Avery got assigned a new lawyer this weekend I read yesterday
Cook, Matthew (DTMB) 11:44 AM:
yeah some women of the year or something
Lindsey, Nathan (DTMB) 11:44 AM:
Caitlyn?
Krumm, Jody (DTMB) 11:45 AM:
she specializes in this type of case
she's freed 5 or 6 people
LOL and no not Jenner
Post, Corey (DTMB) 11:49 AM:
Ok....I am back now. Had the morning off. What did I miss?
Lindsey, Nathan (DTMB) 11:50 AM:
Brandy is going to drop something off at Chad's house.
Post, Corey (DTMB) 11:52 AM:
What is wrong with Chad?
Lindsey, Nathan (DTMB) 11:53 AM:
What isn't wrong with Chad?
Especially since he's probably at lunch so he can't defend himself.
Post, Corey (DTMB) 11:53 AM:
I mean....other than the obvious stuff.
Cook, Matthew (DTMB) 11:53 AM:
lol
Justice, Dana (DTMB) 12:34 PM:
Are we allowed to install updates that aren't in Client Center?
Krumm, Jody (DTMB) 12:35 PM:
from where?
Post, Corey (DTMB) 12:35 PM:
I would say no.
Cook, Matthew (DTMB) 12:35 PM:
Non approved updates ... that doesn't sound good
Justice, Dana (DTMB) 12:35 PM:
Specifically https://support.microsoft.com/en-us/kb/2597986
Post, Corey (DTMB) 12:36 PM:
That would need to be approved through OA.
Justice, Dana (DTMB) 12:36 PM:
This was recommended by micromain hd. Okay, will not try it then
thanks!!
Krumm, Jody (DTMB) 12:37 PM:
put it in your ticket details
send their way, that's what I do
Justice, Dana (DTMB) 12:38 PM:
thanks!
Cook, Matthew (DTMB) 1:26 PM:
so I thought brandy's last day was this friday?

Hoffman, Timothy (DTMB) 1:27 PM:
That was what she said in her email, I think.
Cook, Matthew (DTMB) 1:37 PM:
was surprised to see a ticket she returned to the queue is all
Hoffman, Timothy (DTMB) 1:39 PM:
Oh. Interesting. Maybe she is leaving earlier or is on leave till next week or something.
Kessler, Chad (DTMB) 1:39 PM:
well the one ticket she sent back to the queue she won't be here to follow up on
Hoffman, Timothy (DTMB) 1:40 PM:
Ah. One of those "probably done but client doesn't come back till next week deals" huh?
Krumm, Jody (DTMB) 1:40 PM:
she told me she was debating taking the rest of the week off
she had to go sign paperwork with DCO I thought this afternoon
to finalize the new job
Hoffman, Timothy (DTMB) 1:42 PM:
Just out of curiosity, Dana and Tom, did the CSC actually have you sign your new position description?
Cook, Matthew (DTMB) 1:43 PM:
New?
I didn't know it had even changed
Beekman, Thomas (DTMB) 1:43 PM:
I did not sign anything.
Hoffman, Timothy (DTMB) 1:44 PM:
I wish you could put that comedy drum sound into Skype.
Krumm, Jody (DTMB) 1:44 PM:
who knows
Beekman, Thomas (DTMB) 1:44 PM:
It's all about deniability
Krumm, Jody (DTMB) 1:44 PM:
that's just what she said
Hoffman, Timothy (DTMB) 1:44 PM:
Or maybe that "Wah, wah" sound.
Krumm, Jody (DTMB) 1:45 PM:
I think she took the week off
Kessler, Chad (DTMB) 1:46 PM:
From what Dana told me it sounds more like an ITIA than an ITPA
Justice, Dana (DTMB) 1:47 PM:
Just saw that - I asked Curt today, and the answer is....
Those who are currently ITPAs will remain ITPAs (including Tom and I). As ITIAs leave, those positions will change to ITPAs
at least that is my understanding of what he said
Cook, Matthew (DTMB) 1:49 PM:
so all the itias as they leave will be republished as itpa?
or itpa to itia
Krumm, Jody (DTMB) 1:50 PM:
will they convert the ITIA's to ITPA, because that would be very interesting considering none of them qualify for the position
Justice, Dana (DTMB) 1:50 PM:
As ITIAs leave, the positions posted to replace them will be ITPAs - is my understanding (< disclaimer)
That sounded like a no Jody
From my understanding (< disclaimer) , they will have to apply for open ITPAs if they want to be ITPAs
Krumm, Jody (DTMB) 1:51 PM:
I can think of Tier I agents specifically
LOL do any of them have qualifications for a ITPA?
Justice, Dana (DTMB) 1:51 PM:
Do we have to have an associates degree, or could we sub experience?
If experience, I can thing of a few

Krumm, Jody (DTMB) 1:52 PM:
experience can be substituted
but...
at a level higher than 1st
Justice, Dana (DTMB) 1:52 PM:
So Aaron, Mike, Todd... as far as qualifying
Krumm, Jody (DTMB) 1:53 PM:
do they have experience above level 1
Justice, Dana (DTMB) 1:53 PM:
Is Tier I level I?
Krumm, Jody (DTMB) 1:53 PM:
I worked with Todd at EDS, he wasn't above 1st level
Justice, Dana (DTMB) 1:53 PM:
or are they kinda 1.5 at the moment?
Hoffman, Timothy (DTMB) 1:53 PM:
I guess the question would be why would you want to apply for an ITPA if you have the same level pay as us.
Krumm, Jody (DTMB) 1:53 PM:
LOL
Justice, Dana (DTMB) 1:53 PM:
To be cool duh
Krumm, Jody (DTMB) 1:53 PM:
for them now, they wouldn't
Hoffman, Timothy (DTMB) 1:53 PM:
You must have a different definition of that word.
Krumm, Jody (DTMB) 1:54 PM:
and no they aren't truly 1.5 Dana
they should be, but they don't have job responsibility to qualify for ITPA
didn't Aaron do level 2 work before I thought?
same with Becker
Hoffman, Timothy (DTMB) 1:56 PM:
All it has to do is show up on paper. How do you think I got this job. Not because I'm competent or knowledgeable, I can tell you that.
Krumm, Jody (DTMB) 1:57 PM:
LOL
whatever Tim
Hoffman, Timothy (DTMB) 1:57 PM:
:)
Krumm, Jody (DTMB) 1:57 PM:
Dale got ITPA so anyone can... LOL
Cook, Matthew (DTMB) 1:58 PM:
ba-da-dum
Hoffman, Timothy (DTMB) 1:58 PM:
Wow. Harsh.
Thank you Matt.
Krumm, Jody (DTMB) 1:58 PM:
I can say that, he's not in the chat
Cook, Matthew (DTMB) 1:58 PM:
LOL
I think he got it cause of his looks... we needed a redhead... he fit the hair with whats left :P
Kessler, Chad (DTMB) 1:58 PM:
I'm surprised he didn't bash on me there instead of Dale
Krumm, Jody (DTMB) 1:58 PM:
and he's been pestering me to copy files for him
Cook, Matthew (DTMB) 1:59 PM:
same
u have fast internet

can you move this here
lol
Krumm, Jody (DTMB) 1:59 PM:
LOL Jody are you busy
can you copy a file for me
damn DSL
that's his comment every day since we got home
Justice, Dana (DTMB) 2:00 PM:
Oh, I thought you just went a little crazy there talkin to yourself
Krumm, Jody (DTMB) 2:00 PM:
LOL
Kessler, Chad (DTMB) 2:00 PM:
Jody's sane?
Krumm, Jody (DTMB) 2:00 PM:
I do that... don't you remember you sat a row over from me
ohh maybe it was Jason
Kessler, Chad (DTMB) 2:01 PM:
We are CSC - we aren't suppose to be sane anymore
Krumm, Jody (DTMB) 2:01 PM:
Adams was a little looney
Justice, Dana (DTMB) 2:02 PM:
I couldn't hear you over Jason and Chris
I was too busy IM'ing them answers for their loud questions
Cook, Matthew (DTMB) 2:04 PM:
good lord DCDS is due in like 14 hours
are we still approved for OT this week if wanted or is that off the table
Kessler, Chad (DTMB) 2:04 PM:
I'm thinking it's still on
I'm working OT tonight
Hoffman, Timothy (DTMB) 2:05 PM:
You've got like 35 tickets or something so you better be working OT.
Justice, Dana (DTMB) 2:06 PM:
Still 23 in the queue, come on Chad, your making us look bad
Kessler, Chad (DTMB) 2:07 PM:
I have almost as many as Jody, come on, doing my best
I still have over 10%
that's always my goal
Hoffman, Timothy (DTMB) 2:07 PM:
To have a stroke?
I'm sorry, that's John's goal.
Kessler, Chad (DTMB) 2:09 PM:
my goal in 15 years
Behrens, Dan (DTMB) 2:09 PM:
Don't have a stroke!
Kessler, Chad (DTMB) 2:09 PM:
runs in the family
Justice, Dana (DTMB) 2:09 PM:
A stroke of luck? or genius?
Kessler, Chad (DTMB) 2:10 PM:
Not that kind of stroke
Hoffman, Timothy (DTMB) 2:10 PM:
Did I just accidently hit something personal?
I should probably shut up now.
So, are starting a betting pool on the next person to leave. Or aren't there enough of us left for it?
Justice, Dana (DTMB) 2:12 PM:
2 Tickets on Nate the Great

Cook, Matthew (DTMB) 2:13 PM:
how many are left anyway
Hoffman, Timothy (DTMB) 2:14 PM:
Back to lucky 13 as of Friday.
Kessler, Chad (DTMB) 2:15 PM:
I think I lost the last pool
I had Tim
Hoffman, Timothy (DTMB) 2:16 PM:
Sorry. I disappointed everyone there. Me included.
Kessler, Chad (DTMB) 2:17 PM:
Roll the dice - Jody, Nate, Tim, Dale, John - one of them
Hoffman, Timothy (DTMB) 2:17 PM:
I would guess John probably hasn't applied for anything.
Kessler, Chad (DTMB) 2:17 PM:
I think retirement counts or leaving the state overall
I was also off in how many people we'd lose by the time we were in the same room at the level 1s - I bet 50% would be gone and we've only lost 7 of 20
Hoffman, Timothy (DTMB) 2:19 PM:
I'm not THAT old.
Oh, you were talking about someone else probably.
Cook, Matthew (DTMB) 2:20 PM:
well don't give up your 50% number yet
I have 2 interviews this week so
Hoffman, Timothy (DTMB) 2:20 PM:
Good for you.
Where at?
Kessler, Chad (DTMB) 2:20 PM:
Bravo, Matt!
Cook, Matthew (DTMB) 2:21 PM:
Oh you know here and there. :)
all in som
Hoffman, Timothy (DTMB) 2:21 PM:
Here and there, huh?
Krumm, Jody (DTMB) 2:25 PM:
Hey Chad, had someone informed us that with Bitlocker external devices, that the customer needs to go to the CRM group to submit requests to get on a exception list for external drives?
Justice, Dana (DTMB) 2:26 PM:
Good luck Matt!
Cook, Matthew (DTMB) 2:27 PM:
thank you Dana
Krumm, Jody (DTMB) 2:31 PM:
does anyone know about this contacting the CRM group to get a request submitted to get an external drive put on a exception list?
did we receive some kind of notification on it?
Justice, Dana (DTMB) 2:32 PM:
Requests for BitLocker Exceptions
Requests for exceptions to having BitLocker on any device (except for 390s or AlienWare) are to be routed to the appropriate Agency Services Remedy group (e.g. DTMB AS CRM...). Use the "BitLocker PIN reset/recovery" template for these requests. Advise the client and document accordingly.

From: Hartsuff, Lisa (DTMB)

Sent: Friday, December 04, 2015 1:47 PM
Kessler, Chad (DTMB) 2:40 PM:
I told him that this morning, Jody but no ONE listens to me
Krumm, Jody (DTMB) 2:41 PM:
LOL

I have a short term memory issue
Lisa needs to review this direction with the CRM with LARA
Justice, Dana (DTMB) 2:42 PM:
Who knows, maybe directive has changed since then
Kessler, Chad (DTMB) 2:43 PM:
It hasn't - still needs to go through CRM - the form - to OA to get disabled
Cook, Matthew (DTMB) 2:43 PM:
Do the thing to make the stuff do what it should please
Hoffman, Timothy (DTMB) 2:45 PM:
I don't suppose there is a nice little form to allow you to download from the Internet?
Because that is pissing me off.
Kessler, Chad (DTMB) 2:46 PM:
Yeah, I think it's the 401 but it has to go through CRM to get pushed to OA
Hoffman, Timothy (DTMB) 2:47 PM:
Better keep the 401 on the QT because if it leaks to the CSC, the 401 could become MIA and then I would be put on KP.
Kessler, Chad (DTMB) 2:47 PM:
I miss Robin Williams too
Hoffman, Timothy (DTMB) 2:47 PM:
Yeah.
Krumm, Jody (DTMB) 2:48 PM:
you know what pisses me off, DHS voice mails, where they insist to speak for 4 minutes before you can leave a message
Hoffman, Timothy (DTMB) 2:48 PM:
So, it seems like we have to fill out that form then, to get put on the exception for USB drives.
Kessler, Chad (DTMB) 2:49 PM:
yes we do
Hoffman, Timothy (DTMB) 2:49 PM:
Thoughtful.
Justice, Dana (DTMB) 2:49 PM:
Oh, you mean their desk numbers they decide to give you when they only ever answer their cell phones?
I like when they have the super long message in multiple languages
Cook, Matthew (DTMB) 2:51 PM:
I like the mulitple languages one... I feel like I am getting Rosetta stone lessons for free
Justice, Dana (DTMB) 2:51 PM:
Right?!
Hoffman, Timothy (DTMB) 2:51 PM:
Or talking to Dan.
Justice, Dana (DTMB) 2:52 PM:
Brush up on my Spanish
that too
Justice, Dana (DTMB) 2:54 PM:
However, my absolute favorite is when I'm on hold for an extremely long time and the message for child abuse comes on, and there's that brief silence where you have hope that the client just picked up, but instead I get to hear about child neglect and lose all hope for humanity
Cook, Matthew (DTMB) 2:55 PM:
lol
Hoffman, Timothy (DTMB) 2:55 PM:
Loosing all hope for humanity is the short description of this job.
Justice, Dana (DTMB) 2:56 PM:
could be worse... I've heard it in multiple language outgoing voicemail messages via DHHS - and we've come full circle
Hoffman, Timothy (DTMB) 2:57 PM:
LOL. Yep.
Hoffman, Timothy (DTMB) 3:06 PM:
So, Ok. What the hell is the remedy group for "our" crm?

Kessler, Chad (DTMB) 3:07 PM:
CRM MDB
DMB/Civil Service
oops
Hoffman, Timothy (DTMB) 3:20 PM:
So, I missed most of the bitlocker apocalypse so forgive me if it's already been discussed but have there been incident requests where the analyzer says it can't retrieve the info but there is nothing wrong with the bloody machine.
Justice, Dana (DTMB) 3:20 PM:
try with both IP and computer name
Kessler, Chad (DTMB) 3:20 PM:
I'm sorry but during the bitlocker apocalypse I relied on prior knownledge and didn't bother with the analyzer
Justice, Dana (DTMB) 3:20 PM:
I've had different results for each
lol Chad
Cook, Matthew (DTMB) 3:21 PM:
the analyzer is useless
its pretty buttons and check marks
Kessler, Chad (DTMB) 3:21 PM:
I side with Matt
Cook, Matthew (DTMB) 3:21 PM:
but it doesn't really do much at all to help diag anything
if anything use the powershell bitlocker tool jared was handing out
it gave bios level and all that
as well as what the error is with the server
Hoffman, Timothy (DTMB) 3:22 PM:
Fair enough. I don't think I have seen Jared's powershell script but I have heard legends about it.
Kessler, Chad (DTMB) 3:22 PM:
Because Jared is a legend
Cook, Matthew (DTMB) 3:24 PM:
its on the s drive
Hoffman, Timothy (DTMB) 3:24 PM:
On a related note, when I talked with every manager who would listen to me for the month leading up to the bitlocker roll out, they told me that we shouldn't give everyone that little piece of paper with all the info on Bitlocker to everyone.
Cook, Matthew (DTMB) 3:24 PM:
I th
ink
Hoffman, Timothy (DTMB) 3:24 PM:
I'll look for it. thanks.
Hoffman, Timothy (DTMB) 3:29 PM:
Anyway. So, the first level agents can't rely on previous experience as they have been ordered not do anything except run that tool. And the information to fix it, though simple and easily distributed, has been denied to them.
Kessler, Chad (DTMB) 3:29 PM:
Common across the board, Tim
Hoffman, Timothy (DTMB) 3:30 PM:
Sigh.
You're right.
Consider my spirit crushed for the day.
Kessler, Chad (DTMB) 3:31 PM:
Don't let the CSC bring you down!
Hoffman, Timothy (DTMB) 3:31 PM:
I can but try.
Cook, Matthew (DTMB) 3:34 PM:
they are not allowed to make changes to the registry
why would you think they could make changes to the bios

Hoffman, Timothy (DTMB) 3:35 PM:
It is actually that it can't be asked of them to make changes to the registry. And honestly, they are step by step commands.
Cook, Matthew (DTMB) 3:36 PM:
it gives us something to do that is easy and mindless...
Hoffman, Timothy (DTMB) 3:36 PM:
True.
Cook, Matthew (DTMB) 3:36 PM:
don't mess with whats not kinda sorta workin
lol
Justice, Dana (DTMB) 3:36 PM:
Don't forget time constraints
jus sayin
Hoffman, Timothy (DTMB) 3:38 PM:
All good points. But for me, it's the old "give a man a fish...." idea. They might not have an hour to fix an issue but in this case, they could look to see that it was OK.
But Matt is right. I just closed another ticket where I had to expend about 20 seconds of my time.
So, I look awesome.
On paper anyway.
Justice, Dana (DTMB) 3:40 PM:
I was fishing, and I typically ran over time constraints on BitLocker calls if they were complex, but they can't let everyone fish, or... it will just take to long... I can't think of a good fishing reference
I would say have them initialize TPM, manage TPM lockouts, and kick of MBAM Cline UI - but past that it starts to take a while.
Client*
Sell it as quick and easy - that sells...
Hoffman, Timothy (DTMB) 3:46 PM:
My track record has been that I can't sell water in the desert. I'm terrible at promoting change.
Kessler, Chad (DTMB) 3:46 PM:
or you get in trouble selling the water
Post, Corey (DTMB) 3:46 PM:
Flint water
Justice, Dana (DTMB) 3:46 PM:
lol
Hoffman, Timothy (DTMB) 3:46 PM:
That too.
Kessler, Chad (DTMB) 3:46 PM:
The ISIS stop you every time
Only Corey's buying the Flint water
Hoffman, Timothy (DTMB) 3:47 PM:
I guess it is hard for me to judge the quality of all that spout.
Post, Corey (DTMB) 3:47 PM:
Only for my evil plot.
Hoffman, Timothy (DTMB) 3:47 PM:
My ideas could be the equivalent of Flint Water
Justice, Dana (DTMB) 3:48 PM:
Hopefully not that dirty
Post, Corey (DTMB) 3:48 PM:
(pin drops)
Justice, Dana (DTMB) 3:48 PM:
haha
Kessler, Chad (DTMB) 3:49 PM:
And the Evil Plot emerges....
Cook, Matthew (DTMB) 4:00 PM:
have a good one folks
Hoffman, Timothy (DTMB) 4:00 PM:

See ya.

Kessler, Chad (DTMB) 4:01 PM:

See ya also, you all take care

Justice, Dana (DTMB) 4:01 PM:

Bye!

Behrens, Dan (DTMB) 4:01 PM:

Hasta la vista, Senor Kessler!

Subject: Volunteer Opportunity in Flint

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, https://www.surveymonkey.com/r/28NVJBL

To volunteer on Sunday, January 17, https://www.surveymonkey.com/r/26NMJKK

To volunteer on Monday, January 18, https://www.surveymonkey.com/r/26P7P5G

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit www.michigan.gov/flintwater.

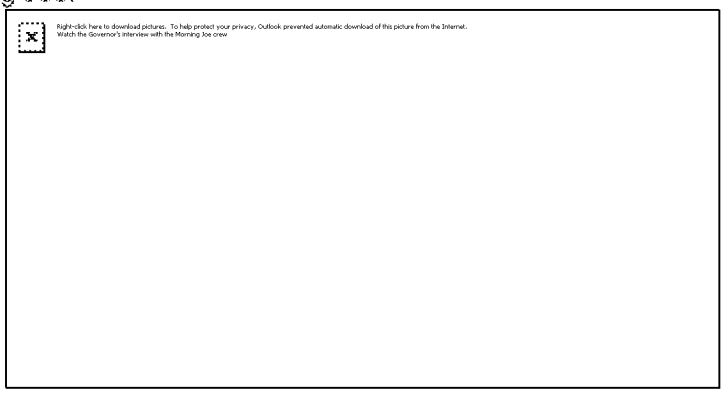
How we are fixing the Flint water crsis

Governor Rick Snyder has committed to spending the rest of his time as Governor to fixing the Flint water crisis. Over the last few days, he has sat down to explain what happened and how we're fixing the Flint water crisis. Watch the interviews below and be sure to read the Governor's Op-Ed in the USA Today.

Governor Snyder on Morning Joe

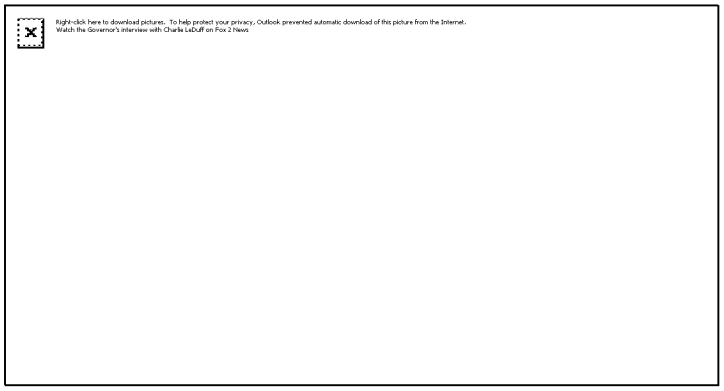
"What is so frustrating and what makes you so angry is you have a handful of experts who were career civil servants that made terrible decisions, in my view. We have to live with the consequences, and they worked for me, so I accept that responsibility. We are going to fix this problem." Watch Governor Snyder address how we are fixing the Flint water crisis on Morning Joe.



Governor Snyder with Charlie LeDuff on Fox 2 Detroit

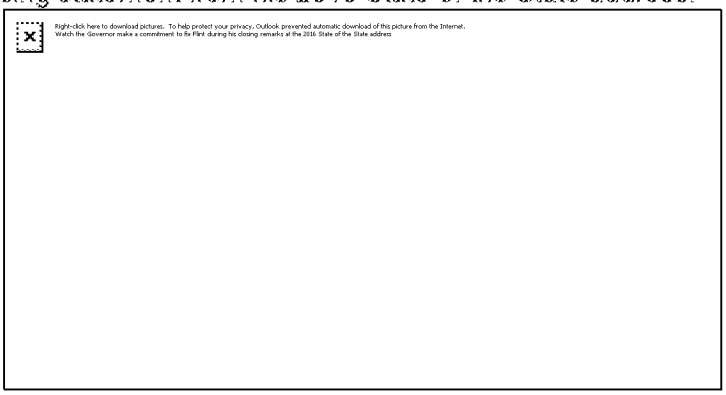
"I feel awful about this. These are people. They've been harmed. You can't feel good about that. The people of Flint have been harmed and a major influence of that harm came from people who worked for me, and I feel responsible for that. But I am committed

to solving the problem and addressing the damage as much as possible for the rest of the time I'm Governor." Watch Governor Snyder address the Flint water crisis with Charlie LeDuff on Fox 2 News.

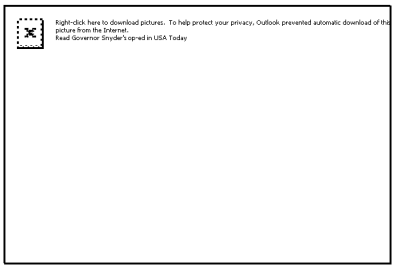


Governor Snyder's 2016 State of the State

"Michiganders don't quit, we don't give up, instead we will work with even more passion and commitment to truly improve our state. For everyone who's chosen to make Michigan their home, this is more than a promise, this is my commitment." Watch Governor Snyder's full closing statement from his 2016 State of the State address.



Governor in USA Today: "I will fix this, and I mean it."



"Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take responsibility for what these families are going through, and I'm holding people in my administration accountable for their failures." Click here to read the Governor's full op-ed.

Washington Post: "Michigan Gov. Rick Snyder is in a tough spot, but he's his own best spokesman"

Snyder has born the brunt of criticism in the local health crisis that has turned into a national scandal. But unlike many other politicians facing crises of leadership, Snyder may also be his own best counter-programming. Click here to read the full story in the Washington Post.

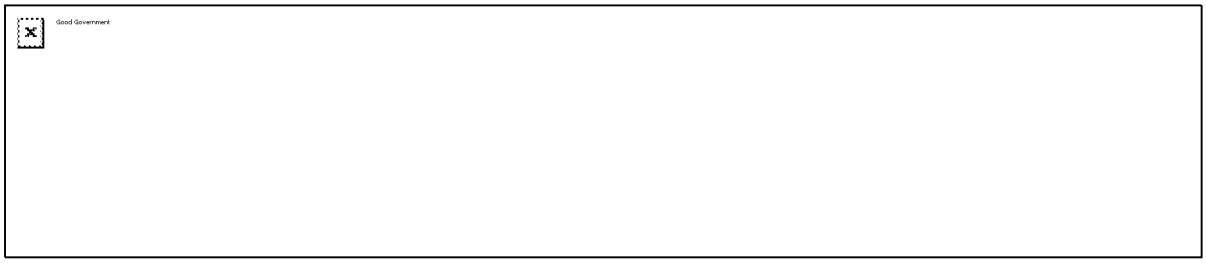
Subject: Flint Volunteer Efforts



Dear State Employees,

Gov. Rick Snyder and I want to thank everyone who donated their time during the holiday weekend to deliver bottled water, water filters, replacement cartridges and water testing kits to families in the city of Flint. We are working hard to ensure all residents are provided with the safe water resources they need, and each donation and hour of your time volunteered goes a long way.

For employees who would like to help the residents of Flint, there are several opportunities to do so. Please visit www.helpforflint.com to learn how you can help.

For additional information and updates, visit www.michigan.gov/flintwater.

Again, thank you for all your support.

Sincerely, Mike Zimmer
Office of Good Government Director
Dept. of Licensing and Regulatory Affairs Director

FROM THE DESK OF DAVE LORENZ

As the Pure Michigan Snow Day promotion continues, it's been great to see so many in the travel industry send in their snow day dance videos and share their "snow day" adventures via social media. On Monday, we hosted a #PureMichiganSnowDay Twitter chat discussing ways to take a Pure Michigan Snow Day – a special thank you to everyone who participated and especially to Shanty Creek and Stormy Kromer for offering our fans terrific giveaway items.

If interested in re-living the chat and seeing comments and reactions from our fans, check out posts from January 25 on the Pure Michigan twitter page from noon – 1 p.m.

I've had the opportunity to be in northern Michigan for several meetings the past two weeks and although I haven't yet had time to throw on the skis myself, it's been rewarding to see the buzz of activity at our resorts. We're hopeful the pent-up demand that was created by a slow to develop winter will drive travel to ski, snowmobile and do all of the other things we love to do at this time of year.

The big challenge we are dealing with right now is the water contamination issue in Flint. I know you are as concerned as I am for all of those who have been affected by the situation. I can only say that I'm confident that everything that can be done to find solutions, will be done.

For those of us in the travel industry – we can do our part to help by doing what we do best. Let's stay positive promoting the great State of Michigan as a premier place to visit, four seasons of the year. By doing so we'll continue to positively impact our economy, generating jobs and revenue, which can be used to benefit our entire society.

This state has faced many challenges over the years and we have always come together in unity to resolve our issues. Let's hang tough and support Flint and everyone working to make things right. For more information on what is happening in Flint visit www.michigan.gov/flintwater and to find out how you can help visit www.helpforflint.com.

Last, but not least, Happy 179th Statehood Day Michigan! Hear what folks love most about Pure Michigan in this statehood video.

Sincerely,

Dave Lorenz, Vice President Travel Michigan

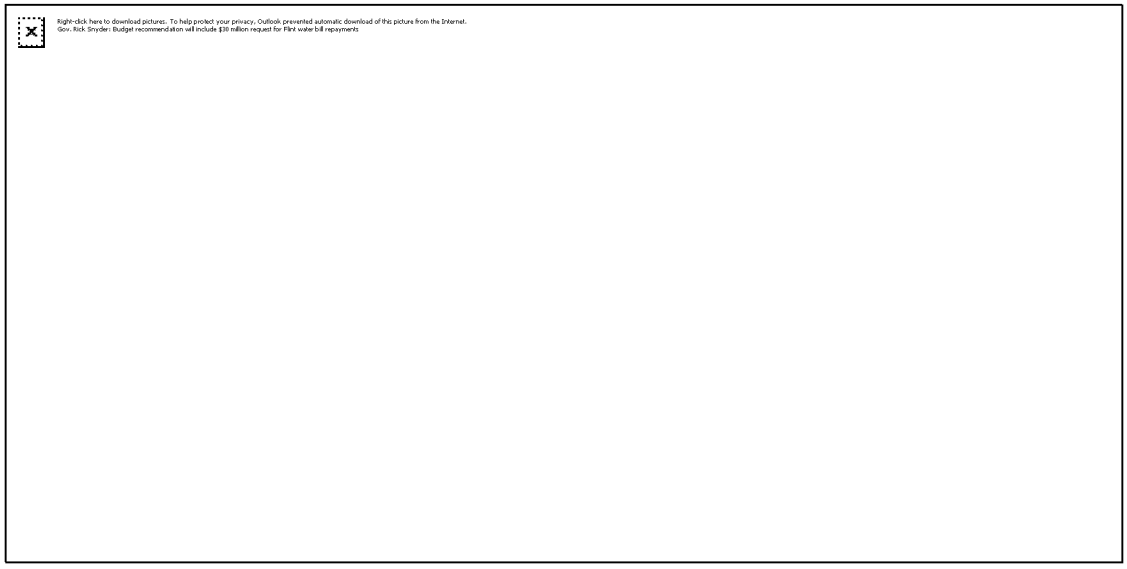
Subject: "Flint residents should not have to pay for water they cannot drink"

Budget recommendation will include $30 million request for Flint water bill repayments



When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a $30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.

Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly

65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking, and washing your hands. Residents still would be responsible for paying the sewer portion of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

Click here to learn more about the budget request.

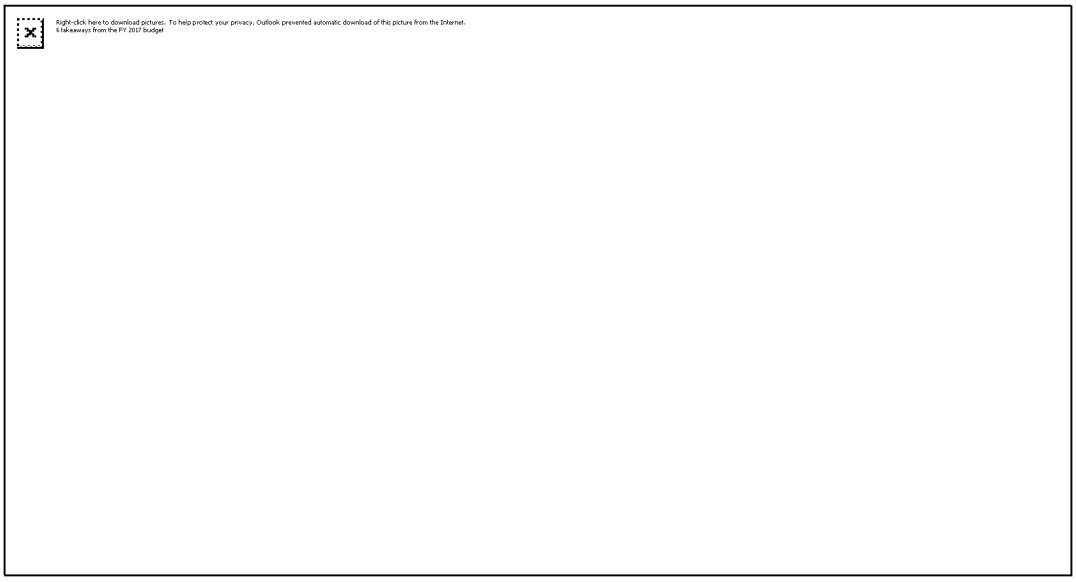
VIDEO: What Governor Snyder's FY17 budget means for Michigan



Gov. Rick Snyder's FY 2017 budget calls for critical investments for the Flint water crisis, statewide infrastructure and the Detroit Public Schools. The governor's recommendation also addresses the skyrocketing costs of specialty medications that Michigan residents depend on for better health outcomes.

This budget also stays committed to the Governor's core statewide priorities of education, talent and economic development, health and human services, and public safety.

The proposed FY 2017 budget makes key investments to strengthen the state for all of

Michigan's families. Click here to learn more about the top 6 takeaways from the Governor's FY 2017 state budget.

Volunteers at the Food Bank of Eastern Michigan are working hard to collect donations in order to help the families of Flint. Last Thursday, Governor Snyder visited with the many dedicated volunteers and helped sort cans of food.

Good nutrition is critically important for Flint's children. Foods that are high in calcium, vitamin C, and iron can help limit the effects of lead exposure. To donate or volunteer at the Food Bank of Eastern Michigan, visit www.fbem.org.

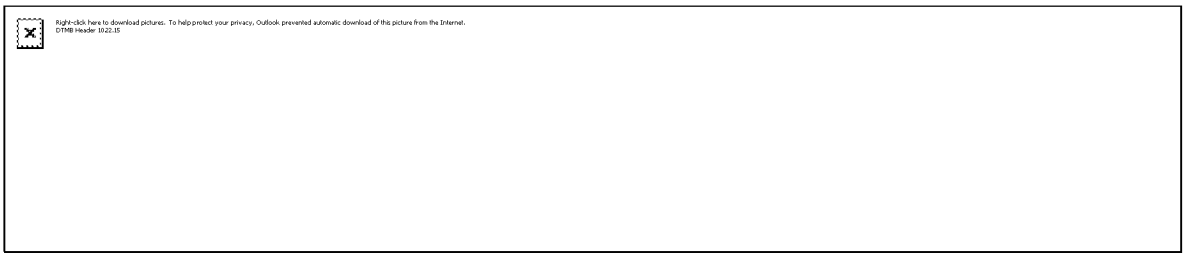
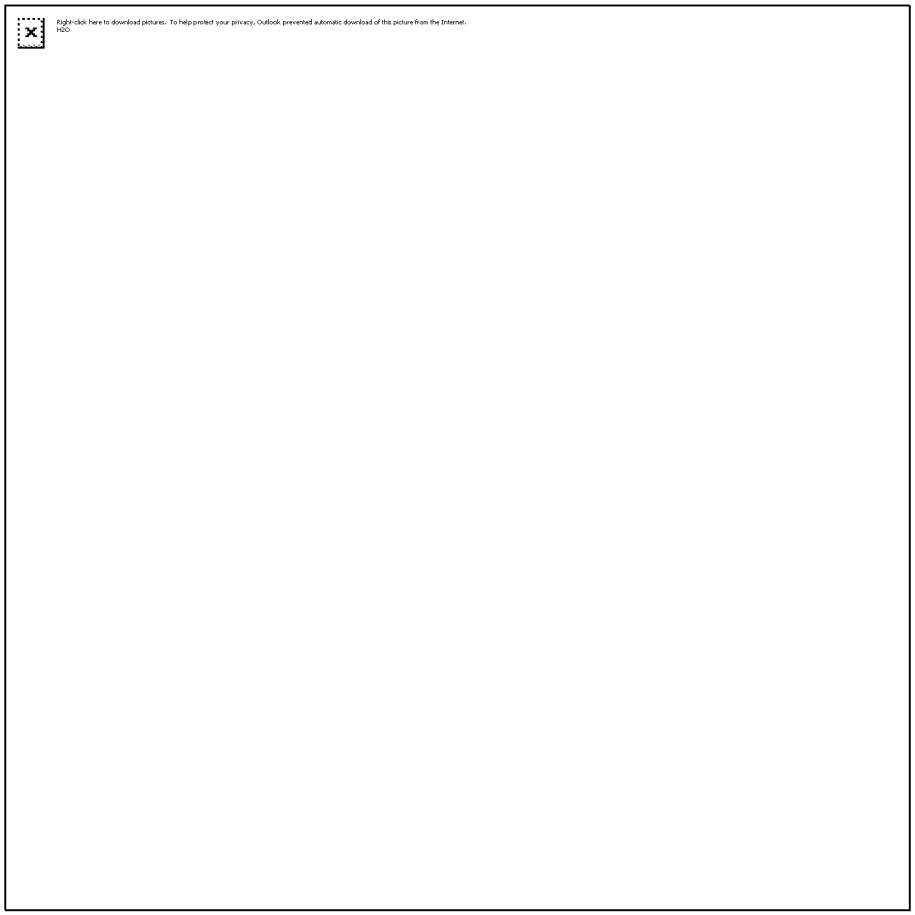
Subject: Contributing time, muscle and money



During this month's Martin Luther King Jr. holiday weekend, some state employees turned their "day off" into a "day on" in Flint. There, they delivered bottled water, water filters, replacement cartridges and water testing kits to families. The volunteers joined other Michiganders, turning Dr. King's birthday observance into a day of service.



Mike Zimmer, director of the Office of Good Government and the Department of Licensing and Regulatory Affairs, has shared a link – www.helpforflint.com – that offers other opportunities to contribute time, muscle and money to bring clean drinking water to the community.Here in DTMB, some of our employees didn't wait for an invitation to lend a hand. Office of Retirement Services staff contributed funds that were used to buy 31 cases and 23 gallons of water, which a local organization transported to Flint.

Autumn Hubbard, Ambrea Mack and Sarah Esquivel, who are in the photo at the left, nearly emptied the shelves at their local grocery store. Thanks for your efforts.

everyone.

Now work.

Last week, I signed a new policy that formalizes the annual employee review process and sets expectations for employees and managers. Administrative Policy 200.37 establishes consistent standards for implementing performance plans and reviews. Some of the standards are practices we have followed for years. Others are new. Some of particular note include:

- The mandatory use of HRMN
- A standard Feb. 1-Jan. 31 rating period for all employees
- An Individual Development Plan that specifies training or development programs for each employee
- Competencies and objectives that align to DTMB goals or scorecard metrics
- Consequences for managers and supervisors who do not complete the review process as required

A fundamental role of each DTMB manager or supervisor is to provide employees with direction and feedback on their performance. Employees also are expected to take an active role in pursuing professional development opportunities and achieving their competencies and objectives. I encourage you to review the new policy and talk with your manager or supervisor if you have questions. Of course, I welcome your questions and input as well. Please send your comments and ideas to me at behend@michigan.gov.

I know these have been busy weeks for many of you as you take on additional responsibilities and work hard to provide resources and services for our customers and citizens across the state. Please know that your hard work has not gone unnoticed. Thank you for everything you do, every day.

Have a great week,

David

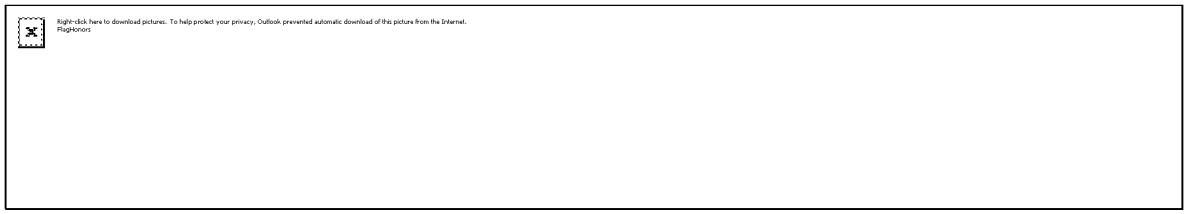
Subject: Thank you for your service



THANK YOU!

Fellow employees,

Each day, more than 46,000 state of Michigan employees come to work with the confidence and commitment to make Michigan a better place to live, work and play. I appreciate the way you care about the citizens we serve, and how it is reflected in the work that you do.

As you have heard from me and the media, our reputation and trust can be severely impacted when people do not make good decisions, or use good judgment in solving problems. That principle is universal, but never more so than when public health is at stake. What happened in Flint can never be allowed to happen again anywhere in our state.

I know that you want to work in a place where employee input is valued, efforts are recognized, and teams are always striving for continuous improvement. That's why we introduced employee surveys, Bureaucracy Busters and other reinvention initiatives. We want and deserve a culture of innovation, continuous improvement and employee engagement at every level. We can never take for granted how important the people are who depend on us to do our jobs, and I am asking you not to let the situation in Flint negatively impact your motivation to excel every day.

Many of you have taken an interest in helping the citizens of Flint on your own time, and I'd like to take this opportunity to recognize and thank those who have volunteered over the last couple of weekends. You have worked tirelessly to deliver cases of bottled water, water filters, replacement cartridges and water testing kits to the families in need. I appreciate you donating your time to help our fellow Michiganders. To date, more than 37,000 homes have been visited by one of our water resource teams.

For employees who would like to further help the people of Flint, please visit www.HelpForFlint.com to learn how you can do so. For additional information and to sign up for daily updates, please visit www.mi.gov/FlintWater. I am committed to ensuring that all residents have access to safe and clean water.

Again, I'd like to express my gratitude for the work you do every day to continuously improve our state and earn the trust of those you serve. You make a real difference.

Thanks,

Governor Rick Snyder

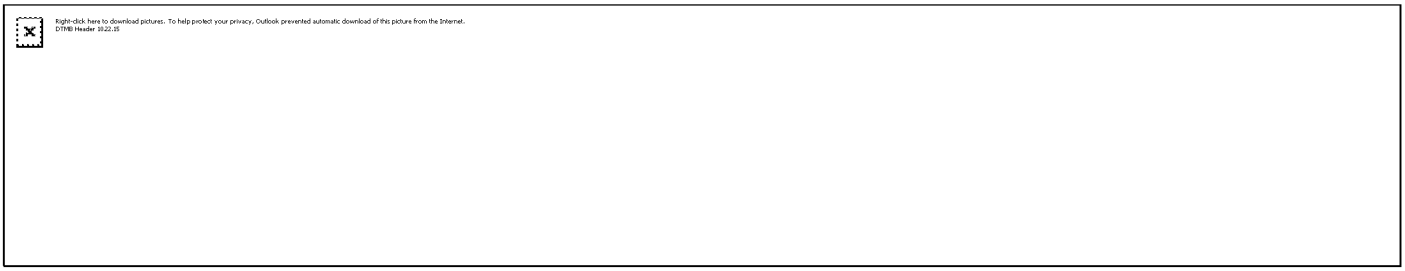
Sent: Wednesday, February 17, 2016 10:10 AM
To: Post, Corey (DTMB)
Subject: The Gov. Snyder's Budget Proposal



Good morning everyone. I hope everyone had a great holiday weekend.

I had the good fortune to travel to Marquette on Monday with Chad Laidlaw, DTMB's policy and planning analyst, to meet with city, business and university leaders and to address the Economic Club of Marquette. I told them about the many things DTMB does, placing special emphasis on our work in mobility and cybersecurity. Marquette is really developing and making its mark as an innovative and entrepreneurial community.

Now work.

The executive budget Gov. Snyder presented last week outlined his investment plan for Michigan. Yes, the proposal for fiscal year 2017-18 outlined a strategy to address the critical challenges of addressing the Flint water crisis and turning around Detroit's Public Schools, but the $54.9 billion plan also includes investment in four key areas:

- **Education.** The budget increases investment to K-12 schools, community colleges and the state's public universities. Additional funds are proposed to expand career, technical, science, technology, engineering and math programs.
- **Protecting the Public.** The governor's plan expands the Secure Cities program, which has reduced violent crime in four major Michigan cities. Funds also would support an additional trooper recruit school and an academy to train corrections officers, among other initiatives.
- **Putting People First.** The governor recommends continued expansion of the Healthy Kids Dental Program and funding efforts to ensure residents have access to affordable health care. His proposal boosts funds to help cover new higher cost specialty medications to treat conditions such as hepatitis C and cystic fibrosis, among others.
- **Investing in Infrastructure.** The proposal allocates $1.2 billion to maintain and repair Michigan roads, bridges and other critical infrastructure.

The budget proposal also includes FY 2017-18 funding recommendations for DTMB. Gov. Snyder recommends ongoing funding of $1.3 billion for department operations and a one-time allocation of $32.4 million.

A few highlights include:

- $502 million for information technology support for all state agencies and $132.8 million for 14 high-priority IT projects in seven agencies. He recommends increasing the Information Technology Investment Fund by $7 million, from $65 million to $72 million. This fund supports several major multiyear IT projects and upgrades, including the replacement of outdated legacy systems.
- An additional $5 million to support cybersecurity improvements to safeguard citizens' personal information and protect critical infrastructure and government services.
- IT support of $6.5 million to modernize the Office of Retirement Services' systems and enhance customer service for more than 530,000 current and future retirees.

You can see the full executive budget recommendations, which are posted on the Budget Office website. Details of DTMB's proposed budget begin on page B-75.

We can expect to see many changes before the budgets are signed and become effective Oct. 1. The executive budget will be used by the House and Senate Appropriations Committees as they work on their own budgets and hold committee hearings on the proposals. I'll keep you posted as the process moves ahead.

As always, I welcome your notes, whether about the budget process or any other topic. Please send them to me at behend@michigan.gov.

Thank you again for all the good work you do. I hope you have a great week ahead.

David

Subject: Flint SEOC - Escalation Requests

There has been a bit of confusion regarding the process for escalating requests for Flint water. ALL requests for escalation of changes, service or support, which a user indicates is related to the current Flint water efforts, are to be routed through the SEOC for approval by one of the following individuals who are familiar with the internal escalation processes and procedures which must be used.

Chris Christensen
Jeanette Doll
Ryan McKee

If you have any questions or concerns regarding this matter, please direct them to your management.

Subject: RE: Flint SEOC - Escalation Requests

Becky,

1. It means that every agency has a representative at the SEOC who they can present their request to. If they are the individual who represents the agency at the SEOC, they can contact the three individuals listed in my email and those individuals will handle the request.
2. No remedy group that I am aware of.
3. No email DL that I am aware of.
4. The internal processes and procedure refer to a telephone or email chain which is employed to directly request the services...for example Chris Christensen calls John McQuaid and John call me.

I would recommend that the CSC direct people to their SEOC representative, and if they are that person, the CSC should direct them to Chris Christensen, Jeanette Doll, or Ryan McKee.

I hope this helps.

Subject: RE: Flint SEOC - Escalation Requests

Brad – Thank you for the information. What exactly does "*...are to be routed through the SEOC*" mean? Is there a Remedy group that these cases would be assigned to? Is there an email DL that would be used? These "internal escalation processes and procedures" that you refer to: is there a less top-secret version that the CSC could use to better support this initiative? Is there someone else I should be speaking to?

THANK YOU!!!

Subject: Flint SEOC - Escalation Requests

There has been a bit of confusion regarding the process for escalating requests for Flint water. ALL requests for escalation of changes, service or support, which a user indicates is related to the current Flint water efforts, are to be routed through the SEOC for approval by one of the following individuals who are familiar with the internal escalation processes and procedures which must be used.

Chris Christensen
Jeanette Doll
Ryan McKee

If you have any questions or concerns regarding this matter, please direct them to your management.

Subject: RE: Flint SEOC - Escalation Requests

Becky,

1. It means that every agency has a representative at the SEOC who they can present their request to. If they are the individual who represents the agency at the SEOC, they can contact the three individuals listed in my email and those individuals will handle the request.
2. No remedy group that I am aware of.
3. No email DL that I am aware of.
4. The internal processes and procedure refer to a telephone or email chain which is employed to directly request the services...for example Chris Christensen calls John McQuaid and John call me.

I would recommend that the CSC direct people to their SEOC representative, and if they are that person, the CSC should direct them to Chris Christensen, Jeanette Doll, or Ryan McKee.

I hope this helps.

Subject: RE: Flint SEOC - Escalation Requests

I would assume that they do not. And per my conversation with John McQuaid last night, we are not routing anyone to Chris, Jeanette, or Ryan. We direct all callers to their SEOC representative. If the caller states that they are the SEOC representative, we should direct them to Chris, Jeanette, or Ryan. I understand the desire to provide service which exceeds expectations, but I believe in this case, we will be hard pressed to maintain a list which is current as the resources assigned by each agency to SEOC can, and do, change. I wouldn't suggest that we go to the extent of validating the information provided by the caller regarding their relationship with the SEOC. I am looping John in to the discussion so he can add anything he desires.

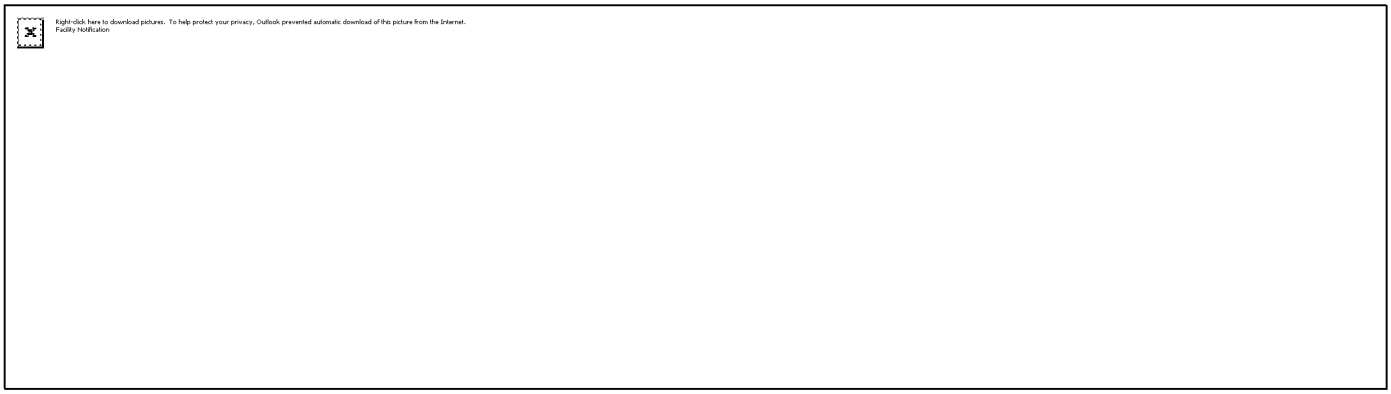
Subject: Facility Notification: Flint State Office Building



Flint Alternate Water Resource

Date/Time:

Monday, October 5, 2015 at 6:00 a.m. until further notice

Details:

Beginning Monday, October 5, 2015, water coolers will be available in common areas on floors 1-6 of the Flint State Office Building. Although the drinking water has been tested and falls within all DEQ and EPA regulation standards, alternate water sources will be offered to accommodate all tenants due to recent concerns regarding the water supply. Water testing will continue and the alternate water source will be available until all quality concerns are addressed.

Thank you for you cooperation.

Subject: Unauthorized person entered the building thru a side door

I was just informed by Brad Wurfel and Mary Beth that a MLive reporter got into the building thru a side door and that OEA staff brought that person up to Brad's office unannounced. I do not know who the OEA staff person was unfortunately.

Our concern is that with the Flint Water issue we need to be more diligent on letting people in thru side doors and escorting them up without securing them at the Security Desk or calling ahead before bringing them up to staff offices.

Is there something that can be done about this?

DTMB Leadership,

For your awareness there is a protest event planned for Wednesday Oct. 28th outside Constitution Hall between 12 noon and 4:00pm. The event is a response to the water situation in Flint. Please plan your daily activities with this in mind as a large turnout for this event is anticipated. DTMB and MSP are working together and will monitor the situation.

Please let us know if you have any questions or require additional details.

Thanks,

Jeff

Subject: Unauthorized person entered the building thru a side door

I was just informed by Brad Wurfel and Mary Beth that a MLive reporter got into the building thru a side door and that OEA staff brought that person up to Brad's office unannounced. I do not know who the OEA staff person was unfortunately.

Our concern is that with the Flint Water issue we need to be more diligent on letting people in thru side doors and escorting them up without securing them at the Security Desk or calling ahead before bringing them up to staff offices.

Is there something that can be done about this?

Just a note,
I think Central Control's number should have been added to this notification.

It appears that we are directing people to call the CSC in reference to the event.

Thanks

Protest Activity

Date/Time:

Wednesday, October 28, 2015 from 12:00pm to 4:00pm

Details:

Please be aware that there is a protest event planned for today, October 28, outside of the Constitution Hall from 12:00pm to 4:00pm. The event is being held in response to the water condition in Flint. Please plan your daily activities with this in mind as a large turnout for this event is anticipated. DTMB and MSP will be working together to monitor the situation.

Good Morning;

Here are the notes from the conference call 1/11/2016

Jackson: Camera 23 still out and gate A still stuck in the upright position.

Secondary Complex: Nothing new to report

Flint: Construction and they are expecting several extra visitors on the 5th floor due to Flints water problems to include MSP and government officials

Capital Complex: Gate R9 is stuck in the upright position

Saginaw: nothing new to report

Have a great day!

Thank You:

Subject: RE: Security Clearance

Jeff,

Just a quick update. The process takes quite a bit longer for a non-MSP clearance approval through the Homeland Security Advisor because of some bad practices in the past with unnecessarily giving out clearances. The result was that DHS tightened up the justification process so it takes longer. Unfortunately, the OPM breach slowed things a bit and now the Flint water crisis has further complicated 'routine' business.

I continue to be the squeaky wheel...hopefully that will help simply so I'll leave them alone.

I'll let you know as soon as I hear something.

Dave E.

From: State of Michigan <MISOM@govsubscriptions.michigan.gov>
Sent: Thursday, January 14, 2016 5:29 PM
To: Pratt, Jeff (DTMB)
Subject: Volunteer Opportunity in Flint

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, https://www.surveymonkey.com/r/28NVJBL

To volunteer on Sunday, January 17, https://www.surveymonkey.com/r/26NMJKK

To volunteer on Monday, January 18, https://www.surveymonkey.com/r/26P7P5G

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit www.michigan.gov/flintwater.

Brandon

The ladies and Craig worked to create 300 volunteer ID cards today in support of the Flint State of emergency. Typically We need to provide accounting data for services and supplies we provide in such cases. This being said I would suggest provide Jeanette with the costs related to this effort

Labor
4 hours CSC Ladies
3 hours Craig B

Consumables
300 ID cards
300 Lanyards
300 Security Holograms
1 color printer ribbon
1 printer retransfer film

Thanks,
Jeff

Anonymous attacks US government over deadly Michigan health crisis in latest viral video

Author: Jeff Parsons Posted on: Jan 21, 2016 01:38 PM

disease. Blaming the government, and specifically **Michigan governor Rick Snyder**, an online hacker group calling itself IntelGroup announced the **#OpFlint** campaign. IntelGroup identifies itself as a faction of Anonymous , the larger online collective responsible for targeting ISIS in the wake of the **Paris**...

Anonymous Just Declared War on Flint's Water Crisis

Posted on: Jan 21, 2016 12:30 PM

The hacktivist collective known as Anonymous responded to the **water** contamination crisis in **Flint**, **Michigan**, on Wednesday, calling for a criminal investigation into the role of **Michigan Gov**. **Rick Snyder**. In a statement released by an Anonymous-affiliated account, the group blamed **Snyder** and the media for...
